

## BECOME PLACED ON LIGHT ENGINE CREW

Investigating Board Determines Responsibility for Short Line Collision.

COPY OF ORIGINAL ORDER.

Engineer William Koll Held Directly Responsible and Dead Fireman Contributing.

The investigation Monday afternoon into the fatal collision near Cache Junction on the Oregon Short Line on the 18th inst., resulted in placing the blame on the operatives of the light engine. The investigation was held in the Union passenger depot offices of Division Superintendent A. B. Stevenson, witnesses being examined, including the crew of the westbound extra freight, and the original order being produced in evidence. The finding of the committee was as follows:

"We, the undersigned, convened this day as a board of inquiry to investigate a collision which occurred two miles east of Cache Junction, about 7:30 p. m. Nov. 28, 1909, resulting in the death of Fireman L. P. Morford and injury to Engineer William Koll, find as follows:

"That extra 750 west, in charge of Conductor A. D. Crow and Engineer G. P. McGinn, were proceeding to Cache Junction on their rights; no responsibility attached to this crew. Engine 424 in charge of Engineer William Koll and Fireman L. P. Morford received order No. 141 at Cache Junction, reading as follows:

"That extra 750 west, in charge of Conductor A. D. Crow and Engineer G. P. McGinn, were proceeding to Cache Junction on their rights; no responsibility attached to this crew. Engine 424 in charge of Engineer William Koll and Fireman L. P. Morford received order No. 141 at Cache Junction, reading as follows:

"And that extra 622 failed to comply with this order to meet extra 750 west at Cache Junction. We therefore consider Engineer William Koll responsible for this accident and Fireman L. P. Morford contributing to same by not knowing definitely before starting what the orders were as required by rule 35.

Report is signed by F. C. Schramm, wholesale and retail druggist; Robert Anderson, business manager for David Eccles, Logan, Utah; A. B. Stevenson, superintendent; H. J. Harris, assistant superintendent; George Ross, assistant superintendent; and F. A. Kute, assistant superintendent.

### THREE SILENT OFFICIALS.

Hughes, Wild and Boyd Pass Through City "Mum as the Sphinx."

Time Denver & Rio Grande magnates silent and unresponsive as the Egyptian sphinx, passed through the city last evening, en route to Denver from San Francisco, where they have been engaged for two weeks in the new freight tariff for the Western Pacific. The three were "last" Hughes, traffic manager; Fred Wild, general freight agent, and E. B. Boyd, assistant to the first vice president of the General Land Office, and from the west on a Western Pacific special and continued east over their old road "without breaking bulk."

There was an attempted hold-up at its last stop by a party, but it was easily "water hauled." Supt. Ogilvie accompanied the officials in from Elko, and General Freight and Passenger Agent S. V. Derrah chaperoned them from Wendover.

In view of the foregoing, the following Associated Press dispatch from San Francisco is of interest:

San Francisco, Nov. 29.—The freight and passenger interstate tariffs of the Western Pacific Railroad company were filed with the California railroad commission yesterday, the schedules having been furnished the interstate commerce commission some days ago. This will go into effect Dec. 1 and Dec. 2. Transcontinental tariffs have been filed and will become effective Dec. 6.

The new road will be opened tomorrow when Chief Dispatcher Meadows starts the telegraphic service. Thirty-five passenger and freight agents will take office Dec. 1. A. J. Cronin will be sent to Salt Lake City. Mr. Cronin is already the Denver & Rio Grande freight agent at this point.

### JUDGE LOVETT MEANS BUSINESS.

Rocksp. Wash., Nov. 29.—Robert Koll Lovett, chairman of the executive committee of the Union Pacific and the Eastern Pacific Railway companies, who is making a tour of the northwest with a party of officials of both lines, announced in a visit to Spokane that millions of dollars will be expended in extending the Harriman system to Washington and into central Oregon, so that the Deschutes canyon in Oregon will be traversed by its lines, regardless of the activities of the Hill party.

Mr. Lovett added that every acre of territory that is legitimately in the dispute tributary to the Harriman lines will be developed, saying also that improvements and extensions planned by Harriman will be completed. Mr. Lovett said that he believes the country is in a good way to better and more substantial commercial development, though he would not forecast an era of renewed prosperity in any special line. However, he saw evidence, in all industries in the northwest, saying there is

### ECZEMA A GERM DISEASE

Myriads of Microscopic Animals Infest the Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in unendurable agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing the terrible itching and scaling and that terrible itching. The more you scratch the more Nature punishes them.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Doing this will not, of course, kill the germs, and that is why all the blood purifiers fail in eczema; that is also why salves which do not penetrate the ordinary oil of wintergreen proper—penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and acetic acid (as in D. D. D. Preparation) this will build up the healthy growth, giving Nature a hand while killing the germs faster than they can multiply.

Schramm-Johnson Drugs, of this city, recommends D. D. D. Preparation, also D. D. D. Soap.

Schramm-Johnson Drugs, Four Stores, "Where the cases stop."

## Peptiron Pills

Ironize the blood, tone the nerves, strengthen the stomach, and digestion, and promote sweet, restful, natural sleep. They are chocolate-coated, acceptable to the stomach and easily assimilated, and the best medicine for anemic, pale, nervous and dyspeptic men, women and children, and all sufferers from the effects of the strenuous life of today. Price 50c, or \$1.00 of druggists or by mail. C. I. HOOD CO., Lowell, Mass.

too much to do and too much willing energy and operation to permit of arrested development in the western states.

### LOVETT'S LEGAL LEGATEE.

San Francisco, Nov. 29.—That W. F. Herrin, head of the legal department of the Southern Pacific company, can be chief counsel of the entire Harriman system if he wants the position, was the statement made today by Judge Robert S. Lovett, successor to the late E. H. Harriman. Judge Lovett stated, however, that he had not yet decided whether to consider the place that is open to him.

Judge Lovett is on an inspection tour and arrived here today, accompanied by a staff of railroad men, including J. C. Stubbs, traffic director; Julius Kruttschnitt, director of maintenance and way; E. O. McCormick, assistant traffic director; and C. C. Stillman of New York.

The party will start eastward next Wednesday, going direct to New York via Ogden and Chicago.

Another man in the line of succession to the head of the Harriman lines is Henry W. McForest of New York. Mr. Harriman's personal and trusted legal adviser, and who is now on the Union Pacific director's list.

### FREIGHT RATES REDUCED.

It was given out last evening from the Salt Lake office that on and after Dec. 2, freight rates would be reduced to Los Angeles from all Utah common points, as follows: First class, \$1.57 1/2 to \$1.54; second class, \$1.61 to \$1.58; third class, \$1.31 to \$1.28; fourth class, \$1.09 to \$1.06; fifth class, 94 cents to 91 cents; A rate, 82 1/2 cents to 79 1/2 cents; B rate, 62 cents to 60 cents; C rate, 61 1/2 cents to 58 cents; D rate, 58 cents to 55 cents; E rate, 46 cents to 43 1/2 cents.

### LOCOMOTIVE DELIVERIES.

Probably the most remarkable locomotive order in the history of railroads is being delivered to the Southern Pacific. It consists of 33 freight locomotives of the Mallet compound type. Twenty-one of these are of the same size as two which are now at work on the mountain division of the Southern Pacific. These engines weigh 300 tons and are, in fact, two locomotives in one. A peculiar fact is that some of the railroads between the eastern works and the western destination refused to haul them over the tracks, fearing both for the tracks and the bridges. Despite this fact, the Southern Pacific ordered 20 locomotives of this kind and weight, and the new freight tariff for the Western Pacific.

Each of the monsters cost \$30,000.

### RECEIVING LOCOMOTIVES.

The Missouri Pacific is daily receiving new locomotives. The delivery of an order for 20, which was placed last spring. These engines are all designed for freight traffic and are available for service on any portion of the Missouri Pacific over the Mountain system. The deliveries are being made at St. Louis and from this point the engines are being distributed over the system wherever needed. The new locomotives are larger than any freight engines now in service on the system and will prove a valuable addition in handling the winter shipments of grains, which are now commencing.

### SPIKE AND RAIL.

General Freight Agent J. A. Reeves of the Oregon Short Line is in Butte on business.

H. A. Willie, contracting freight agent of the Walcott, has returned from a vacation of several weeks in the east.

District Passenger Agent Kenneth Kerr and District Freight Agent Mandersfield of the Salt Lake Route have returned from Butte, where they went to formally establish an agency and install an agent.

### A HAIR'S BREADTH ESCAPE.

Do you know that every time you have a cough or cold and let it run on thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound Syrup. Price 50c, \$1 per bottle. Sold by Z. C. M. I. Drug Dept., 113 and 114 South Main St., Salt Lake City.

### LOOKS BACK FIFTY YEARS.

S. S. Jones Recalls Arrival of Ill-Fated Handcart Company in 1856.

Fifty-three years ago today the surviving members of the Martin and Tyler handcart company were brought into this city from Devil's Gate, Wyoming, by the rescue party sent out by President Brigham Young, who addressed the conference, in session at the time the reports from the ill-fated company were received. In order to send out the rescuers, the handcart company, which was the last company to arrive in the first year of handcart immigration, came into the valley on Nov. 30, 1856. Now, just as the congregations were being dismissed from church services, there was great joy in the valley upon their arrival, as the reports received indicated that few of the party had perished and the survivors were alive.

The company started their journey westward in September and, as the winter came on very early that year, were caught in snow in the mountains several hundred miles away from this city. The original party consisted of 60 persons and of this number over one-third perished from cold and hunger. Of the surviving members of this party there are persons less than 100. One of them, S. S. Jones, former mayor of Provo, recalled today the incident of the arrival in Salt Lake. His description of it as he remembers it, was a comparison to the awakening from Rio del Viento sleep, but he said that there were no dogs there, and if there had been they would have been of no use, and there were no guns, and if there had been they would have been of no use, for none of the party was strong enough to stand long enough to fire one.

## FURNISHINGS FOR COMMERCIAL CLUB

Contract for Decorating First Four Floors of New Building Awarded.

GOES TO SLOANE, NEW YORK.

Two Top Floors to be Done by Local Men—Development of Design in Italian Renaissance.

The contract for decorating and furnishing the first four floors of the new Commercial club building on Exchange place was let Monday to W. & J. Sloane of New York, for \$37,500. The work on the basement and the upper two floors will be done by local men, the contracts to be let later. The decision of yesterday was arrived at by the committee after almost daily meetings for over a month, during which time many designs were considered.

The house committee, which awarded the contract, is composed of Joseph E. "Coke" Mont Perry, H. L. A. Culmer, Samuel Newhouse, R. O. Mackenberger, Samuel Weiss, and A. J. Davis. The contract went through the H. Dinwoody Furniture company, local representatives of the Sloane company, and Charles H. Van Note, special representative.

According to the contract the decorations and furnishings will be in thorough keeping with the design of the building, Italian renaissance. On the first floor the huge rotunda will have a Spanish effect in mosaic with the wall decorations and colorings in old reds and soft Pompeian green. The furniture will be of special design and upholstered in keeping with the other decorations. There will be paneled portieres with scenes of the Trojan war, with old greens, reds and browns in the background. The fixtures will be of green metal.

In the buffet there will be a brick wainscoting while the walls above will have decorations in oil. A huge painting, of particular significance, "The Indian's First Firewater," will be an adornment of one of the walls. The hangings will be of craftsman's cloth with the club's monogram embroidered thereon.

### SPLENDID LOUNGING ROOM.

Maginay will be the woodwork in the lounging room, and the walls will be covered with fabric. The hangings will be in leather in the Louis XIV style, with rich velvet accompaniment. Splendid oriental rugs will add their soft colors and beautiful designs while the furniture will tempt one to rest within grateful surroundings of the finest grades of leather and velvet.

The business office, the office of the secretary, and two halls will complete this floor. All of these will be furnished in leather with the remainder of the floor.

### HUGE BANQUET HALL.

The huge banquet hall, two stories in height and 68 feet in length, is to

Royal Baking Powder is the greatest of time and labor savers to the pastry cook. Economizes flour, butter and eggs and makes the food digestible and healthful.

## ROYAL BAKING POWDER

Makes most healthful food  
No alum—no lime phosphates  
The only baking powder made from Royal Grape Cream of Tartar

be on the second floor, and one of the most handsome in the entire building. It is here that it is planned to hold some of the notable social and business events of the city. There will be paneled reproductions of art with a dark rose effect of rich French velvet. The hangings will be of gray-green silk and velvet, with gold embroidery. Over all the ceiling will reflect an azure blue in a gold setting. Imported velvet rugs will grace the floor and the furniture is to be of gray enamel.

On the same floor will be the dining room of the board of governors, the walls covered in gold leaf and glazed to an antique finish. The tapestries will be of silk and linen materials and the fixtures of oxidized silver.

WOMEN'S PARLOR.

The third floor will be largely devoted to the women, and their tastes have been specially taken into consideration in the furnishings and decoration. The color scheme of the parlor is in Nile green, with the walls draped in silk. The furniture will be of Chippendale walnut, upholstered in appropriate brocade effects. The hangings will be of silk embroidered in satin and the lighting fixtures will be of matt gold.

The walls of the dining room will be covered with imported figured linen of a Portuguese design, the whole to be in Dutch style. The hangings are to be of silk lined with a mulberry shade and the lighting fixtures are to be of oxidized silver. There are also to be four private dining rooms on this, the "maximizing floor," and everything is so arranged that all the interior windows look upon the main banquet hall.

The billiard room on the fourth floor will be decorated in old parchment, and heavy scroll decorated with the club monogram will be the material of the window curtains. The card room will be of the same style, both with mahogany carpet on the floors.

In the library the woodwork will be mahogany while perspective scenic tapestry will cover the walls. The hangings will be of old gold goat's hair cloth with trimmings of velvet. The fixtures will be of burnished brass.

### SALT LAKE MATERIAL.

All of the material which can be purchased in Salt Lake or Utah is to

be used in the work, according to the contract, and home labor shall be employed as far as possible. The furniture is to be handmade and all of the decorations will be ordered at once. The actual work will be commenced the latter part of January.

### HOW TO KILL THE SALOON.

Lack of Patronage, in Butte, Will Starve Them Out.

General Superintendent Sommers of the Rocky Mountain Bell Telephone company has returned from several weeks' absence along the Idaho and Montana lines. Mr. Sommers reports the closing up of 28 saloons in one week, at Butte. It seems mining operations are not as lively in that section as they used to be, and the more declining of the men, meeting even further slack work ahead, are curtailing their saloon expenditures so much that there is a steady string of these places going out of business. There have not been any labor union troubles for a long time.

## MARGERIE WEILER IS PRETTIEST BABY

Against Five Hundred Competitors She Captures Prize at Yesterday's Big Show.

It would have gladdened the heart of Col. Roosevelt had he visited the Great Salt Lake Pure Food and Industrial exposition at the auditorium roller skating rink Monday afternoon and evening, and the idea of "race solids" would have been banished from his mind. The scene was one of the prettiest ever beheld in Salt Lake City and those who witnessed it will not forget it in a long time.

The feature was the baby show and it was a big success in every particular. There were at least 600 handsome ladies entered for the 12 prizes and the judges, going through with their difficult task and escaped without injury to a hair, due entirely to their excellent judgment. Certainly they got no help from Margerie A. A. Tremp. That intrepid individual may be brave enough to face many serious situations, but when it came to aiding the committee to decide which was the prettiest and most winsome baby, she threw up her hands and fled in dismay.

The first prize was awarded to pretty little Miss Margerie Weiler, the 19-months old daughter of Mr. and Mrs. Ray Weiler of Eleventh East and Twelfth South street. She was proclaimed queen of the show and regaled with a special afternoon and evening her loyal subjects paying her every devotion. Her regal throne was in the booth of the Kellogg Cereal Kluge company and A. J. Lerch, manager for the company, saw to it that she had everything her heart desired.

The first five winners were given silver cups presented by the Retail Merchants' association and Boyd Park Jeweler. In addition to the first prize winner the others were as follows:

Allice, daughter of Mr. and Mrs. John J. Vernon, 495 east Second South street.

Allice, aged 22 months, daughter of Mr. and Mrs. John Davlin, 908 west Third South street.

Gladys, aged 16 months, daughter of Mr. and Mrs. E. A. Hansen, 61 east First North street.

Edna, aged 2 years, daughter of Mr. and Mrs. John W. Jackson, 1329 south Twelfth East street.

Thelma Marie, aged 5 months, daughter of Mr. and Mrs. Dick Stump, 164 east Second South street.

Glen, aged 17 months, son of Mr. and Mrs. Chris Anderson, 427 North Second West street.

Bertha, aged 24 months, daughter of Mr. and Mrs. Edward McManis, 144 east Second South street.

Marianne, daughter of Mr. and Mrs. Otto L. Saal.

Harold J., aged 14 months, son of P. R. Poulson, 289 south State street, Murray.

Catherine, aged 16 months, daughter of Mr. and Mrs. John Code, 117 north Second West street.

June, aged 17 months, daughter of Mr. and Mrs. John Beck, 242 south Twelfth East street.

The committee to decide the baby question was composed of the following: Mr. Edward E. Kaufmann, Mrs. B. Baxter, Mrs. R. Shepherd, Miss M. Holt, William Price and Walter O'Loughlin.

Next in importance to the baby show was the meat cutting contest, though for a time it looked as though the event would not take place because of the fact that some of the butchers who were expected to enter, got "cold feet." The contest narrowed down to a race between "Joe" Woods and Clarence Peterson, the former winning by only 2 points. Peterson beat

## THE FATNESS OF HEALTH.

Sanose Pills Out the Curves and Makes Thin People Fat.

Perfect health and good solid beautiful flesh can only come through the use of Sanose, the remarkable flesh-forming food.

This makes the thing and serenity, plump and robust, is mixed with the food so that all of the elements that make solid bone firm muscle and good flesh are thoroughly assimilated and retained in the system.

Sanose is not a drug or a stimulant, it is a scientific flesh-forming food that restores thin people to a normal condition of good healthy flesh. These statements are confirmed by Z. C. M. I. Drug Department, offer to refund the money to anyone buying and using Sanose who does not gain in weight as promised. The risk is all theirs. The thin and scrawny can buy Sanose at Z. C. M. I. Drug store, with the knowledge that if it is not successful it will be absolutely nothing.

Sent postpaid on receipt of 50c.
