SHERIFF'S OFFICE FORCE.

SHERIFF'S OFFICE FORCE. Sheriff Wilson has completed the per-sonnel of his office force, and is now down to business again. In order to confirm his appointments the board of county commissioners held a special session yesterday afternoon. Deputy Sheriff Seymour B. Clark was appointed deputy state fish and game warden, and will receive a sal-ary of \$50 per month from the state, and the county will pay him a salary for his work as sheriff. The other de-puty sheriffs appointed and confirmed are Carl Allison, John J. Murphy and P. J. Naylon. The first two will com-mence work at once, while the last named does not begin until April 1. Ogden, March 5 .- The Union Portland Coment plant, located near Devil'a slide, Weber canyon, has resumed operations on a large scale. The plant was closed down some time ago when the financial stringency hit the country and much building and other work to which cement is used, was discontinued for a time. At the present time

DEMURRER TO COMPLAINT. In

\$50,000 Auditorium Libel Sult Against State Journal.

Against State Journal. Ogden, March 5.—In the 350,000 libei suit brought by the Salt Lake Auditor-tum association against the Journal Publishing company et al, the defend-ants have filed a demurrer to the com-plaint. The grounds of the demurrer are that, 'nowhere does it appear on the face of the complaint how the lan-guage therein quoted, from the Jour-nal's editorial, and claimed to be li-belous, was meant or did apply to plain-tiff, and on the further ground that the complaint fails to point out in what particular the article published is false, or defamatory, also because the complaint does not set forth facts creased as soon as possible. The laborers were eager to return to work even though the wage scale was slightly reduced. The company has on hand contracts for about 100,000 barrels of contracts for about 100,000 parrels of cement, the greater part of which is to be used on the Western Pacific con-struction work. The factory is putting out daily about 1,500 barrels, which is not the full capacity. The monthly payroll will be about \$25,000. As far as possible the management is employ-ing men of families to do the work, in Vice President James Pingree states

The farmers of Payson have contract-ed to plant over 600 acres with beets the coming season, this is more than 160 acres in excess of last year. The farmers here think beets are a good crop. Much wheat was sown during the good weather of the last two weeks and the spring rains should insure a good crop. Much good was undoubtedly done by the farmers' institute held here last Fri-day and Saturday. The subjects treated by Dr. Widtsoe and others are caus-ing friendly discussions between the farmers and no doubt some of the points spoken of will be put into practise by the more progressive farmers.
