

15  
FIFTEEN VIBRATIONS  
IN WARS SINCE THE BEGINNING OF  
AUTHENTIC HISTORY, SAYS SE-  
CRETARY OF PEACE SOCIETY.

16  
NINETEENTH CENTURY LOSSES  
Estimated at 14,000,000—National  
Debts of the World Powers Are  
Placed at \$31,633,154,000.

Chicago, May 1.—Amazing statistics will be presented to the National Peace congress, which convened here Monday, by Benjamin F. Trueblood, secretary of the American Peace society. In a report compiled for distribution among the delegates, it is asserted that 15,000,000 persons have sacrificed their lives in wars since the beginning of authentic history. "This vast number of victims," says Mr. Trueblood, "is about equal to all the people who inhabit the globe for the last 600 years, allowing three generations to the century and 650,000,000, the estimated population of the world at the opening of the nineteenth century, as the average population per generation."

"The usual estimate of the number of men lost in the wars in the nineteenth century, including those who died of wounds and disease, places it at 14,000,000. Of this number the Napoleonic campaigns are responsible for about six millions. Losses in the American civil war have been variously estimated at from 800,000 to 1,000,000 men. The brief war between Prussia, Austria and Italy in 1866, entailed a loss of 45,000 men."

Mr. Trueblood also gives figures governing the cost of war from a financial standpoint.

"The figures," he said, "are staggering and probably would be more so if they could be fully obtained. Only approximate correctness is claimed for the following figures."

The Napoleonic campaigns, covering 19 years cost \$15,000,000,000; the British-American war, 1812-14, \$300,000,000; the Crimean war, 1854 to 1856, \$1,000,000,000; American civil war, \$10,000,000,000; and the Prussian-Austrian war of 1866, \$250,000,000. The national debts of the world, according to Mr. Trueblood estimates at \$31,633,154,000.

"The significance of this vast sum, the interest on which is over one billion dollars a year, is that practically the whole is chargeable to war and militarism."
