DESERET EVENING NEWS: SATURDAY, JANUARY 12, 1901.

The Saengerfest Club Determined to Pull It Off.

NUMEROUS OFFERS MADE.

Dan Stewart Would Like to Secure Jeffries and Ruhlin for Carson City-Other Propositions.

Cincinnati, O., Jan, 11,-The directors of the Saengerfest Athletic association of Cincinnath express the fullest determination tonight that the Jeffries-Ruhlin fight will be pulled off here Feb. 15, but the preponderance of public sentiment is to the contrary.

The ministers held an enthusiastic meeting today and the women's clubs and other organizations opposing the fight were' unusually active, but the centest now is between Mayor Fleischmann and the Saegerfest Athletic assoclation. After repeated conferences with their attorneys these two elements finally met. Tonight the directors gave

The members of the Saengerfest Athletic association today requested of Mayor Fleischmann the issuance of a out the following: Mayor Fleichmann the issounce of a permit. The mayor declined to issue the permit now, but reaffirmed his promise, and assured the committee that he id issue the permit two days before the date of the proposed contest. The directors yet hold that the contest can and will take place in Cincinnati on

Feb. 18. Since Mayor Fleischmann has been legally advised taht the fight for the championship of the world does not come within the Ohio statutes for sparcome within the Ohio statutes for spar-ring eshibitions under the Auspices of a bona fide athletic club, it is understood that it is the only kind of permit that he would give two days in advance, and would come under the Ohio law; letting the directors take the chances in pro-conduct under the theorem. ceeding under that permit, In addition to the conference today

between counsel there was an informal meeting of the members of the bar, and an epinion was sent to Mayor Fielsch-mann, signed by twelve leading attorneys, including Judge Judson Harmon, heys, including Judge Judgen marinon, who was alterney general under the Cleveland administration, and other ex-judges, notably John W. Warrington. This opinion holds that for the past twelve years the laws of Ohio have been averaging public the thetting, the only twelve years the laws of Ohio have been severe against prize fighting, the only exception being for sparring exhibi-tions under the auxpices of a bona fide athletic club. The attorneys hold that a contest for the championship of the world would not be held by any court to be accessing withining and it for to be a sparring exhibition, and it fur-Athletic club was incorporated after the ticles of agreement were signed by Jeffries and Rublin.

Notwithstanding all the objections Notwithstanding an the objections which confront them the directors of the Saengerlest Athletic club tonight insist that they will have the fight and work is still proceeding at Saengerfest

LAWSON WINS FROM BAKER. Gives Him 200 Yards Handicap in

One Mile Race.

Over 200 persons were present at the Ninth South skating rink yesterday af-ternoon, when John Lawson the "Ter-rible" Swede defeated W. E. Baker in a skating race; best two out of three in one mile heats. It sent chills up the spines of the spectators to see the men come out in full tights and skim around the course before the race started. Lawson gave Baker a handicap of 100 yards in the first heat and defeated

100 yards in the first heat and defeated him easily. Baker lost in making turns, but the Sweede went around them with perfect ease showing that the business was not new to him. With a third of a mile yet to go, Lawson passed his op-ponent and beat him at the finish by fifty yards. Time 3.416 The second heat was better. The Swede gave Baker 200 yards and as is natural to suppose, he had to go some to beat him. He won the race how-ever, making his big gains, as before, on the turns, At the finish he was very close to Baker and his last stroke shot him ahead just before they reached the head just before they reached the Time 3.33 This afternoon Bert Margetts and Lawson are scheduled to skate a mile race in three heats;

TALK ON ELECTRICITY. Engineer Hayward Delivers Lecture

Before University Students. R, F, Hayward, engineer of the Utah Light and Power company, delivered an exceedingly interesting lecture on "Some Practical Aspects of Electric Science," before the University students and professors in the Normal building, last evening. It was the first of a series to be given under the auspices of the Engineering society of the University.

The lecture was illustrated in a very interesting manner with photographs and experiments. Mr. Hayward de-clared that within the next five years the present system of electric light-ing will be revolutionized by a new

He further predicts that there would follow even a greater revolution in this line, which would very materially reduce the great amount of 98 per cont of the electric energy that is now wasted in the form of heat in the incandescent light. Mr. of heat in the incandescent light. Mr. Hayward said that the United States led the world in electric appliances, and that the plant in Ogden canyon

was the best in the west, even botte than the one at Niagara Falls. He told the students in a very carnest manner, that if they would achieve success, they must consider their pro-

fession the noblest on earth and put their whole heart and soul into it. INCREASE IS SMALL.

Fifty-Eight More Pupils Yesterday Than the Day Before.

An increase of 58 in the attendance at

the public schools was noted yesterday, over the day before. That places the number of pupils at 7,127. Superintend-

ent Cooper thinks that there will be a decided increase on Monday, attributing the small increase yesterday to its be-ing the last day of the week. The at-tendance at the various schools was as

Mr. Allen's object in forming this ex-tensive syndicate is for the purpose of having one man do the buying for all the different branches interested in the syndicate and thus be enabled because of such large buying and paying spot cash to get prices and freight rates that no small concern can possibly se-cure. Their headquarters will be in San Francisco.

Why a Cold Kills

At this season of the year coughs and colds are prevalent because of a lowered vitality. The cold does not yield and too often pneumonia supervenes. "Even then," says a high authority on this disease, "pneumonia does not ordinarily prove fatal except in the case of very old or very young people. The danger arises when it is complicated by heart or kidney disease." This is the secret of the ravages of pneumonia. If the body he strong and the blood pure, an ordinary cold is immediately thrown off, but when the bodily vigor is weakened by excessive work, worry or grief and the blood is vitiated by acid which the kidneys ought to and will remove when healthy, the dread pneumonia too often claims its victim. If the blood be kept pure by the use of that great kidney specific. Warner's Safe Cure, a vigorous body will follow, and coughs, colds and attendant discomforts of the winter months be wholly prevented.

Rufe Turner Knocks Out Otto Sieloff in the Fourth Round.

Denver, Jan. 11 .- Rufe Turner of Stockton, Cal., put out Otto Sieloff of Chicago in the fourth round of what was to have been a ten-round go before the Colorado Athletic association here tonight. Otto fought his usual rushing with and frequentic dischard. style and frequently clinched. He was tumbled over in the first round by a sharp right upper cut into which he ducked after missing a left jab to the body. Turner did not try to land ex-cept when Otto would rush at him until the third round, when he assumed the aggressive. Sieloff clinched and in the aggressive, should children and in the fourth Turner returned to his former plan of waiting for a chance. After a sharp mix-up Otto stared to duck away and Rufe landed a right half swing with full force on Otto's jaw. The latter's head seemed to strike the foor before any other partion of his floar before any other portion of his body and the noise of the contact was plainly heard around the house. He was counted out and was unable to leave the ring for five minutes after the end of the fight. Turner was almost as fresh and free from injury as when he entered the ring.

LETTER FROM MEXICO CITY. J. B. Fairbanks of the South American

Expedition Writes the "News."

The "News" has received an interesting letter from J. B. Fairbanks, of the B. Y. Academy South American expedition. The writer states that he left the expedition at Guadalajara and went on to the City of Mexico on the train, and is now in that city seeing and learning all he can, pending the arrival of the company which is traveling on horse back. He is ensconced in a comfortable hotel and paying his expenses at the hostelry by giving the landlord's wife painting lessons. He says Mexico today is entirely different from what it was before the conquest, there is not a building and scarcely a fragment of a building left standing, to remind one of the old days. The cathedral stands where the temple of Montezuma stood, and was built of the same material. But there are only a few fragments of the old temple left, and they are in the museum. Many of the customs and habits have gone the language has gone and the old re-

ligious rites and ceremonies have passed away. There is one thing, how-ever, that still can be plainly seen, and that is the features. In all the darker Mexicans can be seen the Indian very plainly. The writer goes on to describe the floating gradens which he declares the floating gardens which he declares are not floating gardens at all. Sunday, he says, is the great market day of the Mexican. Everybody that has anything to sell brings it in on Sunday. It is also a great day for drinking. About noon it looks as though the entire populace, including

though the entre populace, including women as well as men, is half drunk. There are a great many churches in the city, and the shop windows are about as beautiful as can be seen in Paris or London. Every Sunday a band "aves in the Plaza and the music is of a very high order. After describing

a very high order. After describing some of the orthodrals in the city the writer states that he will now have more time to devote to his profession, painting. He is at work at present on a painting he calls, "A Mayo Indian Girl," (a white Indian).

Salt Lake Business Men's Petition Reaches Washington.

It is Presented in the House With Strong Accompaning

Resolutions.

Under the heading "Hand Shown At Last," the Tribune this morning prints the petition sent to Washington by Salt Lake business men who asked for a reopening of the question of the site of the opening of the question of the site of the Federal building. This is somewhat amusing, in view of the fact that the identical decument was printed in the "News" on January 2nd, with the names signed just as given by the Tribune. According to the Tribune, the petition was filed in the House by Representa-tive Giynn, of Albany, New York, with the following resolution:

the following resolution: Whereas, Merchants, bankers and business men of Salt Lake City have filed with the committee on public buildings and grounds a petition in protest against the proposed site for the Federal building to be erected at Salt Lake City in conformity with an act, entitled an act to provide for the purchase of a site, and for the erec-tion of a public building thereon, at Salt Lake City, the capital of the State of Utah, approved March 2, 1899; and, Whereas. These merchants, bankers

and business men assert that the proposed site is the most undesirable one offered and guarantee to donate a site the most desirable section of the

city: and. Whereas. These same merchants, bankers and business men contend that the assistant secretary of the treasury made the selection of the proposed site made the selection of the proposed site in violation of the provisions of the bill approved March 2, 1899, and without making the customary examination in the usual way, and without giving the merits of the different sites due hear-

ng or consideration; and. Thereas, These merchants, bankers and business men practically charge in their petition the assistant secretary of the treasury with derelictness in the selection of the proposed site, in Salt Lake City, therefore, be it Resolved, That a committee of three

appointed, authorized and instructed investigate the procedure adopted in the selection of this proposed site, to investigate fully by hearings the merits of the different sites, and to re-port back to this House the site found to be most desirable and most feasible; and be it further Resolved. That the assistant secre-

tary of the treasury having charge of this matter, be directed to furnish the House of Representatives with all pa-pers, maps, communications and documents relating to the selection of a site for a Federal building at Sait Lake
