

REVOLUTIONIZING ELEVATOR SERVICE

Key to Invention is Operation of Two Lifts in a Single Shaft.

WILL BE A GREAT SPACE SAVER

Will be Installed in Several of Largest Office Building of New York and Chicago.

Chicago, Nov. 8.—An invention which, it is asserted, will revolutionize elevator service in skyscraper buildings, causing a saving of space worth from \$50,000 to \$250,000 a year in augmented rents and doubling the efficiency of the average elevator plant, will be installed soon by Architect Jarvis Hunt in several of the latest office structures in Chicago and New York.

The key to the invention is the operation of two elevators in one shaft. With the practical devices to be used as equipments for the cars, the running of two elevators in one shaft appears to be just as safe as the running of one elevator at present in the great skyscraper buildings of the world's most progressive cities.

"We will take for example a building of 20 stories," said Mr Hunt yesterday in explaining his invention. "The express elevator is at the first floor, loading; the local elevator directly underneath it in the basement not loading. As soon as the express or upper elevator is loaded it leaves and makes its first stop at the tenth story. Meanwhile, as soon as the express elevator has left the first floor the elevator from the basement comes up to the first floor and is loaded, and it leaves the first floor at the same time the express elevator leaves the tenth. Now, they both travel up 10 floors, serving locally. The positions then are local elevator at the tenth floor, express elevator at the first floor, and the local elevator at the tenth floor to first the local elevator unloads at the first floor and drops into the basement, then the express elevator unloads at the first and some process is repeated.

"The upper elevator is never delayed. The lower elevator is only delayed while the upper elevator is loading or unloading, which in a two-minute schedule would be about 14 seconds.

"Not only are these elevators protected by the ordinary means, in case of accident, by safety clamps, etc., but they have mechanism, simple and effective, which when these elevators get within a pre-determined distance of each other slows down these elevators and at a closer point absolutely stops them; also in case either of non-operation of machinery or breaking of cables, have positive clamps which make it impossible for them to come closer together than a pre-determined distance."

SHOT FOR A BURGLAR. Husband "Accidentally" Killed His Wife's Paramour.

Philadelphia, Nov. 8.—The shooting affair in which Harry Ferris of this city was killed last Tuesday night by Andrew J. Detsch in the latter's home, where Ferris boarded, was investigated today by the coroner, and Detsch, as a result, was committed to jail. Ferris was found lying in the hall outside the bedroom occupied by Detsch and his wife.

Detsch claimed he mistook Ferris for a burglar and shot through the door, but among Ferris' effects were found many endearing letters, written by Mrs. Detsch to Ferris. When confronted with these, Mrs. Detsch confessed her relations with the boarder and said her husband had learned of them. Detsch, however, maintains that he mistook Ferris for a burglar and that he did not know that there had been anything wrong between his wife and Ferris.

Backache Sign of Weak Kidneys

Lame Back and Urinary Trouble Are the Danger Signals To Guard Against.

TAKE CARE OF YOUR HEALTH

Simple Prescription of Vegetable Ingredients Which Prevents Serious Kidney Diseases Mixed at Home.

More people succumb each year to some form of kidney trouble than any other cause. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes or dropsy. When either of these diseases are suspected the sufferer should at once seek the best medical attention possible. Consult only a good, first class physician, leave patent medicines alone.

There are many of the lesser symptoms of kidney trouble which can be treated at home as stated by a well known authority. For some of these, such as backache, pain in the region of the kidneys, weak bladder, frequency (especially at night) painful scalding and other urinary troubles, try the following simple home remedy. Fluid Extract Dandelion one-half ounce. Compound Kirsion one ounce. Compound Syrup Parsaparilla, three ounces. These simple ingredients are harmless and can be obtained at any good prescription pharmacy and anyone can mix them by shaking well in a bottle. The dose for adults is a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheumatism, either because it acts directly upon the kidneys and blood. It cleans the clogged up pores in the kidneys so they can filter and strain from the blood the poisonous uric acid and waste matter which if not eliminated remain in the blood, decompose and settle about the joints and muscular tissues causing the untold suffering and deformity of rheumatism.

Backache is nature's signal notifying the sufferer that the kidneys are not acting properly. "Take care of your kidneys," is now the physician's advice to his patients.

DUTY OF WOMEN.

Pres. Eliot Says Should Devote Themselves to Rearing Children.

Boston, Nov. 8.—The feature of today's session of the convention of the Association of Collegiate Alumni was an address at the Hotel Somerset today by President Charles W. Eliot of Harvard university, who declared that women having satisfied their pride and ambition to prove themselves the equal of men on professional and intellectual lines, should now as a class devote themselves to the greatest service of women, the bearing and raising of children.

POSSIBLY A MURDER.

An Elderly Woman Found Dead at Foot of Stairway of Her Home.

New York, Nov. 8.—Lying face downward in a pool of blood, the body of Mrs. Cesare Virgil, elderly and well-to-do, was found at the foot of the main stairway of her residence, at East One Hundred Thirty-eight street, today. Her skull was crushed and there was a pronounced odor of gas in the hallway. The ambulance surgeon who examined the body, said the wound could not have been caused by a fall down the stairway.

While the police suspect a murder, they can find no motive for the crime.

"77" Seventy-seven for Grip and COLDS

A draw back from a profit making standpoint of Humphrey's Seventy-Seven is, that it cures a Cold so quickly, cure twenty-five cent vial often curing several persons.

A small vial of pleasant pellets that fits the vest pocket. Ask your druggist.

Humphrey's Home, Medicine Co., Cor. William and John Streets, New York.

The sideboard had been ransacked, but no silver or valuables were taken and there was no sign of a struggle. Of Mrs. Virgil little is known, except that she was a Cuban by birth. She purchased her home 12 years ago for \$30,000, and had lived there alone, with the exception of the servants.

TRAIN HEAVILY GUARDED.

Blackmailers Had Threatened to Dynamite One on Great Northern.

Butte, Nov. 8.—The receipt by Great Northern officials of a letter threatening to dynamite the Great Northern train leaving here for Great Falls last night caused that train to be heavily guarded. Sheriff Henderson and six deputies boarded it here and Superintendent Allen of the Great Northern, left Great Falls on a special, heavily guarded, to meet the train at Helena.

The letter which was not signed, said that if \$10,000 in bills was not thrown off at the entrance to the Great Northern tunnel, 10 miles north of Butte, the train would be blown up. Sheriff Henderson's party found nobody at that point and the train was not molested. Great Northern officials refuse to discuss the affair.

When you are sick, out of sorts, take Hollister's Rocky Mountain Tea. The most effective remedy. Relieve when others fail. You be the judge, try it. 25 cents. Tea or Tablets, Z. C. M. I. drug department, 112-114 Main street.

NEXT WEEK IN HISTORY.

B. Morse, widow of the inventor of the American telegraph, died in Rutland; born 1822. Col. James Henry Mapleson, noted operatic impresario and the "discoverer" of Patti, died in London; born there 1830. 1906—Margaret Macdonald, heroine, founder of the King's Daughters, died in New York city; born 1827.

NOVEMBER 15. 1609—Johann Kepler, the astronomer, died; born 1571. 1730—Baron Steuben born in Maderburg, Prussia; died 1794. 1728—Sir William Herschel, the astronomer and scientist, born; died 1822. The great astronomer pursued the study of science under the greatest difficulties. While an organist at Bath he constructed his first reflecting telescope, and also while there manufactured instruments su-

Be Sure Hard colds, hard coughs, severe bronchitis, weak throats, weak lungs. We wish you would ask your doctor if he knows of anything better for these troubles than Ayer's Cherry Pectoral. We believe it is the best medicine you could possibly take. But ask your doctor, and thus be sure to make no mistake. 2-C. Ayer & Co., Lowell, Mass.

PLANNED TO ISSUE FORGED CERTIFICATES.

21 Pass, Tex., Nov. 8.—By the arrest of Hayes Wimberly and Olin Hayes today, Chief of Detectives Smith has frustrated a plan to flood the town with forged clearing-house certificates. Wimberly has confessed the plan to the police, by which the two expected to float \$10,000 in false certificates at one time.

The order for the printing had been given to a local printing establishment and about \$5,000 worth of had paper had just come from the press when the detectives arrested Wimberly.

In the rooms of the men were found slips on which forgeries of signatures of bank cashiers had been made, and the order for the rubber stamps of other bankers' signatures have been found. The false signatures were cleverly done and have deceived even the men whose names were imitated. Hayes claims to come from Fort Worth, Tex., and Wimberly, who confessed, says he is a miner from Cananea, Mexico.

CARD OF THANKS.

We desire to express our thanks and gratitude to all friends and relatives for their kindness and sympathy during the sudden death of our son Oscar, especially for the contribution of flowers, and to the Principal and Teachers of the Washington school. MR. & MRS. O. J. CEDERSTROM AND FAMILY.
