

EVENING NEWS.

Monday, July 19, 1880.

LOCAL AND OTHER MATTERS.

Reports Wanted.—Sub-committees for the 24th must report to-night without fail. See notice of meeting elsewhere.

Elders, Attention!—The Elders who wish to form in the procession on the 24th, are requested to meet at the gate on the west side of Temple Block, at 8 o'clock on that morning.

Immigrants Arrived.—The party of 31 immigrants from New Zealand, with returning Elders Fred May and Thomas Shreve, mentioned in Saturday's News, reached this city shortly before noon to-day.

Bishops' Meeting.—On account of the election primary meetings to be held on Thursday evening, the 22d, the regular meeting of the Bishops and Lesser Priesthood set for that night, will take place on Wednesday, at 7 o'clock.

Last Chance to Report.—The general committee on celebration meet to-night in the Council House, at 7 o'clock. This is the last opportunity that will be given the sub-committees to report. A representative from each of these is particularly requested to attend the meeting this evening.

Mormon Battalion.—The members of the Battalion who are to take part in Saturday's procession, are requested to meet for the purpose of making final arrangements, on Friday evening at 7 o'clock, at the residence of O. G. Workman, one block south and half a block west of the Continental Hotel.

New Flumes.—Street Supervisor Livingston has his men at work finishing a good job near City Creek bridge, on Main Street. The old flumes that were used to distribute the waters at that point to the right and left, have been taken out and new and substantial double flumes put down in their place.

Teacher's Meeting.—Those brethren appointed to represent the Teacher's Quorum, in the coming celebration on Pioneer day, are requested to meet in the 14th Ward Assembly Rooms, on Wednesday, July 21st, at 7:30 p. m.

A Good Idea.—A friend suggests that, as flowers at this time are abundant, it would add to the beauty of the scene if the Sabbath School children and others who form on the sidewalks to view the procession should, as far as convenient, be provided with a small bouquet, or at least a single flower. We think the idea good, and submit it for the consideration of those in authority on such matters.

Y. M. M. I. A.—It is the request of the General Superintendent of the Y. M. M. I. A. that every Association of this State be represented by at least twelve members in the procession on the 24th.

It is also requested that each Association provide a banner or flag with name of association, date of its organization, with appropriate motto on it. They will rally on First West, between South Temple and First South Streets, in front of President Taylor's residence and must be on the ground, ready to form in line, at 8 a. m.

To the Seventies.—A general meeting of the Seventies will be held at the Council House on Wednesday evening, the 21st inst. at half past seven o'clock, when important business will be introduced in relation to the appointment of seventy men from the Seventies to join in the procession on the celebration of the 24th. A full attendance will be expected.

In behalf of the council of Seventies and committee of Seventies on celebration.

Another Divorce Case.—Another suit for divorce, etc., has been instituted in the District Court by Ann Cottam, against her husband John Cottam, and Theodore McKean, Mary Reid and Henry Cumberland. The suit is also to prevent John Cottam from disposing of his property pending the decision of the court. It involves the three other parties as defendants, on the ground alleged, that the husband has illegally conveyed certain portions of his property to these parties, as the plaintiff believes and asserts, without consideration, in order to place it beyond her reach in case of a legal action, which she has threatened before. The plaintiff prays for an injunction restraining these defendants from disposing of or encumbering the property of Cottam, now in their hands, and also for alimony. Court expenses, etc., etc.

Base Ball.—A correspondent sends us an account of a base ball contest of three games, played at Panguitch Lake, for the championship of Panguitch, by their two clubs, the "Old Stockings" and the "Sevier Juniors." The first game was played on Monday the 5th inst., at 1 o'clock p. m. It was not so interesting as either of the others, and resulted in favor of the "Seviers" by a score of 23 to 16. The second game commenced at 9 a. m. on Tuesday. This score stood 22 to 6 in favor of the "Old Stockings." The third game was played in the afternoon of the same day, taking two hours and ten minutes. This game was very exciting and interesting. The score stood nearly even throughout the game, and the spectators took great interest in the playing. The "Old Stockings" won the game by one run, the score standing 15 to 14.

Home Again.—President A. O. Smoot, of Utah State, and his son Reed, who have been spending a little over two months in the Sandwich Islands, arrived in this city on their return, yesterday morning at 11:40. They remained here over night and took the morning train for Provo. Both are looking well and appear to have been considerably benefited by the trip. They made good use of their time while away, seeing and learning all they could in the Islands, and return with a goodly store of matter for interesting and instructive conversation. They speak encouragingly of the work of the gospel in those parts, and of the manifest improvement in the condition of the native Saints, since their conversion to the truth. Their superiority over their fellow natives, outside the Church, is a matter of comment even among strangers. The race however is rapidly dwindling away. When Captain Cook visited the Islands, the inhabitants numbered about 400,000, now they figure somewhere in the neighborhood of 40,000. This frightful decimation is largely due to the introduction of the vices of modern civilization, by the whites, who now compose quite a portion of the population. The Chinese are very numerous and bid fair to eventually carry the country. Their mercantile establishments are, some of them, magnificent and extensive. They and the whites are the energetic portions of the community, the native islanders being their "hewers of wood and drawers of water." The men do nearly all the work, the women very little beside gathering fruit and doing family washing. Most of the time they are idle, riding horseback or loitering around on the lawns at the roadside. The climate is pleasant, Honolulu, the port, being about the warmest place, situated on the south side of an island. The country is one where a livelihood is to be easily gained. Farming is extensively carried on. The principal exports are sugar, rice and tropical fruits. The whole country is one vast lawn, enjoying a delightful immunity from dust, and is naturally fertile and productive. Every island has its volcano, either extinct or occasionally in operation, and in fact, the most of the soil is pulverized lava. An extinct crater on the island of Oahu is used as a fortress by the native forces. On Hawaii, a volcano is still burning, and at night brilliantly lights up the neighboring city, thus creating a splendid and to some, terrifying phenomenon. Not more than two or three years ago, an eruption occurred there during which a whole side of the mountain, measuring one mile square, was lifted up and laid over the city and its inhabitants. The lava from this volcano has been known to run a distance of 40 miles to the sea-shore. But with all these drawbacks, the island is still occupied, and farming is carried on there to a great extent.

The above are a few items jotted down by our reporter, while interviewing President Smoot and his companion. We welcome them home, and congratulate them on an improved state of health and a safe return to their families and friends.

Painting His Own Portrait.—The editor of the Southern Utah Times, a "liberal" sheet published somewhere in Beaver County, in closing an article complaining of the action of certain "Mormon" newspapers, in warning the people against the tactics of the "Liberals" and the inevitable ruinous policy of their candidates wherever they have been elected to office, says:

"Wouldn't it be well for those confused scribbles to vary their tactics, and invent some personal deformity in the Liberal candidates or bring some scandalous charge against their female relations? Of what value is a hiring scheme if he cannot lie to suit all occasions?"

There is probably no one better qualified to answer these questions than the propounder himself. An individual who has had so much experience in the character-defaming line, whose chief delight has been to scandalize pure and virtuous women, and who has had control of an army of "hiring scribbles," whose special mission was to "lie to suit all occasions," surely ought not to ask questions on such subjects. In the meantime, while we do not care to pursue the policy suggested by the notorious pen-stabber referred to, to the people of Beaver we echo the warning which our honest contemporaries have uttered. Beware of the so-called "Liberals," who shriek for freedom while binding her in chains, and prize of official dishonesty in others while stealing and embezzling the public revenues. Remember the fate of Tooele, and take heed lest from a petty and despicable attempt at the adherents of the People's ticket in the coming election, another "liberal republic" be bound upon the shoulders of Beaver County.

Earthquake Shocks.—Mr. J. D. Gibbs, writing from Fort, Box, Elder County, on the 18th inst., informs us that on the 11th inst., at about 10 p. m., that place experienced a terrible shaking from earthquake. There were two shocks, at an interval of three or four minutes, each shock lasting for two or three seconds. No damage is reported. Some of the inhabitants rushed out into the streets, badly frightened for a little while, but went back to bed on finding their houses were still on their foundations.

Set Apart.—At the meeting of the saints, in the 14th Ward Assembly Rooms, Saturday afternoon, President John Taylor blessed and set apart Elder E. R. Snow Smith to provide over all the Relief Societies of the church, and Sister Zina D. Young and Elizabeth Ann Whitney as his counselors, with Sarah M. Kimball as secretary of the organization.

Sub-Committee Attention!—You must make final reports respecting preparations for celebration day, at the meeting of the General Committee at 7:30 to-night.

Provo's Pioneer Celebration.—Provo intends celebrating Pioneer Day on a grand scale, at home. The programme includes the usual display of artillery salutes, hoisting of flags, etc., a grand procession very much after the style of that contemplated here, and a public meeting in the evening. We wish our friends success in their undertaking.

In the Whole History of Medicine No preparation has ever performed such marvelous cures, or maintained so wide a reputation as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving, soothing, and saving life. The protection it affords, by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every household. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the Cherry Pectoral extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and always cures where other cures are possible.

Worth a Thousand Dollars! Every child born into a family is thought to be worth "a thousand dollars" to the parents. Why then should they not be cared for from infancy to maturity? Keep the mouth and teeth right by BOZO-DONT, and you start them right, dead sew.

Cases in which the heart is weak and irregular in action are soon restored to health and regularity by Fellows' Syrup of Hypophosphites. As persons whose heart's action is feeble are most susceptible to the influence of cold, it is in the advent of the cold seasons the most especially advised.

Please Call and Examine.—What a charm there is in a clear smooth complexion! The ladies are fully alive to this fact, and therefore use Glenn's Sulphur Soap, the most desirable purifier of the skin in existence.

Complexional defects are entirely removed by it and local diseases of the skin disappear more rapidly through its influence than through that of any other external remedy. The fact is that most of the eruptions, pimples and blotches recommended for diseases of the face are not remedies at all, or at most merely palliate without eradicating the malady sought to be cured. This is not the case with Glenn's Sulphur Soap, which does its work thoroughly, removing every trace of an eruption. It moreover, speedily heals old sores, ulcers, cuts, bruises and scalds, and is a reliable disinfectant of clothing or bed linen. Diseases communicable by contact are prevented by it, and it promptly relieves the twinges of rheumatism and gout.
