

STATE SCHOOL BOARDS ORGANIZE

T. B. Evans is President of Industrial and Miss Babcock President of School for Blind.

EFFORT TO WARD OFF FLOODS

Citizens Want City and County to Strengthen Banks of Ogden River, To Avert Fresh Disaster.

Ogden, April 6.—The State Industrial School board met last evening and elected officers for the ensuing year. T. B. Evans was chosen president of the board; Harry Joseph, vice president; E. M. Conroy, treasurer; C. R. Hollingsworth, secretary. H. H. Thomas, superintendent; Mrs. Nellie Thomas, matron. The salary of Mr. Thomas was increased from \$85 per month to \$125, and that of the matron was fixed at \$40 per month.

The superintendent was requested to submit the list of other officers and employees of the institution at the next meeting, when they will be passed upon and their salaries fixed.

Instructions were given the superintendent to advertise for bids for the furnishing of all supplies that the school will require from now up to November 30, 1907.

The various provisions of the appropriation bill recently passed by the legislature were thoroughly discussed, and the board went on record as opposed to the drawing of such enormous amounts from the state treasury. The deficits amounting to over \$27,000 from last year, which were allowed by the state legislature, were ordered paid, including the salaries since the first of the year.

A number of applications for parole of inmates of the school were received, but none were acted upon. The board did not complete its work until after midnight last night.

SCHOOL FOR DEAF AND BLIND.

New Board Meets and Organizes, With Miss Babcock as President.

Ogden, April 6.—The board of trustees of the state school for the deaf and blind met for a short time last evening and transacted a small amount of business and then adjourned and the new board met and organized, naming as president, Miss Maud May Babcock, vice president and chairman of the finance committee, L. L. Clarendon, secretary, Mrs. A. B. Corey. Only a small amount of preliminary business was disposed of and a bounteous supper was served. The report of the school showed it to be in excellent condition and good work being accomplished.

TO WARD OFF FLOODS.

Proposition to Raise River Banks to Avert Threatened Disaster.

Ogden, April 6.—Residents of the flooded district in the northwestern portion of the city held a meeting last evening at the county courthouse to hear reports of the amount of damage done by the recent overflowing of the Ogden river. James Witherspoon was chairman of the meeting. The reports showed that the water has done thousands of dollars damage to houses and property. Also that the water is now within 18 inches from the top of the banks and is gradually raising through the recent storms. A committee composed of E. Peterson, W. D. Van Dyke, Wallace Foulger, Arthur Foulger, Peter Erstrom and J. G. Kilstron, was appointed to investigate the condition of the river banks and to make recommendations as to the raising of the river banks so that in the future such floods cannot occur. This committee is to appear before the city council and county commissioners to get them to co-operate in doing something for the protection of the residents of that district.

CASE STILL IN DOUBT.

Rose Rolley Before District Court But Trial Opposed by Counsel.

Ogden, April 6.—After months of effort on the part of the district and county attorneys the case of the State of Utah against Rose Rolley charged with grand larceny, has been brought into the district court, but whether or not it will be tried by that tribunal is yet uncertain, also whether it is expected it will be. After the securing of a jury to hear the case the attorneys for the defendant asked that the formation be quashed on the grounds that she was under the age of 18 when she committed the alleged crime, and therefore the district court has no jurisdiction over her, as she would come under the jurisdiction of the juvenile court alone. The prosecution vigorously opposed the motion, claiming that the girl was over 18 years of age when the crime was committed. To substantiate the contention of the defense the girl's mother went on the witness stand and testified that Rose was born March 3, 1889 and produced the family record contained on the back of an old photograph album which gives the date of her birth. The last figure is somewhat blurred as though it had been made from a figure eight. The defendant also testified that she was but 17 years of age when the crime was committed. The prosecution put in testimony showing admission of the girl when she was first arrested that she was 18 years of age. The court took the case under advisement until this morning when the

trial was held. The case was argued by the attorneys for both sides. The court heard the testimony of the witnesses and the arguments of the attorneys. The case is still in doubt as to whether it will be tried in the district court or if it will be transferred to the juvenile court.

BRIGHAM CITY.
IMPORTED TREES CONDEMNED.
Mrs. B. T. Alvord Badly Burned—Runaway Smashup—Linenman Hurt.
Special Correspondence.
Brigham City, April 6.—At a meeting of the directors of the Brigham City Opera House last Monday, Mr. David P. Bart was appointed manager. He has been associated with the opera house for many years.

IMPORTED TREES CONDEMNED.
County Tree Inspector W. O. Knudsen went to Honeyville and Deweyville yesterday and condemned a shipment of trees that had been received from New York as nearly all of them were found to be diseased, and the inspector promptly ordered all such burned.

LINEMAN HURT.
John Rasmussen, the electric line man, was badly hurt in Ogden last Tuesday, in boarding a street car on his way to the powerhouse. He got rid of the electric light pole. The horses separated, one running home, while the other one was peacefully grazing on the court-house lawn when Roy came along.

RUNAWAY SMASHUP.
Roy Peterson came from Ogden the other day and stopped for a few minutes at a house in the southern part of the city. His big, black horse got tired of waiting for him and started running down Main street. They got rid of the electric light pole. The horses separated, one running home, while the other one was peacefully grazing on the court-house lawn when Roy came along.

Mrs. K. Kane, of Chicago, Uses Pe-ru-na in her family of five children, Grace, Myrtle, Edward, Reeves and George.

GRACE
Pe-ru-na in the home. After all, experience is the best teacher. Some doctors may write in favor of Pe-ru-na. Other doctors may write against it. But it is the testimony of the mothers and fathers who are rearing families, who love their children, who must economize as to doctor bills, who are raising little boys and girls into men and women of the future, it is the testimony of such people that really counts.

There is no way to positively ascertain how many families in the United States rely upon Pe-ru-na for the many climatic ailments to which the family is subject. The number must be a great one. Several millions perhaps. They have learned how to use Pe-ru-na for ordinary ailments, and in that way are guarding their homes against more serious diseases.

Such ailments as coughs and colds, sore throat and catarrh, croup and colic, indigestion and loss of appetite, anemia and nervousness, all these ailments are promptly relieved by a few doses of Pe-ru-na at the right time.

Millions of provident mothers and fathers are guarding the interests of the home by using Dr. Hartman's great remedy, and profiting by his medical booklet and personal advice.

motion to quash was denied and the trial ordered to proceed on Monday.

OGDEN SCHOOL BOARD.

The Ogden City board of education last evening authorized the superintendent to secure the Grand Opera House for the commencement exercises this year. They discussed at length the program being arranged for the year. April 15, when the school children will take part in a general cleaning up of not alone the school premises, but also their homes. They will also plant a number of trees on the city hall square.

The treasurer's report showed receipts, \$30,231; disbursements, \$9,935; cash on hand, \$19,708.

The health report showed 16 cases of diphtheria. Several applications for positions as teachers were received and two resignations accepted.

LICENSE TO WED.

A license to wed was granted to Napoleon Dial, 20, and Miss Emma M. Nebeker, 18, both of Willard. Execler county.

BRIEFS AND PERSONALS.

Volney C. Gunnell has taken the oath of office to serve the people as juvenile judge.

The condition of C. J. Lindale, the switchman who was injured in the yards Thursday morning, is as well as can be expected.

Adam Farber is the proud father of his first born, a boy, and Mr. and Mrs. Thomas Clark are very happy over the arrival at their home of a ten-pound baby girl.

Major E. A. Littlefield, who has been editor of the Utah State Journal for over a year past, has tendered his resignation, which has gone into effect. The editorial page is now in the hands of Major E. A. Littlefield.

Bibles of all kinds at Deseret S. S. U. Book Store, 44 E. S. Temple.

BANKS, 116 South Main street, are indifferent as to who may copy their styles. They claim originality and direct connection with American and European manufacturers that give them precedence in millinery. When anyone presumes to offer the same goods at a less price an issue is presented that will make it worth while for anyone to investigate, more especially those who would dress well at the least cost.

MYRTLE
Catarrhal Croup. Few people realize how frequently croup is caused by catarrhal congestion of the throat. Probably nine cases out of ten of croup is of the catarrhal variety. The medical profession recognizes three forms of croup. The spasmodic variety, membranous croup and catarrhal croup.

Nearly every case of the catarrhal variety, and a few doses of Pe-ru-na taken at the first appearance of the catarrhal symptoms is generally sufficient to avert the attack of croup altogether. Croup is a frightful disease. No disease of children so alarms the household.

MOTHER BELIEVES IN PERNA.

EDWARD
Kept the Children Well.

Mrs. K. Kane, 196 Sebor St., Flat 1, Chicago, Ill., writes: "Pe-ru-na has been used so long in our family that I do not know how I could get along without it."

"I have given it to all of my five children at different times when they suffered with croup, colds and the many ailments that children are subject to, and am pleased to say that it has kept them in splendid health."

"I have also used it for a catarrhal difficulty of long standing, and it cured me in a short time, so I have every reason to praise Pe-ru-na."

It is impossible to estimate how many homes have been protected against croup by the proper use of Pe-ru-na.

Household Remedies. There is no remedy in the world which has proven so popular for catarrh as Pe-ru-na. It has been used for more than thirty years and cured thousands of cases, as proven by our testimonials.

In the early history of this country every family had its home-made medicine. Herbs, teas, bitters, laxatives and tonics were to be found in almost every house, compounded by the housewife, sometimes assisted by the apothecary or the family doctor.

Furnishing medical compounds direct to the people, through the druggists, is simply the extension of the practice begun by the people themselves.

Nervous System a Wreck. John G. Hirdler, Garfield, Kas., writes: "On December 2, 1899, I was injured by a fall on the Santa Fe R. R., and my entire nervous system was impaired by the same. The help of a physician was useless. I believe I tried every one in the vicinity, but all were alike and I

remained without strength. "I then tried Pe-ru-na, and after using it for three months was totally well. I am seventy-one years old, and my work on the railroad is hard and tedious, but I can work like a young man in all kinds of weather, heat, cold, rain, snow or storm alike."

"Pe-ru-na is the purest and best medicine, and if used according to directions, it will help any person and cure any disease for which it is recommended. I recommend this medicine by my own experience to any one suffering from an ailment on the order of mine."

For Himself and Children. Mrs. Aline DePasse, 776 E. 16th St., New York, N. Y., writes: "It gives me pleasure to testify to the curative qualities of Pe-ru-na and Manalin."

"I was afflicted for over seven years with catarrh of the head, throat and digestive organs. I consulted many physicians, but they did me no good. "One day I happened to read some testimonials in your Pe-ru-na almanac. I decided to try Pe-ru-na and Manalin. I bought a bottle of each and after taking them for a week, I noticed a change for the better. So I kept it up and after using twelve bottles I was perfectly cured. "I also gave the medicine to my children and they had the same beneficial result. I would never be without these remedies in the house. "I highly recommend Pe-ru-na and Manalin to all my friends, and, in fact, to everybody."

Thousands of families have learned to trust and believe in Dr. Hartman's judgment, and to rely on his remedy, Pe-ru-na,

ing a bond in the sum of \$300 to be approved by the county commissioners. William Benson, who has been ill for the past two weeks, is now in a critical condition, threatened with an attack of pneumonia.

Laura Lyman Clark and family, and Clark Lyman and wife, expect to start for the Big Horn country, Wyoming, the last of the week. E. P. Ward and family were also to have started at the same time but have decided to remain here.

Gymnastics alone can never give that elasticity, ease and graceful figure which comes by taking Hollister's Rocky Mountain Tea. 35 cents. Tea or Tablets.—Z. C. M. Drug Dept.

HUNTINGTON.

LAND FOR THE LANDLESS. Eastern Utah Offers Splendid Opportunity for Homeseekers.

Special Correspondence.
Huntington, Emery Co., April 2.—Hans Sorenson, ex-marshal of Huntington, has been heard from. It appears that Hans and his brother, Hans Nielsen, hired a couple of horses in Moab, Utah, and they went to Monticello, where they thought the horses were theirs, and traded them off. Hammond & Sons, the owners of the horses, had them traced up and the men were arrested in Flagstaff, Arizona, and will be brought back to Moab for trial.

Both of these men left families in Huntington in very poor circumstances. These parties were arrested at Cleveland last fall, when they moved to Huntington.

There is considerable talk of land in Mexico, Canada and other far off places, and inducements are offered to settlers to go and settle up these outside and far off countries. But right here at home in Castle Valley there is a big boom on now, in taking up land northeast from Huntington. About 4,000 acres have been filed on in the last three weeks, and the demand more just is great in waiting for some one to file on it. This land can all be irrigated from the Cleveland canal, by extending and enlarging the waterway. When we first settled here 15 and 20 bushels of wheat to the acre was considered pretty good, now the farmer does not think his crop much unless he has 40 to 50 bushels of wheat and 50 to 75 bushels of oats to the acre. These bushels are common here now. Settlers who are looking after off for places to locate would do well to investigate what Carbon, Emery and Grand counties offer. These counties have land and water enough to comfortably keep and supply at least 1,000,000 inhabitants. And talk about coal, why we have coal at your door for \$2 per ton. Eastern Utah fruit is known as the best where ever it is used. It only needs a railroad through the country to cause train loads of it to be shipped out.

The farmers are now busy putting in their crops and spraying their trees. The mountains are covered with snow and the reservoirs are full of water, and everything points to a prosperous year.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the use of the Binaural method, which is caused by an inflammation of the mucous lining of the Eustachian tube. This inflammation is often caused by a running cold or a cold in the head, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing cannot be restored. Cases of deafness are caused by catarrh, which is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

J. C. HENNEY & CO., Toledo, O. Sold by druggists. Be careful. Take Hall's Family Pills for constipation.

PAROWAN.

IRON COUNTY APPOINTMENTS. City Marshal Thornton Resigns—Soaking Rains in Iron County.

Special Correspondence.
Parowan, Iron Co., April 2.—Following the two weeks of windy weather, which prevailed during the middle of March, it has been storming since about the 22nd, and the country is thoroughly soaked. The canal for conveying the water to the irrigators is about half full, and the country is in a state of high water.

At the meeting of the city council held last night, Stephen G. Peterson secured his position as city marshal, and a special meeting will be held tonight to appoint another.

COUNTY APPOINTMENTS. The county commissioners met April 1, and announced the following appointments: A precinct and road district was created for Gold Springs, and ordinance passed creating and defining them. The following appointments of road supervisors were made: Parowan district, E. P. Ward; Paragonah district, Wm. R. Williams; Albert H. Olson was appointed county jail and game warden. B. A. Lamoreaux, health officer for Paragonah; Rees J. Williams health officer for Kanarra; Hans J. Morgan, registrar of vital statistics for Parowan.

The application of Martin Skoukard for a license to open and conduct a saloon in what is known as Dry Canyon near Parowan, was denied; the application of the same person for a license to open a saloon at Summit was granted upon his promise to open a saloon at Summit.

FATHER AND CHILD.

Mr. John M. Stansberry, Amarillo, Tex., writes:

"For several years I had catarrh of the stomach. I was hardly able to do anything, and could not eat with any satisfaction. "When I commenced using Pe-ru-na, I weighed only 110 pounds. I took six bottles, commencing in the spring, and by the following winter I had gained 63 pounds. "I owe it all to Pe-ru-na. It cannot be praised too highly. "I am forty-five years old, and my occupation is that of architect and builder."

remained without strength. "I then tried Pe-ru-na, and after using it for three months was totally well. I am seventy-one years old, and my work on the railroad is hard and tedious, but I can work like a young man in all kinds of weather, heat, cold, rain, snow or storm alike."

"Pe-ru-na is the purest and best medicine, and if used according to directions, it will help any person and cure any disease for which it is recommended. I recommend this medicine by my own experience to any one suffering from an ailment on the order of mine."

MURRAY DEPARTMENT.

The "News" is delivered in Murray and vicinity from the branch office every night. E. E. Laursen, Branch Manager. Orders for Church Works and advertisements received. Office with W. A. Lyon, Jones Block Bldg. Phone 87, Bell 124-B.

MASS MEETING CALLED.

Property Owners Will Discuss Best Methods of Platting City.

Murray, April 6.—At the regular meeting of the city council Tuesday night Joseph Ulmer handed in his resignation as city engineer. The resignation was accepted and a successor to Mr. Ulmer will be named in the near future.

Ordinance chapters 36 and 41 relative to the licensing of rooming houses, barber shops, etc., was reconsidered and rates reduced one-half.

The treasurer's report ending March 31, was read and accepted. As was also the road supervisor's, whose bills were ordered paid. A question arose as to whether property owners, allowing land to be cut up by the city, can demand payment for their consideration. The question was referred to the city attorney.

The volunteer fire department presented a list of what is needed in way of caps and uniforms. The matter was referred to the fire committee.

A suggestion was offered that public subscription be solicited for the purchasing and installing of a town clock in the new city hall. The suggestion did not receive any support. However, a committee was appointed to ascertain the most feasible way of getting money to buy and place the clock.

An ordinance compelling slot machines, billiard and pool tables to pay a license was also adopted, and one defining the requirements of improving of sidewalks in business districts.

It was moved and carried that a mass meeting of property owners be called to convene in the opera house Friday, April 12, at 7:30 p. m., for the purpose of getting an opinion as to the best methods to be adopted for the platting of Murray City.

FUNERAL OF F. E. JOHNSON.

The funeral service over the remains of Fritz Emil Johnson, who died March 30 at 13 Pitt street, Salt Lake City, of heart trouble caused from an attack in rheumatism, were held from the Murray First ward meetinghouse Wednesday. The deceased was a youth of 19 years, and spent most of his life at Murray, where he has many relatives and friends. Bishop U. G. Miller presided at the services, and the other speakers were A. E. Anderson, Bishop

of the Twenty-fifth ward, Salt Lake City, and L. G. Larson, all of whom spoke commendably of the well commenced life of the departed, and of his honesty and integrity, speaking words of comfort to the family.

Mr. Johnson worked at the Garfield smelting plant, and that he was esteemed by his employers and co-workers was in evidence by them placing a beautiful floral tribute upon the casket.

NEWS BRIEFS. Colored art glass which will cost about \$15 has been selected for the windows of the new First ward meetinghouse in Murray.

Rex Winder has purchased a half interest in the Utah Bottling company of Mr. Portor, and will be a partner of Melvin Fisher. They will make improvements that will facilitate their work and enable them to put out a higher grade of goods.

STARTUP'S DOWNY CHOCOLATES. C. H. BANKS UNDERTAKING CO. MURRAY, UTAH.

OPEN DAY AND NIGHT. Phones, Bell 102 R. Ind. 19.

MUSIC TEACHERS. All who desire to consult the list of the representative professors and music teachers of Salt Lake should read the "Musicians' Directory" in the Saturday "News."
