Political Points.

CHICAGO, 20. — *Tribune* Omaha special: Senator Grover of Oregon, who passed through this city on Friday en route for Washington, told a reporter that the democrats on the Pacific Coast were gratified over the success of their party in the east, and being able to supplement it with a democratic majority in California. While the wave was too late to reach Oregon, the democrats there are not discouraged. Politicians in California and Oregon already speak of nominating Governor-elect Cleveland of New York, for President in 1884, if he should develop in his new field administrative qualities like those which characterized his administration of the city of Buffalo, which qualities constitute the present need of the people. In the event of Cleveland's nomination, Governor Stoneman, of California, would be their favorite for Vice-President, Justice Field, however, has many friends as a candidate for President.

Washington, 20.—Van H. Manning, to whom the certificate of election to Congress from the Second Mississippi District has been given, is in Washington. He states that J. B. Chambless is a resident of Tate county, and a greenback politician, and that the vote cast for him defeated Gen. Chalmers. Manning is quite free in expressing the belief that the democrats will pursue a just policy, and make no unfair decisions in election contests.

The Wire Workers Worried.

At an early hour this morning the night manager of the Western Union Telegraph office stated their wires were again seriously affected by the aurora borealis, and that the duplex and quadruplex system of working their wires had to be abandoned on many of their eastern circuits. The trouble seems to be general.

New York, 20. — Weather clear and cold. Another brilliant auroral display last night.

Vicksburg's Vexation.

Vicksburg, 20.—The River Commission examined the extraordinary change in the course of the river so as to leave Vicksburg practically three miles inland. Opposite Delta the river has washed out mattress work and piling put down by the city in an attempt to control the river and prevent the cut-off; $250,000 were expended in this work. Millions of money have been expended at other points on the river with a view of narrowing and deepening the channel to improve navigation.

Harrisburg, Pa., 20.—The total vote for governor at the recent election was 743,803; Pattison's plurality 40,202; the largest vote ever polled in the State with the exception of the presidential contests of 1876 and 1880.

Little Rock, 20.—Returns, less one small county, show for congressman at large, Breckenridge, democrat, is elected by a large majority.

Jackson, Miss., 20.— Leading democrats and citizens generally regret the action of the Secretary of State, Henry Myers, and Governor Lowery, in awarding the certificate to Van H. Manning upon a clerical error in the tally sheet of the commissioners of election of Tate County, who have telegraphed that the name of Chambless appearing on the tally sheet is a clerical error, and should have been J. R. Chalmers, a corrected tally sheet with the certificate having been forwarded to the Secretary of State.

Chalmers has filed application for a mandamus before Judge Wharton to compel the Secretary to count his votes in Tate County. He charges that Myers, Secretary of State, allowed returns from other districts to be inspected, but refused to allow any one to see the returns from the second district until counted. Chalmers charges that the returns were purposely concealed to prevent any errors being corrected during the ten days allowed by law, as they were for Manning's returns, and says the clerical error as to Chambless would have been promptly corrected if the returns had not been fraudulently concealed. The commissioners of Tate county have sent amended returns, showing the votes were cast for J. R. Chalmers and not for J. R. Chambless.

The Railroad Revolution.

MINNEAPOLIS, 20.—The Milwaukee & St. Paul announces a uniform rate of 40 cents per hundred on all freight bound east between Minneapolis, Chicago and Milwaukee, as the latest step in the Northwestern Freight war.

The C. M. & St. Paul issued a new schedule of passenger rates today. The rate to Chicago remains $1, but by cut to other competing points the fare to Sioux Falls is 75 cents; Sioux City 25 cents; Council Bluffs $1; Omaha $1.50; Atchison, Ks., $5.75; Kansas City $6.95; Denver $21.50. The cut on freight to 10 cents per hundred stands.

San Francisco, 20.—At Daviaville on the California Pacific Railroad, Saturday night, the overland express from San Francisco ran into the caboose of a freight train, killing a brakeman and setting the wreck on fire. The express engine and baggage car were detached, passengers shaken up and some bruised, but no serious injury.

The Albert Lea Route posts new rates to points east as follows: New York, $21; Boston, $20; portland, $21; Bangor, $20; Philadelphia, $19; Baltimore, $16.50; Washington, 16.50; Montreal, $18; St. Louis, 8.50. The rate to Chicago remains 50 cents, Albert Lea rates on mill stuffs were 10 cents per hundred to Chicago today, a cut from 20 cents. and an additional cut to 7½ cents announced to go into effect to-morrow morning.

The Omaha Company charged 7½ freight on mill stuffs to-day.

Baltimore, 20.—The annual report of the Baltimore & Ohio shows the earnings of the main stem and branches $18,383,895; expenses $10,920,218; net earnings, $8,445,682.

Oswego, N.Y., 20.—It is rumored the Grand Trunk Railroad of Canada is negotiating for a lease of the Rome, Watertown & Ogdensburg Railway. Should this be made, a strong combination would at once be formed between the Grand Trunk, Its Great Western division and the R. O. & W. and Vermont Central roads, in opposition to Vanderbilt's lines, which would enable the former to control the freight and passenger traffic of the New England States.

New York, 21.—The *Tribune* says: Arnold Lee, broker, has served notice on the officers and directors of the Union Pacific Railroad Company and on Blake Brothers & Co., the banking firm with whom the company recently concluded its transactions for the placing of its new trust bonds, saying he had been advised that the issue was illegal, and that he would take legal steps to prevent such issue. Dillon, president of the Union Pacific Company, said last night he had received notice that the sale of bonds was completed. The thing is accomplished, and what steps can be taken to prevent something that has already been done?

Stocks.

NEW YORK, 20.—Money closed at 10; Governments generally steady; Stocks generally weak; Western Union, 81⅝; Quicksilver, 10; Pacific, 36; Wells Fargo, 130; N. Y. Central, 128½; Erie, 36; Panama, 167; Denver & Rio Grande, 45½; Union Pacific, 105½; bonds, 115; Central Pacific, 86½; bonds, 113½; Sutro, 1½.

Mining stocks very dull. Robinson Con. 145 and 140; Navajo, 6½ and 6.30; Standard, 6; Independence, 74; Decatur, 7 and 9; Oriental & Milier, 14. Sales for the day 65,850 shares,

Petroleum dull and nominal; United, 116½; Crude, 7½; Refined, 7½ @ 8.

Copper, dull; Lake, 18½; Australian tin, 23½.

Reduced Prices.

CHICAGO, 20.—The proprietors of the rolling mills of this city and Joliet have been interviewed in regard to the statement that they intended to shut down within a short time. The general tenor of the interviews was the same. They did not assert their positive intention to close at a fixed date or at any future date, but said that as things looked now they did not see how they could continue to run without losing money, and intimated that unless a change in situation occurred they would likely be compelled to close in January or February next, the time being dependent on existing contracts. In some mills they will run to January; in others to February. They say with steel rails at $45 per ton, which is equal to $42 in the last reduction in price, both cheaper ore and labor will be necessary to secure the mills from loss. In view of the present fast living and the general feeling among iron workers, they cannot expect to secure a reduction in the price of labor. They will, therefore, for some time only run to work up the stock on hand and fulfill existing contracts with a view to being ready to shut down when the proper time comes. A fear is expressed also by some of the proprietors that the next Congress will reduce the tariff on steel to an extent to open the business to foreign competition. The belief is expressed in some quarters that this is a concerted movement on the part of the steel mill proprietors of the west to influence public opinion and prevent a reduction of the tariff by Congress. Between 5,000 and 6,000 men are employed here and at Joliet.

Strikers.

PITTSBURG, 21.— The strike of railroad coal miners to-day was not as successful as expected. Out of fifty-nine pits, employing over 8,000 men, only about 1,500 miners are idle.

Failure.

NEW York, 20.—Noah Mitchell, manufacture of jewelry, No. 694 Broadway, has failed; liabilities upwards of $100,000. It is thought his assets will realize 50 per cent.

Washington Items.

WASHINGTON, 20.—Secretary Teller has appointed Col. Dehana, late Collector at Sitka, Alaska, special timber agent.

The Secretary of the navy issued a circular this morning inviting the presentation to the Department by any skilfull person of plans, models and designs for the new steel steam cruising vessels for the navy.

The Supervising Special Agent of the Treasury Department in his annual report says: "To secure a more efficinet and honest administration of the custom service throughout the country, the consolidation of the collection districs and the abolition of a large number of ports, at some of which no duties are collected, and at others where the expenses are largely in excess of the receipts, would seem absolutely necessary." Respecting smuggling, he says: "Through the activity and vigilance of the officers in this service; assisted largely by local customs officers, smuggling has been confined to very narrow limits. The seizure on the night of the 3rd of January last of nearly a ton of opium, valued at $26,000, while an attempt was being made to land it from the steamship *City of Tokio* at the wharf of the Pacific Mail Steamship Company, is the year largest and most important case of smuggling discovered during the It is reported that the business of opium smuggling on the Pacific Coast has been carried on by an organized company which includes capitalists, Custom House employees, steamship employees, local politicians and Chinamen. All customs officers suspected of complicity with the smugglers have been dismissed from service.

The German Legation here has information that the proposed changes in the treaty of naturalisation which the new German minister, now *en route* for Washington has been directed to obtain relate more to the general application of the present treaty than to its provisions, which are pronounced quite satisfactory.

The bureau of statistics reports during the month of October there arrived in the custom districts of Baltimore, Boston, Detroit, Huron, Minnesota, New Orleans, New York, Passamaquoddy, Philadelphia and San Francisco, 57,689 passengers, of whom 45,985 were immigrants; 8,867 citizens of the United States returning from abroad, and 3,357 aliens.

Ex-President Pierola of Peru called on the Secretary of State and had an extended interview on matters pertaining to the condition of Peru.

Indian Commissioner Price is informed by Judge Edmonds, chairman of the Sioux Commission, that 8,000 Yankton and Ogallala Sioux Indians, at Pine River Agency, Dakota, have agreed to separate reservations of limited proportions. The Indians at Rosebud Agency had previously agreed to separate reservations, and as the Indians at these two agencies comprise more than half the Sioux nation, the work of the commission is practically accomplished. The object of the commission in having the Indians agree to select separate reservations is to concentrate all the Indians in about one half the present reservation, in order that the other half may be thrown open to the public.

Crime and Criminals.

New York, 20.—Gilbert Patrick, better known as Gilpatrick, the oldest living jockey in America, who rode Lexington, Lecompte and many other famous racers in this country, is dying of pneumonia at 433 Second Avenue. He is 60 years old, and with his wife is in very straightened circumstances.

Coal Mine on Fire.

HARRISBURG, 20.—A fire is raging in the Lykens mine, John Kreely, fire boss, Geo. Bainbridge and Oscer Cook narrowly escaped suffocating. All efforts to check the flames are futile. The fire has broken out eighty yards further down the slope. If the air should change and force the flames which are now coming up back into the mine, there is danger of driving the fire to Lykens Valley mine, when 1,500 men and boys bill be thrown out of employment.

The Chief Secretary for Ireland said up to the 15th applications under the arrears of rent act reached 14,167. The land commissioners, he said, hoped to settle before the 30th inst., all cases lodged prior to November 15th.
