

WILL HAUL FLOUR FREE TO CHINA

Harriman and Huggitt Offer Train Of Forty Cars to Transport Supplies to Orient.

TO START FROM MINNEAPOLIS.

Suffering Among Natives so Intense That They Are Digging Bodies From Graves to Satisfy Hunger.

In response to the famine call from China, the fund started by the Christian Herald has grown into enormous proportions for the relief of the starving Mongolians. One thousand tons of flour have been contributed and stored at Minneapolis, one of the greatest flour producing centers of the United States, and word has been received this morning that E. H. Harriman, president of the Union Pacific railroad, and Marvin Huggitt, president of the Chicago & Northwestern railroad, have tendered the use of a train of 40 cars, or so much thereof as may be necessary, for the free transportation of the flour or other material across the country to San Francisco by way of their respective lines.

Contributions of flour, etc., will be picked up all along the route, and doubtless the local offerings from the churches and the 800 sacks given by the local millers, will be included in the trainload. Connection will be made at San Francisco with the government transport bureau, which will deliver the flour to China.

The famine situation in the interior of the Peking kingdom is said to be so intense, that the natives are digging the dead bodies out of the graveyards with which to satisfy their cravings for food.

The fund for the relief of the sufferers closes tonight.

PULLMAN OFFICIAL HERE.

Assistant General Superintendent Bostwick Spends Day in Salt Lake.

Assistant General Superintendent P. M. Bostwick, of the Pullman Palace Car company of Chicago, is in the city, accompanied by his wife. Mr. Bostwick said this morning that this is his first trip to Salt Lake City, and he expressed himself as much pleased with the appearance of the town. "Four wide streets and a fine harbor," he said, "some of the most modern cities build enormously high buildings along each side of a narrow thoroughfare, and for some time to penetrate these grand canyons of cities is almost a physical impossibility. I am on my way back to Chicago after a very enjoyable trip covering coast points from Los Angeles to Portland. We expect to leave this evening, and have enjoyed our trip very much."

NEW SCHEDULE.

Will Make no Difference Because Trains Are Always Late.

Chicago, April 9.—Western railroad officials have practically decided upon the schedules for passenger trains between Chicago and the Pacific coast and intermediate points.

If the time as now agreed upon is put into effect, the schedule of the fastest train from Chicago to Los Angeles will be lengthened from 71 hours and five minutes to 72 hours; to San Francisco from 93½ hours to 72; from Chicago to Denver 30 hours to 32; from Chicago to the Missouri river from 23 hours and 25 minutes to 14 hours and 30 minutes.

It is said that changes will make little practical difference except that trains will be less late at terminals.

The main increases are between Chicago and Denver, where the time has been maintained fairly well, and has not been determined when the new schedules will go into effect, but if there is no further disagreement they probably will be effective May 1.

WORK ON POCHEE BRANCH.

Deal Brothers & Mendenhall to Commence Operations This Week.

Deal Bros. & Mendenhall, the well known Utah contractors and railroad

SLEEP BROKEN BY ITCHING ECZEMA

Skin of Whole Body Covered for a Year—Awful Itching Kept Sufferer Awake Half the Night—Tried All Kinds of Remedies but They Had No Effect.

CUTICURA REMEDIES A PERFECT SUCCESS

"I wish to let you know that I have used one set of Cuticura Remedies—one case of Cuticura Soap, one box of Cuticura, but two vials of Cuticura Resolvent Pills—which cost me a dollar and twenty-five cents in all. For a year I have had what they call eczema. I had an itching all over my body, and when I would retire for the night it would keep me awake half the night, and the more I would scratch, the more I would itch. I tried all kinds of remedies, but could get no relief. A friend of mine told me to try the Cuticura Remedies which I did, and am very glad I tried them, for they completely cured. If any of my friends should be troubled with the same disease, I will cheerfully recommend the Cuticura Remedies, and if I know any one who wishes to know how I cured myself, I shall be glad to tell them. Walter W. Fagusch, 207 N. Robey St., Chicago, Ill., Oct. 5 and 16, 1906."

CUTICURA

The Great Skin Cure and Purest and Sweetest of Emollients.

Cuticura Ointment is, beyond question, the most successful emollient for restoring, disfiguring humors of the skin and scalp, including loss of hair, yet compounded, in proof of which a single anointing with Cuticura Ointment, preceded by a hot bath with Cuticura Soap, and followed in the evening cases by a dose of Cuticura (Laxative Pills), is often sufficient to afford immediate relief to the most distressing forms of itching, burning, and scaly humors, eczema, rashes, and irritations, permit rest and sleep, and point to a speedy cure when most, if not all, other remedies and even physicians fail.

Complete External and Internal Treatment for Every Form of Eczema, Rashes, and skin diseases. Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent Pills, for the cure of Eczema, Rashes, and skin diseases. Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent Pills, for the cure of Eczema, Rashes, and skin diseases.

BLOOD GETS SOUR.

At this time of year, says a well-known authority, the kidneys become weak, clogged and inactive, failing to filter out the poisons and acids, which sour the blood, causing not only facial and bodily eruptions, but the worst forms of Rheumatism, Nervous and Stomach troubles, Backache and painful, annoying urinary affections.

It is worth anyone's time now to get from some good prescription pharmacy the following ingredients: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after your meals and at bedtime.

This simple home-made mixture will force the kidneys to normal, healthy action, so they will filter and strain all uric acid and poisonous waste matter from the blood, and expel this in the urine, at the same time restoring the "full blood count"—that is, 95 per cent red blood corpuscles—which is absolutely indispensable to perfect health.

builders, are to commence earnest construction upon the Pioche branch of the Salt Lake Route during the week. Mr. Mendenhall is now in California and says the road will be completed some time before the Fourth of July. Had it not been for the wash-out along the Salt Lake Route's line through the Pioche branch, the Pioche branch would probably have been completed before now. When the main line was torn to pieces the gangs and equipment and much were taken from Caliente, the supply point, and distributed along the washed-out section. The camp and district and surrounding districts were in readiness to repair, with activity and prosperity. With a rail connection with the outside world, the Pioche camp will jump ahead in big strides.

RESUMES TRAFFIC APRIL 12

Through Trains on the Salt Lake Route Will Be Put on This Week.

According to program, the Salt Lake Route will resume running its through trains to Los Angeles the present week. It had been thought to get the road repaired so as to allow through traffic by April 1, but it will be approximately two days later before this can be accomplished, or about April 12. Considering the extent of the damage done by the washouts, entailing an expense of nearly a million dollars to repair, to get the road into shape for through business within two days of the calculated time certainly shows how well the district and the Pioche branch are in the hands of the men who are in charge of the line, and its ability to do what it promises. The Los Angeles limited will resume regular service about April 15.

FROM TONOPAH TO COAST.

According to a dispatch the contract for the grading of the entire line of the Monterey, Fresno & Eastern railway from Monterey to Fresno, a distance of 140 miles, has been let. Work of grading will commence April 1 and be rushed to completion. One thousand men and horses and mules and 1,000 men are in the grading outfit, being arranged for shipment to Monterey. Surveyors are running a line at present from Fresno to Tonopah, which will be completed very shortly after which the road will be extended to Goldfield. The orders for rails and ties for the proposed road to Tonopah are now being placed and will be shipped through with all rapidity.

SPIKE AND RAIL.

The first carload of wool of the season came from the Lake Route from Fairfield and was shipped by Mark Harris. Shearing has commenced at Milford, and sheep are being gathered into the Black Rock corrals today. Operations at Modena will begin about the 12th.

A booklet, "With Nature in Colorado," just issued by the passenger department, Denver & Rio Grande railroad, is like the best of all spring books, with its soft tones and delicate colorings. It is finely illustrated, and for a railroad advertisement intended for wide distribution, is exceptionally beautiful.

Trains were delayed on the Park City branch of the Rio Grande for about 14 hours by the derailment of a freight train 20 miles this side of the Park at 10 o'clock in the morning. The tank car of the train was thrown from the track, but fortunately no one was hurt. Yesterday's 5:30 train did not get in until 10:30 last night, but the track is clear again now.

CHINESE FAMINE FUND TO BE KEPT OPEN UNTIL FRIDAY.

The Desert News announced yesterday that the fund being raised in aid of the starving Chinese would be closed last night. Telephone messages from several points, however, indicate that there will be further contributions on the way, and in order that these may be included, the subscription list will be kept open until Friday morning next, at 11 o'clock. All generously disposed persons who desire to aid the stricken inhabitants of China may send any sum, however small, to the Desert News before that time. The following is the report to date:

HAWAIIAN REUNION

Given at the Lion House Was a Great Success.

It was Hawaiian night last night at the Lion House, and the festivities were

Light, smooth, flakey bread is the certain result where

HUSLER'S FLOUR IS USED.

First aid to the science of cookery.

scenes which transpired there have hardly been surpassed in interest in the many events of the Hawaiian building. The fair was given under the direction of the Hawaiian Missionary society, comprising a large number of the L. D. S. Church missionaries and their wives, who have spent years among the foreign race in a far land carrying the gospel message to their ears.

The result of their work was seen in brief outline last night when a large number of the converts gathered together with their fair-skinned friends and joined with them in dancing, feasting and a general social time up to the midnight hour. Young Hawaiian girls in the loose white robe of their native clime, and stalwart and agile young men dressed in native dances, giving tips to the lightest and most fantastic on the vaudeville stage. Two mature women sang with split bamboo sticks accompanying in a sort of "clapper" effect. Native music by native musicians went with the singing and dancing, and at the banquet which followed many native viands were served, including the celebrated "poi" and "Kool" Puaia. A Hawaiian pudding made of sweet potatoes and crushed coconut with many other native dishes were served. The Hawaiian people were present in number, men and women, in festive array, and the festivities were with an Indian peace pipe.

Elder Will G. Farrell was master of ceremonies and presided over the banquet. He was followed by a benediction by President Joseph E. Smith in the native Hawaiian tongue, in which he became an adept during the long mission in the islands. The banquet was under the supervision of Mrs. Julia L. Smith and Mrs. Susa Y. Smith, and a number of other ladies. In serving, Jacob F. Gates, who is president of the Papa Luna Ka Hui, was notable personality. The fair was in the Hawaiian dances, in which he participated with all the staccato grace of a native.

The affair altogether was a pronounced success and reflected credit upon those who directed and participated in the reunion.

"AN AMERICAN CITIZEN."

Dr. Joseph H. Crocker Delivers a Splendid Address on the Subject.

The difference between a citizen, a voter, and an inhabitant, was set forth in a thoughtful address delivered last evening before the University club, by Dr. Joseph H. Crocker, an eminent divine and public speaker, who is the guest of the club during a brief visit in Salt Lake. In speaking to his subject, "The Making of an American Citizen," Dr. Crocker argued that the greatest peril to free institutions is to be found in the cupidity of the poor and weak, and not so much in the power of the rich and strong. He urged that citizenship, including the right to vote, should be reserved for those who have earned it, and should not be given to individuals merely because they are an inhabitant. He advocated restricting to owners of property the right to vote, and that the principle that no factory would be a success if its managers were elected by a designing and irresponsible mob. He pointed out that the municipal government will be unsatisfactory until it is entirely within the control of the people, and that the present system, which is a mere sham, should be replaced by a change in the system itself, and that such a change is not far off. He indicated that the change is now being made, and that those who are suffering under misrule and are bearing the burdens of oppressive taxation should be helped.

Dr. Crocker declared himself optimistic with respect to the future, maintaining that the American people, in their form is a new product, but is the outgrowth of every struggle for freedom. He said that the American people are now in the middle and far west. He will be in the city for two or three days, yet and is to deliver a series of lectures at the University of Utah this afternoon.

BURGULAR SURPRISED.

Disturbed at Marriott's Butcher Shop He Plunges Through Glass Door.

About 10:30 last evening as the theater crowds were on their way home people walking along west First South street at a point in front of No. 24, heard a sudden crash of falling glass, while a burglar thrust men and women aside and fled. The men were paralyzed with amazement and women screamed. The cause of all the commotion was soon explained. A burglar had forced an entrance to the meat shop of J. M. Marriott and ransacked the place. He emptied the cash register and took what change there was in it and also made off with some minor articles. While at work the place he became frightened at someone entering and fled heading through a front window. The fellow lost no time in making his escape.

PERSONALS.

Elmer B. Jones will be home from Rochester, N. Y., on Monday next.

Asst. Cashier, Edgar Hills of the Desert National bank is in California on a vacation.

Mr. and Mrs. Albert Blum have returned home to Nampa after a week's visit in this city.

Dr. H. N. Mayo has returned from Boise where he was present at the meetings of the Southern Idaho Medical society.

Joseph Truella, a music teacher from Montpelier, has come down to attend the festival. He was formerly an instructor in this city, under Prof. McClellan's direction, and has many friends here. Mr. Truella is doing very well in Idaho.

Rev. Dr. Rankin of Brigham City is in town today, en route from attendance on a meeting of the Utah Protestant at Pocatello. He is a member of other Presbyterian churches, men from the north, were present this morning, at the weekly meeting of the Salt Lake Ministerial association.

C. R. Rathbun is in town from Kemmerer, where he is engaged in sheep and cattle prospects in that state are highly satisfactory. He reports considerable of a stir there over the action of the government in the coal land cases, and in ordering the removal of witnesses placed by the cattle companies. Wyoming seems to be settling up very fast.

George E. Hill, Jr., of Rigby, Idaho, is in town attending conference. Mr. Hill reports everything in the Gem state flourishing. He is imbued with a strong belief that eastern Idaho is entering upon a great period of industrial growth. New railroads, new capital invested, and a general awakening among all classes of people will bring this about. Mr. Hill claims the agricultural phase of Idaho is now passing the experimental stage, and this has induced capitalists to enter that field for investment.

MUSIC FESTIVAL OPENS IN IMPRESSIVE FASHION.

Salt Lake is reveling in the luxury of a music festival in all ways worthy of the name. In the old days when the town had half its present population, such events were not uncommon. We used to know what it meant to import singers like Emma Thursby, and Myron Whitney to head our solo forces, and great ecclesiastical were worked up which excited the rivalry of the whole West. But the mad business rush, and the lure for comic opera, vaudeville and burlesque has of late years turned the public taste in another direction; the present festival, therefore, is a welcome and delightful harking back to the grand old standards, to better things in music, which we all hope may not be with us only for a day.

To the group of music teachers who inaugurated the festival, and more than all to Manager Fred C. Graham, whose assistance to the enterprise worked up the big subscription list that made the event a possibility, the town owes a decided debt.

The festival held a beautiful, big and brilliant audience at the opening of the festival last night. All the lower floor was filled and much of the gallery space was occupied. While a big section of the patronage came from Salt Lake town visitors, the music forces of the city were strongly represented, as was evident by the discriminating applause which followed the first notes of the program. The encore band was in evidence, too, but it is greatly to the credit of the management that he was not allowed to enter the hall. The receipts must have amounted to a figure that will place the financial part of the festival on a firm ground.

The orchestra, a symphony orchestra and its soloists had a hearty reception, and while their work was greatly appreciated, the delight of the evening lay in the later half of the program, when the festival chorus, the Mormon Madam Zimmerman and Dr. Schussler, with the organ added at the close, rendered "The Death of Minnehaha." The beauty of this work cannot be a positive revelation to the audience, and it will surprise many to learn that its composer is one of the newly risen geniuses of the day, a student of English birth, J. Coleridge Taylor. When the work was brought out in London, some years ago, Director Evan Stephens was in audience, and he, too, of English birth, J. Coleridge Taylor. When the work was brought out in London, some years ago, Director Evan Stephens was in audience, and he, too, of English birth, J. Coleridge Taylor.

That Mr. Stephens should have been able to accomplish so much with a newly picked chorus in so short a time—it is only 12 weeks since rehearsal began and hardly more than a dozen have been held—is remarkable, but the perfection with which the work was rendered last night suggests that the choir is a well-prepared. The chorus made a charming spectacle, all the ladies wearing white and all the gentlemen in black. While the sopranos and altos predominated heavily in the work, especially the tenors, gave a good account of themselves. It was with the greatest enthusiasm that the audience followed the words of Longfellow's poem and noted the masterly way in which the composer had fitted the sentiment of the music to the words. Unfortunately all the audience were not afforded the opportunity to see the program, which was a real artistic fashion, to the singers, and the program was carried out. The whole work is full of variety, richness and originality that must stamp the composition as a masterpiece. The program by Mr. Stephens' singers was masterly. Particularly fine were the sopranos in giving the cry of "Hawahua," uttered by the dying Minnehaha, which was the grand burst at the close, with the singers, orchestra and organ combined, in rendering Hawahua's "Farewell," was one of the most moving things possible to imagine.

The first part of the program was miscellaneous in its character. The orchestra is a fine body of musicians, although we have had organizations larger in number, and leaders who brought out more fire and electricity than Mr. Von Fleitz seemed able to produce. The opening number, "The Merry Wives of Windsor" was charmingly done, as were the orchestra's other contributions. There was a general severity to this part of the program, not to say gloominess—the only light feature being a beautiful "Cantata" by Von Fleitz himself, which his players rendered in admirable fashion. The solo part of the evening was made by Madam Zimmerman, a soprano who has a high, beautiful, dramatic voice. She sang in the cantata in feeling fashion, and also rendered the song from "Francesca" in brilliant style. Dr. Schussler, the basso cantante, has a strong high voice of excellent range and fairly good power. His "Pagliacci" number was well rendered, though he had hardly the brightness and fire that we have heard it given by our own lamented Goddard. The cello soloist, Mr. Wagner, chose a very difficult concerto, which, while it showed his own excellence as a performer, did not impress his audience so deeply as a more soulful rendition might have done. Then, too, perhaps the recent appearance of Heking and the memory of Hollman has spoilt us.

The evening was not without its faults and some of them ought to be remedied. It was 10 minutes to 9 before the first number began. Many in the audience, especially the country

visitors, who sighed in vain during the first half of the evening for some sympathetic hail or selection, grew undoubtedly restless. There was also a scarcity of programs, which detracted much from the enjoyment of those who wished to follow the words of the poem. If the lights outside could be multiplied there would be less confusion in entering, and the big gates by all means should be swung open at the close.

This afternoon a miscellaneous program will be given, and tonight the orchestra, soloists, chorus and organ will be heard in the "Messiah." Its first rendition in Salt Lake for something like 30 years.

CARD OF THANKS

I wish to express my gratitude to my friends, who showed me so much kindness through my late sickness, to Mr. and Mrs. Dr. Halliday. I also appreciate very much the assistance I have received from the Bishopric and Relief Society.

MRS. ANDREA R. MCLAUGHLIN,
18th Ward.

MUSIC TEACHERS.
All who desire to consult the list of the representative professors and music teachers of Salt Lake should read the "Musicians' Directory" in the Saturday News.
