BOISE TOOK BOTH. First Game Ended With Score of 6 to 5; Second, 6 to 3.
Spokane, Wash., July 31.—In a double-header today Boise took both games and assumed first place in the race for the pennant. The nrst game ended closely, Roise taking it from Spokane, 6 to 5. The second game was never in doubt and after three truns, and duplicating the perform-ance in the fourth inning, it was seen that Spokane must content itself with second place. McFarlan, the big plicher from Bolse, was easily the star in both games. He had fine speed and good con-trol in the first game and when he was seen to walk into box for the second, no on thought he was going to last. His first and he walked fewer men and a less in the first game. Score:
First game — R. H. E. 5; Second, 6 to 3.

When those rough-riders get onto him it will be a great sight." The outlaw horses from the Madison and Ruby valleys will be in Butte tomor-row night. The steers for the steer-roping contest will be driven in on Friday. The pens and corrais are being built out at the gardens. The horses will be driven into a small corrai one at a time. There they and corrais one at a time. There they and corrais one at the cider will have to mount them as they come out. Work was also started yesterday on the tank into which Odell will make his so-toot dive. The Bozeman and Missoula baseball teams will arrive in Butte Saturday night. -Butte Miner.

 Chicago, July 37.—Seven hits or ten bases, logether with an error, a pass and a wild pitch gave the Chicagos today's game in the second inning. Both teams fielded loosely and both pitchers wero unsteady and wild. Attendance, 9,000. Is commonly gradual; one dish after another is set aside till few remain. These are not eaten with much relish, and are often so light as not to afford much nourishment.

Here is what an eastern writer says about the records being made at the Salt Palace saucer track: Excellent time is being made by the cyclists who are rac-ing at Salt Lake City track. George Col-lett, the ensterner, and Samuelson, the Giant western rider, are winning most of the money, and incidentally creating most of the records, Recently Samuelson lowered the three mile competition record for which he received a special gold med-al in addition to th cash prize that went with the race.

With the face. When automobilists go to Flofida for the record-breaking tournament this No-vember, they will find that the Florida East Coast Automobile association, has erected a handsome clubhouse at Day-tona, which will be the headquarters dur-ing the meting. Over the doorway are the figures 39, which refer to the present world's record for automobiles, made by W. K. Vanderbilt, Jr., over the incom-parable straightway stretch of sand which runs by the clubhouse. It is ex-pected to have a series of record-break-ing trials at Armond during November, when the 60-horsepower Pope-Toledo rac-er and other unachines of the same type will attack the venerable Father Time with a view of shattoring the 29 seconds mark. mark

"I never think of an extra inning game without recalling a remark by Rube Waddell when he was with me in Milwaukee before the team was transferred here," says Connie Mack of the Philadelphias." "We were playing a double-header in Chicago and the first game went 11 in-nings before Rube finally handed it for us. Waddell looked so good against the White Sox that day that I thought I would use him in the second game, too. "Rube,'I said, as he came in hot and fushed at the end of the fifth fining, 'do you think you could pitch the second game for me todays." "Ton't know yet,' draweled the Rube. Til see how I feel when I warm up."
