General Ames left Washington yesterday for his home in Oregon.

The Evening Star says: The reports, rumors and inuendoes that Blaine's recent visit to New York was for the purpose of smothering something damaging to himself or friends in connection with the Star route general was effectually as a specific to the star of the candidates possible. It is expected that the disturb Mr. Blaine.

Secretary Windom will compel a rigid enforcement of the steamboat laws required by the Revised Statutes, which provides that every officer who neglects or refuses to democratic votes and will accept make any return or report which he them. is required to make at stated times by any act of Congress or regulation of the Department of the Treasury other than his account within the time prescribed by such act or regu-lation shall be fined not more than \$1,000 and not less than \$100. Officers failing to make the reports required have been called upon by letter from Secretary Windom to explain their neglect to comply with the order and informed of the pendity they have incurred thereby. alty they have incurred thereby. Information from the Virginia election, held yesterday, so far as re ceived, are adverse to the readjust-

A number of republican senators and representatives, who went to New York when the Senate adjourned, have returned here. All of them took an interest in the senatorial contest in New York, and some of them were consulted by leading republicans of that State, having in view some settlement of the senatorial fight that will provide the senatorial fight that we will be senatorial to the senatorial fight that we will be senatorial to the senator rial fight that will prevent any serious division in the republican ranks. The proposition or plan urged by many in relation to postponing the senatorial election is as follows: That the present legislature being two-thirds republican must elect senators next December. Between now and then the republicans of every coun-ty will meet in convention and nominate candidates for legislative and local officers. That these conventions can by resolution express their wishes and sentiments to their choice for senators, and thus the legislature at the adjourned session will have the distinctive will of the party to guide it. This plan would make sure of electing republican senators by the present legislature, and republican senators who know

much of party affairs in New York think it will be adopted as the best way out of the trouble. The Wool Marhet. Boston, 27. - The demand for wool has again been active and the sales for the week have been about 215,000 lbs., old grades and quali-ties. This is off from last week, but quite as large a business as could be

expected. Prices are firm. Full for all desirable lots, but no advance has been or could be realized. Manufacturers are willing to purchase on the present basis of prices, but would hesitate to take hold at any and Pennsylvania have been at 38, @ 40c; XX, 39 @ 412; as to quality and condition, and No. 1 at 41c these prices being the same as those of last week. Michigan and Wisconsin fleeces have been sold at 37 @ 39 for X, 49½ for No. 1. Fine delaine and medium combing firm, with sales at 41 @ 45c. Considerable Kentucky and other unwashed combings at 25 @ 30c; coarse grades, combings very dull, can only be sold at very low figures. Unwashed wool has been in fair demand, with sales at 20 @ 30c. California wool quiet and new spring hard to sell.

The "Victoria" Disaster.

London, Ont., 27.—In the recent disaster, in several cases, whole families were wiped out. Mr. Jos. Coughlin, whose children and grand children, numbering five are lying dead in his house. His daughter and Pennsylvania have been at 38,

ead in his house. His daughter ennie was married to a young man armed Swazzie the day before the

ed tightly in each other's arms as they had no doubt fallen together. Several cases of robbing the dead are reported. Business is resumed, although

some houses are closed yet. Nearly all the funerals have taken place all the funerals have taken place. The police are still searching for bodies but the search is fruitless. A melancholy collection of personal effects is still being viewed at the police headquarters, in hopes of obtaining mementoes. The investigation will probably be continued. Solemn mass was said to-day in the Catholic Church.

Conkling Items. The reduction of the debt for May will be over \$11,000,000.

There is no danger that Secretary Windom will relax his efforts to punish the officers guilty of the misuse of public money. Private friends of his say he will not save anyone.

John G. Thompson, sergeant atarms of the House of Representatives since 1874, is behind on money accounts with Congressmen. He has been in the habit of drawing pay for Congressmen and holding it pay for Congressmen and holding it subject to their orders or checks. He went beyond his means, and now is unable to meet the checks he has, and the law is such that his bondsmen cannot be held. It is claimed that some Congressmen have been occommodated beyond what was due them, and that he will assume that time by its stress upon hesitat.

that some Congressmen have been occommodated beyond what was due them, and that he will assume every dollar.

Patents have been issued this week to Pacific coast inventors as follows:California—Hrrry C.Barnes, Vallejo, for lathe attachment; Gilbert S. Dean, San Francisco, preparing nitro-glycerine compound; Thos.

The Morenia State of this states upon hesitating senators and assemblymen.

A leading editorial article, which will appear in the Albany Express, the official State journal, reflects their opinions and hopes the Legislature feels the force of popular opinion. It demands that corporation monopolists who are seeking to crush Conkling and Platt shall be a caucus to finally dispose of the great question which may be the legislature, whose only policy is to execute the will of corporate monopolists, and whose only purpose is to wreak Blaine's vengeance upon Roscoet Conkling.

route scandal, were effectually squelched to day by the Postmaster General, who said there was nothing in the Star route development to disturb Mr. Blaine.

It is announced quite positively that Secretary Windom will make a number of important changes during the next month. Among those who go are Assistant Secretary Upton and Solicitor Raynor. The appointment of clerk Lamphir and Custodian Pitney and Chief Districtionting Officer Hobbs is announced acal for Monday night. A deadlock is expected Tuesday. Conkling's only hope is in the arrival of Grant and his influence in his favor.

The Commercial's Albany special

says: The stalwarts are more confi-dent than yesterday. Many of them have gone home and the half-breed boast has subsided. Judge Robertson is well satisfied, and says the administration people made no mistakes, yet the fact is Conkling and Platt are beaten if they adjourn the legislature. We will be glad to fight them among the people. Conkling will return Monday and make a public speech. Fatal Railroad Accident.

DENVER, 26.—A Times' special says: A serious accident occurred on the Denver & Rio Grande Railroad this morning, near Granite. A col-lision between freight and construc-tion trains resulted in the death of four, and four others seriously hurt. Conductor Brooks and the engineer of the freight train are to blame, having disobeyed orders. The engineer skipped the country and has not since been heard from. The following are the names of the dead lowing are the names of the dead and wounded as far as can be learned at present: Pat McMahon, of Leadville, dead; Wm. Wright, of St. Louis, dying; Wm. Harrigan, of McGregor, Iowa, not expected to live, and John Williams, of Chicago, who will probably recover.

The following additional particulars of the collision on the Denver &

Diseatisfied Democrats CHICAGO, 27. - The Journal's Washington special says: There is every prospect of a division in the ranks of the democratic party in Maryland. A large meeting was held in Baltimore last night, including several prominent demo-crats, with Governor Hamilton, at which dissatisfaction with the present management of the party only manifested itself. Gov. Hamilton spoke at length, and particularly in reference to the management of the and of the failure of the reform meaures introduced with his sanction current rates have been obtained at the last session of the legislature he idea that there management and aliques that govern it. The meeting foreshadows a break in the party Quite an excitement has been creed in democratic circles over the
