BURDEN OF DEFICIT IS GREAT.

Ministry Gets Its Revenge for Rejection by the House of Lords Of Its Licensing Bill.

London, April 29.—Accumulated wealth and the trade which the liquor business is popularly called in the Liberal government's budget, which David Lloyd-George, chancellor of the exchequer presented in the house of commons, today are made to bear the burden of the £4,762,000 (£7,810,000) deficit of the fiscal year.

"Socialism, confiscation," the wealthy classes are already crying and a few are clutching at the hope that the house of lords, which represents these classes may throw out the budget entirely, but this is improbable.

The government gets its revenge for the rejection recently by the lords of its licensing bill by increasing the taxes on some classes of public houses and the customs excise duties on spirits.
