

BY TELEGRAPH.

BANGOR, Me., 2.—The present long-continued term of cold weather in this section is unprecedented in the last thirty years.

WASHINGTON.—The balance in the Treasury in coin is \$74,359,275, in currency, \$9,876,573; With reference to the increase in the public debt it should be said that it is more nominal than real. When the account is made up to the middle of January for the month of December there will be shown to be an absolute decrease of the debt probably between three and four million. Among the returns wanted are the bond account and other revenues from all distant custom houses. Government expenses are charged as soon as the warrant is issued for their payment and often long before the money is drawn, the returns for receipts from distant places are often not returned till long after the money is in the hands of the proper officers.

BOSTON, 2.—A letter received here reports the loss of the ship *Bennington* of Boston, north of Grand Cowair, R. I., Nov. 29. Eight men were lost and the Captain and the remainder saved.

The search for the bodies in the ruins of Centre Street terminated to-day by unearthing the remains of a boy, James Bevins, the Seventh victim.

The second inauguration of President Grant will probably be the occasion of the most imposing military display witnessed in Washington since the grand review in 1865. The government troops stationed in this vicinity will for the first time appear in their new uniforms.

ATLANTA, Ga., 2.—The passenger trains on the Macon and Western road collided this morning, forty miles out. Eight negroes were killed, and ten negroes and three whites injured. Carlotta Patti and troupe were on board and lost their wardrobe and piano. Carlotta was active in giving relief to the wounded.

About seventy of the most distinguished members of the bar of the Supreme Court of the United States have addressed a letter to ex-Associate Justice Nelson, expressive of their deep regret at being compelled to part with him, and paying a high compliment to his learning, sagacity, impartiality and integrity as a jurist.

PHILADELPHIA.—The Branch Civil Service Association have received a letter from the President returning thanks for their warm endorsement of his action regarding the appointment of the Postmaster at Philadelphia, in the interests of the civil service.

NEW YORK, 3.—Augustin Daly has leased the Globe theatre of A. T. Stewart, who has placed the rent at a nominal sum. It will be opened soon. Daly's loss reaches \$100,000.

The steamship *Erin*, yesterday, brought an additional number of destitute Italian emigrants. They say they were unable to subsist in their own country, and had received favorable inducements to emigrate.

The *Herald's* Washington special says that Fish's determination to leave the Cabinet on the 4th of March is unalterable, and that the President has tendered the place to Wm. M. Evarts, who will accept.

The Erie directors are pressing a suit, instituted by Fisk against Commodore Vanderbilt, for the recovery of four and a half millions of dollars.

It is stated that advices have been received by the Russian legation that an understanding has been arrived at between England and Russia in regard to the war against Khiva. Gortschakoff has given an assurance to the British Minister at St. Petersburg, that Russia has no hostile designs on Afghanistan, and that the Russian expedition, commanded by Gen. Kaufmann, was sent to punish the Khan of Khiva, who still refused to surrender the Russian prisoners. The British government expressed itself satisfied with the expedition.

The *Times'* Washington special says advices received here from New Orleans appear to leave no doubt that a serious condition of affairs will exist on Monday next, from the determination of the conservatives to proceed with the inauguration of McEnery, the Democratic candidate for Governor. The Kellogg-Pinchback government has declared that such an attempt will be construed as a revolution and rebellion, and will be put down at the point of the bayonet by the State Militia, aided if necessary by U. S. troops. Some of the conservatives have sent word here that an appeal will be made to Congress to guarantee Louisiana a Republican form of government by reconstructing the State again.

WASHINGTON.—The commissioner of the General Land Office is in receipt of dispatches to-day reporting that the Land Office money records at Lincoln, Neb., have been destroyed by fire there, also that all records of the Land Office at Dardanell were consumed in the fire which destroyed about half the town about a week ago.

CHICAGO.—The *Evening Journal's* Washington special to-day says the era of investigations has not yet concluded.

In the Stokes case L. Tremaine commenced summing up for the defence. He said the only definition having application in the case was that of murder in the first degree, or from premeditated design, as charged in the indictment. Counsel maintained that in the view of the law there is no fair and honorable man living, defence of justifiable homicide aside, who would say that Mr. Stokes could have had any premeditated design to kill Jas. Fisk when he fired the pistol. There will be no controversy that on the evidence the prisoner cannot be convicted of manslaughter in the first or second degree. If the killing in this case was done in the heat of passion and there was no justifiable homicide, it would be manslaughter in the third degree. The point of defence would be that under no interpretation of the law could a verdict of wilful and premeditated murder be rendered on the evidence in the case.

NEW HAVEN.—Benjamin L. Ford's jewelry store, Brewster Building, completely destroyed by fire.

ERIE, Pa.—No one burned in the R. R. accident near Newcastle.

WASHINGTON.—The following extract from official correspondence between the German Ambassador Schloer and Secretary Fish, heretofore unpublished, explains the position of the Prussian government in relation to emigration to this country:

"The German Ambassador says there was a time when the population in Germany had attained such proportions numerically that the government found itself obliged to favor emigration in every way. It was ordered at that time that emigrants should receive railway transportation at lower rates than other travelers. Two great wars have meanwhile had their unavoidable effects upon the population of Germany, and emigration, which deprives a country of its laboring force and the army of its material, can no longer appear desirable and can therefore no longer be encouraged as it formerly was by the government there. However, I think this an evidence of difference between the continuance of a temporary encouragement of emigration and a direct prohibition or prevention of the same."

NEW ORLEANS, 5.—Father Burke received a grand ovation this morning. He inaugurated a two weeks mission at St. Patrick's church.

General Emory has instructions to hold the troops in readiness to preserve the peace. Attorney General Ogden, of Louisiana, telegraphs to Attorney General Williams as follows:

"The members of the Legislature returned elected by the State board recognized by Governor Warmoth before the assemblage of the body at the Mechanics' Institute, are compelled to meet to-morrow under our constitution, in order to preserve their status. Their assemblage will be peaceable without arms, and with no purpose of aggression, but simply to organize. The organization presided over by Pinckback has threatened violent interference, from which serious trouble may arise. That organization derives its authority from the attitude of the federal executive and will be controlled by the President. We trust he will discountenance any interference with the assemblage which has order for its object and is rendered necessary by the situation.

The President in conversation on Hawaiian Islands affairs said that in view of recent publications concerning them it was proper that all the facts should be known, which are briefly as follows—This government had sent a U. S. vessel to Hawaii to bring the King to San Francisco, he having expressed a desire to travel through this country and thence go to Europe for the benefit of his health. About the time the vessel arrived at Honolulu the King died. This intelligence having been received by our government, the commander of the Pacific squadron was instructed to send the vessel to the Island in addition to one already there, simply to protect the rights of American citizens in case of emergency and to see that any other nation should take no undue advantages under the new government. General Schofield sailed on this vessel merely for the benefit of his health.

Are indorsed and prescribed by more leading Physicians than any other tonic or stimulant now in use. They are a SURE PREVENTIVE for Fever and Ague, Intermittents, Biliousness, and all disorders arising from miasmatic causes. They are highly recommended as an anti-dyspeptic, and in cases of indigestion are invaluable as an Appetizer and Recuperant, and in cases of General Debility they have never in a single instance failed in producing the most happy results. They are particularly BENEFICIAL TO FEMALES, strengthening the body, invigorating the mind and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no Tonic Stimulant has ever been offered to the public SO PLEASANT TO THE TASTE, and at the same time combining so many remedial agents, indorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs little to give them a fair trial, and

Every Family should have a Bottle.

We ask every one to read the following Certificates from many of the most eminent physicians in the country:
ST. LOUIS, July, 1870.—JAMES A. JACKSON & CO.; Gentlemen—As you have communicated to the medical profession the recipe of the "Home Bitters," it can not therefore be considered as a secret or patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly Tonic, Stimulant, Stomachic, Carminative and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effect in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

L. CH. BOISLINIERE, M. D.
ALFRED HEACOCK, M. D.
FRANK McDOWELL, M. D.
J. C. WHITFIELD, M. D.
DR. C. V. F. LUDWIG.
W. A. WILCOX, M. D.
F. G. PORTER, M. D.
C. GERTICK, M. D.
C. A. WANE, M. D.
E. A. CLARK, M. D.
S. G. MOSES, M. D.
HUBERT PRINCE.
U. S. MARINE HOSPITAL, ST. LOUIS, MO., Oct. 8, 1870.—JAS. A. JACKSON & Co.; I have examined the formula for making the "Home Stomach Bitters," and used them in the Hospital for the last four months. I consider them the most valuable tonic and stimulant now in use.
ST. LOUIS, July 6, 1870.—JAS. A. JACKSON & Co.; Having examined the formula from which your celebrated "Stomach Bitters" are prepared, and having witnessed the method of combining the different ingredients, we can safely recommend them as the best tonic with which we are acquainted. From the great care with which they are compounded, and from the choice materials which enter into them, we have no doubt that they will prove, as they deserve to be, the most popular tonic and stimulant in use. Respectfully yours,
T. J. YASTINE, M. D.
T. G. COMSTOCK, M. D.

We cheerfully concur with every word contained in the above testimonial.
JOHN CONZELMAN, M. D.
CHAS. VASTINE, M. D.
G. S. WALKER, M. D.
CINCINNATI, Oct. 19th, 1870.—Messrs. W. B. KENNEDY & Co., Agents "Home Bitters"; Gents—Agreeable to your request, I have examined the formula of the "Home Stomach Bitters," and find the remedies it contains such as are in general use by the Medical profession. They are very scientifically and pleasantly combined, and as stimulating tonics will be found especially adapted as corroborants to the treatment of low or debilitated stages of the system, whether arising from impaired digestion, or from malarious diseases.

Dr. J. L. YATTLERS.
