TUTT'S PILLS

TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: **Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION,** and demand the use of a remedy that acts directly on the Liver. As a Liver medicine **TUTT'S PILLS** have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "**scavengers of the system,**" producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. **TUTT'S PILLS** cause no nausea or griping nor interfere with daily work, and are a perfect

ANTIDOTE to MALARIA.

THE LIVER AND ITS FUNCTIONS.

IT has become a well established fact that the larger portion of diseases to which the human family is subject arise in the first place from some derangement of the Liver. This organ is not only the largest, but at the same time one of the most important. The venous blood, on its return to the heart, passes through this organ, and in its passage this impurities, as also the secretions which are necessary for digestion as well as for a cathartic to assist in the removal of waste material &c. are eliminated. From this it is easily seen that the Liver is liable to get out of order to a greater or less extent, and when this occurs it is impossible for it to properly fulfil its office of removing all objectionable matter from the blood, but allows it to pass through, carrying with it the poisons of which it should have been relieved.

With impure blood the whole system becomes affected, and no organ can properly perform its function unless it is supplied with PURE BLOOD to maintain its strength. So the Liver becomes all important, and when one has the feeling of being continually tired, worn out, is constipated, with tendency to Piles, Headache, Sick Stomach, Sallow Complexion, Eruptions of Skin, etc., they may be sure their Liver is out of order, and a remedy is required to assist nature in relieving itself of all accumulations, and restore it to its original Strength and Vigor. For all the complaints of this kind there is no medicine that equals the

DR. S. F. SHERMAN'S PRICKLY ASH BITTERS. The result of years of study, experiment & medical research and practice of Dr. S. F. Sherman, its originator, and its success What proves need is self-evident. Guaranty for its merit, Positive Purgatives and that class of remedies one has but one action—that is by their irritation to derange and weaken the system. PricklyAsh Bitters acts directly on the Liver, Kidneys, Stomach, & Bowels, in a mild yet efficient manner. It is a Tonic, and is as pleasant to the taste as any cordial. As it is an entire vegetable compound it can be used by children as well as adults.

PRICKLY ASH BITTERS is a medicine of rare merit, and not an intoxicating beverage, and being purely vegetable in its composition can be used at all times with beneficial results. It is not claimed as a cure-all, but for derangements of the organs mentioned, it is a specific and as a BLOOD PURIFIER ranks above all other preparations. Ask your druggist for it, and give it a fair trial. If he has none on hand, ask that it be procured for you.

PRICKLY ASH BITTERS CO., SOLE PROPRIETORS, ST. LOUIS AND KANSAS CITY, MO.

EVENING NEWS.

Wednesday, - Jan. 7, 1885.

CITY COUNCIL.

LAST NIGHT'S SESSION.

VARIOUS PETITIONS—ANNUAL REPORTS OF SEXTON AND FIRE DEPARTMENT —GAS COMPANY BILL.

All the seats in the Council Chamber were occupied last evening at the hour Mayor Sharp called for order.

John Morgan filed a petition asking the Council to sell him lot 2 in block 58, at any price they may deem just and proper.

Referred to the committee on public grounds.

John W. Irons & Co. petitioned that the unexpired term of the license granted them as agents of the Home Mutual Insurance company be transferred to Thos. R. Jones.

Granted on motion of Mr. Patrick.

The following firms made applications for a renewal of their liquor licenses, and the applications were granted: W. N. Coalter, Binnie and Schaufele, Harvey and Berryman, and J. W. Elliott.

The city sexton, Mr. Jos. E. Taylor, presented his annual report for 1884, showing total deaths 487, of which 208 were males and 219 females. Under one year, 100; one to five years, 73; five to ten years, 20; ten to twenty years, 29; over twenty years, 265. Brought from outside settlements for interment, 78. Still births, 29. Decrease in recorded deaths as compared with 1883, 96. Interred in city cemetery, 445; Mt. Olivet, 110; St. Mary's, 20; Hebrew, 5; private, 1. Attended by regular physicians, 238; attended by midwives, 38; coroner's inquests held, 55. No professional attendants, 185. Interments without ground for burial, 38. Deaths in hospitals, St. Mary's, 34; St. Mark's, 15; Deseret, 10; County, 6; Dr. Young's Asylum, 5; total, 70. Cemetery lots sold, 87¾, aggregating in value $1,050. The Sexton closed his very exhaustive report with an appeal to the Council for water for the city cemetery as follows:

The necessity for a supply of water to enable our citizens to beautify the places where lie the departed dead, has been laid before your honorable body each time I have presented my report for several years past. Your committee reported favorably upon this matter in January, 1884, but no thing has been done towards securing the necessary supply. Some of our citizens have already moved their dead in consequence of the continued absence of water, and many others are becoming discouraged. While I recognize the labor that has been expended to furnish the supply demanded by the residents of the north bench, I would remind your honorable body that the cemetery was located and occupied some twenty years before any person thought of residing above the line of the old original water ditch, and I would here remark that the cemetery is also situated on the north bench. I now ask, why should not this prior right be recognized and the cemetery be awarded at least an equable share in proportion to the supply that is now or may be hereafter, all of which is most respectfully submitted.

Chief Engineer Ottinger presented his annual report for the year 1884; it shows that fifty-one fire alarms were sounded during the year, and that the total loss involved was $11,930—upon which there was $3,100 insurance; the expenditure of the department amounted to $6,620.99 for the year; the 130 fire hydrants in the city are reported as in excellent order; the present force of the fire department is put at 47 members, forty being men on call. Referred to the committee on fire department.

The reports of James Shelmerdine, poundkeeper, for the quarters ending August 31, and November 30th, 1884, were received and filed, they show forty-four estrays to have been impounded during the first and thirty-four during the second quarter.

The Marshal's report of expenditures for the month of December, 1784, was read. It shows the disbursements to have been $207.67.

Referred to the committee on finance.

The committee on finance reported that they had examined the Treasurer's report and found it to be correct. They recommended that $80 be appropriated for the city currency, and the check of G. M. Peirce on hand in the preceding Treasurer's balance.

Adopted.

The committee on public grounds reported favorably on the petition of George Mathison, that he be allowed to live in the house at the artesian well.

Adopted.

A bill from the Salt Lake City Gas company for street lighting and gas for City Hall and prison, for the six months ending December 31st, 1884, as follows:

Two hundred and twenty-one lamps lighted, extinguished and kept in repair six months at $40 each per annum	$4,420.00
Twelve lamps on South Temple St., one week at an extra cost over contract	7.49
Halls and prison	529.50
Total	$4,956.99
Credit, by dividends of September 5th and November 29th	$3,128.00
Balance due Gas company	$1,828.00

Allowed and amount appropriated.

Seventy-five dollars was appropriated to pay the bill of Dr. Clinton, quarantine physician, for one month.

The bill of A. L. Williams, amounting to $60.40 for coal was allowed and the amount appropriated.

The bill of Mrs. M. A. Burt for boarding city prisoners for the month of December, amounting to $246.30, was received and the sum appropriated.

The sum of $13 was allowed to reimburse Jesse W. Fox for services as surveyor.

The following appropriations were also made: To the credit of the fire department, $100; to the credit of the waterworks, $500; to the credit of the supervisor of streets, $1,000; to the credit of the city marshal, $100,

The Recorder called attention to the fact that the Treasurer's salary for one month and a half—between October 5 and November 30—had not been drawn and asked as to what disposition should be made of it.

Referred to the committee on finance.

Adjourned until next week.

DESERET SUNDAY SCHOOL UNION MEETING.

The regular meeting of the Sunday School Union was held in the Assembly Hall on Monday evening, January 5th, 1885. General Superintendent George Q. Cannon presiding.

After the usual singing exercises and prayer by Supt. H. P. Richards, the roll was called, showing a good attendance of representatives from city wards, and also from Farmers,' Sugar House, Big Cottonwood, Draper and South Jordan wards.

The Union brass band rendered a few excellent selections during the evening, showing much proficiency for so young a band, reflecting much credit upon their perseverance and energy.

Elder Wm. M. Stewart, of the Draper Sunday School, delivered a short but interesting lecture upon the best manner of conducting primary classes. The most apt and able teacher in a school, he thought, should be promoted to take charge of the primary class. The teacher should endeavor to reach the capacity of every child under his care. In order to present the grand truths of the Gospel in the most direct manner to the minds of the child, a very successful method was the relation of effective stories and illustrations. In this manner the speaker had made a great success of his work in the primary class. He had endeavored with satisfactory results to store his mind with good illustrations, and tried to be prepared at all times to get the attention of the children by some anecdote or practical illustration, and prepare their minds for the teaching and instruction he wished to impart. He remarked very truthfully that if the primary work in our Sunday Schools was done effectively by interested and competent teachers, and the principle of self-control taught them, the children would grow up with the love of the Sunday School in their hearts, and there would be little or no danger of their being led away from the path of truth.

Music by the choir.

Assistant Superintendent Geo. Goddard, in delivering the address previously announced, gave a very interesting account of his travels and experience while upon his previous mission to England. He felt to encourage all engaged in the Sunday School cause to continue in the good work, and make every part of this great work a success. He said he had taken great satisfaction in watching the growth of the Sunday School Union since its first organization. It was to him a cause for congratulation to compare the meeting of to-night with those held in years gone by. He commended the organist, the singers, the Union brass band, the doorkeepers, and all who had contributed towards the success of those meetings, and invoked God's blessings upon their efforts.

Choir and congregation sang "Love at Home."

Supt. Thos. C. Griggs, of the 15th Ward, gave a brief account of the distribution of prizes in his school on Sunday last. Home publications were mostly used for that purpose, a practice much to be commended.

General Supt. Geo. Q. Cannon, in addressing a few remarks to Sunday School workers, dwelt upon the importance of teaching our children the value of self-control and self-denial. They should be shown that there is vastly more real happiness and pleasure in the exercise of these principles, than could possibly be obtained by indulging every whim of the lower passions, and becoming the slave of appetite. But by mastering appetite, and controling passion, there was a freedom and a manhood felt that was unknown to those who had practiced no self-denial. In speaking of theatres, parties or other like pleasures, which of themselves were innocent and harmless, the speaker said that the evil one had taken advantage of the associations growing out of these social pleasures to lead the innocent away from the path of virtue. Such pleasures should be indulged in by the young only when they were kept under proper control. Young people should be taught not only self-control, but to exercise judgment when forming associations and indulging in pleasures, that they might be able to detect whether such associations and pleasures would lead to good or to evil.

It was announced that at the regular meeting of the Union, Elder George C. Lambert would deliver the evening's lecture and the 15th Ward school would furnish the singing exercises.

Singing, "Beautiful Zion."

Benediction.

The singing rendered by the 14th Ward school, under the leadership of Brother Henry Gardner, was most excellent, and was highly appreciated by the large congregation.

Jos. H. Parry, Sec'y.

COUNTY TAX SALE.

CATARRH HAY FEVER

Is a type of catarrh having peculiar symptoms. It is attended by an inflamed condition of the lining membrane of the nostrils, tear-ducts and throat, affecting the lungs. An acrid mucus is secreted, the discharge is accompanied with a burning sensation. There are severe spasms of sneezing, frequent attacks of headache, water and inflamed eyes.

Cream Balm is a remedy founded on a correct diagnosis of this disease and can be depended upon. 50 cts. at druggists; 60 cts. by mail. Sample bottle by mail 10 cts. ELY BROS., Druggists, Owego, N. Y.

DANGEROUS SUBSTITUTES FOR HORSFORD'S ACID PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or Pyro-Phosphoric Acid, which are declared by the highest authority to be poisonous. The same preparation also contains Chloric Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK.
