

# DESERET EVENING NEWS

## WEATHER REPORT.

Observation taken at 6 a. m. today for previous 24 hours.

Salt Lake City, Utah—Barometer, 29.81 inches. Current temperature, 40 degrees; maximum temperature, 46 degrees; minimum temperature, 36 degrees; mean temperature, 41 degrees. Accumulated excess of temperature, since first of month, 137 degrees. Accumulated excess of precipitation since January 1st, 17 inches.

FORECAST TILL 6 P. M. SUNDAY.

Local forecast for Salt Lake City and vicinity.

Cloudy threatening weather and probably occasional light showers to night and Sunday; mild temperature. Forecast made at San Francisco for Utah.

Rain tonight and Sunday.

## WEATHER CONDITIONS.

The crest of an area of decidedly high pressure lies over the northern Rocky Mountain slope, while an area of low pressure appears to be central off the Washington and Oregon coast. Precipitation has fallen over Washington, Oregon, northern California, Idaho, Nevada, northern Utah, Colorado, northern New Mexico, Minnesota, Texas, Louisiana and Mississippi. A cold wave covers the central portion of the country. Temperature is down to 14 degrees as far south as Abilene, Texas.

L. H. MORDOCH,  
Section Director.

## TODAY'S TEMPERATURE.

10 a. m., 41; 12 noon, 42; 2 p. m., 46; 3 p. m., 46.

## SEMI-WEEKLY NEWS...

## CIRCULATION TODAY,

# 20,945.

The largest circulation of any paper published between Denver and the Coast.

## 10-day's Metals.

SILVER, 61 3/8  
LEAD, \$4.00  
CASTING COPPER 15 3/4 cents a lb.

## LOCAL BRIEFS.

Joseph Bell, aged 28, and Mattilda E. Elquist, 24, both of Grantsville, Tooele county, were granted a marriage permit by County Clerk James this forenoon.

The Tenth Pennsylvania volunteers are figuring on a proposition to come to Salt Lake next August in a body on the occasion of the reunion of the Army of the Philippines.

The funeral of E. J. Pratt, who died Thursday at the Culien, will be held Sunday at 3 p. m. from St. Mary's cathedral after the Elks have held funeral exercises in the lodge rooms on Market street. The interment will be in Calvary cemetery.

The monthly meeting of the "Press" club will be held next Thursday evening (Feb. 25) at the Woman's Exponent office. The program will consist of sentiments from Queen Victoria, an original poem by Susan Young Gates, a paper on Queen Victoria by Emma Jensen, and current events by Ella W. Hyde.

Owing to the amount of water that had collected at the rear of Solomon Bros. shoe store the rear wall of the establishment, which is composed of adobe, suddenly collapsed yesterday afternoon with a roar that startled the pedestrians on East Temple street considerably. Mr. Solomon was notified of the occurrence with the result that temporary repairs were made.

A certified copy of the articles of incorporation and by-laws of The Prudential Insurance company of New York, New Jersey, were filed with Secretary of State Hammond today. A certificate of Wm. Bettie, commissioner of banking and insurance of the State of New Jersey, states that the company had outstanding on December 31, 1900, policies valued at \$39,601,267.

Montgomery Elliott, the 12-year-old son of W. M. Elliott, of 288 West Second North, yesterday afternoon received a painful injury to his cheek which required the attention of Dr. Ewing who was called to attend him. The boy filled a cartridge shell with powder and then applied a match with the result that the metal case flew up in his face cutting him quite severely.

The 12-year-old daughter of Rev. and Mrs. Joel A. Smith was buried at Des Moines, Iowa, on Thursday. During the absence in the East of Rev. Mr. Smith the pulpit of the church will be occupied as follows: Rev. J. C. Fowler tomorrow morning, and Rev. Mr. Block in the evening. A week from tomorrow Rev. Mr. McNeice in the morning and L. M. Gillilan will talk to the young people.

A Chinese peddler and his horse came very nearly taking a plunge into the Thirteenth East street reservoir yesterday afternoon. The horse became frightened and started directly for the reservoir at the top of his speed. But a wheel struck a telephone pole and he was stopped. The Chinaman thinks that a fence around the pool, however, would be a more satisfactory and somewhat safer guard than the string of telephone poles.

We pay 4 per cent interest per annum on \$1 or thousands. Zion's Savings Bank & Trust company, Lorenz Snow, president; George M. Cannon, cashier.

Utah Commercial and Savings Bank. Interest paid on savings. W. F. Armstrong, pres.; W. F. Madsen, vice-pres.; J. E. Caine, cashier.

Utah Coal. Cattle Gate, Sunnyside and Clear Creek—Lump, \$5.00 per ton. Winter Quarters Lump and all nut coal, \$4.75 per ton. Anthracite all sizes, \$5.50 per ton. 75 South Main St., telephone, 429. D. J. SHARP, Agt.

## WHAT THE LEGISLATURE DID THIS WEEK.

**PASSED.**

The McMillan bill over the governor's veto. Senate bills 20 to 25 inclusive, transferring duties of county attorneys to district attorneys.

**PASSED BOTH HOUSES.**

Barnes' Senate bill, making banks liable for 15 per cent of their paid in capital stock and surplus fund.

**PASSED LOWER HOUSE.**

Smith's bill relating to notice and testimony upon hearing of motions.

Wells' bill to establish a State school of mines.

Barrett's bill making it compulsory for safety hoods to be used on cages of vertical shaft mines.

D. C. Johnson's bill relating to the sale of right of way on State lands.

Mohr's bill providing for the establishment of high schools in districts having a population of over 1,000.

Holmgren's bill abolishing the office of district attorney after January 1, 1905. The vote on this bill will be reconsidered next week.

Smith's bill allowing exception for the purpose of appeal to be taken without stating on what grounds.

Langston's bill compelling insurance agents to obtain certificates from the secretary of state.

D. H. Morris' bill allowing suit to be filed against a resident of another State in any county of this State where service may be secured.

## WHY GREAT CHANGES ARE BEING MADE.

It is generally known that extensive changes and improvements are about to be undertaken upon the great Tabernacle organ. Among those who are familiar with the mechanism of the instrument and the recent progress in organ building, and therefore with the possibilities of improvement, I think the proposition to make these changes is generally approved. Nevertheless, in the minds of some who have been so long pleased and delighted with the tones of the organ, a doubt as to the wisdom and expediency of the undertaking exists. They are fearful that the tone or effectiveness or beauty of the instrument may in some way be impaired. The suggestion is that "we should let well enough alone."

There is a strong link of friendship between the public and the organ. To many it is almost a living, thinking being, and the thought of having its voice or its vitals in any way changed or interfered with is more or less objectionable. These sentiments are pardonable, but believe those who entertain them would approve of the action about to be taken if they were fully cognizant of all the facts. It cannot be denied that no step of this kind should be taken without good reasons exist for it. The reason for the contemplated improvements appear to me to be ample.

The organ was built forty years ago and has been in constant use ever since. During that period, and particularly within the last fifteen years, great strides in organ building have been made. Progress along this line has kept pace with the advancements in other departments of mechanism. The promoters and builders of our organ anticipated this fact, and framed the structure so that improvements, changes and substitutions could be made at any future time. When built our organ was constructed according to the most approved system then in vogue. Our people while conservative are yet progressive and will not and should not be satisfied with being very far in the rear of the vanguard of progress. Numerous additions and improvements have already been made to the original organ in recent years, and no one can have failed to observe the improvement in the tone of the instrument. Some of the most beautiful registers are those that have been put in within the last few years.

Now it seems necessary to make greater changes. Without undertaking to go into detail as to the changes to be made, it is sufficient to say that the entire pedal section will remain intact with but few additions. All of the pipes which are in a good state of preservation will also be kept. Many of the new pipes will be improved and the voicing greatly enriched and beautified. In the original construction of organs, every set of pipes had its own chest, its own bellows, with separate valve or pallet for each pipe direct to receive air. Later on it was conceived by organ builders that by extending the chest, a second, or third, or any number of registers, could receive air from the same chest. This led to many complications.

will do so, however, as it has already petitioned the Legislature to pass a bill raising the school tax.

**A FELONY TO ACCEPT PASSES.**

Ex-Senator Arthur Brown takes a very decided view on the question of judges riding on railroad trains on passes. The House committee on judiciary has a meeting on Monday morning at 10 o'clock to consider the mileage bills of judges and district attorneys referred to it in the House, and it is rumored that Mr. Brown will be present at the meeting and draw up a bill making the acceptance of passes by judges a felony, which he will have introduced in the House.

**INFORMATION WANTED.**

William Motts, of 47 Cobbold street, Ipswich, Suffolk, England, is anxious to hear from his sister, Mrs. Elizabeth Bush, or any of her family. Mrs. Bush left London, England, about fifteen years ago. Her husband, James Bush, who died about eight years ago, was at one time night watchman at the "News."

Mrs. Ann Edkins Martin would like to hear from her brother, William Edkins, who was born at Stafford, Staffordshire, England, in the year 1831. When last heard from he was in Philadelphia, Pennsylvania. Direct communications to the "News."

**THE KIND FARTEN.**

Educators Meet to Discuss its Introduction into the Schools.

Members of the board of education met with the committee from the State Kindergarten association in the office of O. W. Moyle yesterday afternoon to consider the proposed kindergarten bill to be introduced in the Legislature. Senator Thomas was present at the meeting. No definite action was taken and another meeting will be held Tuesday evening at 7:30 in the board of education rooms.

Prof. Stewart, who is a warm friend of the kindergarten system, expressed himself to the meeting that he would rather have a child of his stay away from school till he was 7 years old than enter the schools in their present condition. He said that if he passed an appropriation of \$1,000 would probably be asked for the kindergarten training department at the normal school. He earnestly asked the cooperation of the board of education in urging the passage of the bill.

It is hardly probable that the board

tions called by them "running," "robbing," "leaking," etc., and many devices were resorted to that each pipe might receive its proper proportion of air. These difficulties have now been overcome and well nigh perfection has been attained in this respect, each pipe receiving its air direct from the reservoir through a tube. Dr. George W. Waters, of the Columbia University, says: "It is a principle of progress that where knowledge of the already achieved has failed to satisfy, the conception of still greater things will surely be inspired. The perfecting of art and science is the result of the necessary. This basic principle has been forcibly illustrated in the conception and creation of the Kimball type of organ. Mechanical hindrance with which the original organ are hampered are absolutely done away with a radical departure in the treatment of modern musical mechanism. What would usually be accomplished through complex mechanical devices is now done by the elimination of mechanism and the employment instead of simple impulses either singly or upon extent in aggregation."

The specifications have been made and the pipes are being suitably constructed. The building, which, as all know, are marvelous and which have always added so much to the tone of the instrument. New pipes are to be made especially for this organ.

The same artist just quoted says in speaking of the great Temple Organ of Washington, D. C.: "In this marvelous and extensive organ there is no labor, weight, resistance, friction or delay to contend with. Its exquisite beauty, manipulation, requiring only a natural touch of fingers or feet to instantly accomplish, makes possible the creation of a new school of organ playing and compositions for the organ."

In this organ the best known conditions for the speech of every distinct register of pipes have been adopted. This one family will speak to greater perfection on a light wind while another requires a heavy pressure of wind for its best speech. The key touch is set at that of the most perfect grand pianoforte, but feels lighter and cleaner because there is no inertia of a piano action to overcome. This key touch never varies. It is not adjusted, but is permanently set; climate, season, atmosphere, temperature cannot affect it. Whether one or all registers are on or off, whether any single manual is employed, or any two, three or all four of the manual organs be played together, with any of the whole multitude of couplers simultaneously operating, the touch is the same. The perfection of touch as above described. The company who has the matter in charge guarantees every appointment to be of the highest workmanship and most approved method.

H. E. GILES, Tuner.

**LAND ENTRIES.**

Original. Feb. 20.  
Henry Eddard - Cedar City, 160 acres; section 24, township 37 south, range 11 west.

Final. Feb. 12.  
Norton May Wardell, Oakley, 150 acres; section 28, township 1 north, range 7 east.

Soren J. Johnson, Ephraim, 120 acres; section 30, township 16 south, range 4 east.

**ARTISTIC WALL PAPER.**

Our new line is here—ready for your inspection—our prices will save you money. Remember our new location, 57 South Main street.

C. W. MIDDLEY,  
57 S. MAIN ST.

To the Ladies.

A full assortment of all the latest fashions in dress is always in stock at our pattern dept. The March Delineator and patterns are now in.

F. AUERBACH & BRO.

Nervous children are almost always sick. The "Door-Door" is a reliable remedy. WHITE'S CREAM VERMIFUGE is the best preventive of nervousness. It strengthens the system and assists to that sort of flesh which creates strength and power of endurance. Price 25 cents. Z. C. M. I. Drug Dept.

When pain or irritation exists on any part of the body the application of BALLARD'S SNOW LINIMENT will give prompt relief. Price 25 cents and 50 cents. Z. C. M. I. Drug Dept.

**THE STANDARD.**

Do you have the Standard Dictionary in your library or school room? If not, you are not up to date. It is the largest, the best edited, best printed, best bound, and most modern work in all respects yet issued. Only a limited number on hand. Address the Deseret News.

**BIND YOUR MAGAZINES.**

Old Books, Music and Magazines. Put them in strong new covers for preservation. Many records of value can be saved by having them bound. The News bindery can do the work in any form at any price.

**SALESMAN WANTED.**

ENERGETIC SALESMEN BY LARGE manufacturer. Steady employment; big remuneration. We train and equip for success. Address Clark 128, Box 500 Chicago.

## QUICK AND SURE.

### A Pile Remedy Which Really Cures.

Mr. D. F. Collins, of Garnett, says: "I commenced using the Pyramid Pile Cure at a time when my case was bad. I thought nothing could cure it, but before I had used a fifty-cent package I began to feel much better and now I can honestly say I am entirely cured. It is the quickest and surest remedy I have ever tried or heard of."

From Thomas Willison, of Port Jervis: "Just one package of the Pyramid Pile Cure and wonders for me and I lose no opportunity of recommending such a remedy."

Amos Crocker, of Worcester: "After having gone through an unsuccessful surgical operation for piles and after trying a number of salves and ointments without success it is no wonder that I can find words of praise for the Pyramid Pile Cure. One package did the work that all the remedies I had tried before. It is so simple and painless to use that I felt no inconvenience, whatever, while using it."

It has been thoroughly tested by physicians in every State in the Union and the best authorities recognize it as the safest, surest and cheapest pile cure known.

The Pyramid Pile Cure cures every form of piles itching, protruding or bleeding, without a particle of pain. It cures without detention from daily occupation, being in suppository form and used at night.

Its effects are lasting and not merely temporary relief.

More than all this, the Pyramid Pile Cure is entirely harmless, containing no opiate, narcotics or mineral poisons and cannot harm the most delicate. Druggists everywhere sell it and a universal satisfaction wherever used.

A little book on cause and cure of piles will be mailed free by addressing the Pyramid Drug Co., Marshall, Mich.

## Confirmation Given Patterns.

In Butterick patterns for March, just received, are several confirmation of all other patterns. "Maud," with her venturesome climbing and tumbling and tattered frocks. Yet there is a girl's attractiveness about her. She is like Tennyson's heroine, "Maud," with her venturesome climbing and tumbling and tattered frocks. Yet there is a girl's attractiveness about her. She is like Tennyson's heroine, "Maud," with her venturesome climbing and tumbling and tattered frocks. Yet there is a girl's attractiveness about her.
