

ing to do it voluntarily, but," said he, "we want it understood that we want no money or any other consideration, but want it known that you, as our counsel and friend, should receive the credit. It is a great service, and if anybody gets any benefit from it, it ought to come to you." I became more convinced than ever that they were getting frightened, and wanted it understood that they were doing it in the hope thus to drop the thing quietly. I went up at once to Governor Jewell and reported substantially what was said. I told him they were doing it without any hope of consideration; but would be pleased if they knew I would receive the credit for having brought about the publication of retraction. The Governor said: "That is fair and decent, and I will be glad to assure them that you will be regarded as the person who was instrumental in having them publicly acknowledge that they were convinced of the spuriousness of the letter." He then wrote the letter which has been published, and said: "You may show them the letter." I got down about 2 o'clock. Post was present, and when I asked for him, Hart said he was very busy, and I could not see him. Hart said: "Did you see Jewell?" I said "Yes," and showed the letter to him. Mr. Hart, after reading it, said, "Are you satisfied?" I said "Yes, completely." He said, "But it specifies nothing." "I wish nothing," I said; "I am completely satisfied." "If you are satisfied I am," he said, and I was on the point of leaving when he said: "Can't you leave the letter and let me show it to Post?" I said: "I was only instructed to show it, and not to leave it." He said: "Can't you trust us? Have we ever done anything to hurt you, and what harm can come of it?" I consented, and now acknowledge that this was an error, but I considered the warm personal relations between Post and myself, and the thought did not cross my mind that he was capable of acting treacherously.

DENVER, Col., 31.—Denver has been in the hands of a mob for eight hours, and there are now fully 1,500 rioters in the streets. The trouble has been growing for days. It was discovered a week ago that there were fully 8,000 illegal names registered in this city, and immediately afterwards the streets were filled with strangers of the worst character. Ever since the publication of the forged Garfield letter violent partisans have striven to make an issue of the Chinese question, and the democratic press has been filled with articles asserting that as soon as Garfield was elected the State would be flooded with Chinese and all white labor driven out. Saturday night the democrats had a procession carrying transparencies with inscriptions and cartoons tending to excite animosity against the Chinese. A considerable portion became intoxicated and remained out all night. This noon they made an assault on the Chinese houses, tearing down one house, and beating and driving out the Chinese. One was dragged from Hop Lee's place with a rope about his neck and his skull crushed in with boots and bricks. The police were called out, but were unable to control the mob. The fire department was ordered to throw water on the rioters, but the mob attacked them and badly wounded two firemen. Many Chinamen were fearfully beaten. One was rescued by the police and taken to the jail which was immediately surrounded by a mob of about one thousand who hurrahed for Hancock and yelled "lynch the leper." Special police managed to keep back the crowds. The other mob remained intact in the lower part of the city. About dark they were entirely beyond control and marched from street to street, gutting China houses wherever they saw them and assaulting citizens. On Lawrence street, from an isolated tenement a Chinaman was dragged. His ears were cut off, and he was otherwise terribly mutilated. He was finally rescued in a dying condition and placed in a carriage and driven towards the city jail. At Sixteenth Street an unsuccessful effort was made to drag him from the wagon. Several are reported killed, but the condition of the streets is such that it is impossible at this hour to get a definite report. Many colored men were knocked down and beaten. At this hour the rioters are still on the streets in full force. Special police have been sworn in to the number of 300. There is a great deal of incendiarism to-night, and the fire department has been called to be ready at the slightest warning.

Reports of pistols are heard all over the town, and the militia will be called out. Threats have been freely made that the *Tribune* office would be sacked, but though the mob have been howling across the street from it, no attack has been made as yet. Citizens, irrespective of party, are intensely indignant. The transparencies carried in the democratic procession on Saturday night were devoted to the Chinese, and this with the constant repetitions of the Garfield forgeries are causing the mob. There is a dangerous night ahead. The Chinese population here cannot exceed 150, all told, and from the beginning of this riot, not a single incident is reported of any one of them having resisted the onslaught.

At this time (11.30 p.m.) everything is quiet, the mob having dispersed, but a large police force is patrolling the streets and the militia is ready for action at a moment's notice. The report of a Chinaman having his ears cut off is untrue, but several had their queues cut off. All saloons are closed with orders to remain so until after the election. The rioters gutted every China house in town with two or three exceptions. One Chinaman was hung over his front door, and several were badly beaten and wounded with stones and other missiles. In nearly every instance the police rescued the Chinamen through the back door while the mob was forcing the front doors. Four or five rioters are slightly wounded, one seriously, being shot in the right side.

New York, 31.—The *Herald's* Denver special says: The mob is immense in proportion, and at nine o'clock to-night is going through the streets visiting all the Chinese houses and gutting them. An extra force of police and deputy sheriffs, numbering quite 2,000, have been sworn in and have once fired with blank cartridges into the mob. The last report is that one Chinaman, far up town, was killed outright. Many persons have been knocked down. There are thousands of people on the streets, and the air is full of cries, "The Chinese must go!" and "Hurrah for Hancock!" Intense excitement prevails, and there is great fear of the consequences. The mob is unorganized and has developed no leader, which is one saving feature.

DENVER, 1.—The active response of the citizens to the call of the authorities effectually checked the mob and by midnight a very perceptible improvement was developed which was steadily continued. Early this morning a squad of miscreants raised a disturbance near the postoffice but within ten minutes it is estimated that 1,000 citizens, nearly all armed were on the ground, and all the rioters at that point were arrested and sent to jail. Several hundred warrants have been sworn out by the officers, and between two and three hundred arrests have been made. The city is now considered absolutely secure against any revival of mob rule, and the indignation among all classes is intense and earnest. Should lawlessness show itself in any form or at any point, it will undoubtedly be put down by the sternest and most convincing means employed in such emergencies.

ST. LOUIS, 31.—At eleven to-night a white man and a negro quarreled at a republican meeting. The man struck the negro and was arrested. While being taken out of the crowd a pistol was fired and an old negro named Brown shot dead. A number of negroes belonging to one of the clubs in attendance at the meeting supposing the policeman fired the shot ran him into a saloon. Great excitement immediately prevailed, and a number of shots were fired into the crowd, and four or five men were wounded. The crowd scattered in all directions and some assert that a party of roughs assaulted the negroes. The meeting was broken up and the greatest excitement existed until a large force of police appeared and restored order.

It is now asserted that the trouble began by a brick being thrown into a crowd of negroes, one of whom was struck. The negroes then rushed toward the saloon on the corner of 12th and Locust Streets, under the belief that the brick was thrown from that point. On arriving at the saloon they were confronted by three policemen, who prevented them from entering. They began throwing rocks at the saloon, breaking its windows and shutters, whereupon one policeman discharged his pistol in the air as a call for help. Promiscuous firing then commenced, during which old man Brown was killed and Policeman Slattery struck

in the head by a rock and severely injured. The negroes say Brown was killed by the policeman who fired the shot in the air, but this was denied. So far as can be ascertained, only one person was killed and Policeman Slattery and a negro wounded.

WASHINGTON, 31.—The following was issued Saturday, by the President of the United States of America:

PROCLAMATION.

At no period in their history, since the United States became a nation, has this people had so abundant and so universal reasons for joy and gratitude at the favor of Almighty God, or been subject to so profound an obligation to give thanks for his loving kindness and humbly to implore his continued care and protection. Health, wealth and prosperity throughout all our borders, peace, honor and friendship with all the world, the firm and faithful adherence by the great body of our population to the principles of liberty and justice which have made our greatness as a nation. To wise institutions and strong frame of government permanent, and a society which will perpetuate it. For all these let the thanks of a happy and united people as with one voice, ascend in devout homage to the Giver of all good. I therefore recommend that on Thursday, the twenty-fifth day of November next, the people meet in their respective places of worship to make acknowledgment to Almighty God for his bounties and his protection, to offer to him prayers for their continuance.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the City of Washington, this first day of November, in the year of Our Lord one thousand eight hundred and eighty, and of the independence of the United States, the one hundred and fifth.

[Seal.] R. B. HAYES.

LONDON, 28.—A terrible south-western gale is reported from Plymouth last night. Daybreak showed five vessels stranded, but the crews were all saved.

The brig *John May*, from Bull River, S.C., for Friederichstadt, drove along the side of the Balton breakwater, and remains there. Capt. Mitchell was drowned while endeavoring to get on shore on the breakwater. At Bradford there was a heavy rain and snow storm and railway traffic was impeded. At Leicester rain began to fall on Tuesday evening and has continued since, flooding the low-lying districts. Wenlock experienced 36 hours heavy rain. Many houses are flooded. At 6 p.m. the gas suddenly went out, leaving the whole town in darkness. At Oldham there was a heavy snow storm. Fishing boats were unable to go out, and ships put back to harbor. The Sussex lowlands presented the aspect of lakes, while in Warwickshire the water in some places extends as far as the eye can reach. Hundreds of acres are submerged, roads are under water and traffic much interrupted. At Sirly last evening the barometer fell to 28.

There is a great excitement in Dublin. It is stated on good authority that a warrant has been issued for further arrests of members of the Land League.

LONDON, 29.—The *Times'* Dublin special says: The Land League has received a check in its agitation, the magistrate of Ulster having forbidden the meeting of the League at Dungannon on Monday night because of the anniversaries of the landing of William III. and the Gunpowder Plot in the first week of November, and the celebration of these events on the one hand and the meeting of the League on the other would be certain to inflame party spirit. The reports of arrests to be made in Dublin and Kilkenny are unfounded.

There have been serious floods at Banbury, Bournemouth, Chester, Colchill, Derby and Darlington, causing much damage to crops and other property. The telegraph wires in Edinburgh are blown down. The new pier works at Hartlepool are seriously damaged. Thousands of acres of land are inundated in various parts of Leicestershire, and many shields and trawlers are missing. It is feared their crews are lost.

Mesheid, 29.—Twenty thousand Kurds, under Sheikh Abdullah, are advancing on Tabriz. They are now at Maragha. They have massacred the entire population of So Uj Kolak. The garrison of Tabriz is only 2,000

strong. Reinforcements of 7,000 men, 20 guns, with five Austrian officers, under command of an uncle of the Shah, have been hurriedly sent from Teheran.

Teheran, 29.—The first Kurd division evaded Tabriz troops and has gone south in the direction of Hamadan. The Teheran division has gone to encounter it. The Kurds occupy 3,000 square miles of Persian territory.

Wheat planting is going on in England, and as the weather is very favorable a large area will be planted before the end of this week, and the greater portion of the crop will be sown by the 1st of November. There has been a very brisk demand for seed wheat of good quality, and the prices of the higher grades have advanced two or three shillings per quarter in consequence.

"A sad sight to Behold."

Some four weeks since, a man, or rather a walking skeleton, came into Crittenton's Patent Medicine Depot, No. 7 Sixth Avenue, New York, completely exhausted, just riding from Fourteenth Street, near Ninth Avenue. He took a chair, and after regaining sufficient strength, informed Mr. C. that he had been given up by his physicians to die, from what they termed to be a severe case of consumption—one lung being entirely gone, and the other more or less affected. He says, "Mr. Crittenton, will your article, which I have seen advertised (meaning Hale's Honey of Horehound and Tar,) cure or give me relief?" I gravely informed him that it was a very bad case, and one which I was afraid had run too long, but advised him to try one bottle, as it certainly could do no harm, and see the effect, explaining, at the same time, that Honey and Horehound soothed and scattered all irritations and inflammations, and the Tar Balm cleansed and cleared the throat and air passages leading to the lungs, and that the additional ingredients kept the organs cool, moist and in healthy action. He took my advice, bought a bottle and went away. On Saturday he again came into the store, with a light step and smiling countenance; stated that he used the first bottle, and found so much relief that he felt encouraged, and at different times since he sent for seven more bottles, which he had used, and believed himself permanently cured; said he should recommend it to all of his friends and acquaintances, which, as he said, were many, as he was a man of wealth and influence. The price of HALE'S HONEY OF HOREHOUND AND TAR is only 50 cents a bottle. Thus you will see this gentleman was cured for \$4 after paying hundreds of dollars to physicians. Sold by all drug stores at 50 cents and \$1. Large size much the cheapest to buy. Depot, Crittenton's, 7 Sixth Avenue, New York City.
