By Universal Accord,
AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use by Physicians in their practice, and by all civilized nations, proves them the best and most effective purgative pills that medicine science can devise. Being purely vegetable no harm can arise from their use. In intrinsic value and curative powers no other pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effective, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild, but effective cathartic is required.

EVENING NEWS.

Saturday, December 20, 1879.

LOCAL AND OTHER MATTERS.

Police Court.—Yesterday afternoon an assault and battery case and one drunk occupied the attention of the police magistrate. The offenders were fined \$5 each.

No Meetings in the 14th Ward.—In consequence of the Meeting House being in course of repair, no Sunday School or meetings will be held in the 14th Ward to-morrow.

Holiday Cards.—The News office has on hand a large assortment of Christmas and New Year's cards. They are novelties in this country, and are worth looking at. Come and see them.

"Pinafore."—The matinee of this ever popular opera is in progress this afternoon as we go to press. This evening it will be again presented, and a last opportunity is offered to see the greatest musical success of the age. Secure your seats early.

Numbering the Houses.—The city marshal and assistants have been busily occupied for some days past making the measurements for determining the numbers of the buildings. The work is one of considerable magnitude, but is progressing rapidly, East Temple Street being nearly completed.

The Weber Bridge.—Several members of the City Council held an informal conference with Bishop Sharp this morning regarding the iron railroad bridge, which it is claimed, crosses the river at a point directly on a line with Fourth Street, and it is just possible that arrangements may be made for plankings that bridge so that it may be used as a public thoroughfare, and thus obviate the necessity of building one. *—Ogden Dispatch.*

New Barber Shop.—"Life" Cox, who carried on a barber shop in the building just north of the Herald office, has been removed to a much better locality and now holds forth a few doors west of the Eagle Emporium. He has purchased new chairs, mirrors and general shop fixtures, and conducts one of the coolest places in the city. Old patrons and new ones will receive satisfaction at his establishment.

Nearly a Fire.—Quite a panic was created in the 14th Ward school house night before last by the bursting of a coal oil lamp. A party was in progress at the time, when by some means a lamp was overturned and the blazing oil ran over the floor. Everybody was much excited and windows and doors were broken in their efforts to escape. It was finally extinguished before damage of any consequence was done.

"Leader" Locals.—Several snow slides are reported in the cañons of Cache County, but no one has been injured so far.

A man named Jens Nielson worked four weeks after being struck by a falling log, complaining only of "having something the matter with his shoulder." He had Dr. Ormsby examine it when it was found to be seriously dislocated. It was replaced with difficulty.

The remains of **Chas. E. Johnson**, who was killed at **Fort Hogen** last May, were brought to Logan a few days since, and interred in the cemetery.

All trains on the U. & N. R. R.—both freight and passenger—are now running on time.

On Saturday last **James Quayle**, Esq., master carpenter of the Logan Temple works, cut his right hand very severely with a chisel. The tool penetrated between the first and second fingers, and passed upwards towards the wrist, a distance of nearly two inches.

The new turn table of the U. & N. R. R. at Logan is a model of neatness and solidity; and the round house now in course of construction, though built of wood, will be a credit to the town and to the road. It will be semicircular in form, and will contain six stalls for engines.

Bear Lake Items.—Mr. Joseph H. Pagnire, writing from Lake Side, Bear Lake County, sends some interesting particulars concerning affairs in that region. He says they are having plenty of winter at present, the snow being from six to eight inches deep around that place. Further north it is deeper, at St. Charles there being one foot, at Bloomington and Peria from one to two feet, and still further north, as Soda Springs, from two to three feet. In the mountains there is from five to seven feet already and a good prospect for more.

The farmers through Bear Lake Valley feel elated with the prospect of plenty of water next Spring.

Last View had been recently visited by **preaching Elder** of the Stake, accompanied by brethren from Tooele, who were traveling in the northern country. The people were advised to pursue sheep raising, to encourage and establish home industries, to make themselves self-sustaining as much as possible, and to teach their boys trades. The instructions were given in a practical and interesting manner, and were received with gratitude by the listeners. **Prest C. C. Rich** was unable to attend the meetings by reason of sickness, but he was recovering rapidly.

Reckless Shooting.—This practice of promiscuously shooting off guns and pistols in or near the city is becoming altogether too common, and unless it is stopped serious consequences will result. An example of the danger of the habit was brought to our notice to-day, and its publication will show the necessity of putting a stop to this hazardous amusement. Last evening between 6 and 7 o'clock, several shots were fired in the lower part of the Fifth Ward, and the bullets, which came with great force, struck the door of a private residence, much to the dread of the occupants who were in actual peril. Fortunately no one was hurt, but this was not due to good management on the part of the shooters.

To say what might have been or to dwell on the folly of such performances, is unnecessary, and it is hoped that for the safety of citizens and the good order of the town, rigorous punishment will be inflicted upon every offender, whose capture should be aided by all peace-loving people.

Look Out for Thieves!—With the presence of the winter season comes a large number of that low despicable class of humanity known as sneak thieves. During the past week they have not been idle, and from all quarters of the city come reports of their depredations. A lady in the 13th Ward had the lock stolen from her hen coop a few nights ago, and the next evening the accommodating pilferer relieved her also of her fowls, about 15 fine hens, which were being fattened for the holidays. Another family had the padlock stolen from their coalshed and probably by the same time have misused a few pounds of fuel. A clothesline was stripped of its linen in the 15th Ward on Thursday night. A doggy whip and robe were stolen from a carriage left without occupants for a few moments last evening, not a hundred feet from the Eagle Emporium. Eternal vigilance is the price of security from these attacks.

Zion's Musical Society.—The members of Zion's Musical Society, engaged in the Opera of the Sorcerer, are requested to meet at the Theatre on Monday evening next, at 7 o'clock prompt. Members and escorts should present their tickets to the doorman to secure admittance; those who have not got tickets may be supplied by applying to Mr. J. Kirkman at the General Tithing Store, or at the stage door on Monday evening.

D. M. MOULDER,
Secretary Z. M. S.

Y. M. M. I. A.—The Young Men's Mutual Improvement Association of South Cottonwood meet December 28th, and re-elected officers to act for the ensuing year. Following is the result of the election: **James C. Peterson,** President; **Job Reading** and **Harvey Pierce,** counselors; **John Henry Howe,** secretary; **John Thayne** and **Sandra Saunders,** assistant secretaries; **William Bradford,** corresponding secretary; **Henry J. Rasmussen,** treasurer and librarian. The meetings are held on Monday evenings.

Plenty of Laborers.—Applications for work on the Salt Lake City and Jordan Canal are still coming in. One of the committees of construction remarked this morning that the names of men enough to make two such canals, were already on the books as applicants for employment.

Irrigation Companies' Meeting.

At Fort Junction.—A convention of delegates from the various irrigation companies of Weber County met at the Court House, in the collector's office, for the purpose of taking into consideration the propriety of suggesting amendments to the legislature for the improvement of the present law regulating irrigating companies.

On motion of **Gilbert Belknap**, the convention was called to order by **nominating Richard Ballantyne** as chairman, and **H. D. Peterson** secretary.

A committee of credentials was appointed by the chair, consisting of **Gilbert Belknap**, **John England** and **Thomas Read**, who reported representatives from the Hooper, Wilson, Central, Eden, Plain City and Harrisville Irrigation Companies.

The chairman briefly stated the object of the convention. The defects of the present law were pointed out, as having been proven by actual experience, and the following suggestions were made to amend by those present, viz:

To change the time of electing officers to the latter part of December, to give the outgoing board time to finish the year's business; also to change the mode of qualification of officers, to define how much land irrigation companies are entitled to for right way, (having prior right) under the act of Congress, passed in 1865; to enforce the collection of taxes; to change the boundaries of the various Districts to the County Court; to regulate the fair distribution of water by a joint commission, from the various counties through which the rivers or stream passes; to extend the jurisdiction of irrigation companies that already exist to the new ones when so required, so as to obviate the necessity of two sets of officers on one canal, as is now the case. It was also suggested that the various companies hold their preparatory meetings in the Ogden Junction, with a request that the **DESERET NEWS** and **SALT LAKE HERALD** please copy.

Moved that this convention adjourn to meet next Tuesday, the 23rd inst., at 10 o'clock a.m., at the Court House. The bishops and friends of irrigation are cordially invited to attend.

H. D. PETERSON, Sec'y.
Ogden, Dec. 18th, 1879.

You can't afford to laugh, dear girls,
Unless your teeth are white as pearls;
Unless your mouth is pink and sweet,
And your two lips in rosebuds meet;
And you cannot supply this want
But through the use of **S&W-DON'T!**
