Suicide at Butte.—At Butte, on Monday night, about 8 o'clock, Julian Marchesseau, put a pistol to his ear and sent a bullet crashing through his brain. R. and to my manyfriends throughout the country for their sympathy and kindness shown to me during my severe ill-ness. I am better now through the blessing of God, and able to leave my bed. I am gathering strength daily.

Obsequies.—The funeral services over the remains of Sister Maris Filer Perkins were held at the Sixteenth Ward Assembly Rooms at noon to-day. A large number of personal friends of the decessed by whom she was largely respected were present. At her own request, the funeral discourse was preached by Elder C. W. Hand Mutilated .- The Enquirer states that, on Tuesday a young man named Abraham Glosh met with a severe accident at the Provo Lumber & Building Co's, saw mill. He and another young man were sawing some lumber through and had nearly finished one piece when, to steady it, he placed his right hand in front of the saw and held the board down, his hand, however, with two men, two women and three children passed here the other day. They came over the route looked out by Brother C. Hall, last winter, from Hall's Ferry, to this, Fremont Valley. They speak well onally.

Indians and Whisky.—A gentle-man from Bountiful informs us that for about a couple weeks past a crowd of Indians have been camped near Wood's Cross Station. Stragglers come into this city and return to the lodge nightly in various stages of intoxication. The other night one of them appeared on the ground in a drunken and excited state in a drunken and excited state searching for another Indian whom he asserted he intended to kill, and there was another whose life he had made up his mind to take. It should be ascertained if possible from whom these people get their supplies of liquor that they may be punished as they richly deserve. A tragedy which occurred a few months ago, from the same cause, near the southwest suburb of the city—one drunken Indian stabcause, near the southwest suburb of the city—one drunken Indian stab-bing and killing another—is still fresh in the public mind. If there had been no whisky there would have been no murder, consequently the parties who sold the brain-inflam-ing stuff were morally responsible for the crime. Such another case may occur at Wood's Cross unless some preventive steps are taken in some preventive steps are taken in the premises. Indians and whisky form a dangerous combination.
