THE PATENT

Wire Gauze Oven Door

IS THE LATEST IMPROVEMENT ON THE

It Produces Practical Results in Baking and Roasting never before attained in any Cooking Apparatus, and will

Revolutionize the Present Methods of Cooking

ITS THEORY

Is that all Food Bakerd or Cooked, should be cooked in fresh air freely admitted to the oven. This is done by discarding the close oven door heretofore used, and substituting for it a door containing a sheet of Wire Gauze nearly as large as the door itself.

Through this Gauze Door the air freely circulates, facilitating the process of cooking, and producing food that is unequalled in flavor and nutrition, and actually cooked with less consumption of fue than in an oven with a closed door.

It makes an enormous saving in the weight of meat.

It also produces larger Loaves of Bread, requires less attention from the cook, and promotes the health of the family by the SUPERIOR QUALITY OF THE FOOD COOKED IN IT.

OPINION OF AN EXPERT.

MRS. MARY B. WELCH, Teacher Domestic Economy, Iowa State University, says: "My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every part—front and rear—but as a result of its superior ventilation the food placed therein is better cooked, while retaining a sweeter flavor, and a larger proportion of its best juices. I find, also the consumption of fuel in this Range is much less than any other or same work.

Propositions by the Democrats to Admit Utah.—Democratic P. M.'s Resigning, Etc.

WASHINGTON, Dec. 13—The democratic caucus in a session lasting over three hours, adopted the following resolution:

Resolved, That in the judgment of this caucus provisions should be made by which Dakota may be admitted into the Union as one state, or two states, as the people of the two proposed states may hereafter determine; also that the necessary legislation ought to be provided for the early admission into the Union of the territories of Washington, Montana and New Mexico; that these measures should all be embodied in one bill, either by an amendment to the pending bill or otherwise as to details, as the committee on territories shall determine; and that an order by the House for the consideration of the measures should be made at an early day and the bill considered in the House at the earliest day practicable.

UTAH,

although not mentioned in the resolution, it was agreed should be admitted into the Union, but by a separate bill. Sixty members were in attendance at the caucus, and it was evident they had come nearer an understanding since the previous night.

Cox opened the proceedings with a long speech, in concluding which he said he opposed Utah coming in on the omnibus bill, but was willing to defer to the wish of the caucus and accept the measure, provided it was understood that Dakota should have the previlege of division.

Dockery, of Missouri, Wheeler, of Alabama, Blount, of Georgia, Mansur, of Missouri, Rice and McDonald, of Minnesota, Vorhees, of Washington Territory, and others took the same ground.

Oates and Herbert, of Alabama, and McMillin, of Tennessee, stoutly opposed the

DIVISION OF DAKOTA.

McMillin declared it would be political suicide for the democratic party to admit all these new states. The democrats should go slow in the matter. These proposed new states were republican, and would continue to be republican, notwithstanding the action the democratic House might take looking to their admission.

The Dakota question then became lost sight of temporarily in the discussion over the question whether Utah should be included in the omnibus bill.

Delegate Caine, of Utah, made an earnest appeal for the inclusion of his territory in the proposed bill. He said polygamy was now no longer practiced to any extent, and the democratic party should not undertake to deny Utah admission solely because of the religious belief of some of her citizens.

BRECKENRIDGE,

of Kentucky, seconded the appeal, saying Utah would probably be the only democratic state in the lot, and ought not to be omitted.

After a further discussion, the committee on territories was requested by a vote showing a small majority in favor of the proposition, to prepare and to present to the House a separate bill for the admission of Utah.

Speaker Carlisle and Judge Holman then addressed the caucus in favor of the omnibus bill to include territories having a ratio of population entitling them to one member of Congress.

Cox closed the debate in a speech in which he asked the members to accept the proposition of Judge Holman leaving the Dakota question to the people of that territory and providing for the admission of the other territories named.

Holman's resolution, as amended by a suggestion from Speaker Carlisle, was then adopted and the caucus adjourned.

NOMINATIONS.

The President sent the following nominations to the Senate:

G. Parker Norton, of Salt Lake City, Utah, to be surveyor general of Utah.

Ira M. Krutz, of Indiana, register of the land office at North Yakima, Washington Territory.

H. T. Tolmin, of Minnesota, agent for the Indians of the Nez Perces agency, Idaho.

The Department of State has been officially informed by Baunder Deem elsbraech, the Belgian minister to this country, that he has been appointed minister to Spain. Garmer Aeldewick has been chosen to succeed him in the United States.

A large delegation from the American

SABBATH CONVENTION.

had a hearing this morning before the Senate committee on education and labor which had before it the Blair bill to secure to the people the enjoyment of the Sabbath as a day of rest and to promote it as a day of religious worship. The deleates presented many documents bearing on the subject, including Cardinal Gibbons' letter, and stated that petitions for the passage of the bill represented nearly 14,000,000 persons.

Rev. Dr. Lewis, representing the Seventh Day Baptists, afterwards came before the committee and opposed the bill, and suggested that the Seventh Day Baptists, Seventh Day Adventists and the Jews be exempted from its observation.

Mr. Stern, secretary of the National Temperance Society, and Mrs. Bateman-pref the W. C. T. U. favored the bill, and Professor Alonzo T. Jones of the Battle Creek (Mich.) Institute, representing the Seventh Day Adventists, and Mr. Wolff, of Washington,

OPPOSED IT.

At 2 o'clock the President received the delegation from the Sabbath Observance Convention.

At the evening session of the Sabbath Union Convention, the principal event was the speech of Prof. Herrick Johnson, D.D., of Chicago, who made a vigorous attack on the Sunday newspapers. He said the plea that a necessity existed for it is absurd. The Sunday newspaper is here solely for the money that is in it. He appealed for a public conscience aided by the individual, which should urge upon the business men and legislators the necessity for reform in this direction.

Resolutions endorsing the petitions for the passage of the Sunday rest bill and the proposed amendment to the Constitution forbidding the manufacture, importation, transportation or sale of alcoholic liquors were adopted, after which the convention adjourned *sine die*.

CONFIRMED:

Perry Belmont (New York) Envoy Extraordinary and Minister Plenipotentiary to Spain.

A committee representing the actors' order of friendship appeared before the Ford committee on investigation of immigration today, and asked that the contract labor law be so amended as to include professional actors and musicians, prohibiting them from entering the United States under labor contract. The committee said that a large number of foreign actors were brought to this country for the sole reason that they would work cheaper than American actors. They did not object to the presence of stars, but to the host of minor actors they brought with them and to the cheap grade of foreign actors whom the American managers imported solely because of their cheapness. Their profession was already overcrowded, and they thought themselves fairly entitled to protection against the

WHOLESALE IMPORTATION

of foreign actors who were under no obligations to the United States, and left it when their engagement was at an end. The committee also claimed their wardrobes, property and stage effects were all imported contrary to law, without custom duties and to the detriment of Americans. This was done through ballet girls and others swearing falsely that the wardrobes, etc., were their personal effects.

The Postmaster-General has nearly completed the classification regulations. Under this classification, which may be amended before its final adoption, the employes are divided into ten classes, viz: A, B, C, D, E, 1, 2, 3, 4 and 5. Class A will represent those who receive an annual salary of $3000 or over. The intermediate numbers and letters represent in increasing order those whose salaries are more than $840 and less than $2000. Local

EXAMINING BOARDS.

will be established in every congressional district and vacancies on any line will be filled from the list of eligibles in the district through which the line runs. Important positions in the service, where they become vacant, will be filled by promotion on merit from the ranks.

Postmaster-General Dickinson said today to an Associated Press reporter that within the last few weeks he had received the resignations of a considerable number of presidential and fourth-class postmasters, with the request that the republicans whom they name and recommend be appointed in their place. He said no resignations had been or would be accepted that are merely for the purpose of forestalling the action of the incoming administration by the appointment of republicans.

A MINISTER'S STATEMENT.

I Expect to be Believed in all I am about to say—I write for the good of others.

"I am now at an age when a man should speak words of truth and soberness, having reached the alloted term of three score years and ten, and having devoted my time in the pulpit impressing lessons of wisdom to my fellows. Mine is a common story of physical suffering and how I was delivered from it; and my desire is to mention the facts as though no one were interested save myself and those who may read these lines. I was long troubled with a stubborn affection of the kidneys and bladder. I had painful gravel deposits, and at times enlargement of the prostrate gland. Despite all the professional help I could get I grew steadily worse. In this extremity I first learned of Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. I took the wise course. I privately inquired into Dr. Kennedy's personal character and professional standing at his home in Rondout, N. Y. The result was more than satisfactory. I discovered him to be a highly educated and experienced physician and surgeon, respected and trusted at home and abroad—a man whose career has been a long and open success. I bought a bottle, however (the price being only $1.00,) taking nobody into my confidence. The good effects cheered and emboldened me. I bought another, following the clear directions; and now I want to make known the good it has done me. The disease has relaxed its hold and I look forward to spending the balance of my life free from bodily torture, and with a heart grateful for the medicine which affords me so pleasant a prospect."
