## POST OFFICE BOXES.

As speedy communication is now opened between this City and the States East and West by means of the Railroad, there is a very natural increase in the amount of postal matter received at the Post Office in this city. The increase of population also is another cause which contributes to swell the mail matter coming here. There are so many letters and newspapers received here at the present time that the labor of distributing them is a very onerous one, and in the case of newspapers, being so bulky and accumulating with such rapidity, it is next to impossible to give the public that satisfaction which they look for. Of course, where so many papers are received every day, no human memory can retain the names written on all of them, and it probably happens occasionally that subscribers, who go to the general delivery window, never get their papers. Papers are not advertised, and after they have lain in the office three months, the Postmaster is required by the Department to sell them.

Now, there is a remedy for this, which every man in town, who has any amount of correspondence, or is in the habit of receiving papers, should avail himself of, and that is to rent a box. This would ensure to him the safe and speedy delivery of his letters and papers, and would soon pay for itself in the saving of time, as, with a box, there is not the least necessity of waiting for one's turn, which, when it is considered time is money, is a very important matter. A party waiting at the general delivery window is often a serious loser through this, but if he had a box of his own he would be able to tell, without waiting a moment, whether there was any mail, either letters or papers, for him.

The present price of lock boxes is \$2 per quarter; of glass boxes \$1 per quarter. It is to the advantage of all who hire a box to have a lock-box, for while the renter of a glass box can only get his mail during the hours of general delivery, that is from 8 a.m. to 6 p.m., he who rents a lock-box can obtain it at any time from 6 o'clock in the morning until 9 o'clock in the evening. If a number of new renters of boxes would come forward, and those who now have their letters and papers left in other persons' boxes, or in the box of the firm by whom they are employed, would rent boxes of their own, our Postmaster, Mr. Street, would be glad to reduce the rent of the boxes one-half; that is, make lock boxes \$1 per quarter, and glass boxes 50 cents per quarter. But it would not answer for him to reduce these prices and rent only the same number of boxes he does now; for such a proceeding would reduce his revenue from that source to one-half the present income.

The grade of a Post Office is determined by the amount of its revenue. At present the Salt Lake City Post Office is a first-class office; but if the revenue were reduced, it would be degraded and made a second-class office, which would be an injury to the office. The proper and the only method, therefore, of reducing the box rents is to berent. Mr. Street is quite willing to put up additional boxes, if there should be a demand for them. Every person who is in the receipt of mail matters should give a little thought to this subject, and we feel assured that the renting of a box will be a judicious and satisfactory outlay.

[Special to the Deseret Evening News.]

## By Telegraph.

## GENERAL.

Leavenworth, Kas., 6.—A special from Ellsworth says that Gen. Miles' courier has arrived from Saline; he reports that two additional bodies have been found, making thirteen killed. The Indians are devastating the settlements on the Solomon and Republican rivers. Adjutant General McCreesh leaves to-night for the Republicans with twenty-three scouts; he is recruiting here. He received dispatches today that the Indians have been in the vicinity of White Rock and Lake Sibley all the week in large numbers, killing and destroying everything.

Major Cox, 10th cavalry, just arrived from Camp Supply, reports that all the Arapahoes and four hundred Cheyennes are at that post, hungry and out of ammunition. Col. Nelson, the Superintendent, is there with a stock of provisions and wood for their benefit.

The colonies in Jewel and Mitchell counties, in north-western Kansas, have been driven into Republican and Washington counties. Nearly twenty persons have been killed; there is a panic among the settlers in that part of the State.

Kansas City, Mo.—Advices from the neutral lands, Kansas, state that on the 3rd a party of thirty-five Leaguers appeared at a point ten miles south of Fort Scott on the line of the Railroad, and drove away the laborers and pulled up the surveyors' stakes.

Detroit.—Dr. Day, who has been on trial several days at Marshall, Michigan, charged with child murder, by producing abortion, was last night found guilty; to conclude the tragedy, the doctor took morphine, and died today.

Washington, 5.—The President has

made the following appointments: C. C. Andrews, Minister Resident at Stockholm; J. L. Graham, Jr., Consul at Florence; Chas. R. Mobley, Attorney for the Southern District of Florida; John Lynch, Surveyor-General of Louisiana.

Attorney-General Hoar has submitted a lengthy opinion, in which he says, he finds no reason in law for the President withholding his approval from the finding of the military commission in the case of James Weaver, a citizen of Texas, convicted of murder and sentenced to be hung. The question involved was, whether a military commission in Texas, in September, 1868, had jurisdiction over a citizen not in the naval or military service. The authority therefor is found by the Attorney-General in the statute of March 21, '67, placing certain rebel States, including Texas, under military control, which act was operative in Texas, because she had not adopted the Constitution in conformity with the other provisions of the act, and all acts of Congress, it is to be presumed, are constitutional, unless the contrary plainly appears.

New York.—In the Jerome Park races, in the hurdle race for all ages, for 500 dollars, a mile and a quarter, over six hurdles, six horses ran; "Harvey Booth" was the winner, time 3:25. The second race, for the Fordham stakes handicap, was won by a colt by "Uncle Vic"; the third race Belmont stakes, for two year olds, was won by August Belmont's "Fenian," his "Glengary" being second. The fourth race for the members' cup, a handicap sweepstakes, was won by "Climax."

Mrs. Vernon, the well known actress, died yesterday aged 77.

Thomas McIntire has been arrested here charged with committing forgery at Omaha, to the amount of \$90,000; he also deserted his family and brought here a young girl from Michigan whom he had seduced.

The application for filing bonds to secure the release of the Quaker City has gone over until Monday.

Robert Boyd and Geo. J. Delaney, post office clerks, were today sentenced, respectively to 10 and 3 years' imprisonment for embezzling money letters.

Albany.—The delegates of the Printers' National Convention, which meets here to-morrow, have arrived from a large number of States and Territories, and from the Canadas. The Misses Howard and Augusta Lewis from New York are also here for the purpose of asking for a charter. The session will last all the week. A number of excursions to Saratoga and elsewhere will take place.

Philadelphia.—The saw and grist mill of McKee and Bingham at Camden New Jersey was burned this morning, with the grain, flour and lumber; the loss amounts to \$50,000. The fire is supposed to be the work of an incendiary.

Havana.—The steamship Columbia takes to New York thirty-six of the crew and passengers from the wrecked steamer Mississippi. Dennis Deane, convicted of murdering his brother-in-law some months since and who was sentenced to death on Wednesday last, committed suicide this afternoon in his cell.

New York.—Jno. Murray, a respectable citizen of Portsmouth was shot dead by Alexander Perry, whom he suspected of seducing his daughter and at whom he had fired a first shot with slight effect. Perry is bailed for his appearance on Monday.

Augusta, Ga.—The Elberton Gazette states that an insurrectionary plot has been disclosed by a negro having for its object burning of the town of Lexington the county seat of Oglethorpe County and massacring the inhabitants. The sheriff and a posse while arresting the negroes said to be implicated on the plot were resisted by a man whom they shot and killed.

Philadelphia.—Two policemen of this city have been arrested and held to bail for trial on the charge of entering two houses last night and beating the inmates almost to death, breaking the furniture etc. The sufferers were colored persons, the assailants were newly appointed officers.

Washington.—John W. Langston having declined the mission to Siberia, his brother Charles has been appointed to his place.

New York.—The executive committee of the society of the Burnside expedition and ninth army corps, has designated the 7th of July as the time, and Rocky Point as the place for holding their annual reunion.

Cyrus W. Field returned from Europe on the Weiser.

Cincinnati.—The report of the Secretary of the Cincinnati Board of Trade at its first quarterly meeting to-night, showed a membership of 74 individuals, 84 firms, comprising 233 names; 16 joint stock manufacturing companies, nine banks, two express companies, two insurance companies, making the total of the voting membership 300. The report setting forth the discriminations made by certain railroads against Cincinnati in transporting freight west and south, was read and filed.

Nashville.—Col. Stokes opened the gubernatorial canvass to-day, at the capital in a three hours speech on the question of enfranchisement. He said he stood by his record and referred to a letter written by him in January last, in which he said he was not in favor of universal suffrage; he never had been. He declared he was in favor of giving the ballot box to rebels only, when it could be done safely and then by a two thirds majority of the legislature. He also referred to his speech here in reply to Johnson and reiterated the views therein expressed. He claimed that his policy was in accordance with that of the party, as shown in the Fourteenth Amendment, authorizing Congress to remove political disabilities by a two-thirds vote. At the conclusion of Stokes' speech, Governor Senter gave his views. He did not consider Stokes' policy on enfranchisement sustained by the Chicago platform; if elected, as he felt sure he would be, he would recommend the legislature to take steps to remove disabilities from every tax-paying citizen. Governor Senter's speech gave great satisfaction. Both gentlemen seemed confident of success.

St. Louis.—J. E. Lemoine was arrested yesterday as a party to the robbery of the First National Bank of Clearfield, Pa., on May 12th, of about \$20,000; he left last evening in charge of an officer. He and the cashier robbed the bank.

Dispatches from Hays City, Kas., state that the mail train which left Sheridan yesterday morning, was run off the track by Indians four miles west of

Griensell; a considerable number of Indians were near by while the track was being repaired, and shots were fired by both Indians and persons belonging to the train, but no one was hurt.

Lieut. Low, with a troop of the 7th cavalry, is camped near the mouth of Ather Creek; he had seen and pursued Indians several times, but they always escaped. Col. Weir has just returned to Fort Hays from pursuit of the Indians who committed the outrages at Fossil Creek; he did not overtake them. Another scouting party was sent out by General Custer yesterday morning. About a hundred Indians were seen last evening, within a mile of Sheridan, with a red flag hoisted.

A dispatch from St. Joseph, Mo., says that Fred. K. Freeman, Vice President of the Southern Slavery Resurrection Society, passed through here this evening, on his way to commence a lecturing tour through the Southern States, with a view to the extension and introduction of Coolie serfdom throughout the South.

Dates from Hayti are to the 25th ult. The late General Gaget the revolutionary leader was looking for the arrival of the steamers Florida, Quaker City and America which he expected to add to his navy and with their assistance bring about the overthrow of Salnave.

## FOREIGN.

London, 5.—The papers, to-day, have unitedly interpreted Lord Clarendon's brief review of the Alabama correspondence, during the debate in the House of Lords last evening, as designed to indicate to Motley, previous to an official interview, the sentiments of the present Ministry. The Standard, the Tory organ, after abusing the arrogance and greed of America, says, "No English Minister ever had to make explanations so humiliating as Lord Clarendon uttered before the House of Lords. He admits it is still his duty, notwithstanding the past, to renew his efforts even without any hope of his honest desire for concord, being highly interpreted by any but a small section of the American people. Lord Clarendon announced that his Government would not refuse to re-open negotiations, provided they were not approached in a spirit similar to that which animated Sumner's speech, which was so applauded by the American Senate. But for the moment he was unable to communicate to the House the tenor of Motley's instructions, or even to state whether he had any instructions which he could at present make known."

The Star, Bright's organ, says: "We can now advance steadily into the future. There are two things clear, and it is satisfactory to find them recognized. Lord Clarendon stated last evening in the House of Lords with point and energy, that Americans cannot now doubt the willingness of the British Government to get their right, or its determination to protect its own character and credit. The negotiations speak for themselves on the one point and Lord Clarendon speaks for the nation of the other. Motley, Fish and Grant fully understand and appreciate both facts according to their merits."

The Times says Lord Clarendon observed truly enough that no impartial person could deny everything had been done to meet the wishes and adopt the proposals made by the American Government. The Times also says it made no great expression of satisfaction when negotiations fell through for its own part; considering how much America wanted, and how much British Secretaries were ready to give, it was a wonder England got off so well. The Herald's special from Havana says the programme is for the volunteers to remain quiet until the arrival of General Deroda. The Spanish Admiral strongly objected to the action of the volunteers in deposing General Dulce, but finally acquiesced. It is believed he will remain a passive spectator of whatever they may do before the arrival of General Deroda.

Havana, 4.—The volunteers have removed the Governors of Cadenas and Color, and propose to establish a triumvirate to consist of prominent Spaniards to govern the island until the home government is settled; they will probably give Count Valmaceda the command of the forces in the field. The Governor of Havana and the Chief Justice have resigned. Forty officials and bishops from Cuba will accompany General Dulce to Spain. General Espada is expected to resign soon. A serious affray between some volunteers and regulars has taken place at Cardenas.

Admiral Lynch advises the Navy Department from Matanzas, that he was surprised to find that the feeling of animosity between the volunteers and the Cuban element was much less bitter than he had been led to expect in Havana, in fact, from appearances, a stranger in Matanzas would never suspect that a revolution was raging in the island. All the American citizens desirous of going to the United States have left. Lieutenant-Commander Eastman reports that about the 18th of May, some bands of insurgents attacked the convoy of a train and defeated them, capturing 43 officers and men. It is rumored that Trinidad is in possession of the insurgents. At Guatemala, on the south side of the isthmus, the insurrection is said to be exceedingly strong, in consequence of the successful landing of expeditions in that district, and that in a recent engagement the Spaniards were defeated. It is certain, however, that the actual or supposed success of these expeditions had infused new life into the insurrection, which was apparently dying out two weeks ago.

London.—A meeting of conservative peers was held yesterday to determine what course should be pursued with regard to the bill to disestablish the Irish Church. Lord Keane argued that opposition should be made to the bill on the second reading and be finally rejected. He said the leaders of the party did not wish to dictate but were anxious that the judgment of each peer should remain unfettered; he felt as though the country had never pronounced on the present bill. As the feeling in the House of Lords was so opposed to it, the most consistent and best course to pursue under the circumstances would be to repudiate the measure.

Lord Salisbury deprecated this course. He feared the rejection of the bill would be most disastrous to the country, and would do nothing to save the Irish Church; it would be better to accept the bill and modify it in committee, than renew ill feeling and excitement.

Lord Cameron supported the recommendation of Lord Salisbury and urged the Chamber, now it was able to make terms for the Irish Church, to do so, as they might not have another chance hereafter. Lord Derby favored the rejection of the bill, contending that personal fears should deter no one from doing right.

The majority of the Lords present approved of the views of Derby. It was agreed that on its second reading the bill should be opposed. It is estimated there will be a majority of eighty against the Irish Church bill on its second reading, in the House of Lords.

Dublin.—An immense public meeting of persons opposed to the Irish Church bill has been held at Londonderry. There were nearly 12,000 persons present. A protest against the bill was adopted and will be sent to the House of Lords. Some arrests have been made.

Paris.—It is reported that during the last two days, discoveries have been made by the police of a new political conspiracy. The details of the affair are unknown.

Berlin.—The North German Parliament has adopted the Federal budget. The annual revenue and the expenditures of the Confederation are about equal.

Madrid.—The direct taxes on the Spanish colonies have been reduced one half. A small export duty on sugar, rum and tobacco has been imposed.

Paris.—It is rumored there is a crisis in the council of ministers at Rome, but no changes are announced. Prelates from abroad are beginning to arrive in Rome to take part in the Ecumenical Council.

Alexandria, Egypt.—A report from the interior, states that an Englishman and his family have been massacred by some natives of Abyssinia.

Halifax.—Harker and Thomas, two Negroes convicted of the murder of a colored man, named Wood, about a year ago, were executed to-day.

London.—The Daily Telegraph regards the speech of Lord Clarendon as neither defiant nor subservient, but as dignified by a firmness which expresses the national determination; it shows that what may be solicited with success is contained in the articles of the rejected treaty and that which it is hopeless to suggest is contained in Sumner's speech. England will never put trouble upon pressures on Motley to hasten the completion of his task but will be always ready to cancel every trace of angry feelings likely to disturb the relations of kindred nations.

Vienna.—The military budget is published; the estimates of expenditures are fifty millions in excess of those of last year and are calculated on the basis of an army of 800,000 men.

Paris.—Mr. Washburne is indisposed and will go to Hamburg; he leaves Hoffman the first Secretary in charge of the legation.

Brussels.—The Upper Chamber confirmed the bill of the Lower House to abolish imprisonment for debt.

Havana.—The Peruvian monitors have arrived at Barbadoes; they made the voyage in four and a half days from St. Thomas.

Advices from St. Domingo to the 25th ult., state that the Dominican government had concluded a loan for \$400,000.

The custom house at Puerto Plata was recently destroyed by fire.

DAN CASTELLO'S CIRCUS AND MENAGERIE.—Mr. J. M. Nixon, Managing Director of Dan Castello's Circus and Equestrian troupe, is in town, to make arrangements for an exhibition here at an early day. This is one of the largest troupes of the kind on the continent, and has the reputation of being a first class affair; if it is exhibited here for a few days it will afford a rare treat to the citizens, and one that many hundreds of the young folks have never had a chance of enjoying before.

COURTESY OF THE CHIEF JUSTICE.—We are under many obligations to His Honor Chief Justice Wilson, for furnishing us a copy of his elaborate ruling in the Brannigan, Lavelle and Howard murder case, which appears in to-day's issue.

MAIL NOTICE.—Postmaster Street desires us to state that the mail for Davis and Weber Counties will close on and after to-day at 2 p.m.
