Skirmishing near Alexandria.

ALEXANDRIA, 25.—Arabi Pasha's front fell back last evening to the other side of Ramleh, thus forcing on the British another reconnoissance. At five o'clock Tuesday morning the Sixtieth Rifles marched out intending to occupy Ramleh unless defeated. The *Inflexible* was ordered to shell Arabi's cavalry out of Ramleh. A detachment of the Sixtieth Regiment proceeded to attack the enemy under cover of the ships' guns. The enemy's cavalry fled upon the volley being fired from the bridge. One of their horses was struck and one of their men wounded. They fled at a hard gallop and after a elapse of some time reappeared with reinforcements, and the two guns with which they opened fire. The enemy's shots had no effect.

The first skirmish lasted about an hour, one or two English being hit, and several Egyptians were seen to fall. The skirmish left both parties without change in position.

The Egyptian projectiles burst too high to do any damage during the skirmish yesterday. In consequence of this fact the British escaped a heavy loss. The Egyptians advanced boldly but without any judgment as they might easily have captured all the mounted infantry.

An Italian refugee says he saw eighty-five European bodies lying in the streets of Tantah, and that their intestines were being flung at the windows and about the streets. A Greek's throat was cut with a penknife, and two English women jumped from windows and were killed in order to escape massacre. Arabi Pasha put on a train to carry away the Christian survivors, and about 100 persons boarded. No sooner were they seated than a determined attempt was made to murder them, and was only frustrated by a friendly native causing the train to start.

The British guns on Ramleh Heights completely command the Neck and will render the Egyptian position untenable.

One of the two members here of the deputation representing the notables brought a copy of a proclamation secretly circulated by Ragheb Pasha, stating that England had declared war against all Egyptians. The Khedive has consequently been strongly advised to dismiss Ragheb Pasha from the ministry and place him under arrest. It is hoped also that as the ministers are mere creatures of Arabi Pasha, the Khedive will dismiss them all and form a new ministry under Cherif Pasha. The deputation, after learning the true state of affairs here, will try to return to Cairo and inform their colleagues of the facts. The first meeting of the conference at Constantinople, in which the Porte participated, was held yesterday. The London *News* understands that the conference considered the proposal to call upon the Sultan to denounce Arabi Pasha as a rebel, and thinks it improbable that the conference will meet again or further prolong its sittings.

At 6 p.m., the British troop ship *Malabar* and the men-of-war *Orion* and *Cygnet* left Alexandria for Port Said. Advices from that place report that Governor Ismailia has fled to Arabi Pasha's lines.

The British in front of Ramleh are being reinforced with two nine pound guns and two gatling guns Arabi Pasha has gone to Cairo.

The Khedive has appointed Omar Lufti, formerly Governor of Alexandria, Minister of War and Marine.

The ministery are preparing another proclamation ordering the people not to obey Arabi Pasha.

Italy.

In relation to an invitation to Italy to co-operate in the protection of the Suez Canal, it is significant that the *Diritto*, of Rome, which though recently disavowed by the Government, represents the tone of the whole Italian press, contains an article declaring that it is a matter for congratulation that Italy has not allowed herself to be dragged into this dangerous affair. That Germany and Austria will, like Italy allow England and France to carry out their plans, but complications will afterwards arise, and then, at a proper moment, the Central European Powers will doubtless remember Italy's loyalty to their alliance.

A Turkish journal says the Porte hopes to settle the Egyptian question without using force.

Telegrams from Egypt announce that Arabi Pasha has named El Jehad or the Holy War at Tantah.

France.

The marines start from Marseilles for Port Said on the 27th inst. A transport will follow with 600,000 litres of water. Algeria will furnish a battalion of zouaves.

England.

A proclamation has been issued in England summoning all troops to assemble by Aug. 20.

It is understood that England and France on Monday, jointly invited Italy to participate in the action on the Suez Canal, and it is probable that in the next 24 hours Italy will be invited to co-operate with Great Britain in restoring order in Egypt.

The apartments of a brother of the Khedive at Ramleh Palace were broken into and his trunks burst open and looted by English troops, and the general behavior of the British enables me to chronicle this as a singular exception to the good conduct of the troops.

BRIEF TELEGRAMS.

The reserves of the Gordon Highlanders have been ordered to join their colors.

The Russian steamer *Moscow* was sunk by a boiler explosion; 200 men lost their lives.

The President has nominated M. S. Joslyn, of Illinois, Assistant Secretary of the Interior.

Secretary Teller has received 4,000 applications for the 800 new clerkships in the Pension Office.

In New York, Gen. J. M. Varian, colonel of the Seventh Regiment during the war, died on Monday, aged 67.

A steamer will start from Tomsk, Siberia, for St. Petersburg to-morrow with Engineer Melville and two sailors, the last of the *Jeannette* party.

In response to a letter from the Cleveland Rolling Mill strikers, President Jarrett has sent a reply advising them not to accept the terms offered.

Sullivan and "Tug" Wilson signed articles for another prize fight, on the same terms as the first, to take place in a Western State. It is for $5,000 a side.

In London, Edwin Booth played Hatruccio last evening, and was called before the curtain after every act, and was also given a splendid reception. The house was crowded.

The New York *Herald's* St. Thomas special says: One of the assassins of Lord Frederick Cavendish has been arrested at Puerto Cabello. He gives the names of his accomplices. He has been sent to Curacas.

Lieut. Barry Gilder and another officer of the burned steamer *Gedney* will return from Irkutsk to Lena Delta in order to follow, during the winter, the coast as far as the frontier of Russia, thereby completing Engineer Melville's search to Olenak.

The long-deferred lighting up of of the first district of the Edison Electric Light Company, is now announced for September 1st. The district is bounded by Spruce, Nassau and Wall Streets and the East River. There are 14,500 lamps in position.

Trustworthy accounts state that Arabi Pasha's cavalry are well armed. The military workshops are fully employed. Arabi has ordered shot several Shieks and Bedouins for refusing to obey him. Eight Bedouins were killed during the skirmish at Kafr el Dewar. Two Arabs were shot by the native soldiers by order of the native tribunal; one for shooting an English marine, and the other for arson.

St. Jacobs Oil

The Great German REMEDY FOR RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, BACKACHE, GOUT, SORENESS OF THE CHEST, SORE THROAT, QUINSY, SWELLINGS AND SPRAINS, FROSTED FEET AND EARS, BURNS AND SCALDS, GENERAL BODILY PAINS, TOOTH, EAR AND HEADACHE, AND All other Pains AND ACHES.

No Preparation on earth equals ST. JACOBS OIL as a SAFE, SURE, SIMPLE and CHEAP External Remedy. A trial entails but the comparatively trifling outlay of 50 CENTS, and every one suffering with pain can have cheap and positive proof of its claims.

THE RUSHFORD WAGON MANUFACTURED BY THE WINONA WAGON COMP'Y.

Our General Manager, H. M. KINNEY, has spent two seasons in Utah, for the special purpose of learning the needs of the Territory in the Wagon line; and now after carefully preparing to meet them, we offer the Rushford Wagon to the trade. It is made of thoroughly Seasoned Timber, of the best quality, strongly ironed, and we know it will stand. We fully appreciate the severe climate and roads of this market, and have made a Wagon with special reference to them. A full assortment can be found with our General Agent, J. W. LOWELL, at Salt Lake City and Ogden. Hoping to merit the patronage and confidence of the trade of this country, we are

Yours truly,

WINONA WAGON CO., Winona, Minn.

Correspondence.

OREGON SHORT LINE R. R., July 18, 1882.

Editor Deseret News:

The terminus of the Oregon Short Line Railroad is not at Wood River yet, as it was expected early last Spring to have been by this time. It has, however, found its way to American Falls, a point on Snake River, where it halts to let the weary grader go on to construct a road through an eighty mile desert of sand and lava rock.

Since the latter part of April, large numbers of men and teams have been shipped in, many of whom have got dissatisfied with the general outlook and left for other parts, while the stay of many a home-sick youth is of but momentary length, only waiting for some reasonable excuse to get away.

Stealing is getting to be of frequent occurrence and it is not a strange thing to hear of the guilty hanging around in trees or other things erected for the purpose.

It is very warm here now, and windy. Many times clouds of dust rise to such an extent as to prevent working on the grade.

There are many things that annoy the railroad men and now among the objectionable, small-pox is found. It has not scattered to any extent among the camps yet, and with proper care in a month or two it will not be known of on the line.

The best part of the working season is now wearing away and with it the prospects for lots of cash gradually disappear. Last month I saw contractors walk up and draw their paltry sums which was less than enough to cover expenses.

Some are leaving the line while others reluctantly continue on and although not very religiously inclined, if looks had any language, many a worried mind could utter with propriety a portion of the Lord's prayer, "forgive us our debts." Yours, etc.

JEFF. A. HUFF.

CITY COUNCIL.

Proceedings at the City Council on Tuesday evening, July 25th, 1882, Mayor Jennings presiding:

A petition was submitted from Wm. McLachlan in behalf of Martha D. Perkins, representing that the corporation of Salt Lake City had used and enjoyed the benefit for the past fifteen years of fifteen square rods of ground, located on lot 6, block 82, plat A, Salt Lake City survey, for which the corporation had never compensated petitioner. She therefore asks that reasonable compensation be made her for the use of said land for the period named. Referred to the committee on claims.

A petition was submitted by George Tall and forty-three others for a bridge, suitable for loaded wagons, across City Creek, at the intersection of North Temple and Sixth West streets. The petitioners represented that the Denver & Rio Grand Western Railway Company's grade and track through said Sixth West street had rendered the former crossing unfit for loaded teams. Referred to the committee on streets and alleys.

A petition was presented signed by N. Groesbeck and ten others—all more or less interested—asking that Mr. John Jelich be granted permission to keep and maintain a confectionery and fruit stand in front of the main entrance to the Wasatch building, on East Temple street; said stand to occupy five or six feet frontage, and to be located across the water ditch flowing in front of the building. The petitioners stated that it was their belief that the erection and maintenance of this stand would in no way interfere with public traffic upon the walk adjacent and would prove an obstruction to no one. The petition was accompanied with an application for license from John Jelich to transact business as merchant. Referred to the committee on license.

Alderman Raleigh made a verbal petition in behalf of A. J. Pendleton for permission to occupy a portion of the street in front of his blacksmith shop, on Second South street, whereon to place building material for a period of thirty days. Granted under the usual restrictions.

The committee on waterworks to whom was referred the petition of F. H. Hyde and 12 others, residents of North Temple Street, representing that since the water of the canal had been turned into City Creek those waters flowing past their doors had become so fouled as to be unfit for household purposes, and asking in consequence thereof that the water mains be extended a distance of two blocks west from East Temple Street down said North Temple Street, reported that they had examined into the matter and would recommend that the city mains be laid two blocks as petitioned for, on the usual terms, viz., that petitioners pay three-fourths the cost of making such extension, the amount so paid to be returned in water rates as usual. Adopted.

The committee on finance to whom was referred the statement of expenditures upon the Jordan and Salt Lake City Canal for May, reported that they found the same correct, and recommended its acceptance and the approval of said expenditure, viz., for the month, $11,-211.65. Adopted.

Adjourned for one week.

Encouraging a Railroad.

A farmer living on the line of the Jackson and Fort Wayne Road, visited the headquarters of the company to urge the necessity of a new passenger station at a certain crossroad on the line.

"I'm afraid the patronage would not pay the expenses," replied the official.

"I tell you a heap of people would get on and off at them corners," urged the farmer.

"Well, how many of your neighborhood have passed over our road this year?"

"How many? Well, there's old man Skinner, for one. He has been to Jackson twice that I know of. Then, there's Aunt Deborah Smith, who goes down to Fort Wayne every spring and fall. Then we've got several young men who allers go up to Lansing when there's a circus."

"Any more?" asked the official as the farmer scratched his head and wriggled around.

"No—o, I don't kdow as I kin think of any more just now, but if you'll go ahead and put up a station there, you kin count on a dozen of us sitting around there all the time to make things look like business."—*Banker and Broker.*

A bashful young clergyman, recently rising to preach for the first time, announced his text in this wise: "And immediately the cock wept and Peter went out and crew bitterly."

"I never was in favor of war," said an old Arkansawyer, "but I notice that some of the world's greatest men are not of my opinion. Now there's old Trademark. He's a great man, and yet he believes in war." "Old who?" asked a bystander. "Old Trademark?" "Who the deuce is Trademark?" "No wonder they call us ignorant when such fellers as you show your lack of schoolin." Didn't you never hear of the great German military man, Trademark?" "I've heard of Bismarck." "That's a fact. Bismark. I knowed that it was some sort of a commercial name.—*Arkansas Traveler.*

The bishop of Peterborough, England, met at dinner the other day a rich, benevolent, but somewhat brainless millionaire, who boasted that he gave away £2,000 to the poor regularly every year. He said, "I think it's right, you know; a sort of duty in my position. I can't say what becomes of it, but it's given away in charity, that's all I know, and that's all I care about £2,000 every year!" "What!" said the Bishop, "do you really mean to say you pay away £2,000 to the poor every year as a religious duty!" "I assure you, my lord, that is so," replied the wealthy man, with careless complacency. "Well," said the witty Bishop, "that's the largest insurance against fire I ever heard of!"

"It certainly is an elegant remedy for all pains and aches," says Dr. J. Turner, of Shirrell's Ford N. C., speaking of St. Jacobs Oil.

Natural Fruit Flavors.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long, as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvelous cures, that have won for it a confidence in its virtues, never equaled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their painful effects, that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely defence. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its early use in sudden attacks.
