# COMPANY WILL NOT RECOGNIZE UNION.

Utah Coal Corporation Concedes Eltven Out of the Twelve Demands of Men.

## OUTCOME OF THE CONFERENCE.

Resolutions Passed Commending the Action of Gov. H. M. Wells in Calling Out the Troops.

As briefly outlined in last night's "News" the management of the Utah Fuel company conceded yesterday, all the demands of the striking coal miners, except the recognition of the union, and the union will not be recognized under any circumstances. This was determined yesterday afternoon before Gov. Wells, the board of governors of the Commercial club, officers of the coal mpany, and other officials specially terested. The meeting passed resoulcalling out the troops, and pledged the

ed that Mr. Kramer had personally been in conference with his dissatished miners, and to the list of 12 grievances submitted had in he main consented to allow them, the principal exception being an acknowledgement of the Miners' union, which he positively declined. He states now his ability to supply coal to the city and section if the men seeking work are guaranteed protection, and that they are prepared to close down their works rather than recognize the Miners' union or operate under its direction. Now it is evident that the strike movement is a preconcerted effort to establish miners' unions in this state and destroy the harmony that has hitherto prevailed between capital

When asked whether he had heard of any violations of law by his countrymen the consul presented the copy of a statement by "Doc" Shores, reciting a great number of misdeeds alleged to have been committed by the Italians. The only thing in this report which Dr. Cuneo has verified was the charge that the miners had carried the American flag nyside down.

TYPICAL THRIFTY MINER'S HOME AT any opinion whatsoever. In coming claim claim is the found it necessary to call a special meeting of the Legislature to provide means for keeping the troops in the field. Gov. Wells says that the summoning of the Legislature would depend on the events during the next depend on the events during the strikers maintain the faw days. If the strikers maintain the faw days are strikers and far and faw days are strikers. The faw days are strikers and faw days are strike provide means for keeping the troops in the field. Gov. Wells says that the summoning of the Legislature would depend on the events during the next few days. If the strikers maintain the same attitude it will be necessary to keep the soldiers in the field and consequently funds will be needed for this step.

Following the meeting held at noon in the office of the governor there was another session in the Commercial club in the evening when the whole situation

was gone over again. PRESIDENT HOLMES LETTER,

The meeting was opened by the reading of a communication from President E. F. Holmes of the Commercial club, which was as follows:

Commercial Club, Sait Lake City, Utah, Dec. 1, 1903. To the Board of Governors, Salt Lake Commercial Club; Gentlemen-Herewith I hand you copies of telegraphic correspondence relating to the matter of the coal strike in Car-

The dispatch to John Mitchell was sent at the suggestion of Mr. Harriman at the time of the Alta club banquet, Nov. 25, and had the approval of Gov. Wells and J. E. Dooly of the govern-ing board. Salt Lake City Commercial dub, and was an effort to get the coal niners' strike declared off. This message was sent in my name as president of the Commercial club, representing the business interests of the city and I was afterwards called into consultation with his excellency, and joined with him in a message to Mr. Kramer, representing the Utah Fuel company. Upon that gentleman's re-fusing to go into conference with the striking miners, because by doing so he would have to recognize the union, the governor inquired when he would be in the citiv, and a meeting was arranged, which took place at 11 o'clock this

which practically all that was brought up at the morning's meeting was re-viewed. The statement made in the morning by Mr. Kramer was read, as also was the following report of Dr Cuneo, the Italian consul from Denver who has been listening to the grievences of his fellow countrymen who are ow cut on strike at the five coal

"At Scofield the unanimous grievance

of my countrymen was that they desired to have control of the weight of the coal. Some stated that their grances were presented to the Utah F company through the miners' union Others informed me that no complaints were ever made to the company. Some stated that the company, it is true, in-creased the wages, but it filehes the miners on the weight of the coal. One of the committees stated that their grievances were presented to the su-perintendent and to the boss of the ompany. It is the unanimous desire of the Italian miners to join the union, and for the union to control their interests. They complain that the conpany violates the laws of the state con-cerning individual liberty, because at the different mining camps the officers will not allow them to hold meetings, and if they do they are arrested, and and if they do they are arrested, and that they can go nowhere unless they are maltreated, insulted and arrested."

As a specific instance Dr. Cuneo cited the case of Raneiro Anderlini, who said that his sister-in-law had been attacked by six officers while holding his horse in front of his house.

"My countrymen," continued Dr. Cuneo, "stated that if they present grievance to the company it does not listen to them, and, furthermore, if they do

to them, and, furthermore, if

number of persons identified with the coal companies and those having the best interests of the city and state, as well as the miners themselves, at heart. From this meeting it was learn-

GOV. WELLS ENDORSED.

After these two documents had been discussed thoroughly, the board drew up the following set of resolutions commending Gov. H. M. Wells upon his action in celling out the troops and thus averting loss of life and probable damage to property. amage to property:

Be it resolved. That after a careful

and thorough canvass of the causes and conditions of the coal miners' strike in Carbon county, this state, we are of the opinion that the action of his ex-cellency, Governor Heber M. Wells, in callig out the state troops for the pur-pose of preserving order, protecting life and property and enforcing the law in the district affected by said strike was entirely justified by the circum-stances and absolutely necessary for the accomplishment of the purposes in

Resolved further. That we earnestly commend him for the thoroughness and impartiality with which he has investigated the situation and the promptness with which he has exerised his authority as governor in this

Resolved further, That we pledge him our loyal support should developments, in his judgment, warrant the calling of a special session of the Legislature and in any other measures he may, as governor of Utah, decide to be proper in his efforts to effect an early adjustment of the differences at present existing between the Utah Fuel company

## DEMANDS AND ANSWER.

ford, chairman, and David Wilson, sec-retary, of the meeting held Nov. 10, 1901:

First-That tracklayers shall lay and First.—That tracklayers shall lay and take out track in all cross-cuts, the company to pay \$2.50 per day for driving same.

Second—That we have 2,000 pounds for a ton, instead of 2,240 pounds, the system used by this company at the present time.

present time.
Third—Have the scales properly tested from time to time by a government

official.

Fourth—That the miners receive 20 per cent advance on 2,000 pounds.

Fifth—Any miner taken from usual place of work to drive or any other work shall receive \$3.25 per day.

Sixth—That the company replace the 50 cents per yard taken off entries about eight months ago.

Seventh—That the miners have a check weighman at each tipple, his pay

check weighman at each tipple, his pay to be deducted at the office. Ninth-That all outside men connect-

Nith—That all outside hear connect-ed with the mines receive 20 per cent advance, and teamsters have 15 minutes to care for their teams, as formerly. Tenth—That we abolish the coupon na script system.
Eleventh—That we shall receive pay emi-monthly.

Twelfth-That no employe be suspended or discharged for taking part in these prodedings, and the United Mine Work's of America be recognized.

#### THE REPLY.

The original reply of the company to the grivances of the men was as sub-joined:

To the Committee Representing the

To the Committee Representing the Employes of the Utah Fuel Company at Sunnyside Mines—After due and careful consideration of the 12 propositions raised at meeting Nov. 8, 1903, and submitted by you to us last evening, we make the following reply, and in doing so take them up in the order in which they were extended.

so take them up in the order in which they were submitted by you:

First-Referring to the first proposition. Hereafter all cross-cuts will be driven narrow and \$2.25 per yard paid for same. Company track-layers will

y switch or curve rails.
Second—As there seems to be som confusion between propositions Nos. and 4. we will answer them together The company is willing to reduce the tonnage basis from 2,240 pounds to 2,000 pounds, and for this 2,000 pounds is will. ing to pay the miners 55 cents, or the same as is now paid for 2,240 pounds.

Third-Regarding the question of having the scales properly tested fron-time to time by government official. I is now by the laws of this state required that the state mine inspector sha examine the scales and test them. The company has no jurisdiction over this matter and has always been ready to give the mine inspector every facility for doing this.

for doing this.

Fifth—We are willing to pay any miner who is taken from his working place to do company work or driving \$3 per day and give his partner the double turn while miner is at such work, pro-

vided he can take the cars.
Sixth—The mine superintendent will make the pay of miners working in places where they have to contend with water, bad roof, clod, low coal, or any other drawback, so that the pay of such miners will equal the miners' average earnings throughout the mine under av-erage conditions.

Seventh-The state mine law provides that the miners at any time shall have the privilege of a check weighman if they so desire, to be paid by themselves. The company has never been, and is not now, opposed to such check weighman, and the only reason there is not a check weighman is because the miners have never taken any steps to choose one. There is no objection to the pay of such check weighman being collected through the office.

Eighth-Beginning Nov. 1, the com-pany is willing to pay all drivers and day men who have heretofore been re-ceiving \$2.50 per day, \$2.75 per day, and ceiving \$2.50 per day, \$2.50 per day, and to pay boy drivers proportionately. All inside men who have heretofore been paid \$2.75 per day, such as head timbermen, head track-layers, hoist men, etc., will be paid \$3 per day.

Ninth—The company is willing to pay all outside day men, directly connected with the operation of the miles are ad-

with the operation of the mine, an advance of 10 per cent over their present wages. Teamsters will be expected to work full shift.

Tenth-The company has never re quired its employes to purchase couever had the script system in effect, nor do they expect to in the future. While it is true that the company has issued coupons, it has been for the purpose of convenience to employes and at their request, which in the future as in the past, they make use of or not as they choose.

Eleventh-The company does not feel that: it should be subjected to the additional expense of paying off on two different days of the month.

Twelfth-in answer to No. 12. The company believes that it has always treated its employes with liberality, consideration and justice to all parties and in that spirit it now offers employment and gives its confidence to those who go to work immediately, but it does not feel that it would be justice to recognize any particular organization, and therefore must refuse to comply with this demand.

## FAR REACHING.

What the Coal Strike is Doing for Carbon County and Farmers.

The coal strike is seriously affecting business in the state. For one thing, it has been the intention of the Utah Fuel company to build 1,000 coke ovens at Sunnyalde to take care of the output there but various obstacles have arisen. and now the strike has proven the cap sheaf, and only 400 have been built The company was short of water to be gin with, and offered George Whitmore 20,000 for his water rights close by Sut Mr. Whitmore refused, and as the company subsequently found all the water they wanted in their mines, they saved \$20,000 Mr. Kramer says it is saved \$20,000 Mr. Kramer says it is difficult with the labor troubles so liable to cocur, to raise money in the east, The addition of 600 ovens to the Sunnyside plant would prove the means of listributing more money in the county. In the past five years the \*\* road

mpuny and the coal company h most \$300,000 monthly, exclusive of what the miners in the four coal camps of the county have drawn each month from the company stores. The coar the year is almost 5 per cent of the tonnage of the Klo Grande Western railway, and during the summer months about 60 per cent. The coal company, Wasatch Store company and Utah Fuel company pay about 70 per cent of the taxes of Carbon county,

The Carbon county commissioner had on hand \$10,000 when the strike end in the spring, mostly on road bet erments. But it will require all the strike; the heavy income from saloon feenses is cut off, and the load will fall neavily on the taxpayer, particularly as

The ranchmen are feeling the sorry effects of the strike in the diminished rale of troduce in the coal camps, as a great deal of their output was marketed there

## MINERS LEAVING.

Lieut.-Col.Greenwald Returns and Tells of Conditions at Scofield.

to them, and, furthermore, if they do present grievances they are discharged from the work."

Dr. Cuneo said he had spoken of these complaints to Mr. Kramer, who infermed him that no grievance had been presented to the company, and that the miners could have a check weighman whenever they demanded

DEMANDS AND ANSWER.
