

COUNCIL'S PLAN FOR BOND ISSUE

American Officials Issue Statement Telling How the Money Is to Be Spent.

PERSUADERS AND HEELERS

In Session at Labor Hall They Urge a Campaign to Get the Money by Further Indebtedness.

For what formal purposes Mayor John S. Bransford and the city council of Salt Lake urge the need of a bond issue is illustrated in an address made to the public pledging themselves to spend the money for six purposes, and none other.

What the "American" party heeled, ward chairmen, district bosses, and persuader machine-men expect to do with the money is illustrated by a meeting last night of these forces. With a campaign coming on, and so many ways by which the campaign harrier can be connected with the city treasury, the merry spenders are planning to work for the bond issue as seldom they have ever worked before. The address of Mayor Bransford to the "American" members of the council, follows:

"To the qualified voters of Salt Lake City: Certain large improvements in the water system and the sewer system of this city were begun in 1905. To complete and extend these systems to meet our fast increasing population we will require more money than can be secured from current revenue; hence the voters are called upon to authorize a bond issue in the sum of \$600,000, \$475,000 of which shall be applied to the completion and extension of our water system and \$125,000 of which shall be applied to the completion and extension of our sewer system.

"The particular uses for which this money is needed are as follows:

- (1)—For building an aqueduct on North Temple street, from Fourth West to Ninth West streets, to care for the surplus waters from City creek, thus protecting property owners on the west side from damages to their property and protecting the city from expensive damage suits. . . . \$50,000
- (2)—For extensions of water mains on the west side in the Second and Third wards. . . . 60,000
- (3)—For replacing the inch and four inch water mains in the Fourth ward by mains adequate to supply that rapidly growing section of the city. . . . 100,000
- (4)—For the extension of the water mains in the First ward. . . . 50,000
- (5)—For enlarging and crossing the mains of the general water system of the city, securing additional water rights and enlarging and extending the East Jordan canal. . . . 200,000
- (6)—For completing and extending the sewer system, including the intercepting sewer, pumping plant and outlet for same, which will drain a large area in the southern and western parts of the city, thus increasing the value of the property in those sections. . . . 125,000

"It appears clear to the city council that without the expenditure of the above amounts our citizens will be denied the benefits to which they are entitled for the large sums of money already expended in our waterworks and sewer system.

"The city council assures the people that if this bond issue be approved there will be no need to raise the tax levy for the current year, nor will there be any necessity for increasing the present water rates. The receipts in the water department have shown great gains and will provide the needed sinking funds for the department.

"It does not seem advisable that permanent improvements of the nature above referred to should be paid from current revenues, as it imposes too heavy a burden upon the taxpayers. The issuance of bonds and the creation of a sinking fund for their ultimate redemption distributes and equalizes this burden over a series of years.

"The estimates for the above purposes have been made after a careful investigation of the present and future needs of the city by the engineering department.

"The mayor and the city council of Salt Lake City do hereby pledge themselves to carry out the above described improvements at the least possible expense consistent with good results, and do hereby further pledge themselves to expend the money only in the manner set forth in the foregoing statement.

(Signed)

AT LABOR HALL.

The urgent personal interest of the "American" heeled in the bond issue was the theme of discussion at a meeting of "American" ward chairmen in the Federation of Labor hall last night.

George R. Hanks, "American" club treasurer, presided, and as befits the treasurer of such an institution, made a thrilling appeal for the bonds. Frank R. Christensen, who also needs the money, made another appeal, and S. P. Armstrong, who always campaigned near to Darnley's barrel, made yet another speech for the money. All agreed that it was needed, and that only the opposition of retroactive legislation, moss backs kept them from getting it.

BURDETTE P. BURDETTE.

MISSIONARY DROWNED

Burdette P. Burdette, President of the Konigsberg L. D. S. Branch Meets Death in Water.

A cablegram received at the President's office yesterday afternoon from President Charles W. Penrose of the European mission announced the death by drowning of Burdette P. Burdette, a L. D. S. missionary laboring in Prussia. No details are given but the supposition is that the young man was bathing in the Baltic sea at the time he met his death.

The deceased missionary was well and favorably known among the young and musical set of this city. Prior to his departure to his field of labor, April 24, 1907, he was a member of the Orpheus club, the Tabernacle choir and several choral organizations.

Six months after arriving in Germany he was appointed president of the Konigsberg branch, which position he held at the time of his death. He also was the leader of a chorus of 50 voices connected with that branch.

The deceased was the son of Mr. and Mrs. Joseph Burdette, 237 north First West street.

This morning Senator Sutherland wired the authorities at Washington asking that the state department cable the German officials regarding a permit to ship the body to the United States. Had the deceased lived another week he would have been 23 years of age.

Yesterday afternoon the party was entertained with a trip to Seltair including a dip in the lake and a dinner at the resort, and this morning a complimentary organ recital was tendered them by the First Presidency, followed by a trip around Salt Lake in automobiles. A call upon President Joseph F. Smith had been intended, but the president had not yet arrived from his Pacific coast trip.

"NO THANK YOU" SAYS MRS. FRENCH

Plaintiff Suing for Separate Maintenance Decline to Live With Husband.

NO RECONCILIATION IS DUE.

After Taking Matter Under Consideration She Concludes Not to Return to Her Husband.

The taking of testimony was concluded yesterday in the French divorce case, and after briefs have been submitted by attorneys on both sides, an opinion will be rendered by Judge Morse. The hearing ran well into the afternoon.

It had been expected by persons who had followed the case that a reconciliation would be effected before the proceeding came to final judgment. On the witness stand Mrs. French said she still loved her husband, though she was suing for separate maintenance. While testifying on his own behalf, Mr. French, too, broke down, and the two scenes gave hope to friends on either side that all differences would be amicably adjusted.
