LOCAL NEWS.

Runaways—This afternoon a horse attached to a buggy, ran a short distance up East Temple Street, but was stopped by a gentleman before any damage was done. Shortly afterwards a horse and cart came tearing down Second South Street to the State Road, where it turned southward and continued the race until out of sight.

Marshals' Doings in the North—

A special dispatch to the News from Logan to-day, says:

It is reported that passenger trains for the north and south were searched at Smithfield yesterday morning by Ireland and Vandercook. They failed to find the person wanted. It is a fact that two men of Utah and Dubois of Idaho, have exchanged warrants, so that persons from either Territory can be arrested in the other.

Fire—At about a quarter past five o'clock this morning an alarm of fire was given, and the firemen hurried to the place indicated, at the back of Culmer's warehouse, on the State Road, where they found that some boxes and a portion of the fence were burning. The fire was soon extinguished, as the loss amounted to but thirty dollars.

THE STOCK CONVENTIONS.

THE TERRITORIAL ASSOCIATION.

At 2 o'clock yesterday afternoon the stock convention again assembled in the Opera House. The minutes of the morning session were read, after which the committee on order of business made their report.

The chairman called for an enrollment of those desirous of membership in the association, and forty-three names were presented.

Mr. Dykins made a speech on the apparent division existing between the stock men, and moved that a committee of five be appointed to wait upon the opposing factions of stock growers and try to consolidate with the Territorial organization. After some discussion the motion was carried.

A committee consisting of Israel Evans, Ira Nebeker and L. B. Tripp were appointed to draft resolutions and suggestions regarding the protection of stock against thieves.

Mr. Faust moved that a committee of three be appointed on refrigerating and shipping dressed meats, and suggested the names of Wm. White, A. S. Patterson and Mr. Rydalch. Carried.

Messrs. Rydalch, Faust and Call were next appointed as a committee to confer with the Utah and Idaho Stock Association at Ogden, and ask their co-operation.

After some discussion the convention adjourned until 8 o'clock p. m.

The attendance was somewhat larger in the evening. The minutes of the afternoon session were read and accepted, after which Mr. A. J. Stewart offered the following: Resolved: That it is the request of this convention that each county association appoint a committee to meet at Salt Lake City, to make preparations to hold a Territorial Fair. After some discussion the resolution was withdrawn.

A motion by Mr. Faust, limiting speakers to five minutes was carried, as was also another prohibiting the members from speaking more than twice on the same subject.

Mr. Francis moved that a committee be appointed to draft resolutions embodying what legislation is needful for the protection of the stock interests.

Messrs. Francis, Faust, Woolley, Seegmiller, Rydalch, Nebeker and Rich spoke upon the motion, presenting many practical suggestions and views concerning the matter, after which Mr. Francis and Mr. Jones were added to the committee on protection, appointed during the morning session.

A motion to admit the railroads to give special rates for shipping was lost.

The committee appointed to confer with the other association asked further time to report, and was given until 10 o'clock this morning.

The convention then adjourned till 2 o'clock.

The committee appointed to enquire into the matter of protecting stock from thieves, railroads, etc., reported. They suggested that a committee of three be appointed to examine the laws of the Territory concerning the matter, and report such recommendations as they might think best. Report accepted.

The committee appointed to consult with the Utah and Idaho Stock Association, made a verbal report stating that representatives from that organization would be in attendance this afternoon. The report was accepted.

Mr. H. J. Faust then presented a small gavel, which was given to the Territorial convention by Joslin & Park. On one of the ivory bands which encircled the ends was engraved: "Presented by Joslin & Park to the Territorial Cattle and Horse Growers' Convention."

On motion, a vote of thanks was tendered the donors.

A committee of three was appointed to wait upon Auditor Clayton and ask his pleasure concerning marks and brands.

The convention then adjourned till 2 o'clock.

THE UTAH CATTLE AND HORSE GROWERS' ASSOCIATION.

Met in the City Hall at 10 o'clock this morning and was called to order by the president.

Roll was called by the secretary, and the minutes of the previous meeting were read and accepted.

Five new names were added to the roll.

President Jennings stated that there was another convention of cattle men in session in the city, and they had appointed a committee to wait upon this association and see if some plan could not be agreed upon that their interests might become united. The committee had consulted him, but he told them it was a question that must be decided by the Association. If the matter could be accomplished upon terms that would be entirely satisfactory to all, he would be in favor of it. He suggested that a committee of five be appointed to confer with the delegation from the other convention.

Mr. L. Grand Young moved that said committee be appointed.

Messrs. Leavitt, Young, Grover and Hayne spoke in favor of the motion, which was then carried.

The president appointed Messrs. Leavitt, Grover, McIntyre, Young and Widdlsport [?] as such committee, and suggested that they go at once and confer with those appointed by the other convention.

Mr. Young excused the two bodies the use of his office.

The meeting then adjourned until 2 o'clock.

After music by the band, the convention at the Opera House was called to order at 2 p. m.

Roll call was suspended and the minutes of the morning session were read and approved.

The secretary then read the report of the committee who were appointed to confer with factions, etc. They had had a friendly conference with a committee representing Mr. Jennings' association, and found them willing to meet with the present organization at 2 p. m. to-day, as a committee of the whole, if invited to do so.

On motion, the report was accepted and a committee of three were appointed to convey the invitation to the other associations.

The committee appointed to wait upon Mr. Clayton reported that they had called upon the gentleman, but he was out. They had left an invitation for him to attend the present meeting this afternoon. The report was accepted and committee discharged.

Mr. Clayton, being present, was called to the stand.

A communication from A. T. Atwater, secretary of the National Cattle and Horse Growers Association of St. Louis, was read. He regretted that he could not be present and expressed his interest in all such movements. It also contained a resolution which he wished this convention to adopt endorsing the principles of the national organization. No action was taken upon the resolution, as it was thought best to wait until the other convention arrived, as they were momentarily expected.

District Court Proceedings—

The trial of Frank Wright vs. M. S. Ascheim, et. al., was resumed this morning, and several witnesses were examined.

The grand jury came into court and reported four indictments, two under Territorial statutes.

Samuel Dean, W. H. Pennock and Wm. Neville, natives of England, were admitted to citizenship.

Let the Work Go On—

The liberality of our leading citizens will continue to be manifested in behalf of the Deseret Hospital. The most recent instances we have heard of are the presentation, by Elias Morris, Esq., of three very nice chairs, and of $50 check, by Gen. H. S. Eldredge. The officers of the hospital return their sincere thanks for these kindnesses, which we hope will continue to be shown to that worthy institution.

The base ball fever is taking hold of the boys.

TERRITORIAL ITEMS.

CULLED FROM LATEST EXCHANGES.

—There are two cases of scarlet fever in Logan.

—In the express car which passed through Laramie last Tuesday morning, among other valuable freight, was a genuine Chu salmon, weighing 60 pounds, and consigned to President Cleveland, by J. F. Chester, of Portland, Oregon. It is one of the finest that was ever caught in the Columbia river, and is expected to reach the President in time for next Sunday's dinner.

—A desperate fight occurred at Fort Fetterman, Wyoming, the other day. A saloon keeper named Bill Bacon and a cowboy known as J. B. Woods, had a dispute in Bacon's saloon, a fight resulted and Woods was terribly beaten. He was knocked down, his face, head and body were kicked and stamped upon, and one eye was literally kicked out of his head. His injuries are said to be very serious, and his recovery is by no means sure. Bacon is said to be not a little alarmed at the result of the fight, and from present indications his feelings are quite natural. The only excuse offered for the brutal affair is that both men were drunk.

—One day last week officers Culp and Meadows, of Gainsville, Texas, were in search of a negro named Glass, a notorious character, who is wanted for a cold-blooded murder committed in Indian Territory some months ago, and for whom there is a reward of $1,500. Learning that he was hiding in the neighborhood of the Arbuckle Mountains, I. T., the officers went there to capture him, and while proceeding to make the arrest were met by Glass, who was riding a horse. Culp ordered him to throw up his hands, when the negro reached for his pistol. The officers opened fire and Glass fell from his horse as if fatally wounded. The officers, presuming they had killed him, laid aside their arms and approached their supposed victim, when he suddenly drew his pistol and shot both officers mortally. The villain wore a breastplate, which turned the officers' bullets. A pursuing party was soon formed, and if the wretch is caught he will doubtless be lynched.

—A somewhat peculiar operation was performed last Wednesday by a Butte surgeon. A lady of that town had her arm dislocated, which caused her hand to swell so much that two rings on one of her fingers became deeply imbedded in the flesh, causing great pain. Dr. DeFreye was called in and at once removed the rings without a particle of pain or trouble. He took a piece of twine, and beginning at the point of the finger, wrapped it so closely that the blood was forced backward into the hand. When the rings were reached a crooked needle was inserted beneath the ring and followed by its silk thread. The needle and thread having been drawn through, the winding process was reversed and followed by one of the rings. A like process was adopted for the second one, and the patient thus relieved of the most agonizing pain. Dr. DeFreye had performed the delicate work before and found it to work like a charm.

—Last Wednesday evening five prisoners in the Evanston jail made their escape. By some means they had procured a steel instrument and cut the bars of the cage which confined them, this leaving nothing between them and liberty but the solid outer door. Behind this door they congregated, waiting the approach of Deputy Sheriff Newell, who is in the habit of inspecting everything each evening, and securely locking up the prisoners. As soon as Mr. Newell opened the door, they threw a handful of pepper into his eyes and made a rush for liberty. Mr. Newell, nearly blinded, drew his revolver and commenced firing at the men as they ran through the hall. They gained the open air and were running through the court-yard, when the officer, who followed them and continued his firing, struck one of the men, shattering his left arm. The shooting brought several persons to the scene, who joined in the pursuit, and soon all but two were caught and returned to their cells, including the wounded man, whose arm will have to be amputated. Officers are still hunting the two who escaped.

Excommunicated.

Sanpete Items—From David Candland, Esq., just up from Sanpete, we learn that affairs generally in the "granary of Utah" are in a prosperous condition. A greater breadth of land is being cultivated this year than ever before, and there never was a better prospect for crops at this season of the year. There is no immediate prospect of the Sanpete Valley Railway being extended beyond Moroni, its present terminus, although promises of the early completion of the road have been oft repeated. There is talk of constructing a number of reservoirs to increase the water supply for irrigation. The people of Chester, the settlement at which Brother Candland resides, have reason to complain now of their land being too wet, and a system of drainage will probably have to be adopted there before long.

Frenchmen can properly be called the "Knights of the table." They are good judges in all its refinements and delicacies. Hundreds of testimonials attest their great curative powers. Only fifty cents a bottle at Z. C. M. I. Drug Store.
