Washington, March 27 .--- Joseph Geoghegan, a manufacturer's broker of Salt Lake City, Utah, was on the stand today in the proceedings brought hefore the senate committee on privileges and elections, to unseat Senator Reed Smoot. He was examined by A. S. Worthington, counsel for Mr. Smoot, concerning the interest of the "Mormon" Church in sugar factories in Utah and Idaho.

Witness testified that the Church had financed these concerns before it appeared that sugar factories would appeared that sugar factories would succeed, but neither the Church nor the "Mormons" control the stock. It was shown, however, that the two largest concerns have "Mormon" offi-cers and a majority of "Mormon" di-rectors. ### SCALE COMMITTEE WILL **REPORT A DISAGREEMENT.**

Indianapolis, March 27,-The joint scale comittee of the bituminous coal operators and miners of the central competitive district, after being in session one week, decided today to report a disagreement to a session of the joint conference of miners to be held at 2 o'clock. The committee was in session ut a short time today. The national officers of the miners in

littee yesterday had strongly reit rated their former declarations that under no circumstances would they sign a scale at anything less than an advance in wages of 5.55 per cent, and President Perry of the Illinois miners, had assured the operators that no Illinois union or district would be allowto sign unless the advance was give every union mine in the state. This ultimatum was received by the opera-tors in silence, and an adjournment was at once taken until this morning, whe he motion to report a disagreement as at once offered by President Mitchell of the miners, and carried unani ously.

When the 34 operators and miners Came from the committee room there was no laughing and jesting, as had been seen at the close of previous scs-sions. ### COURSE OF STUDY.

#### University Committee Appointed by Prest. Kingsbury Makes Report.

The committee appointed by President Kingsbury, to investigate and report on advisable changes in the course of study at the University of Utah, received a final hearing in the faculty meeting yesterday afternoon, and the proposed system of major and minor studies was adopted, the purpose being to compel students to fit them-selves for some definite end in going through college. The report as adopted was amended greatly from the plan first proposed, and discussed very generally a month ago. The plan now is to divide the college course into groups of subject

college course into groups of subjects from which a student may take his choice, under certain restrictions. The choice, under certain restrictions. The required subjects which can either be taken in college or offered as entrance credits, are English, mathematics, phy-sical education, physical sciences, in-cluding chemistry and physical sciences, in-cluding chemistry and physical sci-geology, history and political sci-gnce, philosophy and education and

The amount of work required in each of these subjects is specified, with few changes from present conditions except that the required amount of languages is cut down to two years. Four gen-eral courses are: trade and industry, government and administration, political science, and law and journalism. In each of these four courses a sys-

tem of majors and minors is to be in-stalled, requiring a student to desig-nate one major study and two minors not later than the junior year. He is then to complete twenty four hours in his major and twelve in each of the minore. Fourteen subjects are named as suitable for majors and minors, as follows:

History, English, biology, economics, elocution, geometry, chemistry, physica and electricity, geology and mineralogy, phylosophy and sociology, education and psychology, Latin, Greek, French and German.
