

# MINING, BUSINESS AND STOCKS

## MASON VALLEY AND PRINCE CON.

Both Sold Up During Today's Early Calls of Mining Exchange.

## IRON BLOSSOM AGAIN ACTIVE

Little Doing Among the Unlisted Shares—Closing Quotations And Sales.

Mason Valley has been selling off for several days, but this morning a reaction came, with the stock bringing \$2.25 at the close. Prince Consolidated was also in strong favor with sales reported at \$1.50 and \$1.32 1/2. Iron Blossom displayed more strength; so did South Columbus and Tintic combination. Silver King Consolidated sold down to \$1.75, while Beck Tunnel advanced to 90 cents on a buyer 60.

Among the unlisted Ohio Copper was the only seller, this stock having been brought out at \$5.40.

The closing quotations and sales were:

### REAL ESTATE IS A GOOD INVESTMENT under three conditions:

- 1st. As a home.
  - 2nd. As a farm producing a crop on land located right; cheap enough and good enough to grow in value.
  - 3rd. Business or prospective business property in a growing town where such property is located in the direction in which business is growing.
- WE CAN SELL you any of the three classes at prices that will make you glad ever after.
- GEORGE M. CANNON CO., 612-513 Templeton Building, Phone Bell 57.
- And after a while you'll wonder why you didn't BUY AND BUY MORE preferred stock in Utah-Idaho Sugar stock at today's prices.

### DIVIDENDS FROM TINTIC.

Colorado Directors Decide to Disburse Eight Cents a Share.

The directors of the Colorado Mining company, at their meeting held in Provo, Utah, on December 8, decided to disburse \$80,000, or 8 cents a share, to all shareholders of record on the 19th inst. The Sioux Consolidated company, having issued all its shares, the actual disbursement by that company will be \$59,631.12, or 8 cents a share on 745,389 shares. The initial dividend of this company was 3 cents a share; the shareholders received 5 cents a share and a third and last is, as stated, 8 cents a share.

### BOSTON CONSOLIDATED.

General Manager L. Hanchett Writes To a Shareholder.

Lafayette Hanchett, general manager of the Newhouse mine, is reported to have written the following to an eastern shareholder of Boston Consolidated: "The Boston Consolidated company met with some unusual experiences in opening its porphyry mine, which prevented realization of expected results as early as anticipated. The property is so large that the fact that we met with a discovery of some undesirable ore at one point only served to delay us until the mine could be opened at another point, and I am pleased to tell you that the mine is being supplied with 1,600 tons daily of ore, from which we can earn a profit, and we hope not later than February next to supply the mill to its full capacity with this class of ore.

"The mill itself is doing splendid work and no question remains as to the success of the property. The question now for our attention is the reduction of mining costs, and this can be accomplished very rapidly as stopes advance in size and extent."

A. S. CAMPBELL, Stock Broker, 215 D. F. Walker Block.

MINERS' ATTENTION. With one year's option I can sell your meritorious mining properties. C. S., Box 120, Park City, Utah.

Mining Co's Attention. We repair and rewind burned-out motors. Special attention to out of town business. A. H. work. Washas Electric Service Co., No. 48 Post Office Place, Bell phone, main 2216.

## PIOCHE A CENTER OF ATTRACTION

Edward Thomason Tells More About Conditions in Southern Nevada Camp.

## BRISTOL CON. TO RESUME

What Nevada Utah Is Doing—At the Ely Valley—Rich Prince Con. Shipment.

Edward Thomason of Pioche, manager of the Ely Valley mine at that place, mention of whose arrival in the city was noted in yesterday's "News" consented today to give more detailed information about the work being carried on in the southern Nevada camp at this time.

"Great activity is being displayed everywhere in the Pioche and adjacent districts," said he, "and owners of property everywhere have found it difficult to get hold. Right now anyone that wants work can get it there as fast as he can get it. Business in Pioche. While the various mining companies have been busy, many prospectors are in the hills doing their assessment work and it is needless to say that there will be few claims anywhere in the country open to location on January 1.

"One of the attractive properties of the Highland district is the Oregon Pioche, owned by William Bailey, superintendent of the Prince Consolidated, and others. This company has recently let a contract to run a tunnel 300 feet to the Mendha fissure which crosses the Pioche. The location of the tunnel is 4,500 feet. A steam drill has been installed recently and work is being pushed for all it is worth.

"The California-Pioche company is now drifting to catch the Susan Duster vein, which Supt. William Wheatley feels confident of encountering in the near future. The Pioche is a property owned by James Farrell, Mayor of Pioche, and other Salt Lake. At present, this company is sinking its main working shaft and it is now somewhere between the 200 and 400 foot level. The Golden Prince company, another corporation controlled by Salt Lake, is down over 100 feet with its working shaft and has struck a ledge of porphyry which is reported to be a great deal of importance to mines located along the strike of the Prince Consolidated ledge. The Pioche Demolition company, under the management of Owen A. Bailey of Salt Lake, is down 200 feet with its shaft and the cross-cut on that level is expected to break into the ore body any minute.

"The Mendha mine in the Highland district, looks bigger and better than ever and is unquestionably one of the big mines of the Pioche country. Shipments are being made on the basis of 25 tons a day in the immediate vicinity of the Gipsy group, owned by John Roder and James A. Nesbitt of Pioche, in which a contract has been made for 60 feet more work. The Bristol and Pioche is down 700 feet with its main working shaft and no stop will be made until the 1,000-foot level is reached. This property is situated in the quartzite, or in the portion of the camp from which much of the wealth was extracted in the early days of Pioche. A shaft is being sunk on the Roadside property owned by Murray of Salt Lake and Lake and William Lloyd of Pioche. Mr. Lloyd says he will have pay ore within 100 feet. The Nevada Des Moines company is drifting from the main shaft and the shows mineralization indicative of the near approach to an ore body. This property is located just below the main part of the town and the owners express the utmost confidence that they will develop a splendid paying mine. The Chicago-Nevada company, controlled by a syndicate of Chicago capitalists, is pushing a vigorous development campaign and the work now in progress consists of the sinking of an incline shaft on a manganese ore body. This shaft is to be run down to the 300 foot level before cross-cutting. By James Wheeler and others, the sinking of a shaft is in progress.

### IN BRISTOL DISTRICT.

"In the Bristol district, Ed F. Freudenthal and associates have a very attractive property in the Lucky Star mine, and they are in the midst of an active development campaign. The active development campaign is very encouraging and it seems to be the general impression that Mr. Freudenthal is going to make good there. The Bristol Consolidated company has been in the district for some time, but has not yet been able to develop a large fund and advice from the east are to the effect that new equipment is to be installed and that the development work will be carried on along broad lines. Seven leasers are working on the Bristol Con., and they are all making good.

"The Nevada Utah company has about 150 men on its payroll at the Day mine in the Jack Rabbit district. This property is equipped with a splendid plant and the mine is in condition to extract ore upon an extensive scale. New equipment has been obtained for the Jack Rabbit railway and the company will shortly begin outputting 250 tons a day."

### AT THE ELY VALLEY.

When questioned as to the situation at the Ely Valley mine, Mr. Thomason stated that the main shaft is down 200 feet and work is being pushed vigorously in what is known as the north cross-cut, and in which the Ely Valley vein was encountered at 50 feet out from the shaft. The main shaft is down 200 feet and work is being pushed vigorously in what is known as the north cross-cut, and in which the Ely Valley vein was encountered at 50 feet out from the shaft. The main shaft is down 200 feet and work is being pushed vigorously in what is known as the north cross-cut, and in which the Ely Valley vein was encountered at 50 feet out from the shaft.

### FINANCIAL REPORT.

Brief Statement of Knight Companies For Month Ending Dec. 1.

(Special to the "News.")

Provo, Dec. 11.—Following is a brief financial report of the Knight companies Dec. 1, 1908:

Indian Queen, cash, \$16,137.79; treasury stock, \$250 shares; Ibox Gold Con., cash, \$2,393.20; treasury stock, \$3,050.00; Colorado, cash, \$54,300.00.

A dividend of 8 cents per share was declared, payable on the 24th inst. transfer books to close 19th inst.

Mountain Lake, cash, \$7,956.67; treasury stock, \$2,450 shares; Mineral Plant, accounts payable, \$7,170.50; Crown Point, cash, \$12,696.74; treasury stock, \$12,900; King David, cash, \$1,138.57; treasury stock, \$37,697; Iron Blossom, cash, \$3,666.60; treasury stock, \$10,000.00; Utah Treasure Hill, cash, \$1,077.33; Opex Con., cash, \$34,291.55; Black Jack Con., accounts payable, \$10,383.32; Beck Tunnel Con., cash, \$800.97; East Tintic Con., cash, \$800.97; treasury stock, \$16,000; Bruts, cash, \$3,165.00; treasury stock, \$250,000.

### ORE AND BULLION.

The ore and bullion settlements reported late yesterday by McDonnell & Company were: Crude ore and concentrate, \$30,000; base bullion, \$50,000. Total, \$80,000.

### MARKET IRREGULAR; CLOSING DULL

New York, Dec. 11.—There was an all-around evening of advances and declines shown by the opening prices of stocks today, and an unusually large number of quotations were unchanged from last night. The mixed changes were nearly all small.

A slight advance in prices was overcome by a reaction of bull operations in the coalers. Railroad stocks generally stiffened in sympathy, but the low-priced stocks which have figured prominently in the recent market were not so prominent. Near 1 o'clock there was another sag but there was no marked weakness.

United Railways & Investment preferred yielded 1 1/4 and American Sugar 1.

A rise in a few stocks contrasted with a drooping tendency in the general list carried the average below last night. American Smelting declined 1/4, New York Air Brake 1/4, and Western Union 1/4. Wabash preferred rose 1/4, and Delaware & Hudson 1/4. St. Paul preferred declined 1/4, Central Leather moved 1/4.

Prices broke sharply under a flood of selling orders in the afternoon. The drive was directed chiefly against Union Pacific and when it gave way 2 points were lost, else a tumble. American Smelting was also a target for the bear selling and dropped 3/4 to 30.

Seven losses were registered in several other stocks. General Electric receded 1/4, St. Paul 1/4 and Penna. Northern Pacific Southern Pacific Amalgamated Copper and Distillers Securities 1.

The market closed irregular and dull. Various additions to the 1-point losses occurred, after which covering by shorts called. C. & O. rose 1/4. The rally caused a shrinkage in the dealers.

### LIVESTOCK.
