#### THE BOARD OF EDUCATION.

The Board of Education held their regular weekly meeting last night. Vice President Nelson occupied the chair. The members in attendance were: Young, Alf, Newman, Dooley, Baldwin, Pratt and Raybould.

#### OQUIRH SCHOOL PLANS.

The committee on sites and buildings recommended that the plans and specifications submitted by William Carroll for the Oquirrh school be accepted, and asked authority to contract for the excavations and different classes of work separately as may be necessary. They advised this course for the reason that there is not sufficient funds available at present to pay its estimated cost, and that the building can be constructed more economically in this manner and more satisfactorily than to enter into a contract at this season of the year for the whole building.

Pratt moved as an amendment to adopt the plans of Wm. Carroll, provided the building will not cost over \$55,000, including heating and ventilating, and that Mr. Carroll will accept the sum of \$1,000 in payment in full for said plans, details and specifications, or any alterations in the same that may be ordered by the board.

Adopted as amended.

#### FURNITURE ORDERED.

The committee on furniture and supplies reported that in accordance with a resolution of the board they had placed an order for the second car of furniture for the Lowell school at a cost of \$2,100.40. Adopted.

#### ANOTHER JANITOR.

The committee on furniture and supplies also recommended the appointment of James Lee as janitor of the high school at \$60 a month, to date from the opening of the said school building. Adopted.

#### BETTER INSURANCE RATES.

The committee on sites and buildings reported that many of the new buildings are approaching completion, and the superior manner in which they are heated and their distance from other buildings would entitle the board to a lower rate of insurance than is usually accorded ordinary buildings. The committee therefore recommend that the Pacific Insurance Union be asked to make a survey of the buildings and rate them according to their merits, and that the committee be authorized to insure the buildings at from thirty-five per cent. to fifty per

cent. of the cost, and that they be allowed to insure the furniture at fifty per cent. to seventy-five per cent. of its cost. Adopted.

Maude Webster, the principal of the Twentieth ward school, sent in a communication stating that at the end of last school year she was employed as principal of said school, but until the present time she had been unable to assume active duties, but she had done considerable work. Her physician had advised her not to take up the duties until after Christmas. She asked to be allowed half pay until the Lowell school is completed. Committee on teachers.

W. H. Joy asked the board to pay \$411.50 to W. S. Simkins, the balance due on the contract for brick furnished the Eleventh school—the sum to be withheld from the Klambeck & Parsons account. Committee on sites and buildings.

The committee on sites and buildings submitted a report recommending that the offer of George R. Emery of two down stair rooms of the church building on Fifth West street for the sum of \$60 per month be accepted, and that the selection of a janitor be left with Mr. Emery. Adopted.

The same committee presented the plans, specifications and contracts of P. J. Moran for heating and ventilating the Washington school and recommended that the board sign the contract. Adopted.

The contract of S. C. Sherrill for the erection of the Wasatch school building was also presented with the recommendation that the board accept and sign it. Mr. Sherrill's bond is signed by A. B. Gibson and George C. Kidder which the committee recommended be approved. Adopted.

The committee also recommended that the contract with the Hendy & Meyers Engineering company for heating and ventilating the Jackson school be approved and signed by the officers of the board. Adopted.

The committee on sites and buildings asked for authority to contract for moving the soil from the Washington school site and the Wasatch school site to such school sites where the earth may be needed. Granted.

Monheim, Bird & Proudfoot sent in a bill for \$488.25 for plans and specifications of the Wasatch school building, being 1 1/2 per cent. on the contract price of \$27,900. Committee on sites and buildings.

Mr. Alf moved that the committee on furniture and supplies be given authority to purchase a carload of furniture to arrive about January 1st. This resolution to take the place of the one passed previously during the evening on the furniture question. Adopted.

#### BISHOP FUNK DEAD.

Word was received in this city this morning to the effect that Bishop Hans Funk, of Newton, Cache county, had died last night (Oct. 25, 1892). He had been sick more or less all summer with kidney complaint, and six weeks ago was compelled to take to his bed, to which he has been confined, in a very low state up to the time when death relieved him of his sufferings. He has been a useful man in establishing northern Utah. We extend our sympathy to the bereaved family.

About four weeks ago Mrs. Marinda Halliday, of Richfield, Sevier county, lost \$80 in greenbacks which she was carrying in an envelope in her pocket. She had no idea in what part of town she lost it, but found \$10 of it near the Academy hall and a search by Mrs. Halliday resulted in finding of the remaining fifty.

There was a big field fire between Mant and Ephraim last week. A strip of country two miles wide and four miles long was burned over. Fortunately the fire encountered no ranch buildings in its course. The ground was, however, burned bare of grass and stubble.
