The London Times of the 25th ult., says some persons in Amsterdam, holding a sectional interest in the affairs of the Atlantic and Great Western railroad, have put forward a plan of settlement in opposition to that just issued in London, by the President of the line. As it has been the constant aim of the Erie people to get small knots of individuals, by new proposals, to distract the general body from adopting any scheme that might interfere with their proceedings, this movement should be regarded with the greatest suspicion. The plan of the President contemplates the nomination of General McClellan, Mr. Duncan, of Duncan, Sherman and Co., and Senator Sherman, to control the property, and with these names before them, calculated to inspire confidence, it would be strange if the creditors of the company were to pay attention to any inferior representations.

The great father has sent people out there and left me nothing but an island. Our nation is melting away like snow on the side of the hills where the sun is warm, while your people are like blades of grass in spring when summer is coming. I don't want to see white people making roads in our country. The white people have sprinkled blood on the blades of grass about the line of Fort Fetterman. Tell the great father to remove that fort, then we will be peaceful, and there will be no more trouble. I have two mountains in that country, Black Hill and Big Horn. I want no roads there. There have been stakes driven in that country; I want them removed. I don't want a reservation on the Missouri. My people are dying off like sheep. The country don't suit them from the north and west. The red nation has come into the father's hand; we are the last of the Ogallallas. Yours are the people who should keep peace. The railroads are passing through my country, but I have not received even a brass ring for the land they occupy. You whites make all the ammunition, what's the reason you don't give it to me? Are you afraid I am going to war? You are great and powerful; I don't want it for that purpose, but to kill game with.
