

LOW'S LETTER OF ACCEPTANCE.

He Reviews at Length Work Performed by Him in Abating Numerous Evils.

WARNING SOUND TO FUSIONISTS

Many Improvements Made and Taxes Reduced Ten Millions for The Last Year.

New York, Oct. 9.—There was no change in the aspect of the political campaign today. Mayor Low gave out his promised letter of acceptance.

Mr. Hinrichs and Mr. McGuire, fusion candidates for comptroller and aldermanic president, were today notified of their nominations and made addresses of acceptance.

Owing to the storm and floods the registration for the first day was very light and up to a late hour the full returns were not received.

Lewis Nixon, who was for a time regarded as a probable independent Democratic candidate for mayor, wrote a letter today advising against an independent movement.

Mayor Low's letter of acceptance, which was given out tonight, reviews at length the work performed during his official term, in the abatement of evils and in the economical administration of the city's affairs. As to the prospect of success at the approaching election he says:

"It is often pointed out that Tammany has never been beaten twice in succession, but it must not be forgotten that no fusion has ever outlived a single term. Neither has any fusion ever been beaten."

As a result of changes in the fiscal policy of the city Mr. Low says it has been found possible to carry on the work of local improvements at a liberal scale, and still tax the city \$10,000,000 less this year than last.

Particular credit is claimed for the manner in which the interests of the taxpayers have been conserved in the matter of public franchises.

The conduct of the comptrollership by Groulx is characterized by Mr. Low as "a brilliant contribution to the success of the administration," but in view of Mr. Groulx's nomination on the Tammany ticket, the mayor declares that "Tammany Hall permits no man the opportunity for untrammelled service such as he (Mr. Groulx) has heretofore been able to give."

Summing up, Mr. Low says: "The fusion demand now, as in the last campaign, is: First, for a government of men, as distinguished from the inequalities, favoritism and corruption of the present; second, for a government in the interest of the public treasury, as against a government dominated by 'that mercenary spirit that breeds dishonesty in the public service'; and, third, for a government in the city in the interest of its own citizens, against a government that has waylaid this way or that by the supposed interests of national politics."

It was said late tonight at the bureau of elections that the only regular political parties had filed their certificates of nomination for the candidates. The time within which the certificates could be filed was up at midnight tonight.

The independent organizations and parties have until Wednesday, Oct. 14, to file their petitions. The only independent petition filed was that of William S. Devery for mayor.

The five regular parties to be represented on the ballots, and whose certificates have been filed, are the Republican, Democratic, Social Democratic, Prohibition and Socialist Labor.

A MYSTERIOUS DEATH.
Wife and Physicians Try to Conceal Facts from the Public.

San Francisco, Oct. 10.—Abraham H. Kahn, son of the late Henry A. Kahn, a millionaire banker and merchant of Chicago, has just died here under circumstances which have aroused grave suspicions through the mysterious and secretive conduct of those who attend to him during his last hours. Kahn, who was 32 years of age, arrived here from the east on Monday last accompanied by a young woman who was registered with him at the Palace as his wife. On Thursday evening he was taken to the Adler sanitarium, suffering from nervous prostration, the result of an attempt to abstain from the use of morphine, to which he was addicted. At midnight he was found dead in his bed beside his wife, whose room was not yet explained every effort since then has been made to keep the death and the facts concerning it a secret, and while the coroner's inquest is pending the conduct of those who attend to him during his last hours is being investigated.

It is not made a matter of public record until late last night, the physicians and sanitarian people insisted that Kahn was alive and getting along nicely. During the interval which elapsed between the death of Kahn and the admission of the fact of his death, the news had been spread to his relatives from whom instructions were at once received to have the body embalmed and sent on there in care of his valet. He was expected to arrive here today with the remains but the coroner has ordered the body held. The view has already started for the east with the alleged intention of avoiding publicity, after a few hours' stay in another hotel here, where she registers as Mrs. Webb. In an interview in which she detailed the circumstances immediately surrounding her husband's death, she said she had been secretly married to Kahn by a justice of the peace at Baulden, Wis., on May 17 last, that her maiden name was Edith Webb, and that her home was in Kentucky. Her hurried mission east, she stated, was for the purpose of communicating with her husband's relatives.

All that has been obtained in the way of information so far from the physician who attended Kahn toward the last is to the effect that his death was due to natural causes. In view of the determination of all concerned under the circumstances connected with the case, a rigid investigation will now be made by the coroner into the death of Kahn and its cause.

A FIGHT FOR LIFE.
Men Were in a Pennsylvania Railroad Tunnel.

New York, Oct. 10.—Twelve men had a desperate fight for life in the Pennsylvania railroad tunnel, now being dug under the Hudson river. They were out warning the workers and when they began to rush through and loose earth in a few moments 200 feet of mud had caved in.

Owen McConnell was buried alive under the river bottom. Two other laborers were taken out unconscious. The big tunnel, which is to cross under the Hudson to New York, is at

PRICE BAKING POWDER CO., CHICAGO.

ready advanced 700 feet, and work is being pushed with night and day shifts. The 12 men were working in the high-pressure tank behind the great shield which squeezes out the mud ahead of the earth being loosened and a gush of water followed.

The prevailing air pressure at the time was only twice the normal. The only thing to be done to stop the cave-in and save the lives of 12 men was instantly increase the pressure to hold back the water.

Forty pounds was thrown in immediately upon the men struggling in the rapidly rising mud and water. McNamara could not get away. The others were dragged to safety but two fainting under the strain and were carried out in time to save their lives.

A Man All Ablaze.

Chicago, Oct. 9.—Harry Jacobs, 19 years old, a painter rushed through the smoker of an elevated train today his clothing developed in flames, causing a panic among the passengers, and sustaining painful injuries. Jacobs's clothes, which were saturated with benzine, became ignited from a cigarette which he held in his hand. A policeman extinguished the blaze by throwing his overcoat about the man.

Rejane Sues for Divorce.

Paris, Oct. 10.—M. Lebardy, the well known actor, having written Jules Claretie, the administrator of the Theatre Francaise, a letter which the latter considered insulting, in the course of a dispute, as to the selection of the repertoire for the Comedie Francaise, M. Claretie has exercised his directorial authority and excluded him from the administrative council of the theatre.

The play "Blanchette," by B. Brieux, which was produced at the Theatre Lyrique 10 years ago, was given by the Comedie Francaise tonight in a slightly modified form. The critics do not approve of it.

Madame Rejane, the actress, having instituted divorce proceedings against her husband, M. Porel, the latter is bringing a counter suit against her. The preliminary hearing in the suit is fixed for Oct. 23.

Juneau-Sitka Cable Completed.

Seattle, Oct. 10.—The Alaska cable from Juneau to Sitka has been completed and an office established at the coastal city. Connection with Sitka was made Wednesday. Today the Burnside leaves Sitka, paying out cable south. She probably has enough cable to run to Juneau, a stretch towards the city, the terminus.

Paris Thieves Rob an American
Paris, Oct. 10.—Thieves broke into a boarding house in the Avenue Victor Hugo during lunch time yesterday and stole \$1,400 in money, besides some jewelry. The thieves were an American named Miss Maude Willoughby.

To Study Alaska Geologically.

Seattle, Oct. 10.—The United States geological survey will have parties next year investigating the mining resources of southeastern Alaska, the formation in the Yukon country and the deposits in Alaska. If the appropriation is ample, parties will continue the study of the geology of the Nome district and will conduct an investigation of the coal supply of Nome. The Copper river country is also demanding investigation, but it is not likely that any work will be done in that district during the coming year.

Trade Unions Against Banks.

Chicago, Oct. 10.—Organized capital through its anti-boycott and employers' associations, must stop its rag on the savings of the trade unions or the banks will withdraw \$300,000,000 from the banks.

Such is the statement made by Thomas I. Kidd, vice president of the American Federation of Labor, after an investigation of the damage suits which the American Anti-boycott association and Employers' associations have filed.

LIKE AN ELEVATOR

Food Sends One Up or Down.
Good food sends one up or bad food sends one down.

Health depends on food more than on anything else and particularly where one gets but little exercise care must be used not to eat greasy, pasty, starchy foods that do not nourish but cause obesity.

A big man whose normal weight is 220 pounds thought he was a skeleton when he fell off to 185. He says: "I had been hours up for four years and was run down from my normal weight of 200 pounds when in health to 185 pounds. I was very nervous and generally careworn mentally and felt sick and miserable all the time, getting very little pleasure out of life."

Then I commenced using Grape-Nuts regularly twice a day and in a short time I had gained back to 215 pounds at which weight I am now getting strong and well and active both physically and mentally. All my troubles have disappeared and I am lively and happy.

"I am not a youngster any more in years but Grape-Nuts has made me feel younger and stronger than for a great many years past." There's a reason. Name given by Postum Co., Battle Creek, Mich.

Look in each package for a copy of the famous little book, "The Road to Wellville."

MANUFACTURERS MORE CAUTIOUS.

Uneasiness Regarding the Financial Situation Grows Less as The Season Advances.

IRON TRADE CONSERVATIVE.

Lower Quotations for Chief Farm Staples Indicate That Market Is Being Freely Supplied.

New York, Oct. 9.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

"There have been no developments of importance in the commercial world. As a rule there is more caution in making contracts, especially among manufacturers. Uneasiness regarding the financial situation recedes as the season advances without producing any monetary pressure in connection with crop moving. The proposed reduction in pig iron output has been endorsed by leading producers, steady prices just when changes in freight rates started another reduction. Other manufacturing news is favorable, except where the raw material markets were unsettled or labor struggles cause trouble. Suspension of an iron plant was attributed to the latter cause, and the movement of cotton at New Orleans suffered also because of a strike.

"Trade locally is quiet, preparations for the elections with unreasonable weather, having an adverse effect. Railways are not yet severely congested by the crops, yet there is some delay in traffic and earnings for September are 2.1 per cent larger than last year's. Latest returns of foreign commerce show a decline of \$1,446, compared with the same week last year, and imports decreasing \$2,571,234.

"Reduced dividends and curtailed production in the iron and steel industry show that conservatism is increasing and that there is no disposition to disguise the fact that business is not progressing without interruptions.

"A generally lower level of quotations for the leading farm staples was most encouraging. It indicated that supplies were coming freely to market, and testified to the growing confidence in ample crops. Speculative control ceased with the market for greater quantities than the manipulators could handle and the grain trade always flourishes better when normal influences prevail. Lower prices also attract purchasers abroad, and foreign commerce will be stimulated. A moderate recovery last week was natural as offerings were sufficiently narrow to bring out many buyers who feared the violent price changes of past months.

"Failures this week number 223 in the United States, against 455 in 1932 and 17 in Canada, compared with 21 a year ago."

STRIKERS DETERMINED.

That No One Should Be Allowed To Take Their Places.

New Orleans, Oct. 9.—The wharves today were crowded with white and black seamen and their sympathizers prepared for any attempt to take their places. The men imported from St. Louis to take the strikers' place. A large police force was on hand to preserve order. The steamer Colombian, on which the strike breakers are housed, remained in midstream. Many of them, it is said, want to go back to the strike, but there was no strike here, but simply a shortage of laborers.

The seamen were in conference with the union leaders, seeking to have affidavits made before United States Commissioner Craig that United States citizens were being deprived of their liberty on a British ship.

The Arethusa's Crew Complains

New York, Oct. 10.—The Seamen's Branch of the Legal Aid society here is considering complaints made by some of the crew of the Arethusa, a British ship, which is being used as a floating barracks for the Arethusa since last November.

According to Herbert's complaint, the crew of the Arethusa have been for years expended in one direction; to find a pile cure that would cure.

The results have been a number of hernias and a most complete catalogue of ailments, suppositories and even internal remedies, which the public have weighed in the balance of experience, and found wanting, nearly all of them gave some relief, but nothing approaching a radical cure resulted from these preparations.

The remedy required is one which will immediately stop the pain so severe in many cases of piles, and then by contracting the blood vessels (capillaries) to their normal size, produces a radical cure by reducing and finally absorbing the tumors and healing the hemorrhoids, raw, sore, and itchy.

Until a few years ago, no such remedy had been produced, but at that time a suppository was placed upon the market, which since proven itself to be the long-sought permanent cure for this common and distressing trouble; it has rapidly become famous throughout the world, and is now sold by all druggists under the name of Pyramid Pile Cure.

It is now the best known, because its merit and safety have advertised it wherever used. It has been advertised by word of mouth, from one sufferer to another, people who have tried everything else, even submitting to painful and dangerous surgical operations without avail, have finally found that Pile Cure can be used without pain and without expense, practically as the Pyramid Pile Cure is sold for the nominal price of 50 cents and \$1 per package.

The Pyramid instantly stops all pain and at the same time contains no cocaine, morphine or narcotics; the acids and healing properties contained in the remedy speedily remove, cause a healthy, natural contraction and absorption of the tumors; it will cure any form of rectal disease except cancer and advanced stricture, which by word nearly always results from neglecting proper and timely treatment for piles.

A book on cause and cure of piles sent free by addressing Pyramid Drug Co., Marshall, Mich.

WOMEN PRAISE PE-RU-NA.

For Diseases Peculiar to Their Sex There is no Medicine That Gives Such Universally Good Results.

Zelma Rawlston.

Mrs. Mary Herweck, 90 Hastings Street, St. Louis, Mo., writes:

"I am glad to testify to the beneficial results of Pe-Ru-Na. After the birth of my last child I felt weak and disabled. I tried several physicians with little relief, while Pe-Ru-Na gave me the greatest possible benefit. It seemed to build up my entire body, drive out pain and to vitalize me through and through. I am now in splendid health, regular, with the best appetite in the world and in the full enjoyment of life. Work seems easy and nothing troubles or worries me as it did when I was in poor health. I shall use my influence with my friends who are sick to use Pe-Ru-Na as I know I do them a favor. It is the best medicine I know of to cure the ills of women."—Mrs. Mary Herweck.

PELVIC catarrh is a phrase coined by Dr. Hartman, covering all that large class of diseases that used to be known as female weakness. The lower portion of the abdomen is called by anatomists the pelvis. The organs contained in this portion of the body are known as the pelvic organs. There are several of them, very delicate and very subject to catarrh. Few women escape entirely catarrh of these organs. While each case presents some minor difference as to details, they are all in reality alike. Pelvic catarrh, therefore, is a generic term that covers all cases of catarrh of the pelvic organs. There is no cure equal in promptness and permanency to a short course of Pe-Ru-Na.

Pe-Ru-Na does not relieve these cases by temporarily mitigating some symptom, but by a removal of the cause. Many a woman can testify that a local treatment does not permanently cure. A large multitude of women are constantly going from doctor to doctor to receive local treatment with little or no result. In Pe-Ru-Na these women find a prompt and permanent cure. Thousands upon

The Actress and the Housewife Rely Upon Pe-Ru-na.

Miss Zelma Rawlston, 3 W. 20th St., New York City, writes:
"For over a year I have used Pe-Ru-Na, and find it all you claim for it. I shall take great pleasure in recommending it to my professional friends."—Zelma Rawlston.

Pe-Ru-Na seems so admirably adapted to catarrhal troubles of women that it rarely fails to instantly relieve and promptly cure.
No sooner does a woman begin to take Pe-Ru-Na than she feels that a cure is in sight.
Sometimes it is necessary to take it for weeks and even months, but the good effect becomes apparent at once and gradually continues until a cure is perfected.

Noted Women Who Use Pe-Ru-na.

Bella Lockwood, Washington, D. C.
Mrs. Lucy Clark, Farmington, Utah, Vice President Utah State Council of Women.
Mrs. Verona E. Roach, wife of late Senator Roach, of Larimore, N. D.
Mrs. General James Longstreet, of Washington, D. C.
Mrs. Griddle, mother of Captain Griddle of the U. S. Cruiser Olympia.
Mrs. H. A. S. Marsh, President Woman's Benevolent Ass'n, No. 27 Jackson Park Terrace, Chicago, Ill.
Mrs. Robb-Maher, attorney-at-law, of Kansas City, Kansas.
Mrs. Colonel Hamilton, of Columbus, Ohio.
Mrs. Theophilus Schmitt, wife of the ex-Secretary of the German Consulate, of Chicago, Ill.

thousands of testimonials to this effect are received by Dr. Hartman every year. The good that Pe-Ru-Na has accomplished in this class of cases can scarcely be overestimated.
If you do not derive prompt and satisfactory results from the use of Pe-Ru-Na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Nasal CATARRH
Ely's Cream Balm
In all its stages.
Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.
Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.
ELY BROTHERS, 66 Warren Street, New York

BOOKS! BOOKS!
And then some. All of the popular fiction of the day as soon as issued. All the University, College and Public School Text-Books. Children's Story and Picture Books. All of the Mormon Church publications.
We are the largest book concern of the state.
