HEBER.

Probate Business—The Burning Coal Question—Coal in Strawberry Valley.

Special Correspondence.

Heber City, Wasatch County, Jan. 8.—On Saturday, January 6th, Judge Booth held a short session of the district court for Wasatch county. A few cases of probate matters were passed upon.

COAL QUESTION.

Heber is suffering a coal famine—about one car a week is all we get and that is doled out in lots of 500 to 1,000 pounds.

If the D. & R. G. W. would build their line through Daniel's creek into Strawberry valley, then to Ashley valley, the coal problem would be solved. The Willow Creek Irrigation company, in making a ditch at the head of Strawberry valley to bring a portion of Strawberry creek into Daniel's creek, uncovered coal in three places. As the coal is on the Indian reservation no one is allowed to mine the coal. The first coal indications are about twenty-five miles from Heber city. Coal crops in places for about fifty miles until the Duchesne river is reached.

OUR NEIGHBORS.

BOISE, IDAHO.

Meeting of Wool Growers' Association—Important to Flockmasters.

Boise, Idaho, Jan. 8.—The Idaho State Wool-growers' association met today in its seventh annual session, with a large attendance. The members present represent about a million sheep. In the annual address, Col. J. N. Wood, the president, called attention to the fact that the question of leasing the public ranges will come up at the meeting of the National Live Stock association at Fort Worth this month. He narrated that at the last meeting at Denver the subject was up and there was a disposition on the part of the Texas delegation to press action in favor of the plan. The Texans finally consented to let it go over until the meeting this year. Col. Wood urged that a large delegation be sent to Fort Worth to oppose the plan. The association is entitled to one delegate for each 10,000 sheep, and it is probable that 100 will be named. The vote of the entire delegation is to be cast by those who attend.

Chairman Gooding of the transportation committee said that the cost of salt, laid down, had been reduced from \$20 a ton three years ago to \$3 a ton at this time. This he ascribed to the efforts of the committee.

President Wood was authorized to appoint a committee on county organization. Tonight the association is holding a secret session for the transaction of business of a confidential nature.
