Districts.

Foot Chopped in Canyon Accident-Burglar Captured - Chinamen Robbed-News Briefs.

Tomorrow is city election day in Og. den, and the people should consider well the candidates before casting their ballot at the polls. Both parties have good men on their tickets and whichever side wins Ogden is assured a good economical administration.

The general candidates are: Republican Ticket-Mayor, William Glasmann; recorder, William Critchlow; treasurer, James Halverson; auditor, Miss Harriet Brown; municipal judge, J. A. Howell.

Democratic Candidates-Mayor, Peter Anderson; recorder, H. H. Goddard; treasurer, James F. Burton; auditor, Mrs. William West; municipal judge Joseph Chez.

The campaign has been a very quiet one, neither party having done any great work. The Democrats have not even opened up headquarters, but have been doing a quiet house to house can-vass, and feel confident they will elect some of their candidates. The Republi-cans have had headquarters in the opera house, and will tonight hold the opera house, and will tollight house the only meeting of the campaign at the Grand Opera House.

Watsontown, Pa., July 13, 1903.

Dear Sirs:

I have used S. S. S. for Catarrh of the inner ear, and have found it an excellent remedy for same. I had been troubled with this disease for years and tried many things in an effort to get relief, but nothing did me any permanent good until I began S. S. S. I had a discharge from my ear and my hearing was so badly affected that I could not hear the tick of a clock. I was in bad shape when I began your medicine. S. S. S. has done away with the discharge and my hearing has been wonderfully improved; so much so that I can now carry on a conversation in an ordinary tone, whereas a year ago this was impossible.

Your medicine has done me a world of good and I do not hesitate to give it the credit it deserves.

Charles S. Zane, former chief justice of the Utah supreme court, personal friend of Abraham Lincoln, who has voted for every Republican presidential nomlinee since the organization of the party.

Judge Zane's Statement.

You have asked for my views touch-ing the coming election. I was not a delegate to the last Republican condelegate to the last Republican convention, nor did I attend its sessions. My information as to the methods and means used consists of hearsay. From that I am convinced that money was used to secure proxies in some instances and direct votes in others. Candidates and voters have a right to assume that rominations will be made by an honest expression of a majority of the delegates. And if they are secured by the use of money or other improper influences, the voter is not bound to vote for the candidates so nominated. If two or more individuals submit a matter of difference to arbitrators and one side afterwards learns that the other side secured the award by bribing our fraud, he has the right and it would be his duty to disregard the decision and have it set regard the decision and have it set aside. So if nominations are secured by the purchase of proxies or delegates, nobody is under the slightest obligation to vote for such candidates.

The reputations of men who use such means should be branded with disgrace, dishonor and infamy and be abhorred by all men. They poison the fountain of self-government by corrupting the motives of the voters by their unpatriotic and corrupt means. Since the late civil war in the sixtles it has been my habit at municipal or it has been my habit at municipal or other local elections, when I found the name of a candidate on my ticket who I was satisfied was unfit for the office, and a candidate on the other ticket who, I believed, was better suited for the office to the offic the office, to vote for the latter, and I expect to follow that habit as long as I shall continue to vote. I do not think there is enough independent voting.

C. S. ZANE.

### THE REPUBLICAN PLAT-FORM.

The Republicans of Salt Lake City, rejoicing in the progress, prosperity and pre-eminence of the United States and its people under Republican policies, believe that those policies, good cles, believe that those policies, good and eminent as they have been for the country at large, are quite as good for this city and its inhabitants. And, as the regeneration of the industries and business of the country was brought about by Republicanism, so the surest means of securing prosperity and growth at home is by the application of Republican principles in our local affairs.

The Republicans of this city emphatically endorse the course and commend the acts of Mayor Ezra Thompson. He has done his full part in striving for the upbuilding of the city. the energetic development of its natural resources and the addition of the needed reinforcement of its water supply. They recognize in him a stalwart Re-publican, a progressive citizen, a com-petent official and a man faithful to all his obligations.

The progressive Republicans of this city see a glorious future opening out before Salt Lake, a growth and progress which demand the fostering care and friendly aid of the only progressive party there is. They see the things that should be done and are prepared to do them. They know that seemes do them. They know that an increase of the city's water supply is imperative if we would have the growth for which we hope and which is plainly in view; that more streets must be paved, more that more streets must be paved, more general improvements made and a welcoming hand extended to investors and prospective settlers among us. They congratulate the people on the prospect of added railroad facilities, the new railroads being built and the added trackage and splendid new depots which the companies under their recent franchises have agreed to build. ranchises have agreed to build.
