

## MURDER TRIALS IN KENTUCKY

Grand Jury Investigating Killing of  
City Marshal Cockrill.

HIS FRIENDS HAD TO FLEE.

Were Fearful They Would Share His  
Fate—Will Appear and Name  
The Assassin.

Jackson, Ky., May 27.—The special grand jury this afternoon began its investigation of the assassination of City Marshal James Cockrill last July. As in the Marcus case, the assassin was stationed in the courthouse, shooting Cockrill with a Winchester rifle from the courtroom window as Cockrill stood in the street. It was immediately after this that men in sympathy with the Cockrill brothers had to flee the country for safety. Among them was Capt. John Patrick, who, in a letter to Judge Redwine soon afterward, said that he and others saw the assassin and would come back and testify if troops were sent to protect them. The knowledge that he possessed put a price on his life. Judge Redwine declined to ask for troops, and had an attachment issued for Patrick, who, to escape going back to what he considered certain death, has since lived in seclusion. It is said that he will appear tomorrow to testify and, with others, will name the assassin. The assassination of Dr. Cox, uncle of the Cockrill boys, will be taken up next.

It seems certain now that to avoid a mistrial the trial of Curtis Jett and Tom White, accused of the assassination of J. H. Marcus, will not be entered into until next week, when the regular term begins. The special term ends Saturday.

Separate trials will likely be asked for the men. In the courtroom today, when the cases were called and by agreement continued until tomorrow, Jett and White were guarded by 20 soldiers. The prisoners were not ironed. Judge Redwine issued an order for every one who enters the courtroom to be searched for weapons. He also gave Col. Williams authority to make arrests in town for disorderly conduct or any misdemeanor, which makes martial law in Jackson practically absolute.

### CASE OF JOHN POOS.

Jury Charges Thos. Treize with Pre-meditated Murder.

Gunnison, Colo., May 28.—The coroner's jury in the case of John Poos, who was shot and killed by Thomas Treize on Thursday in a quarrel over household goods returned a verdict charging Treize with premeditated murder. Mrs. Hope Poos, wife of the murdered man, was charged with being an accessory to the murder.

**GAMBLERS ON OCEAN STEAMERS.**  
The Oceanic Managers Warn Passengers Against Them.

New York, May 28.—The steamer Oceanic here from Liverpool, had not left Queens-town before this warning was posted in the smoke-room:

"Special Notice.—The attention of the passengers is hereby called to the fact that certain individuals believed to be professional gamblers have recently been traveling to and from Atlantic steamships and it is deemed right, in the interests of passengers to bring it to their notice."

Two of the gamblers, one a tall, clean shaven man, in a pepper-and-salt frock coat, boarded the ship at Queens-town, and three others at Liverpool. They lost at dice and cards fabulous sums to each other. Among others, who, the officers of the ship said, they tried unsuccessfully to inveigle into their game was William A. Hazard, the polo player.

When the Oceanic reached her pier here, the five card-players rushed off the ship. They showed anxiety to get their baggage examined and leave. Two detectives shadowed them. They had been able to do no business on board. The leader has been on the ship's blacklist for more than two years.

### A FIVE ACRE MAP.

Of United States for the St. Louis Exposition.

St. Louis, Mo., May 28.—On the southern slope of the hill that fronts the Philippine exhibit, the department of agriculture is making a map of the United States to cover five and one-half acres of ground. Considerable work has already been done here by Mr. David A. Brodie, superintendent of the special air exhibit of the bureau of plant industry of the department of agriculture, who has been in St. Louis since early spring in charge of the map project. Mr. Brodie and his assistant are laboriously drawing on the ground the jagged coast line of the United States. Starting at Oregon he has already reached Pensacola, Fla., and be-

## THE FREEDOM OF TEACHING

American College Professor a  
"Hired Man in a Cage."

SAYS LEOPOLD MABAILLEAU

Not Free to Think and Write as The  
Press, but Are Largely Controlled  
By Trustees' Opinions.

Chicago, May 28.—The American college professor in many institutions is only "a hired man in a cage," according to M. Leopold Mabilleau, the French sociologist, who is delivering a series of lectures in French at the University of Chicago. He said yesterday that in American colleges founded by private individuals the professors were not free to think and write as they pleased, but were controlled to a large extent by the opinions of the board of trustees.

M. Mabilleau, who is director of the Musée Social in Paris, was lecturing on "The Governing Ideas of Public Education in France." In speaking of the relation to the French colleges and universities to the state, he said:

"It is necessary that the professor be able to think and speak as he chooses, even though his ideas be contrary to the opinions of the trustees. This liberty does not exist in many of our American universities, many of which are founded by private individuals."

"I am told, however, that this condition is changing for the better."

**Crescent Ship Yard May Close.**  
Elizabeth, N. J., May 28.—There is a strong possibility that the large Crescent shipyard at Elizabethport will shut down for an indefinite period because of the frequent strikes at the plant.

President Mason Chase of the Crescent company has plainly intimated that this step might be taken if the annoyance that the management of the yard has had recently to contend with is not stopped.

President Chase said today:

"This talk by the strikers about discrimination against any union men is all nonsense. We simply laid off a few men for whom we had no work. The strike was caused by one of two trouble-makers. The men who went on strike are still at liberty to return to their jobs, but the other men will not be taken back."

**Edison and Marconi Join Forces.**  
New York, May 28.—It has been formally announced, says the World, that Thomas A. Edison has been taken into the Marconi Wireless Telegraph company, as a member of its board of technical directors.

Marconi is the only other director of this board at present, but arrangements are being made to engage a third electrical expert—Prof. Michael Pupin of Columbia university, inventor of the submarine telephone. The arrangements upon which Edison and Marconi join forces are not made public.

Mr. Edison admitted that he was at work on certain inventions to be applied to the Marconi system. Of their nature he declined to talk.

**Should Chinaman's Wife be Admitted?**  
New York, May 28.—A council of eminent federal officials has been held here in the case of Loo Lin Lin, the New York Chinese merchant, whose wife is detained at San Francisco awaiting proof that her husband is a merchant.

Mrs. Loo Lin has been detained at San Francisco 35 days. All concerned admit that under the spirit of the law the woman should be admitted. Collector Stranahan listened to the arguments in favor of Loo Lin's status as a merchant, read many affidavits from responsible citizens supporting the contention and then gravely decided that, while Loo Lin was undoubtedly a merchant, he was also interested in a restaurant and sold cooked food as well as uncooked food; he was therefore under the law not a merchant, but a laborer. The fact that he was a merchant entitled his wife to admission, but he was not a laborer, his wife could not come in.

Collector Stranahan based his decision upon the statements of Inspector of Chinese Berkhimer, who reported adversely on the admission of Mrs. Loo Lin, when the case was first submitted to him. The report meant that Mrs. Loo Lin would have to go back to China, and that she and her husband would have to be separated for months, perhaps for years.

**GRABBED BY ENGLAND.**  
Three Small Islands Close to Pitcairn Island.

Tahiti, May 15, via San Francisco, Cal., May 27.—(Correspondence of the Associated Press.)—Information based on the highest authority confirms the rumor that three small islands near Pitcairn were seized by England recently.

**THE DEAD.**  
Harry Stimson.  
PATALLY INJURED.  
Frank Arthur, Edward Smith.  
The property loss is \$20,000.

## GROWING LENGTHWISE

You want the children to grow, but not all lengthwise. When they start that way Scott's Emulsion will help them to grow right—with due plumpness and outward proportion, and with inward vigor and good spirits.

The Emulsion increases digestive power and strengthens the vital organs to get the best and make the most out of all the other food. It gives a kind of help that every growing child ought to have.

We'll send you a sample free upon request.  
SCOTT & BOWNE, 409 Pearl Street, New York.

cently. It appears that they were regarded by his British majesty's consul, Simons, at Tahiti, as valuable, anticipating the completion of the Panama canal. He was under the impression that sooner or later the French government might annex them and so, without waiting for definite instructions from his government, sent Mr. McCoy, the English resident on Oahu island, to take over the three islands for the British government. Later an English man-of-war at Mr. Simons' request, went from Tahiti to the new possessions and completed certain formalities. When the action was received by the British foreign office the consul received full approval for his forthright. Ducie island has a safe harbor, while Elizabeth island has many attractive features. There are no inhabitants in the group.

Colonial troops are to be withdrawn from Tahiti in the near future; they are considered to be wholly unnecessary to this colony and are a great burden upon the treasury.

**MINERS OF ARIZONA.**  
Federation May Have Trouble with Owners' Association.

Denver, May 27.—Trouble is anticipated by the Western Federation of Miners in Arizona, by the action of the miners' association June 1, and the owners' conversion devoted almost the entire forenoon today considering the matter. Yesterday the association, after a meeting at Prescott, announced to its mine employees that a cut in wages of 25 to 50 cents a day would be made, beginning June 1. The present wage is from \$2.75 to \$3.50 a day.

The convention, after hearing reports, instructed the delegates from Arizona to notify their respective unions not to accept any reduction. This notice was widely today to the various unions that will be affected by the proposed reduction. Some 2,000 miners will be affected by the new condition if carried out in Arizona.

The proposed reduction is regarded as the result of the eight-hour legislation.

The convention appointed W. J. Baird of Colorado and W. H. Leonard of Cripple Creek delegates from the Federation to the American Labor union convention.

President Charles Meyer read his annual address to the convention today. Among the recommendations there is one to make the conventions of the federation biennial instead of annual.

**KISHINEFF MASSACRES.**  
Native of Place Arrives in New York and Describes them.

New York, May 27.—Mandall Schuelmeister, 20 years old, and a native of Kishineff, was among the stowaway passengers landed at Ellis island today from the North German Lloyd liner Grosser Kurfuerst. He left Kishineff the Monday after the massacre and says Russia never said anything to him about the massacre. He was asked to explain the massacre through an interpreter he said:

"The houses of Jews were stoned and threats made to kill them. On the Jewish next day, when the Christians came out to their churches, the crowds, armed with stones and iron bars, attacked the Jewish people in the streets and began to sack the houses, killing men, women and children."

"I saw the mob enter the yard of the house next to us, where they stoned a shoemaker to death. While I was hiding in the cellar I heard the mob enter our house and break the furniture and smash the windows."

"We were released from the cellar by our landlord. The next day the chief of police announced that the rioting must stop and that we would be safe in the streets. I saw in the cemetery 50 bodies of men and women waiting to be buried. These were badly mutilated, some with crushed heads and some with large holes through the head from ear to ear, made by spikes that were driven through them."

Schuelmeister said he left Kishineff and was smuggled across the frontier, where "an angel" helped him to get to Bremen.

**Four Men Drowned.**  
Fort Smith, Ark., May 27.—Four men were drowned in the Arkansas river at Tamah, T. T.

The dead are Henry Field, Will Farrell, Walter Parker, and John H. Smith. Field was the mail contractor and Farrell the carrier. They were attempting to take the mails across the swollen stream when the boat overturned.

**High Water in Oklahoma.**  
Guthrie, O. T., May 27.—At present railway service in Oklahoma is a difficult problem on account of high water. It will be a week before the Rock island will run trains over the main line into Texas as the bridge over the Washita river at Chickasha, T. T., is gone. The Choctaw road lost 300 feet of track near El Reno several feet east and west of Oklahoma City and on account of equipment being shut off the division between Guthrie, Oklahoma and Anthony, Kan., is not being operated. There will be no trains over the Frisco southwest of Oklahoma City until the last of the week. One hundred yards of Frisco track between Chandler and Oklahoma City were also washed away. The Santa Fe main line was not damaged, but on the eastern Oklahoma extension there was great damage, especially at Cushing, where the Union river bridge was lost. There will be no trains over that line this week.

The Katy's roadbed in several places was washed away. Another rise in the Arkansas river is reported today.

**U. P. Boilermakers Still Out.**  
Cheyenne, Wyo., May 27.—Dick Tottenhoff, president of the boilermakers' union on the Wyoming division of the Union Pacific, says that no boilermakers on the system returned to work today. The company posted notices in all shops that non-union men would be retained. Mr. Tottenhoff says that he is a branch of the agreement entered into at the New York conference, which he attended. Tottenhoff now to stay out until a settlement is reached with the blacksmiths and machinists.

**Bank Burglar Brady Killed.**  
New York, May 27.—James Brady, noted bank burglar of 30 years ago, the pal of Johnny Hope, Big Frank McCoy and the notorious criminals of the day, was killed today on the New York tracks near New Rochelle by a passing express. Seventy-eight years old, Brady was in ill health and discharged but a few hours before from the Westchester poorhouse, in which he had passed the night. Brady was moodily passing the track, his back toward the approaching train.

## ESCAPED CONVICTS CREATE TERROR

Fifty of Them Get Away, Seizing  
Arms and Ammunition.

MURDERS OCCUR DAILY.

The Situation is So Serious That Argentine Orders the Desperados  
Shot on Sight.

San Francisco, May 28.—Capt. J. K. Wiggins, formerly of the Forty-fourth volunteer infantry in the Philippines, has arrived here on the Cosmos liner Menes from Patagonia, where he has been gold mining for a year past. He says that the Argentine republic had a penal colony made up of life terms from the military and civil courts located on Staten Island. A short time ago, while moving the prison to Ushuaiah, 50 of the prisoners escaped, got arms and ammunition, and have since been terrorizing the residents. Murders have been of daily occurrence, and the situation became so serious that the government issued orders that the desperados were to be shot on sight. The day before he took the steamer at Punta Arenas the chief of police was killed.

The government has also offered a reward of one pound sterling for every head of an Onaha, a savage tribe in the interior of Patagonia, who are murdering J. K. Ruffel, sheep rancher from Torralba del Fuego, arrived on the same steamer, says that the average is about a week a week on the Terra del Fuegian shore, and just before he left for California a British bark was broken up in its vicinity.

**Mike De Young Banquetted.**  
San Francisco, May 28.—A pleasing sequel to President Roosevelt's visit to San Francisco was a banquet to M. H. de Young last night. He was the honored guest of the executive committee of the recent Roosevelt reception. During the evening call was given to the occasion by the presentation to him of a large silver loving cup. The motive of the presentation was told by the inscription as follows:

"A souvenir from the citizens' executive committee to the Hon. M. H. de Young, in acknowledgment of his executive ability and the mastery and successful manner in which he handled the functions given in honor of the visit of President Roosevelt to San Francisco, May, 1902."

**Arrested for Safe Robbery.**  
Birmingham, Ala., May 28.—Bennett Bibb and James Williamson are under arrest here charged with robbing the safe in the Union Passenger Station ticket office of nearly \$7,000. The detectives are after another man, whose arrest they believe will bring about the recovery of a large part of the money.

The arrests developed the most ingenious scheme known to the detectives who have been working on the case. A hole was bored through the ceiling of the ticket office and a large number of burglars studied the combination through a magnifying glass.

**Men of Education Needed.**  
Chicago, May 28.—Men of education are needed to drag men of experience safely to the top according to Charles F. Scott of Pittsburgh, who has addressed the National Electric Light association now in session here.

"I can easily recall the time when a college education was counted against the man who applied for work with a manufacturing company," said Mr. Scott. "Now the output of the electrical courses of our technical schools and colleges is not equal to the demand."

"The man who has a good, active mind and a sound theoretical basis, with even a small measure of practical experience, is capable of dealing with new questions in an intelligent way."

**Answer It Honestly.**  
Are the Statements of Salt Lake City Citizens Not More Reliable Than Those of Utter Strangers.

This is a vital question. It is fraught with interest to Salt Lake City. It permits of only one answer. It cannot be evaded or ignored. A Salt Lake City citizen speaks here. Speaks for the welfare of Salt Lake City.

A citizen's statement is reliable. An utter stranger's doubtful. Home proof is the best proof. Edgar S. Houghley, retired, of 4 Goddard Court, says: "Anyone who has kidney complaint can easily tell it for pain across the back and through the kidneys is to mark the fact that it cannot be mistaken. For twenty years or more I had backache, some of the attacks being so acute that I required assistance to get out of bed. To stoop or do anything which brought a strain on the muscles of the back when the attacks were at their height was utterly impossible, and when trouble with the kidney secretions set in I felt as if I was in a bed of nails. When I procured Doan's Kidney Pills at the F. L. Hill Drug Co.'s store I had been suffering intensely for a week. My surprise was much more easily imagined than expressed when a few doses brought relief and a continuation of the treatment stopped a very violent attack."

For sale by all dealers, price 50 cents. Foster-McClellan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

**SATURDAY SPECIALS**  
Nut Bars, 35 cents per pound.  
Butterscotch Wafers, 15 cents per pound.

Our Palm Garden is now open for the season.

**Kolitz,**  
60 and 272 Main St. Tel. 428.

One of the differences between the old time practical man and the young educated engineer is that the former is capable simply of doing over and over what he has done before, while the young man has a power which enables him to take up new problems."

**Modoc Indians Dissatisfied.**  
Washington, May 2.—An Indian inspector has been ordered to Quapaw Indian agency in Indian Territory, to investigate the dissatisfaction of the Modoc Indians who have expressed a desire to return to their old home in the Klamath reservation in Oregon. He will endeavor to persuade the malcontents to postpone their departure until Congress can provide for them.

**Health at Home**  
through Hires Rootbeer—a  
delicious preparation of  
roots, berries, bark and  
herbs. Nature's own pre-  
scription. Benefits every  
member of the family.

**Hires**  
Rootbeer  
purifies the blood, quenches the thirst  
and gives the system a tonic. A package  
makes five gallons. Sold everywhere  
or by mail, the Hires Co., Baltimore, Pa.

# \$500 Reward!

FIRST—A reward of \$250.00 will be paid by the Utah Light & Power Co. for information that will lead to the arrest of the party or parties who, this Wednesday night, caused a short-circuit on its electric high tension transmission line, through interference in some manner with said lines near said company's street railway's sub-station, Salt Lake City.

SECOND—A reward of \$250.00 will be paid by the Utah Light & Power Co. for information that will lead to the arrest of the party or parties who, this Wednesday night, entered the high-tension transformer house of the street railway sub-station in Salt Lake City and maliciously threw a switch, cutting out the fan-blast motor serving the high-tension air-blast transformers located therein.

Salt Lake City, May 27, 1903.

UTAH LIGHT & POWER CO.,  
By R. S. Campbell, Manager.

An act making it unlawful to injure, obstruct or destroy any line erected or constructed for the transmission of electrical current or appliances connected therewith; or to remove, injure or destroy any house, shop, building, or other structure, or machinery connected therewith; or to set any fire that shall result in such injury or destruction; or to prevent the removal of any obstruction to such lines, and prescribing punishment therefor.

Section 1.—It shall be unlawful for any person willfully or maliciously to take down, remove, injure, obstruct, displace or destroy any line erected or constructed for the transmission of electrical current, or any poles, conduits, cables, insulators, or any support upon which wires or cables may be suspended, or any part of any such line, or appliances or apparatus connected therewith, or to sever any wire or cable thereof, or in any manner interrupt the transmission of electrical current over and along any such line, or to take down, remove, injure or destroy any house, shop, building or other structure or machinery connected with or necessary to the use of any line erected or constructed for the transmission of electrical current.

Section 2.—It shall be unlawful for any person willfully or maliciously to set any fire that shall result in the destruction or injury of any line erected or constructed for the transmission of electrical current, or any poles, conduits, cables, insulators, or any support upon which wires or cables may be suspended, or any part of any such line, or appliances or apparatus connected therewith, or any house, shop, building or other structure or machinery connected with or necessary to the use of any line erected or constructed for the transmission of electrical current, or to set any fire that will in any manner interrupt the transmission of electrical current over and along any such line.

Section 3.—Any person or persons, who shall willfully or maliciously violate any of the provisions of sections 1 and 2 of this act shall, upon conviction thereof, be punished by a fine not exceeding one thousand dollars, or by imprisonment in the state prison for not more than five (5) years, or by both such fine and imprisonment, in the discretion of the court.

Section 4.—This act shall take effect upon approval.

Approved this 27th day of March, 1903.

(Signed) HERBER M. WELLS, Governor.
