Sale State school lands	1,751.38
Sale of State school lands	1,106.72
Sale State school lands	365.46
Total collection for month	$5,911.72

Shipping Beets.

The farmers who raised sugar beets this year have been subjected to considerable annoyance because of a lack of cars with which to convey their beets to the factory. It appears that the railroad company is not wholly to blame in the matter, and since they have acquainted with the peculiar needs of the farmers, have used every effort to secure all the cars possible. At present there are cars enough here, and more will arrive daily. So far about 1,000 tons of beets have been received from this point and several cars are loaded daily. The newspaper of next week will be issued before this factory has a practical test of the machinery. Temperature from 12 to 22 per cent. Not one sample has fallen below 12 per cent, which is the percentage required by the government to order, to make sugar profitable from them.—Logan Journal.

Mon's Savings Bank & Trust Company, Nos. 1, 2 and 3 Main street, is the largest and oldest Savings Bank in Utah. 71,118 accounts have been opened since the bank was established in 1873. Have you an account? If not, start one now.

100,000,000 Baby Rings

would be more than any one dealer in Salt Lake could sell by Christmas, the largest line in the city.

HOMES FOR THOUSANDS.

To Latter-day Saints Who Desire Good Places to Make Comfortable Homes. A Good Opportunity to Accumulate Means to Pay for Them Without Incurring the Bondage of Debt.

One hundred thousand dollars in labor wanted.

Fifty miles of the Alberta company's canal to be built, for which half will be paid in cash and balance in excellent private land, at $2 an acre, with free water for two years to first settlers on those lands.

Lands to be settled in hamlet or settlement form, in order to afford settlers the benefit of ward organization, including day and Sabbath schools.

All labor will be contract work, at ten cents a cubic yard for earth work. Gravel, loose and solid rock to be paid for in proportion.

An industrious, able-bodied man, with team can earn a good farm, town lot and cottage in one year.

Lands to be settled are adjacent to a railway. Plenty of coal for fuel near at hand.

For special rates of transportation for passengers, household goods, teams, etc., etc., apply to Wm. C. Spence, 214 E. Salt Lake City, or C. G. Clark, Cardston, N. W. T., Canada.

OF BENEFIT TO UTAH.

Secretary Callister of the Bee Weed Growers' Association Talks of Its Merits.

Commissioner Callister, who is secretary and member of the executive committee of the Utah Weed Growers' association, and is a "Nevr" responder, talks in conservative terms, and thus Chronicle with the National association are of great benefit to the farmers of Utah and surrounding states. The Utah Weed Growers' association, he says, is one of the best in the country, and the members are with the parent association in order to result immediately to all those engaged in bee weed culture here.

"The Utah Weed Growers' association has a considerable sum, unless prospective bidders have other ideas of the value of the bee weed. The association has been started in the position to accomplish the purpose. Mr. Callister says that the Utah growers of bee weed are in a position to get more than 1,000,000 pounds of seeds, and that it is answering large community, and its end contributes to eleven states. It is estimated that the bee weed will supply the honey producing bodies over large portions of the states of Colorado, Utah, Idaho, Nevada and Wyoming, and as to normally prevent and destroy these pests.

The annual meeting of the National Live Stock association will be held at Denver on January next.

SCHOOL BOARD MATTERS.

Important High School Tuition Matter Considered and Lost Night.

The board of education held a startling and interesting meeting last night, considering the question of admitting pupils over 18 years of age to the High School. The matter came up on a report from the committee on school law, accompanied by an opinion from Attorney-General Sutherland. It came on the result of a report of the committee on teachers and school work, which was recently referred to the committee on school law with instructions to report on the advisability of admitting pupils over 18 years of age, on condition that they would be pursuing a regular course, leading to graduation from the high school, previous graduates of the High School, pursuing special studies. There was a long discussion on the matter, the law as all other sections over 21 years to be admitted to the High School on compliance with certain conditions, and the educational tuition fees. The committee submitted by Messrs. Watkins, Van Cott and Mrs. Hall, and Messrs. Hyde and Lowe supported the majority report.

—Has the board of education of Salt Lake City power to admit one or two pupils to the High school, students over 18 years of age?

—Has the board power to admit, free of charge, to the high school, students over 21 years of age?

—Has the board power to admit, free of charge, to the high school, students over the age of 18 years, not pursuing a regular course, leading to graduation from the high school, pursuing special studies. There was a long discussion on the matter, the law as all other sections over 21 years to be admitted to the High School on compliance with certain conditions, and the educational tuition fees. The committee submitted by Messrs. Watkins, Van Cott and Mrs. Hall, and Messrs. Hyde and Lowe supported the majority report.
