Number of Pitchers to Carry On **Team Puzzles** Them.

# MORE MONEY NECESSARY.

Thirty Years Ago Tommy Bond Pitched Boston Club Into Championship Single Handed.

one of the most difficult problems baseball managers now have before them is the number of pitchers to carry on the payroll for the best all-round esults, says Tim Murnane.

More money is necessary at the presant time to secure a first class staff of box men than was baid out to a whole ox men than 20 years ago, simply be-ause three times as many pitchers are onsidered necessary for a major league

the ball. This idea drove a lot of strong arm boys into the business at the ex-pense of the game. I find this season the major leagues carrying seven and eight pitchers, and the chances are that not one-half of this number will work in a dozen games. Several have been carried for years without one chance of their ever making good in fast company. Others are carried along because they can pitch effectively against some one club. In fact, I believe the chief reason for carying so great a number of pitch-sers is the fact that box men are strong against some individual club. You will find Jones reserved for one club and Brown for another, each striv-ing to get the better of one another in the box. Now, if there was a rule made to cut down the major leagues to three, you would find less sore arms and a more interesting lot of pitchers will warm up before the grandstand, going through some graceful stunks, se-pegalaly on ladies' day. And why not? The marger usually sits on the play-ers bench watching the movements of is men. The catchers are noting the warming up, a short conference is held on the bench, and the box man show-law form and willingness to work is sent to the game. How sweet the sight of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass is such that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with dread. Every woman should know that the danger and pain of child-birth can be avoided by the use of Mother's Friend, a liniment for external use, which toughens and renders pliable all the parts, assisting nature in its work.
