BY TELEGRAPH.

THE WEEKLY UNION TELEGRAPH LITERARY AMERICAN.

The President.

WOODHULL, N. Y., 6.—The U. S. steamer Dispatch arrived here this morning, having on board President Arthur. At noon the U. S. Fish Commissioners' steamer Fish Hawk, took the party with Prof. Baird and Major Ferguson, U. S. Fish Commissioners and the scientific party of the U. S. Fish Commission on board. The steamer then proceeded to Menomasha Light, and arrived in port at 6 p.m. The Presidential party with other invited guests dined with Major Ferguson on board the steamer yacht Lookout. The Dispatch leaves in the morning for the east.

Railroad Purchase.

CHICAGO, 6.—It is the general opinion among railroad men here that the recent reported purchase of the Hannibal & St. Joe Railway by Gould is not really to strengthen the Wabash system, but it is in the interest of the Union Pacific. The course is taken in retaliation on the Burlington road for extending its lines to Denver in competition with the Union Pacific.

Pratt's Fire.

HELENA, Montana, 6.—The Indians fired the prairie on the land of Cole and Freeman in the Creek region in northern Montana and the whole country is ablaze. It is a great stock region and the cattle are being driven to the south. The winter range for a scope of many miles is in danger of being destroyed, which is a severe blow to the stock interests of northern Montana. The Indians are supposed to have set the fire, as 1,500 are away from their agency. They refuse to return unless the government increases their rations.

Social Science.

SARATOGA, 6.—There was a spirited and earnest debate in the Social Science Association on Wayland's paper, on progressive spelling in which the Rev. F. H. Jones, of Massachusetts, Prof. Baldwin and Francis Wait, of Yale College, Hon. J. A. Kingsbury, of Waterbury, Conn., and Francis B. Sanborn, of the U. S. Navy, took part. At the evening session a paper was read by Rev. A. S. Mayo, strongly urging liberal aid to education by the government, especially in the Southern States.

The Edison Lights.

NEW YORK, 6.—Most of the principal stores on Fulton Street, from Nassau Street to East River, were last evening for the first time lighted by the Edison Electric Light, and there were a few other places in the First district, which extends from Spruce Street to the East River to Nassau Street, that were also lighted by the system, which can now be continually supplied from the first station at No. 255 and 257 Pearl Street. Meters have been placed in many of the buildings throughout the entire district, and the light will be supplied as possible, each building requiring inspection by the board of underwriters before the light can be supplied. The lights are rather more brilliant than gas and are so arranged that the light can be turned on or off at will as in ordinary argand gas burners. The cost, the agent said last evening, would be less than the same amount of gas light. It has taken us a long time, said the superintendent last evening, but we have had to do what every one said could not be done that is to divide the light in each house to any extent. We have laid our mains through nearly all the streets of the district and have placed the wires very generally in buildings. We put in wire of our own expense and supply the lamps. If after a certain period of trial our customers desire to continue to use the light we charge them for the fixtures, but not otherwise. This is our first attempt to light the whole district, although we have for some time been furnishing light to few banking offices in Wall Street. Now, however, we propose to keep up a continuous supply. The light, the superintendent said, was the safest possible. You may wrap one of the lights in the finest of cambric, and then break the globe with a hammer and the cambric will not be scorched. The instant the air comes in contact with the flame it goes out. We have our lamps on the steamer City of Worcester, and shall light the river steamer Pilgrim on the Fall River line, and in fact, and in fact, we are negotiating with that company to place lights on their steamers.

The Drexel Building, containing 100 lights, the Times office, Park Bank and the Herald office, were among the places lighted last night by the electric current from the station on Pearl Street.

Edison said further that 18 miles of pipe would be laid in the district. Six miles are already laid.

Relection Returns.

LITTLE ROCK, 6.—Slack, the republican nominee for governor, who resides here and is very popular here, has carried the county. He will doubtless lead the republican ticket in the State by 1,500 votes. The returns show increased democratic majorities in the State ticket, whose majority is larger than was anticipated. The greenback vote is very small.

Boston, 6.—The latest returns from Vermont show that 105 towns give Republican, for governor, 18,900; Eaton, democrat, 6,951; Martin, greenback, and scattering, 778. Barkswell's majority over all is 11,117. Seven electoral votes in the first congressional district give Stewart, republican, a majority over all of 4,951. Forty-nine towns in the second district give Poland, republican, a majority over all of 1,776. The legislature will show a decrease in the republican majority.

Burlington, Vt., 6.—Election returns come in slowly beyond present, much less than had the state having been heard from. The returns indicate a republican vote of 35,000, and a democratic vote of 15,000. The vote is very light. In the second district only five towns have been heard from. Less than half of these give Poland 7,455, Fletcher 5,452, Grant and scattering 2,802. The indications are that there is no choice, which will necessitate a new election. In the first district Stewart is elected by 10,000 majority.

White River Junction, Vt., 6.—Twenty-nine more towns in the second district give Poland 2,818, Fletcher 1,044, Dummer and scattering 440, Grant 684, Poland's ma-

jority over all is 1,109, or an aggregate majority in 107 towns of 2,188 over all, with fifty-two towns to be heard from. The complexion of the first district is not changed by the additional returns.

Nevada Politics.

EUREKA, Nev., 6.—The Democratic State Convention assembled at 12:30, and was called to order by A. Mahony, Secretary of the State Central Committee. A temporary organization was effected with Hon. Geo. W. Baker, of Eureka, chairman; J. A. Mahony, of Storey, Secretary. A committee on credentials was appointed and the convention adjourned for one hour.

At the evening session the committee on platform reported. The platform reaffirms the platform of the last National Convention; it affirms that railroads should be made to pay their just burdens of taxation; calls for the passage by Congress of the Rescissory bill, and of laws by the State Legislature, to regulate freights and fares on railroads within the state; resolves that the financial condition of affairs of the state, require the adoption of a constitutional convention to reduce the expenses in the State and county governments; that a board of equalization should be created, to protect the efforts of the Republican party to destroy our dominant interest in their attacks upon silver; that the maximum rate now permitted of 20 cents per mile for each ton of freight and 10 cents per mile for each passenger carried by railroads between points within the State should be reduced at least one-half; that the legislature could protect individuals and localities against unjust discrimination; that from all nominees to the legislature, pledges should be exacted to carry out the passage of laws to regulate freights and fares; that the Senator Fair and Congressman Cassidy are entitled to the thanks of their constituency for their labor in Congress; that the platform adopted by the Republicans of the State, and the candidates nominated by the convention at Reno, warrant the charge that both the platform and ticket have been connected to the corruption of railroad managers. Jewett W. Adams was put in nomination for Governor amid applause. The nominations closed and Adams was declared the nominee of the Republicans.

Disatisfied.

SELMA, Ala., 6.—The republicans are dissatisfied with the nomination of Geo. H. Craig for Congressman in the Fourth District. They have been in session two days and adjourned to-day. A convention is called for Sept. 23rd, when doubtless a colored candidate will be nominated by the voters.

Beauvillier Barbecue.

DENVER, 6.—Three thousand merchants in Colorado, Nebraska, Wyoming, Kansas and New Mexico attended the barbecue given by the Denver merchants to-day. Four thousand guests were seated at the first table in the evening and a grand display of fireworks. The whole was a great success.

Six Chinchillas.

SAN FRANCISCO, 6.—A Bakerfield dispatch says: Two carloads of sick Chinchillas arrived here to-day, several of them in a dying condition, and one dead. They were from the advance of the Union Pacific in Texas, and a rumor that the disease was yellow fever caused so much excitement that the city authorities had to be notified. It is not known what the disease is, but the report of yellow fever is not authenticated.

FOREIGN.

THE WAR IN EGYPT.

A Rebel at Last.

CONSTANTINOPLE, 6.—The Sultan's proclamation to the Egyptians has been received. The Khedive and Dervish Pasha, and thereby provoking the intervention of England. It states that the declaration of the Khedive to the Khedive was based on the instance of Dervish Pasha, in consequence of Arabi Pasha's protestations of fidelity. In conclusion, the proclamation exhorts all Egyptians to obey the Khedive.

The proclamation of the Porte against Arabi Pasha declares the independence of authority and prestige of the Khedive is indispensable necessary, and that the designs of Arabi Pasha justify his being described as a rebel. Dervish Pasha, Servet Pasha, and Pasha Labb Edendi start for Egypt on Saturday.

Indemnity.

ALEXANDRIA, 6.—The Council of Ministers are now in session with the question of indemnity of the inhabitants for losses sustained by incendiary and pillage. It is almost certain the ministry will propose to the Khedive to appoint an international commission to settle the claims. The decision of the commission will be final.

Water.

Operations have been commenced for the opening of the old channel beyond Micks, with a view to letting the water into Lake Mareotis. It will take nearly two months to reach a depth of eight feet.

The Situation.

IMMOLA, 6.—Gen. Wolsely is making a strong effort to organize a complete system of supply for his field forces.

The task is much more serious than the foreign element in Egypt are willing to admit. Meanwhile the enemy are content to be purely on the defensive.

It is rumored that Anabi Pasha has brought heavy guns from Cairo to Tel El Kebir to silence the British 40-pounders on the armed train. Measures are proceeding smoothly at Kassassin. Food is abundant at present, but the daily consumption is so great that it will not be easy to provide supplies for future use.

Conservancy.

IMMOLA, 6.—Several correspondents protest against the additional conscription of telegrams at Port Said, after they are passed at headquarters and General Wolsely promised a removal of the grievance.

Fallings.

PORT SAID, 6.—The fresh water canal at Immola is falling rapidly and the water company has reduced the supply at Immola and Port Said.

Immola Pasha has established a line of defense from El Karama to Sallih.

4,000 More.

LONDON, 6.—Orders are received at Woolwich to despatch 4,000 troops to Egypt; 3,000 to Alexandria and 1,000 to Ismailia.

Obeldullah.

CONSTANTINOPLE, 6.—The Persian minister here sent a fresh note to the Porte, demanding the arrest of the Kurdish Chief Obeldullah, whose tribe are committing hostilities on the Turco-Persian frontier, and declining on behalf of Persia all responsibility if he is not arrested. M. Beledoff, Russian Ambassador, supports the note: Persia is resolved not to act energetically against Obeldullah.

The Turkish Chief Obeldullah made his submission to the Sultan and has gone to reside at Medina in Arabia where a pension will be allowed him.

Armistice.

ATHENS, 6.—An armistice has been concluded between the Greeks and Turks on the Thracian frontier, based on the status quo ante bellum. Negotiations for a definite settlement of the dispute in regard to the frontier are progressing satisfactorily.

A Test Case.

DUBLIN, 6.—Acting upon instructions from the American Government, R. J. Meany, the American newspaper correspondent, who was recently arrested at Ennis, has taken a most decisive course for the purpose of testing the legality of his arrest. He has notified Mr. Purcell, resident magistrate at Ennis, that he surrenders his recognizances to be of good behavior and keep the peace, entered into on Aug. 11th.

Russian Jews.

ST. PETERSBURG, 6.—The recent speech of Gen. Drenteln, Governor of Kiev, which accused the Jews of slander in asserting that the authorities could not at the time of the disorders, and advised them to give the country a little of the inordinate love which they lavished on money caused much sensation. Gen. Drenteln pointed out that many Jews had been obliged to return from Africa, and were starving in Palestine, but that they would be better off in Russia than anywhere else if they only knew it.

Hanlon's Challenge.

TORONTO, 6.—Hanlon challenges Ross, Courtney and Lee to row any where between Washington and Boston, three miles; two weeks to intervene between the races.

BRIEF TELEGRAMS.

The Industrial Exposition opened at Milwaukee yesterday with a big street parade.

Last night, at the county hospital in Chicago, a woman aged 14, died of hydrophobia in terrible agony.

The improvement in the health of the Archbishop of Canterbury is such as to permit his removal to Adiscombe.

A rise in the Rio Grande carried off the remainder of the International & Great Northern, and the Mexican National railroad bridge which spanned the river here.

The board of directors of the Garfield Monument Association to-night organized by the election of J. W. Thompson as president, Gen. D. G. Swain, treasurer, and F. F. Wilson secretary.

In New York Professor Gremeth and J. Creelman, of the Herald, made an ascension in the balloon Columbus, at the Polo Ground to-day. A half a million is making toward Sandy Hook.

A Topeka dispatch says General Keller, speaker of the Lower House of Congress, arrived here today, and will address the old soldiers of the Reunion Camp Grounds Thursday and Friday. A million dollars on Thursday and speak to the soldiers Friday.

A Dallas special says Samuel and Hannigan Rains, sons of James S. Rains, Greenback candidate for last year's election, two years ago had a pistol quarrel last night over the division of property left them by their father. Samuel shot Hannigan to death.

The practice shooting at Creedmoor yesterday was very fine, but the English was finer than the American. The scores made by the former were so much ahead of the Yankees that unless a sharp and radical change is made, the Americans will be completely defeated.

An El Paso special says. Goldbeard, a prospector, based sound in the Organ Mountains Mining District, fifty miles north of El Paso, which sways \$100,000 to the ton. Specimens will be sent to the Bank of California. Half a million dollars has been offered for the mine, and much excitement exists over the find.

LITTLE COLORADO STAKE CONFERENCE.

The 18th quarterly conference of the Little Colorado Stake of Zion was held at Sunset, Saturday and Sunday, August 27th and 28th, 1882. There were present: President Lot Smith and Counselor Wm. C. Allen of the Stake presidency, members of the High Council, bishops and other prominent members of the several wards in the Stake.

Saturday morning the speakers were President Lot Smith and Elder S. G. Ladd. In the afternoon reports of wards were given by Bishop L. M. Savage, of Sunset, Counselor C. L. Christensen, of Moanocopy, Counselor F. M. Allen, of Tonto Basin, Elder A. L. Rogers, of the dairy, teacher and shepherd, Elder J. J. Adams, of Brigham City, and Counselor J. C. Hansen, of Saint Joseph. The reports given showed a fair condition among the Saints, meetings generally well attended, good health and average crops. At St. Joseph, the crops were late, in consequence of the great amount of labor put on their dam and ditch in the spring, they having had a hard struggle to get the water out upon their land, but the little crops they have had time to put in were looking well. The relations between the Saints and Indians remain of a friendly nature. During the late Apache war some excitement occurred among the Saints of Tonto Basin, causing them to live together about three weeks in their fort, built last year, but they were not molested; as far as they knew, none were nearer than 12 miles.

Elder Llewellyn Harris gave an account of his travels and labor among the Indian tribes; had been absent from his family some two and a half years, and during that

period had travelled some 11,000 miles.

Sunday morning, the authorities of the Stake, the home and Lamanite missionaries were presented and sustained, and the speakers were Counselor W. C. Allen, Elders John McLaws, A. L. Rogers, J. H. James, H. M. Tanner, C. Whiting, and J. N. Walker. The usual statistical reports of Stake and Sunday Schools were read by the clerk.

Sunday afternoon, after the administration of the sacrament, there being a number of Lamanites in the congregation, Bishop L. M. Savage, by request, spoke to them, exhorting them to live at peace with all men, which was interpreted into the Navajo tongue by counselor C. L. Christensen. One of the Navajos then, by request, spoke, expressing satisfaction at what had been said, which was interpreted into English by Brother Christensen.

President Lot Smith spoke upon the destiny of the Lamanites and upon the duties of the Saints exhorting all to be watchful and not slumber. Elder John A. Bigler made a few remarks. Conference was adjourned until the 25th of November, 1882. Benediction by Elder S. G. Ladd.

F. G. NIELSON, Clerk of Conference.
