

# EVENING NEWS.

Tuesday, June 21, 1887.

## FRAGMENTS.

OLD FOLKS DAY TO-MORROW.

DISTRICT ATTORNEY PETERS went to Ogden to-day.

The Territorial Supreme Court held a brief session to-day.

ED. DICKINSON, general superintendent of the Union Pacific, is in Salt Lake City.

C. E. WORTLELL, superintendent of the Western division of the Union Pacific, is in town.

A CARLOAD of New West Mission teachers went east from this city yesterday.

THE RACES commenced to-day. Tomorrow's programme is to be one of the best of the meeting.

P. W. EGGLESE, general agent of the U. P. in San Francisco, has come to Salt Lake on a brief visit.

WALTER LONG fell into the hands of the police this morning, and was fined \$5 for inducing in a drunk.

THOS. J. POTTER, vice president and general manager of the Union Pacific, is expected to reach this city this evening.

THE SURVEYING party recently sent out to examine the proposed route of the Utah Central Railway in Central Nevada has not yet returned.

THE children of the Primary Association are requested to meet at the Social Hall to-morrow, Wednesday, at 4 o'clock p.m. for singing practice.

WHEN the Utah Central is pushed into Nevada, which is likely to be the case within two or three years, a large section of country will be opened up as a field of enterprise for Salt Lake business men.

FOUR carloads of California teachers en route east left this morning over the Union Pacific. The remainder of the party occupying four cars, are expected in this city to-morrow morning.

IN the Third District Court to-day, in the case of James S. Watson vs. W. H. Remington et al., the complaint was amended by correcting the name of the defendant to Remington, the hearing on order to show cause was continued to July 5th.

JOHN ROBINSON is to be tried in the Police Court to-morrow for refusing to build a fire in which to place a stovepipe, he preferring to push said pipe out through a hole in the wall, notwithstanding the city ordinance to the contrary.

A SHAWNEE festival will be given in the Seventh Ward this evening, commencing at 8 o'clock. The affair is in the hands of the Mutual Improvement Association of the ward, and a pleasing programme and all other necessary arrangements have been made for an enjoyable time.

A FEW minutes before 10 o'clock this morning a fire alarm was sounded from the City Hall. The cause was the burning of some hay and a portion of Mr. Duke's barn, on Fifth East St., between Second and Third South streets. The firemen were promptly on hand, and the fire was soon extinguished. The loss was about \$400.

BROTHER THOMAS CORKILL, late President of the North London branch, arrived with the last company of immigrants. He is desirous of obtaining employment of some kind, when he is not engaged in the sale of his merchandise, particularly clothing, dry goods and furniture. His address is care Charles Denney, this office.

Y. L. M. I. A. Conference.

On Friday next, the 24th inst., commencing at 10 o'clock a.m., the regular quarterly conference of the Y. L. M. I. A. of this State will convene in the Fourteenth Ward Assembly Room, commencing at 10 a.m. and at 2 p.m. A punctual attendance of presidents from the several branches is most earnestly desired, or at any rate a representative from each society, as verbal reports are expected to be rendered.

Relief Societies.

The Quarterly Conference of the Relief Societies of Salt Lake Stake will be held in the Fourteenth Ward Assembly Room, on Thursday, June 22d, commencing at 10 a.m. and at 2 p.m. A punctual attendance of presidents from the several branches is most earnestly desired, or at any rate a representative from each society, as verbal reports are expected to be rendered.

Wanted at Cheyenne.

A couple of weeks ago a negro named Harry Williams was sentenced to the city jail for gambling. It now transpires that this same individual has escaped from Cheyenne, Wyoming, on the charge of robbery, and also as a witness in a criminal case. Sheriff Sharpless, of Cheyenne, is now in the city and will take him back with him to-morrow.

Strike at Coalville.

Last Wednesday the foreman of the Home Coal Company's mine at Coalville discharged one of his men for cause, whereupon the entire force of miners demanded his reinstatement and the reasons for the dismissal. This was denied and the men went out on a strike. They are still out and decline to go to work until the company bows down to their terms. The miners allege two or three other causes for the man's dismissal. They claim that their pay is insufficient and that for no good reason it was kept back for several days last month. It is not yet known what course the company will take in the mean time. Park City's supply of coal comes from Almy. Park City Record.

A Utah Invention.

Messrs. Charles Garth and J. D. Haines, of the Water Elevator and Fire Co., Logan, are in this city on business connected with an invention recently brought out by the latter, which is designed to elevate water from flowing streams for mining, irrigating, mechanical and other purposes.

Between two kinds of boats, which are moved to the banks of the stream, is set a water wheel of peculiar construction, having diagonal blades, made much in the form of the propeller screw of a steamship. The water rushing against these diagonal blades operates on much the same principle that wind does on the arms or fans of a windmill, imparting great power. This power is utilized in operating elevating buckets which are attached to a belt chain, the links of which fit over the projections of "sprocket" wheels, making the motion positive, and any slipping impossible.

A very slight fall in the stream, in fact if it is only enough to produce a rapid current, may be made to produce considerable power by means of this machine.

It is interesting considerable attention as a means of elevating water from the channels of natural streams, and promises to become a great aid to irrigation and mining operations.

## A House Falls on a Woman.

This afternoon, at two o'clock, the house of J. M. Bowers, situated on the corner of Utah and Granite streets, fell with a crash. The report at once drew a crowd of people to the spot, and the rumor was spread in the streets that several people were buried in the ruins. In fifteen minutes not less than five hundred people had gathered on the spot, and all who could find a place to work began doing all they could to remove the debris.

It was soon made clear that the only occupant of the house that was not accounted for was Mrs. J. M. Bowers. Only a moment before the building fell she had been seen by the neighbors standing in the front door of the house, and almost in the instant when the crash came, she had left the door and gone into the interior. Her body was attached to the roof, and hundreds of willing hands helped to pull away the scattered timbers lying on top of the wreck. Others threw away the bricks which were lying on the ruins of the house. This work had proceeded about fifteen minutes when a boy, who had crawled under the debris, called out, "here she is!" and all effort was at once directed toward the rescue of the woman.

The boy had discovered the feet of Mrs. Bowers, who was crushed under a confused mass of bricks and timbers, and after five minutes' hard work her form was plainly visible. It required fully five minutes more of hard work before she could be extricated.

The house was removed at once to the house of Dr. Sargent, which is situated next to the ruined building. The woman's condition was such that the doctor pronounced her to be extinct. Mrs. Bowers' skull was crushed, her bones were broken, and the chest was crushed in by a large timber that had fallen directly across her body. Her death must have been instantaneous. Mrs. Bowers was about 35 years of age, and leaves no children.

The house was a one-story and a half brick, about fifteen feet by twenty-five, with an on the east end about fifteen feet. Some time ago the sidewalk in front of the house was raised up about eight feet above the level of the street. This made the dwelling very inconvenient, and a few weeks ago Mr. Bowers let a contract to have the house raised to the level of the street. This work had been completed, and the building was ready to be built. But the foundation was not built. But the foundation was not built. But the foundation was not built.

Ogden's Bad Boy Boom.

Yesterday afternoon Simon Higginbotham, Jr., indulged in a little picnic which may cause him some trouble. It appears that he had been drinking yesterday afternoon and went home somewhat quarrelsome. He wanted the horse and buggy, but his father forbade him taking it. He has been somewhat troublesome and his father instructed Officer Harrop, who happened along to arrest the boy if he attempted to take the buggy. Simon, however, determined to take it, and Harrop requested him to let it alone. A brief conversation ensued during which the officer asked Higginbotham to let him see the horse and buggy. He refused, and the officer continued to threaten him and the officer grabbed him by the arms just above the elbows with his right hand, and he pulled out his pistol on his left shoulder and commenced to blaze away the bullets, three in number, passing by the officer's head. Higginbotham, who was standing at the back of the crowd, screamed, and he thought he was shot, and he relinquished his hold to attend the lady. Simon moved off, and the officer followed him. The latter, however, stood by the officer, who was unarmed, and started to get a weapon. As he was retreating Simon took aim and by a sudden called Harrop's attention to it. He turned just in time to see Simon shoot at him. The ball passed between his body and his arm and whistled rather unpleasantly as it passed by.

Another Elder Ill.

A private letter has been received from Elder Joseph Thorup, who has been laboring for some time in the South Carolina Conference, stating that on the 12th inst. two days previous to the date of the communication, he was taken down with typhoid fever, at a town called Pastry. He is a faithful missionary, and was for some time the companion of Elder William N. Anderson, who reached home on Saturday afflicted with the same malady, which appears to be epidemic in the part of the south where those Elders have been laboring. Elder Anderson is still prostrated and is very ill. Before he started from his field of labor for home, Elder Thorup, now confined to his bed, was very ill, and he thought of himself, carefully nursed him. We hope soon to learn of the recovery of both of those brethren.

Bathing in Public Places.

With the present warm weather, the practice of bathing in the river and other places has become a popular indulgence by many boys, whose actions are so indecent as to call forth strong objections on the part of those who are compelled to witness them. There is a city ordinance against such conduct, and the City Marshal says he intends to see that it is enforced. Under existing circumstances, it might be well to see that the application of the ordinance should be more rigorous than heretofore. The boys have been warned time and again to desist, but the effect of the warning has been apparent for only a day or two, when the practice would become as offensive as ever. The arrest of every one who violates the law would have a salutary effect.

Accidents.

On Saturday afternoon A. E. Bergman, of the Utah National Bank, was riding on an express wagon in the southwest part of the city. In turning a corner he was thrown off his seat, and in falling his left arm was broken at the wrist.

A man named Harrison, in the employ of the Promontory Stock Company, was thrown from a horse on Sunday. His collar bone was broken, and he was taken to the hospital where his injury attended to. Ogden Herald.

A Long Journey.

Some time last year Lewis Peck made a trip south on his Columbia bicycle, which going and returning made over 300 miles of riding, up to that time the longest distance straightaway ever made by any local rider in the Territory. Now we understand that Charles Johnson has just set out on a "stunt" for the south. He took his bicycle with him, and he has been intended to wheel all the way to St. George.

Bishop Hughes Arrested.

To-day Bishop Henry Hughes was arrested at Ogden by deputies Whetstone and McEneaney. An indictment for unlawful imprisonment has been found against Mr. Hughes, and he was brought to Ogden this afternoon. He is held in the city jail, and a writ of habeas corpus is being sought for his appearance. Ogden Herald.

Two Companies.

A private telegram received in this city yesterday states that a company of immigrants will sail from Liverpool August 12th, on the Wyoming. The company is composed of 100 persons, and the Alaska, which will be the last for this season.

## NEW READERS AND SPELLER.

The Special Convention Changes Both.

In pursuance of adjournment the special school convention met at 10 a.m. to-day.

The committee appointed yesterday to consider the matter of a change in readers and speller rendered the following report:

"To the Text Book Convention: Gentlemen—Your committee on readers and spellers recommends the adoption of Bancroft's Readers, with some dissent. The prices are given in the proposition of the agent of the publishers, herewith given.

We also recommend the adoption of Harrington's Graded Speller, in one volume, two parts. Prices herewith as per proposition of publishers, agent.

GEORGE BRIMHALL, JOHN R. PARK, WM. M. STEWART, T. C. CALLISTER, R. ANDERSON.

A minority report was rendered by E. H. Anderson recommending the adoption of the New National Readers. The proposition of the publishers of the readers adopted, is to exchange the old ones for the new ones, free of further charge, and to furnish them at a cost of 40 cents per copy, less than is now paid for the new ones in use.

The publishers of Harrington's Speller, Harper & Brothers, propose to furnish it at 5 cents per copy less than is being paid for the one now in use. Watson's, and to exchange the old ones for the new ones, free of further charge, and to furnish them at a cost of 40 cents per copy, less than is now paid for the new ones in use.

The prices of the books adopted will be as follows: 1st Reader 10 cents, 2nd Reader 10 cents, 3rd Reader 10 cents, 4th Reader 10 cents, 5th Reader 10 cents, 6th Reader 10 cents, 7th Reader 10 cents, 8th Reader 10 cents, 9th Reader 10 cents, 10th Reader 10 cents.

After transacting the above business the special convention adjourned sine die.

At 2 o'clock the REGULAR CONVENTION met. The minutes of the previous session were read and accepted, and the reports of the several committees were considered. Different text books were being rendered and discussed when we went to press.

The New County Jail.

The Salt Lake County officers have let the contract for building the new jail to the Salt Lake Building & Manufacturing Company, for the sum of \$13,767.

THERE will be an ice cream and strawberry festival and a musical concert in the Nineteenth Ward hall this evening, commencing at 8 o'clock. It will be under the auspices of the M. I. Association.

NEWS OF THE DAY.

—There was an earthquake at Smyrna and Scio yesterday.

—Twelve laborers were killed and thirty injured by an explosion of fire damp at Sapp, France, yesterday.

—The inevitable daily railway disaster was located at Potsdam, Prussia, yesterday.

—The French flag has been hoisted at Bannock, Sierra Leone, and the British don't know what to do about it.

—The United Kingdom outside of London celebrated the Jubilee yesterday, in order to give those who desired an opportunity to be present there to-day. There is a scene of pomp and display in the world's metropolis to-day, the ceremonies being grand and the crowds something like the London Jubilee.

—A heavy suit has been brought by Adolph Florheim, of Milwaukee, against Kershaw & Co.

—Lucy Marie, a Frenchman, who arrived in New York Saturday, is held for extradition on the charge of murder.

—Judge Shepherd has under advisement the proposition to admit the Chicago blood ring to bail.

—Three men have been arrested on suspicion of being connected with the Texas train robbery.

—Railroad news is voluminous to-day. The Pacific Commission was taking testimony again yesterday.

—The scenes at the shocking disaster to Pligrina, at Paks, Hungary, were terrible beyond description.

—The British bark Afton was wrecked in the South Sea on May 30. All the cargo but no lives lost.

—A cable is to be laid from the Vancouver terminus of the Canada Pacific Railroad to Australia, via Hawaii and Fiji.

CALL FOR A MASS CONVENTION.

HEADQUARTERS PEOPLE'S COUNTY COMMITTEE, SALT LAKE COUNTY, SALT LAKE CITY, June 18th, 1887.

Pursuant to call made by the Territorial Central Committee of the People's Party, a mass convention is hereby called to meet at the Salt Lake Theatre, in Salt Lake City, on Saturday, June 25th, 1887, at 12 m., for the purpose of electing delegates to the Salt Lake County Constitutional Convention, to be held on Thursday, June 30th, at 12 m., at the City and Hall, Salt Lake City, for the purpose of framing and adopting a State Constitution.

Invitation is hereby extended to all citizens of this county, irrespective of party, creed, color, or race, to be present in person, or by proxy, at the mass convention, with the understanding that if they so co-operate, each shall be accorded its fair share of representation in the constitutional convention.

By order of the County Central Committee of the People's Party.

ELIAS A. SMITH, Secretary.

A GIRL OF ANOTHER COLOR.—Two enthusiastic in his praise. "What do you think of the new girl, John?"

—Husband—Was that her that just let me in?

—Wife—Yes, Husband—Well, she's just a daisy.

—Wife (tells)—Think so? Why, she has a complexion like a moss rose, and eyes like—don't you think so? And her teeth are splendid, too.

—Husband—John, I don't want to get in by a girl with a complexion like polished ebony, eyes as large as saucers, and teeth two rows of plate keys.—Boston Courier.

OBITUARY.

SCHOFIELD.—In Beaver City, June 18th, 1887, at the residence of her son Thomas, Hannah Schofield, widow of Jonathan Schofield, late of the Tointonville branch, Manchester, England, and was baptized into the Church of Jesus Christ of Latter-day Saints in 1841, by Elder Joseph Barrow, now residing at Kanab, Mulder County. Her husband emigrated to Nauvoo in 1842, and died there about six months after his arrival. Since that time she has lived with her son Thomas, who formerly presided over the Tointonville branch.

Sister Schofield emigrated to Utah in 1869, leaving the Tointonville branch June 10th, sailing on the ship Emerald Isle and arrived in Salt Lake City September 2nd. She resided in Centerville, Davis County, until 1874, when she removed to Beaver City. She has ever been a firm believer in the Gospel of the Son of God, as taught by the Latter-day Saints, and died full of faith and the hope of a glorious resurrection.—COM.

DEATHS.

SVENDSEN.—At Mount Pleasant, June 5, 1887, of typhoid fever, Anna Torgensen Svendsen. She was born January 7, 1837, in Sweden. Her father, Peter Svendsen, was a member of the Church of Jesus Christ of Latter-day Saints, and was married to Andrew Svendsen in 1865, in which year both emigrated to Utah. They lived in Mount Pleasant, Sanpete County. She married her husband, who was a member of the Church of Jesus Christ of Latter-day Saints, and was a faithful Latter-day Saint, and awaits a glorious resurrection.—COM.
