

## SERVICES AT THE TABERNACLE

Elder William H. King Compares  
"Mormonism" With So-Called  
Rationalism.

### SUPERIORITY OF THE FORMER.

Later a Step in the Direction of In-  
fidelity—Christ the Great  
Exemplar.

An address dealing with the genius  
of "Mormonism" and the modern ten-  
dency towards so-called rationalism,  
which the speaker referred to as a step  
in the direction of infidelity, was de-  
livered at the Tabernacle yesterday  
afternoon by Elder William H. King,  
President John R. Winder presided.

The choir sang the hymn:

We're not ashamed to own our Lord,  
And worship Him on earth.

Prayer was offered by Elder Joseph S.  
Wells.

The choir further sang:

Ye simple souls who stray,  
Far from the path of peace.

Elder William H. King was the  
speaker. He began by explaining the  
purpose for which those assembled had  
met together, stating that it was to  
worship God and to ascertain the faults  
and mistakes made from day to day.  
It was fashionable, he said, for men  
to deprecate religion and religious  
thought. They were wont to view with  
suspicion the efforts of mankind to  
come into communication with God.  
Among such a school or rationalism had  
been established, in which they sought  
to do away with the true principles of  
the Gospel of Jesus Christ, the apostles  
and the early fathers of the church.  
The speaker then discussed the faults  
and mistakes made from day to day.  
He was fashionable, he said, for men  
to deprecate religion and religious  
thought. They were wont to view with  
suspicion the efforts of mankind to  
come into communication with God.  
Among such a school or rationalism had  
been established, in which they sought  
to do away with the true principles of  
the Gospel of Jesus Christ, the apostles  
and the early fathers of the church.

"Mormonism," said the speaker,  
claimed to be a revelation unto men. It  
was a revival of that ancient and pris-  
tine faith introduced in the meridian  
of time. Yet it had been dominated  
by men the very opposite, and no less  
a distinguished person than Henry  
Ward Beecher had defined it as a re-  
vival of heathenism with an admixture  
of Judaism. Despite this definition,  
the fact remained that it was the  
only system of religion that approached  
the teachings of the Master and ap-  
peared perfectly rational and natural to  
the human mind.

The speaker pleaded for one grand  
homogeneous system of religious prac-  
tice. "Mormonism" had not come as an  
iconoclast to shatter well established,  
self-evident truths. Rather had it come  
to lend strength to the truths, and to  
indicate the mission of the lowly  
Redeemer.

Judge King discoursed eloquently upon  
the genius of the Gospel of Jesus  
Christ, of which "Mormonism" was an  
integral part. He pointed to the de-  
alings of God with His children, and  
to the glorious harmony in all things  
which He had created in the earth. The  
speaker then discussed the faults and  
mistakes made from day to day. He  
was fashionable, he said, for men to  
deprecate religion and religious thought.  
They were wont to view with suspicion  
the efforts of mankind to come into  
communication with God. Among such  
a school or rationalism had been estab-  
lished, in which they sought to do away  
with the true principles of the Gospel  
of Jesus Christ, the apostles and the  
early fathers of the church.

The speaker declared against the  
modern tendency towards the specta-  
cular and dramatic in the religious realm.  
Truth, said he, was not spectacular.  
It had never been so. On the contrary,  
it was just the reverse, yet mighty be-  
cause it pointed out the true way.

The great philosophers, however  
skeptical many of them were, recog-  
nized the life of Christ as the great  
basis of human conduct. They saw in  
His teachings all the elements of mor-  
ality and purity, and while many, per-  
haps, did not accept the divine truths  
in their daily lives, they were free  
to confess their superiority over those  
promulgated by learned men.

"Mormonism" was a progressive sys-  
tem of religion. It was rational in its  
nature and character. It required of  
its devotees intelligent consideration  
of its principles. It encouraged relig-  
ious thought and investigation, and  
those who were slothful came under  
the displeasure of the Church. It de-  
clared against sin in all its forms; it  
pleaded for purity of thought and ac-  
tion and demanded of its adherents im-  
plicit obedience to the laws of God. It  
was not Unitarianism with its trans-  
cendental philosophy without a Christ,  
but was essentially a religious organi-  
zation preaching Christ and His cru-  
cifiction for the benefit and salvation  
of mankind.

The choir rendered the anthem, "Let  
the Mountains shout for Joy," after  
which the congregation joined in sing-  
ing "The Doxology," and the benedic-  
tion was pronounced by Elder Arnold  
H. Schultess.

Monarch over pain. Burns, cuts,  
sprains, stings, instant relief. Dr.  
Thomas' Electric Oil. At any drug  
store.

### SPEAKS WELL OF UTAH.

Something of the Position it Occupied  
in the Plateau of States.

The officials of the Utah world's fair  
commission are just in receipt of a  
handsome printed little book entitled  
"A Trip Around the Main Picture and  
Through the Plateau of States of the  
Louisiana Purchase Exposition." Its  
author is Mr. Howard Osborn, a lead-  
ing magazine writer, and the work is  
copyrighted and published by the  
Cable company of Chicago. It gives in  
pleasing phrase and color an accurate  
description of the buildings of the dif-  
ferent states that contributed to the  
marked success of the great exposition  
now, but a memory. Of Utah and its  
building he has this to say:  
"Come in by the state building's en-  
trance and there, almost before you  
realize that you are within the great  
exposition inclosure, your eye is greet-

## PUTTING IT STRONG. But Doesn't It Look Reasonable.

This may read as though we were put-  
ting it a little strong, because it is gen-  
erally thought by the majority of people  
that dyspepsia is a chronic and incur-  
able or practically so. But we have  
long since shown that dyspepsia is cura-  
ble, and that such a difficult matter as  
it at first appears.

The trouble with dyspepsia is that  
there are continually arising, starving  
themselves or going to the agonies ex-  
treme or else deluging the already over-  
burdened stomach with "litters" after  
dinner pills, etc., which invariably in-  
crease the difficulty even if in some cases  
they do give a slight temporary relief.  
Such treatment of the stomach simply  
makes matters worse. What the stomach  
wants is a rest. Now how can the stom-  
ach become rested, recuperated and at the  
same time the body nourished and sus-  
tained?

This is a great secret and this is also  
the secret of the uniform success of  
Stuart's Dyspepsia Tablets. This is a  
completely new and original method of  
treatment, and its success and popularity  
leave no doubt as to its merit.

The Tablets will digest the food any-  
way, regardless of condition of stomach.  
The sufferer from dyspepsia, according  
to directions, is to eat an abundance of  
good, wholesome food, and use the Tablets  
before and after each meal and the re-  
sult will be that the food will be digested  
no matter how bad your system may be,  
because, as before stated, the Tablets  
will digest the food even if the stomach  
is in a state of complete paralysis.

And out with it one of Stuart's Dyspepsia  
Tablets it will digest the meat or eggs  
almost perfectly as if the meat was en-  
closed within the stomach.

"The stomach may be ever so weak yet  
the Tablets will perform the work of  
digestion and the body and brain will be  
properly nourished and at the same time  
a radical, lasting cure of dyspepsia will  
be made because the much abused stom-  
ach will be given, to some extent, a  
much needed rest. Your druggist will  
tell you that no other remedy has been  
advised to cure dyspepsia, none of them  
have given so complete and general  
satisfaction as Stuart's Dyspepsia Tablets,  
and not least in importance in these  
hard times is the fact that they are also  
the best and most reliable give the most good for  
the least money.

ed by the first of the state structures.

Errected by Utah along modern lines of  
architecture, it gives the impression of  
being snug and cozy.

Inside, the mission furniture, on the  
so-called modern style, its predominate  
colors of greens and reds, heighten the  
effect. The paintings increase the  
homelike restfulness of the place. There  
is the "Great Salt Lake," by Harwood,  
and beside the wide staircase another  
Taggart's "Prayer," while "Lights and  
Shades" on the landing of the ascend-  
ing steps arrests the attention almost  
as quickly and effectively as does the  
mission furniture. One of them almost  
reaches the polished top of the Conover  
plano at one side of the main reception  
hall. Late in the season, wheeled close  
beside the long, low window opening on  
the south balcony, McClellan, the or-  
ganist of the "Mormon" Tabernacle,  
caressed its keys, while on the lawn  
without the 500 voices of the great  
"Mormon" choir were expected to ring  
with sweet melody across the plateau.

Within, it is easy to lean against the  
balcony rail and look to the floor below.  
From the balcony our great flags on  
the poles, and other eastern capitals  
are ranged, are rest rooms for the women  
and a smoking room for the men. The  
hostess swings wide a low French win-  
dow. Through it one can step to the  
main reception hall, where are easy chairs  
and a smoking table for men driven  
from the parlors or the four smaller  
rooms which open from the main re-  
ception hall of the first floor, or the  
other rooms of the building at the four  
corners of the balcony floor.

### SNOW TO RESIGN.

City Engineer is to be Succeeded by  
George W. Ritter.

At the meeting of the city council  
tonight City Engineer George W. Snow  
will submit his resignation and Mayor  
Morris will send in the appointment of  
George W. Ritter to succeed Mr. Snow  
as engineer. Mr. Ritter is a young en-  
gineer, Mr. Ritter is a young en-  
gineer of unusual ability and has re-  
cently been in the employ of the Eureka  
Hill Mining company and his appoint-  
ment is a commendable one. He is a  
graduate of Leland Stanford university  
and is said to possess a thoroughness  
in the details of his work which will  
be of great benefit to the city in his  
work on the big water project, which  
is now on foot. Mr. Ritter is a brother  
of W. W. Ritter, president of the De-  
seret Savings bank, and is a prominent  
member of the University club.

As was announced in these columns  
some time ago City Engineer Snow re-  
signs to take an active interest in an  
oil enterprise near Muncie, Indiana,  
in which George A. Snow, formerly of  
this city, and other eastern capitalists  
are interested. It is more than likely  
that Mr. Snow will be made consulting  
engineer during the water and sewer  
improvements which are now under  
way in this city and thus the new  
city engineer the benefit of all the in-  
formation secured by Mr. Snow. Should  
that plan be carried out the city will  
have a board of engineers to carry on  
the improvements and the new city  
engineer George W. Ritter, former en-  
gineer Gorge W. Snow and State En-  
gineer A. F. Doremus.

### GAVE OFFICERS THE SLIP.

Youthful Band of Thieves Have An  
Underground Home.

The "Dugout," on the banks of the  
Jordan, "Twelfth West and First South,"  
was raided again last evening by Ser-  
geant Roberts and a couple of officers.  
A chicken stew was in progress when  
the officers made the raid, but the  
youthful members of the organized  
gang of thieves managed to make their  
escape through a trap door at the end  
of a blind passage leading from the  
"Dugout."

Cards and dice had been played, and  
the place was stocked with dime novels  
and lurid tales of "Dead Eye Dick,"  
"The Blood-stained Putty Knife," or the  
Painter's Revenge," and other stories.  
This is the second time the place has  
been raided. When the officers broke  
into it the first time, a gang of thieves  
were arrested and several of them sent  
to jail. Some were convicted of break-  
ing into a sub-postoffice, after they  
were apprehended in San Francisco.

Rich sense of comfort  
when well made.

### POSTUM

hot, crisp, delicious,  
goes with the meal.

There's a reason

## TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

George S. Grant, a son of the late Jodeiah M. Grant, was killed by the  
accidental discharge of his own gun, while on a rabbit hunt at Oakley,  
Idaho.

TEN YEARS AGO TODAY.

Jim Williams of Utah, challenged Billy Woods of Chicago, to a middle-  
weight pugilistic bout.  
Aling Bailey Dunford, son of Dr. A. B. Dunford, of this city, was killed in  
the great explosion at Butte. Over one hundred others were killed.

FIVE YEARS AGO TODAY.

J. F. Mills, on trial for murder, told his story to the court and jury.  
Bill McKee beat his aged mother in a frightful manner, because his sup-  
per was not ready.

## TALKS WITH THE LAW MAKERS; NEEDS OF THEIR CONSTITUENTS.

### "RAILROAD BILL" FROM WASATCH.

Representative Wilson of Wasatch,  
known to members of the fifth session  
as "Railroad Bill," is much concerned  
on the question of bounties, and thinks  
the present law should be revised.

Mr. Wilson lives in a section infested with  
grain and squirrel, and in a conversation  
with a number of his colleagues during  
last week, he made known the fact that  
he had hit upon a scheme which proved  
very effective in the extermination of  
the pest referred to. Said he: "If you're  
bothered with ground squirrels, get a  
choline and soak it; then sprinkle it  
with strychnine and on top of that place  
a thin layer of salt; then add more  
strychnine and lay the shingle in the  
path of the squirrel. If this doesn't  
catch them, then I know of nothing  
else that will. Mr. Wilson says under  
such conditions he has had as many as 50  
squirrels in one day, and that where  
there used to be thousands of the lit-  
tle beasts, today their ranks have been  
reduced to a very few. He explains  
that the salt hardens and the squirrels  
come along and lick it, thus getting a  
deadly dose of the poison. The result is  
that Mr. Squirrel immediately lays  
down and dies. The old method of mix-  
ing strychnine with bran is not satis-  
factory, as the bran dries up and blows  
away. Besides, this also kills the birds.  
To cope with the grasshopper pest Mr.  
Wilson suggested that they be sup-  
ported by many of his colleagues that  
wild chickens be protected for a certain  
number of years, as this is the best  
means of getting rid of the harrasing  
hoppers.

The state bounty on squirrels is 5  
cents a head, so that Mr. Wilson's  
shingle has brought him in as much as  
\$55 a day.

The committee on roads and bridges  
will have its hands full satisfying de-  
mands during the session. There is not  
a county in the state but feels that  
its case is most pressing, and in the  
matter of appropriating the money, the  
wants just a little bit more than it had  
last year. According to Representa-  
tive Wilson of Wasatch, that county  
wants extra appropriation for this  
purpose, on account of the opening of  
the reservation. Said he: "The open-  
ing of the reservation is bound to in-  
crease travel through our county, as we  
have the most direct highway to that  
section, part of the reservation hav-  
ing its location there. We and Uintah  
must have more this year than we got  
two years ago. Last session I got \$1,500  
and Uintah \$200,000, and I am down  
because I stood in with the Democrats.  
But it won't happen again, as this time  
there are few Democrats to stand in  
with."

### TOWN STARTS AT "MOUTH OF CANYON."

Representative Thomas J. Jones of  
Cedar City is serving his first term.  
Being somewhat of a novice in the  
matter of making laws, he is going  
slow for the present, but hopes be-  
fore long to get his bearings and "sail  
in." The gentleman says he has no  
special legislation up his sleeve, save it  
be a bill establishing the town bound-  
ary of Cedar, which, he says, now starts  
at "the mouth of the canyon." The  
state normal school, located at Cedar,  
wants an appropriation of \$5,000, which  
will no doubt be granted. The school  
is doing much for southern Utah as it  
draws pupils from five counties and  
prepares them for the fourth year  
course at the institution proper in this  
city. Just now it has about 200 pupils  
and is doing most effective work. Mr.  
Jones says conditions in his county  
are very promising and he hopes be-  
fore long to see a big boom there, due  
to the opening of the reservation, of  
which much has been published in  
these columns.

### TYPHOID FEVER FROM BAD WATER.

Representative Tolton of Beaver, one  
of the three Democratic members of  
the lower house, was ill during the  
campaign, and attributes this, more  
than anything else, to his election. He  
had 150 Republican majority to over-  
come, but won by over 40 votes. Mr.  
Tolton was a member of the last ter-  
ritorial legislature and therefore knows  
something about the business. Be-  
sides, he is a member of the bar, al-  
though, like many others, he doesn't  
practice. Concerning Beaver county's  
needs, the gentleman says the most  
important requirement is some sort  
of sanitary measure, which will pro-  
tect the streams of that section from  
pollution. Beaver city gets its water  
supply from the Beaver river, which,  
in the past, has been much affected by  
cattle and sheep. During the last  
few months typhoid has been epidemic  
in that section, and its origin has  
been traced to impure water. Mr.  
Tolton himself has been seriously ill with it,  
while several members of his family  
were afflicted when he left home. No  
wonder, then, that he has made an ef-  
fort to remedy the condition com-  
plained of. He reports the county in  
good shape, and says that the past  
season was an exceptionally good one  
for crops, particularly potatoes, of  
which the county has an abundance.  
These are selling at 20 cents a bushel,  
whereas they are bringing upwards  
of 70 cents in Salt Lake. The out-  
look for the mining industry is also  
promising. Samuel Newhouse and  
associates having done much in this  
direction.

### HOW TO USE WATER WITHOUT WASTE.

"What we need is not so much water  
as a proper distribution thereof,"  
said Representative N. C. Christensen  
of Sanpete the other day. "When we  
get to the point where each man knows  
what his share is and uses it, we shall  
be far better off than we are now. Last  
season was a good one in our coun-  
ty—better, perhaps, than for some  
years. Next season promises to be  
equally good, thus far we have had  
an abundance of snow and some rain."  
Mr. Christensen is serving his second  
term as a legislator, having been in  
the house four years. The gentleman  
has nothing special to introduce, al-  
though he is a keen observer and will  
guard carefully the interests of his

## BEAT THE STATE BY HIS CUNNING.

Charles Jones Has Been Reaping  
A Harvest From the State  
Bounty Fund.

### ARRESTED SATURDAY IN OGDEN

Would Present Pets in Different  
Counties and Collect the Bounty  
—A Smooth Rascal.

A large part of the \$90,000 deficit in  
the bounty fund of this state is believed  
to be due to the operations of Charles  
Jones, who was arrested at Ogden on  
Saturday night and brought back to  
this city yesterday by Sheriff C. Frank  
Emery and Deputy Sheriff J. C. Sharp,  
and lodged in the county jail upon the  
charge of obtaining money by false pre-  
tenses from the state bounty fund.

Jones has been obtaining duplicate  
bounty on all of the hides of wild ani-  
mals killed by him and it is believed  
that he has defrauded the state out of  
several thousand dollars by his scheme.

### HOW HE DID IT.

He would kill the animals and pre-  
sent the hides to the county clerk of  
one county and receive a bounty cer-  
tificate for them. The clerk would  
punch the ears of the animals, after  
which Jones would take the pets home  
and proceed to plug up the holes in the  
ears. He would then present them to  
the clerk of another county and would  
again receive bounty on them. In this  
manner the same set of hides would  
be made to do service in two or more  
counties. Jones is known to have op-  
erated extensively in this county, and  
Weber county, and it is believed that  
other counties of the state have been  
the victims of his frauds.

### ARRESTED BY SEEBING.

The arrest was made by Deputy Sher-  
iff Seebing of Ogden, just as Jones and  
a woman whom he claims is his wife,  
and a 5-year-old girl, were preparing  
to leave for California. The prisoner  
asked to be taken to a hotel, where he  
could provide for the woman and child.  
He was taken to the Windsor hotel in  
Ogden and went to a room, where he  
attempted to dispose of a belt contain-  
ing some money, which he tried to pre-  
tend the deputy found securing. A liv-  
ely scuffle ensued for the possession of  
the belt, but the officer was victorious.  
During the scuffle several \$20 gold  
pieces rolled out on the floor, and were  
picked up by the woman. The deputy  
then had a hard time to get the money  
away from her. The belt contained  
nearly \$100 in money.

Sheriff Emery and Deputy Sharp  
went to Ogden yesterday and brought  
Jones to this city. It is very likely  
that a charge of perjury will also be  
lodged against him, as he perjured  
himself in swearing to false claims  
against the county and state.

### WIFE WANTS A DIVORCE.

Jones also seems to have some do-

metic troubles on his hands, as his  
legal wife is now suing him for a di-  
vorce in Ogden, and she had her at-  
torneys attach the money in the hands  
of Deputy Sheriff Seebing Saturday  
night with a view to obtaining it as  
alimony. It is not known who the  
woman is that accompanied Jones  
and passed off as his wife. It is cer-  
tain, however, that she is not his wife,  
as the real Mrs. Jones now resides in  
Ogden and has four children. Jones  
at one time conducted a restaurant in  
Ogden and was arrested there for a  
criminal assault upon a woman named  
McBride. That matter was settled  
out of court, and he was released.

### CHANGES IN THE LAW.

It is now believed that there will be  
some radical changes in the bounty  
law made by the present Legislature  
as a means to prevent such frauds in the  
future. Among other things the law  
will be changed so as to have the  
claimant swear that he killed the ani-  
mals in the county in which he pre-  
sented them, and that they were  
killed within 30 days from the date he  
presented them for bounty. At present  
a person only has to swear that they  
were killed in the state within the 30  
days. A different method of marking  
the pets on which bounties are paid  
will also have to be provided for, as  
the punching of the ears can be very  
easily overcome by plugging, as in the  
Jones incident, and it would be a hard  
matter for a clerk to detect the fraud.  
The Legislature will probably fully  
consider the matter and make the  
needed changes in the law.

### Chamberlain's Cough Remedy the Best Made.

"In my opinion Chamberlain's Cough  
Remedy is the best made thing of the  
kind. I have used it for many years,  
and it has cured me of many coughs,  
colds, and other ailments. It is a  
safe and reliable remedy, and I can  
recommend it to all who are afflicted  
with any of these troubles. It is a  
great blessing to the human race, and  
I am sure it will continue to be so for  
many years to come."

### HORTICULTURAL SOCIETY.

Officers Elected—Discussion on New  
Horticultural Experiment Station.

The Salt Lake County Horticultural  
society met Saturday and elected the fol-  
lowing officers: W. C. Burgen, president;  
N. D. Jensen, secretary and treasurer;  
L. N. Elliott, assistant secretary; L. Hemen-  
way, vice president; district presidents,  
first, J. E. Cox; second, F. H. Walk;  
third, John M. Smith; fourth, S. D. Wal-  
lace; fifth, N. J. Kilde.

Proposed new legislation in the interest  
of horticulture was discussed.  
Senate bill No. 2, by Williams, providing  
for a central Utah horticultural experi-  
ment station to be under the control and  
management of the State Agricultural col-  
lege experiment station, was read by  
Secy. J. H. Parry of the state board of  
horticulture and commented upon at  
some length.

The proposed measure was warmly  
discussed and favorably commented upon  
by some, while others wished to make  
proposed experiment station take in all  
branches of agricultural experiments, the  
same as the present station. The station  
which would necessitate expensive dupli-  
cation not contemplated in the senate bill  
No. 2.

A resolution was adopted warning the  
public against purchasing seedlings apple  
trees, and was stated the fruit was prac-  
tically of no commercial value.

"It was almost a miracle," Burdell  
Blood Bitters cured me of a terrible  
breaking out all over the body. I am  
very grateful. Miss Julia Filbridge,  
West Cornwall, Conn.

## TEA

There are good grocers  
who don't sell Schilling's  
Best tea coffee spices ex-  
tracts baking-powder soda;  
strange but true.

Write for our Knowledge Book, A Schilling &  
Company, San Francisco.

## WINTER EATING RUINS STOMACHS.

"Now is the Time You Need Mi-  
o-na," Says F. C. Schramm.

"Think for a moment of the extra  
strain you put upon the stomach in the  
winter. The hearty food, the late sup-  
pers, and the lack of exercise and out-  
door life all weaken and strain the  
stomach, laying the foundation for poor  
health and suffering.

Chronic stomach troubles, nervous ir-  
ritability, and serious bowel and kid-  
ney diseases have often dated from a  
week of extra "good living." Nearly  
everyone is bothered with more or less  
headaches and backaches, furred  
tongue, poor appetite, dry, hack-  
ling cough, heartburn, spots be-  
fore the eyes, dizziness or vertigo,  
sleeplessness, lack of energy, loss of  
flesh or a general weak, tired feeling.

Now is the time when Mi-o-na is  
needed to repair the ravages and  
wastes the hearty eating of winter  
has caused in the stomach and diges-  
tive system. This is the only known  
agent that strengthens the stomach  
and digestive organs, so they can and  
will readily digest whatever food is  
eaten. A Mi-o-na tablet taken before  
each meal will remove all irritation,  
inflammation and congestion in the di-  
gestive organs, and so strengthen them  
that they will extract from the food all  
that goes to make good rich blood, firm  
muscle, and a sound, healthy body.

This remarkable remedy costs but  
50 cents, and if used it does not re-  
store your full vigor, vitality, and  
health. F. C. Schramm, one of the best  
known druggists in this section will re-  
fund your money. Unbounded faith  
like this deserves your confidence.

Plenty  
of  
Snow

for water next summer.  
Plenty of coal for heating  
this winter. It's "That  
Good Coal," too.
