BOSTON. Boston. July 18.-Although the wool market is still quiet, it is believed that an active period is about to open. The larger manufacturers have not been heavy buyers, but enough of the smaller mills have been operating to make the orgeregate of sales larger than for sev-eral weeks. In prices the market is not-ably strong. The continued firmness re-ported from the London sales is an im-portant factor. Pulled wools are scarce. Territories have sold well, and are quoted:

Minneapolis, Du-luth and Chicago reported receipts of 199 cars against 21 cars a year ago. Birength of wheat held corn steady, september opened 15 lower at 645, sold at 554, and then reacted to 35.
