Beaver Enterprise, Jan. 8—

From Mr. F. M. Molen we learn that out of his herd of two hundred head of stock at the head of the Sevier, at least half of them have died, and he has but slight hopes of saving any of the remainder.

#### SENATE.

WASHINGTON, 12.—In the Senate sundry petitions were presented, including one from Elizabeth Cady Stanton, Susan B. Anthony and others, asking that women be allowed to vote and that the same right be extended to them as to colored men.

Cameron presented a memorial from the Russian Mennonites, setting forth that they desired to become citizens, and asking that they be allowed to occupy public land.

Ferry objected to the reception of the petition, as it was from foreign citizens.

Ramsey, from the committee on Post Offices and Postroads, reported favorably on the House bill to establish various post routes; passed.

Ramsey offered a resolution looking to raising the ministry to Sweden and Norway to the first class; adopted.

Pratt introduced a bill ceding to the several States, where they exist, the beds of the unsurveyed lakes and ponds.

Ingalls introduced a bill to equalize the rates of freight on the different branches of the Union Pacific R. R.

Conklin then offered a substitute for the House bill, which repeals the act of March 3rd, 1872, except so far as it relates to the salary of the President and judges of the Supreme Court, and places the salaries back where they were before the passage of that act. It provides, further, that no mileage shall be allowed for the first session of the 43rd Congress, and that all undrawn or returned back pay shall be covered into the Treasury.

After some discussion and the rejection of a number of amendments by decisive votes, the substitute was adopted, and the bill passed, yeas fifty, nays eight, viz:—Brownlow, Conover, Haragan, Gordon, Lewis, Norwood, Sprague and Tipton. Cooper opposed it, and paired with Cragin in favor of the bill. The non-voters were Alcorn, Ames, Dennis, Ferry, of Conn., Gilbert, Hamilton, of Texas, Johnson, Jones, Kelly, Ransom, Stewart and Thurman.

#### HOUSE.

Holman moved to suspend the rules and adopt a resolution declaring that in the judgment of the House there is no necessity to increase taxation, or to increase the public debt by a further loan if there shall be economy in the public expenditures, and that in view of the condition of the national finance the House will reduce the appropriations and public expenditures to the lowest point consistent with the proper administration of public affairs; the rules were suspended and the resolution adopted, yeas 22, nays 3.

#### AMERICAN.

NEW YORK, 12.—The committee on safety having invoked the official aid of the Governor, before the march of the unemployed to the City Hall to-morrow, he replied that he cannot interfere with any arrangement which the municipal authorities have made.

Committees of the workingmen's union and iron moulders' association called on the police commissioners this p. m. and informed them that their organization totally disapproved of the proposed demonstration to-morrow. Orders have been issued to Captain Walsh to prevent a gathering in Tompkins Square, the park commissioners having withdrawn the permit for the meeting. The entire police force will be on duty to-morrow.

The Workingmen's Central Council held a meeting to-night in reference to the parade of the unemployed to-morrow. The following is the substance of the resolutions adopted: That the Workingmen's Central Council is in no manner responsible for the action of the men getting up the parade,

nor do we approve of the insane attempt to excite the passions of the people to commit acts of violence, and we regard such men as the worst enemies of trade and labor organizations, and only tending to bring the workingmen into disrepute. We condemn the action of the police commissioners in denying the right of workingmen to parade in any part of the city, and believe they are actuated by fear, as they could keep the peace at the City Hall as well as in Canal street; we also condemn the manner in which the Mayor has treated the demands of the labor organizations.

AUSTIN, Texas, 12.—A caucus of the Democratic State officers and members of the legislature decided to organize a new State government tomorrow; in the meantime Governor Davis has issued a proclamation declaring any such organization illegal.

POTTSVILLE, Pa., 12.—Dispatches to-day from all the districts of the Schuylkill region represent that at Lehigh the miners had all decided to strike on the rejection of the \$2.25 basis, and demanding a minimum basis of \$2.50 on contract work, and \$2.75 for day work, and in some instances even higher rates. The men are very determined, the basis question having been thoroughly discussed, and they are better prepared for a strike now than ever before. There is much difference of opinion among leading coal operators as to the probable length of the strike, many believing that it will continue until the middle of April.

COLUMBUS, O., 12.—Governor W. A. Allen was inaugurated to-day in presence of the General Assembly and a large concourse of spectators from all parts of the State. The oath of office was administered by Chief Justice White. Ex-Governor Noyes, in a few graceful sentences, introduced his successor to the assembly, and Governor Allen proceeded to deliver his inaugural, which was comparatively brief, containing no recommendations beyond an earnest exhortation to the legislature to reduce the expenditures and taxes. A brilliant inaugural ball was given to-night in the City Building.

The following dispatch was, this morning, sent to Gov. Davis by the President:

"Executive Mansion,  
"Jan. 12th, 1874.

"To Governor Davis, Austin, Texas.—Your dispatches and letters, reciting the action of the Supreme Court of Texas, in declaring the late election unconstitutional, and asking the use of troops to prevent apprehended violence, is received. The call is not made in accordance with the constitution of the U. S. and the acts of Congress under it, and cannot therefore be granted. The act of the legislature of Texas providing for the recent elections has received your approval, and both political parties having made nominations, and having conducted a political campaign under its provisions, would it not be prudent as well as right to yield to the verdict of the people as expressed by their ballots?" "U. S. GRANT."

#### FOREIGN.

LONDON, 12.—Special advices to the Standard, from Cape Coast Castle, report that the King of Dahomey has sent heavy reinforcements to the Ashantees.

ROME, 12.—Manuel Pastor, who fired at King Victor Emanuel in 1873, has escaped from prison.

BERLIN, 12.—Additional returns from the elections for the Reichstag largely favor the national liberal party, especially in Bavaria, Wurtemberg and Baden.

PARIS, 12.—In the Assembly, this evening, after a long and violent debate, in the course of which Picard bitterly attacked the ministry for its monarchial tendencies, a vote of confidence was adopted by a majority of fifty-eight; the ministers, in consequence, have withdrawn their resignations.

MADRID, 12.—The Official Gazette, this morning, contains the following intelligence from Cartagena: On Sunday evening a committee of the Red Cross Society and three Cartagena officers arrived at General Dominguez' headquarters, having brought a letter from the President of the insurgent junta, asking a suspension of hostilities and the appointment of a joint commission of government and Cartagena officers, to consider the conditions of surrender. Gen. Dominguez rejected the pro-

posals and gave the insurgents until noon, to-day, to make an unconditional surrender; he, however, promised pardon to all who, before the expiration of that time, gave themselves up with their arms, except the members of the Junta, and ordinary criminals, who are to be dealt with by the tribunal. Liberated convicts will be compelled to serve out the terms of their sentences, and of deserters from the armies, they will be disposed of by the minister of war. With this reply the committee returned to the city.

—An offer made by the Mayor of Liverpool, who is the head of a large brewing firm, to supply beer gratuitously for the Christmas dinner of the inmates of the Liverpool workhouse was declined by the Workhouse Committee.

—Mrs. Bluebottle says she knows of a woman who lives in Oregon, who was a neighbor of hers, and who was in the habit of marrying every man who came along. She says she has got clear beyond bigamy—way up in trigonometry.

—A lady in Sullivan, Illinois, was recently granted a divorce from her husband, with forty acres of land as alimony. The same afternoon her former husband applied for a marriage license, and in the evening was married, in the street on horseback, to the lady of his second choice.

—A valley, 5,000 feet above sea level, and north of latitude 46 degrees, where snow never falls, is in Montana. Indians, trappers and old settlers say snow was never yet seen on the grounds in "Valley Eden." While snow falls to the depth of seven inches on the surrounding mountains and valleys, never an inch falls on this favored spot.

—The morale of the Milwaukee Sentinel staff seems to have been slightly disturbed lately. It appears that the paper suddenly changed hands, and the editor and proprietor suddenly found himself without an organ. It is stated that Senator Campbell has a finger in this typographical "pi."

—Mrs. Banks was a most determined woman. She lived in Dudley, England, but was determined not to do so any longer. Therefore she made a loop of a clothes line, and, standing on a table, up-raised her toes, and pressed her throat against the lower side of the loop until suffocation achieved her death.
