## POINTS OUT GRAVE ERRORS.

Its Recommendations Would Expand Money and Contract it at Wrong Times.

Washington, Feb. 7 .- Secy. Shaw has received, through Jacob Schiff of New York, a copy of the resolutions recently adopted by the chamber of commerce of New York City in which exception is taken to some of the secretary's wellknown views on the subject of currency legislation. In his reply, the secretary says:

"Of those who study the questelon nine out of ten agree that something should be done to make our currency elastic, but of the nine who unite that something should be done, it is diffi-cult to find two who agree upon the measure that shall be adopted. "In the committee's report I find this

statement is the fact that there is now no limitation on the redemption of national bank circulation.

of national bank circulation." The secretary points out that the committee recommended the repeal of the law referred to, and says: "In the face of the fact that the banks at New York City alone returned to the treasury for redemption over \$12,000,000 in national bank notes dur-ing the single month of December last \$12,000,000 in national bank notes dur-ing the single month of December last, the foregoing recommendation justifies my regret that the committee did not give the subject that consideration which is its due. While there is a jaw limiting the amount of lawful money which the banks may deposit for the retirement of circulation to \$3,000,000 per month, there is no limitation on redemption of national bank notes, and no limitation on the retirement of national bank circulation by banks that wish to deposit their own notes. "The limitation is upon the contrac-tion of lawful money by the deposit thereof for the retirement of bank cir-

tion of lawful money by the deposit thereof for the retirement of bank cir-

thereof for the retirement of bank cir-culation. I beg to suggest that, in my opinion, the repeal of the provision would not effect the remedy." Relative to the chamber's recom-mendation that the secretary of the treasury be authorized to deposit all public funds, except the gold reserve and a reasonable working balance, in national banks at a reasonable rate of interest, the secretary says that banks could not afford to pay 2 per cent on government deposits, except when in-terest was below 8 per cent if com-pelled to give government bonds as pelled to give government bonds security.

The secretary says that the effect of

The secretary says that the effect of the two recommendations of the cham-ber, if they had any effect at all, would result in further expansion during seasons of plenty and further contrac-tion when interest rates are high. "I also note the suggestion in the report that additional circulation equal to 50 per cent of the bond secured circulation maintained by the bank of issue would be excessive and result in inflation. Nearly all advocates of elastic currency urge the necessity of some plan which will relieve local some plan which will relieve local

# SYMPATHETIC FITS ATTACK A FAMILY.

New York, Feb. 8 .-- A special to the Herald from Newburg, N. Y., says:

Sympathetic fits is a nervous malady that has attacked six members of a family of 12 children who live near here. One of the boys in the family which is that of Terrence Clark, of East Goldenham, is the cause of this strange condition. He is now in the hospital here. Realizing that the boy was straid of a kirking mule that was stahere. Realizing that the boy was afraid of a kicking mule that was sta-bled near the farmhouse, a driver named Lynch placed him last Christ-mas night in the stall with the mule and then locked the stable door, leav-ing him in the dark. The lad's cries al-tracted attention and he was rescued in a state of collapse, his mind being af-facted

fected. Lynch was arrested and the boy was Lyuch was arrested and the boy was put under a severe cross-examination for two hours, during which time he was obliged to rehearse the story of his fright. At the close he went into con-vulsions which have dally continued. Five other members of the family, all younger than the boy, are now experi-encing the same affliction. When one goes into convulsions another follows, and at times there are six in fits.

goes into convulsions another follows, and at times there are six in fits. It requires a strong man to hold one of the girls in these paroxysms. The authorities were appealed to yesterday, and by advice of a physician those af-flicted with the fits were separated for a week or two in the hope that after their nerves have become quietd thy may yield to medical treatment. Physiclans say they fear that if the malady is not checked the entire family will be in a similar state.

Mrs. Sneden left home with her four-year-old daughter Rosalie and went to the home of ex-State Senator Simon Hawkins at Jamestown, L. I. Dr. Sneden applied to the supreme court in January, 1893, for a writ of habeas corpus and upon the return Justice Bartlett made an order that the doctor must be permitted to see his daughter Rosalie once a week. Two months later Dr. Sneden sued his wife for legal separation.

Months jacked by solution and the wife for legal separation. Mrs. Sneden, in her sworn answer, admitted that on several occasions she had abandoned her husband, but de-clared that he had treated her with great cruelty

Little Girl's Obstinate Case of Eczema - Instantaneous Relief By Cuticura-Little Boy's Hands and Arms Also Were a Mass of Torturing Sores - Grateful Mother Says:

# **"CUTICURA REMEDIES** A HOUSEHOLD STANDBY"

"In reply to your letter I write you my experience, and you are privileged to use it as you see fit. Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied en-tirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Fills. When we commenced with the Cuticura Rem-edies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four bours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his handa and arms with the Cuticura Scap, and anointed them with the Cuticura Ointment, and then give him the Cutieura Resolvent. In about three weeks his bands and arms healed up; so we have lots of cause for feeling grateful for the Cutieura Remedies. We find that the Cuticura Remedics are a valuable household standby, living as we do twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Respectfully, Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

It was said that the bill anticipates the merger of the Chicago & Alton Railroal company with the Chicago & Alton railway combany, which is the holding company. The bonds of the former, amounting to about \$25,000,000, about \$5,000,000 of which are held by savings banks of this state, will still be legal if the bill becomes a law. There appeared a question whether the pro-posed merger would illegalize the bonds of the merged company already held by savings banks.
