

WOMAN SAVES OPERATOR'S LIFE.

Mrs. A. J. Barlow Stanches and
Binds His Wounds and Over
Wire Summons Help.

MAN WAS SHOT BY BANDIT.

Rifled Station Safe, but Was Finally
Overtaken and Placed Under Arrest.

St. Paul, May 16.—Reports received here at the Northern Pacific offices from division headquarters in the west tell how Mrs. A. J. Barlow, wife of a section foreman in the state of Washington, saved the life of a telegraph operator who was shot by a bandit, and then telegraphed the news to headquarters, resulting in the capture of the outlaw.

C. J. Ingraham, station agent at Snoqualmie, Wash., was about to lock up the station when a bandit thrust a heavy revolver through a pane of glass and shot him. He then entered and demanded the keys, but the agent refused to deliver them. The bandit shot him again and then rifled the safe and money drawers and escaped, leaving the agent bleeding and wounded.

Mrs. Barlow, wife of the section foreman, heard the shots and, although alone and unarmed, rushed from the section house to the station and, realizing that Ingraham must have medical aid, set down at the telegraph key and sent an account of the shooting to an adjacent station and to division headquarters.

She then carried the wounded man to a bench and, tearing her skirt into bandages, dressed his wounds. When help came she had stopped the flow of blood and rendered all the skill first aid could have accomplished. Ingraham was put under a surgeon's care and then sent to a hospital.

The man under arrest has been identified as one Bridges, and is on his way to jail at Seattle.

GUILTY OF CONSPIRACY.

Attys. T. A. Wood and Hosea Wood Convicted in Portland, Or.

Portland, Or., May 16.—After being out about an hour this evening, the grand jury in the United States District court brought in a verdict of guilty in the case of T. A. Wood and Hosea Wood, who were on trial for conspiracy to defraud the United States government of pensions.

The jury recommended clemency, and it is probable that the prisoners will be let off with fines.

T. A. Wood is an attorney in this city and for years was prominent in the agitation that preceded the pensioning of the soldiers of the First Oregon volunteers, who aided in suppressing the Indians in Oregon and Washington in an early day.

After the pension law had been passed Wood immediately commenced practice as a pension attorney, and through wide acquaintance with the old soldiers did an extensive business.

In some ways the government became suspicious of the genuineness of some of Wood's clients and started an investigation which revealed that Wood was uttering false affidavits when that was necessary to take an application for pension. Wood was arrested, brought to trial and today convicted of the charge.

Hosea Wood is the son of T. A. Wood and his partner, and aided his father in his illegal practices.

FRIGHTFULLY BURNED.

Father Accidentally Threw Boiling Pitch on His Child.

Tacoma, Wash., May 16.—David McIntyre, a little boy 6 years of age, son of F. D. McIntyre of Rosedale, about 12 miles from Tacoma, was frightfully burned yesterday by a can of boiling pitch which caught fire on the kitchen stove.

The father seized the can to throw it out of the door and the contents went over the boy, who was on the porch, burning him so badly he died while being taken to the hospital in Tacoma today.

To Keep the St. Lawrence Open.

Montreal, May 17.—It is announced that the Dominion government will have an ice breaker built in England this summer for the purpose of trying to keep the St. Lawrence open later during the fall and also to break up the ice earlier in the spring.

It is calculated that the shipping season at Montreal could be lengthened by at least a fortnight in the fall and that about the same time could be gained by breaking up the ice formation at Cape Rouge in the spring.

The cost of the vessel will be about \$300,000 and if the experiment proves successful another and larger boat will be built and stationed at Quebec in order to make the service more efficacious.

PRESENTED WITH A MACE.

Yale Department of Music Gives One to Prest. Hadley.

New Haven, Conn., May 17.—At the May meeting of the Yale university corporation just held here Prof. S. S. Sanford, of the department of music, presented the symbol of authority of the president and the fellows of the corporation. It is a silver covered with gold, weighs 24 pounds and is 47 inches long. The

CORTEL YOU MAY BE CHAIRMAN.

Secretary of Commerce May be Selected to Manage Republican Campaign.

HAD TO FIND THE RIGHT MAN.

President and Party Leaders Have Canvassed for Months to Discover Them.

Washington, May 16.—George B. Cortelyou, secretary of the department of commerce and labor, it seems very likely now, may be selected as chairman of the Republican national committee.

While in no sense endeavoring to anticipate the action of the Chicago convention or that of the national committee to be chosen at that convention, President Roosevelt and leaders of the Republican party generally have canvassed for months the subject of the national chairmanship.

From time to time the names of various prominent Republicans have been published in connection with the chairmanship, but the gossip about the matter had no firmer basis than conjecture.

To the late Senator Hanna the president had expressed the desire that Mr. Hanna might see his way clear again to assume the responsibility of national chairman. That expression met the approval of Republicans generally.

To no one else, however, has anything so nearly approximating a proffer of the chairmanship been made.

Several widely known and influential Republican leaders have been considered for the important position. Some time ago the name of Secy. Cortelyou was suggested.

It is known that Mr. Cortelyou sustains very close relations not only with the president, but also with party leaders throughout the country.

He is regarded as being admirably equipped for the position, possessing fine executive ability and a thorough knowledge of men and affairs.

For several years he has been intimately identified with political management, scarcely any man sustaining more confidential relations with President McKinley, Senator Hanna and President Roosevelt than he.

If he should be elected national chairman he would resign his position in the cabinet and devote his entire time to the work of the campaign.

In a measure this would involve a personal sacrifice. It is asserted with emphasis that no absolute decision yet has been reached, but prominent men in the councils of the Republican party have impressed on the president the desirability of Secy. Cortelyou's action.

It is reasonably certain that J. W. Blythe of Iowa will be prominently identified with the Republican campaign in the west, and it is likely that he may be chosen chairman of the national committee or a sub-chairman in charge of the western end of the campaign.

For a time he was urged by Senator Allison for the chairmanship, but it is probable he will occupy the position here indicated.

Cornelius N. Bliss of New York, for many years treasurer of the national committee, probably will again fill the position.

MAIL ROBBERY FAILED.

Three Men Attempted to Hold Up a U. S. Registered Mail Wagon.

Chicago, May 17.—Three highwaymen attempted to rob a United States registered mail wagon early today near the Chicago and Northwestern railroad station.

The Northwestern dispatch of a revolver frustrated their plans and they escaped after a street duel with the police.

It was this wagon that Marks Van Dine and Neidermeyer, the car burglars, planned to rob during their brief career as desperadoes. Their plans miscarried, however.

The police believe today's highwaymen were inspired to attempt the daring crime by the story of the men hanged on April 22.

The contents of the wagon were valued at several thousand dollars.

When the driver of the wagon, E. J. Graf, was driving past an alley just as the three men ran out into the street in front of him.

Two of the men tried to stop the horses by grabbing the bridle and the third undertook to climb on the seat. The one who was making the effort to get on the wagon fired a shot, which was apparently accidental, and the horses jumped.

Graf fled the whip at the same time and the team lunged ahead. Shots were fired after the wagon, but the driver would not stop.

Two policemen saw one of the men and fired at him. The highwayman returned the shots and ran, making good his escape. The other men slipped away during the revolver fight.

GEN. WOOD MOVING AGAINST MOROS.

With a Force of Four Hundred
And Fifty Men Will Avenge
Ambush of Americans.

A LONG HARD MARCH AHEAD.

Likely an Attempt Will be Made to
Stop Him When a Decisive En-
gagement Will Enue.

Washington, May 16.—The Moros who attacked the American troops on May 8 and killed two officers and a number of men may be severely punished by Maj.-Gen. Leonard Wood, who is marching on the band with a force of 450 officers and men.

Maj.-Gen. Wood, Alabamian, military secretary, today received a cablegram from Gen. Wade, commanding in the Philippines, in reply to a message asking particulars concerning the movement against the Moros in Mindanao.

Gen. Wade's message is as follows: "Maj.-Gen. Leonard Wood, with 450 officers and men, is enroute to recover the bodies of our killed. Two of the number who were previously reported killed, have come in. It is learned that four men who were reported killed are alive."

"There is no trouble outside of Ali's band. Pyang is friendly to the United States. Everything quiet in Cottabato valley; people planting crops and are anxious to have Ali's band taken, and are furnishing assistance freely and willingly. Ali's outfit is in the district east of Lake Liguasan, which is swampy and almost uninhabitable."

Gen. Wade's expedition is not to be expected for several days. It will take the command six days' hard marching to reach the place where the engagement of May 8 occurred.

Officially the expedition is not to be expected for several days. It will take the command six days' hard marching to reach the place where the engagement of May 8 occurred.

A Telephone Message.

CUPID'S PROMISE.

"Hello, Central! Give me No. 663 Main, please. Yes. Hello! Is this Miss Pindexter? Yes. This is the little god of love speaking to you. You knew my voice in a moment, didn't you? You think me a little darling for what I did for you? Yes. Well, you know L-O-V-E don't spell marriage. There is a slip twist the cup and the lip. You think I called you up just to quarrel? No. What I want you to do is to make yourself 'fit.' Let your uncle give you some advice. When a woman is nervous, irritable, almost hysterical, at times melting into tears or laughing at small provocation, she should brace up, get out of doors, breathe in good strength bearing oxygen, and in other ways put her body into physical condition so that she may be proud of her womanhood."

"The woman from maidenhood to womanhood is one that involves the whole body—it manifests itself in the voice and the nervous condition," says Dr. Pierce. "It should be natural and like gradually falling asleep. Owing to present modes of living, however, the nervous energy of young girls is forced to the necessary nutrition for tissues, blood and nerves is wanting, and consequently the young girl fades like a flower in some bad atmosphere. Tight lacing is another cause for this condition. The strain at this time upon the blood-forming structures may be too great. Disorders of the functions peculiarly feminine are nearly always dependent upon the defective nutrition. Hygienic measures are most important. Fresh air and sunshine are more than ever necessary—then I have found in all such cases that my 'Favorite Prescription' is the female system at this time."

Cupid has no place in a girl's heart if she is nervous and irritable, feels dragged down, worn out for no reason that she can think of. In such cases the body is not sound. The nervousness and other symptoms are telegraphed all over the body by the nervous system. The telegraphic system of the human body, because the weak spot demands attention. The weak back, dizzy spells and black circles about the eyes are only symptoms. Go to the source of the trouble and correct the irregularity. The drains on the womanly system and the other symptoms disappear. This can be done easily and intelligently.

The correctness of this advice is amply proven by the experience of many thousands of women—a large number of whom have written of their experiences. So sure it is the World's Dispensary Medical Association, the proprietors of Dr. Pierce's Favorite Prescription, that they offer a \$500 reward for women who cannot be cured of Leucorrhea, Female Weakness, Protrusion of the Uterus, the Womb. All they ask is a fair and reasonable trial of their means of cure. Their financial responsibility is well known to every newspaper publisher and druggist in the United States. This wonderful remedy therefore stands absolutely alone as the only one possessed of such remarkable curative properties as would warrant its makers in publishing such a marvelous offer as is above made in the utmost good faith. It is a medicine which has stood

THE TEST OF A THIRD OF A CENTURY, and numbers its cures by the thousands. It is a perfectly safe tonic in any condition of the system, being entirely vegetable and without alcohol.
