**WATCHES AND CLOCKS** repaired at low prices by C. Amussen, opposite Post Office. He is the best watchmaker in the land.

**LAMPS AND Lamp Goods** at panic prices at Reid & Kinsey's.

**IMPORTANT TO THE TRAVELING PUBLIC.**

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route.

The Chicago and North-Western, you will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal written application to W. H. Wilson, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago.

**WARRANTED DEEDS**—most approved form, Quit Claim Deeds, Mining Deeds, Townships, Deeds, Leases, Official Bonds, Incorporation Bonds, and other Blanks.

**ARRIVALS.**

TOWNSEND HOUSE, July 29.

J. Lomas, Ophir; J. F. Shaffer, Cottonwood; H. C. Lett, C. F. Stewart, Brownsville; Neb; J. B. Weston and son, Lincoln; Neb; B. F. Griffin, Bingham; William Alston, Farley; Geo. G. Harkins, J. W. Bingham; Geo. B. Atkinson, Rockham; A. Brupar, S. G. Morris, E. M. Faust, New York; J. S. Miller, Chicago; H. M. Tremble, E. G. Grover, Wyoming; S. J. Richardson, Rock Springs; Thos. Carson, F. M. Ellers, Detroit; Mich; John Freeman and wife, Miss Ella Freeman, Rochester, N. Y. and Mrs. Dunlap, J. E. Balger and wife, D. S. Louche, S. G. Brooks, New York; W. A. Wolf, C. C. Wolf, St. Louis; A. Marshall, England; T. M. Francis, Cambridge, England.

**CHEAPER THAN EVER!**

In order that we may be enabled to dispose of our stock of Summer Goods before the season is over, we have made a great reduction in prices. Parties desiring to purchase will consult their interest and save 25 per cent. by calling on

L. GOLDBERG & CO.

## PRICE OF GOLD.

Corrected daily by Denver National Bank. GOLD, \$100.00. SILVER, \$1.00. DOLLAR, \$1.00. SELLING AT \$1.12.

## EVENING NEWS.

Thursday, July 29, 1876.

## Local and Other Matters.

**THEMOMETER** 51 degrees F in the shade at 1 p.m. to-day. Fine.

**Mr. Marcus A. Wolf and Capt. George C. Wolf**, real estate agents of St. Louis, are also in town.

**Recovering**—We learn from A. Torney Theodore Burmaster, who arrived from Bingham yesterday, that his brother, constable W. Burmaster, is rapidly recovering from the effects of the pistol-shot wound lately inflicted by James McManis.

**Personal**—Mr. J. B. Maud, accompanied by his lady, and M. T. Mahan, are in the city, and are stopping at the Townsend House. Both gentlemen are connected with the wholesale boot and shoe firm of Appleton, Noyes & Co., of St. Louis, and will remain in town a day or two.

**The Storm**—That was considerable of a storm last evening, the rain coming down in something like a torrent, the lightning vivid and frequent, and the wind strong, especially loud. The spell was of but short duration, however, and has had the effect of clearing, purifying and cooling the atmosphere, washing and refreshing vegetation, and soaking the dry soil to the depth of an inch and a half or thereabouts.

**Wounds from Rusty Nails**—The following remedy is said to be infallible for wounds caused by running a rusty nail in the foot, hand, or any part of the flesh, of any similar injuries which not infrequently produce lockjaw. It is simply to immerse the wound, or any wound or bruise that is inflamed, with burning wool or woolen cloth. Twenty minutes in the smoke of wool will quiet the severest pain and allay inflammation. The application should be repeated in severe cases.

**Struck by Lightning**—Shortly after 7 o'clock last evening, while the storm was at its height, a hired girl at the residence of Mr. Webb, 9th Ward, was struck by lightning. At the time of the occurrence she was at work in the back kitchen. She was rendered insensible for a time, and subsequently her mind appeared to be affected, and she had to be forcibly held by those who waited upon her, to keep her still, until about 1 o'clock this morning, when she appeared to take a change for the better, and has been improving ever since, being now able to sit up. She is about fourteen years of age and her name is Maria Christensen.

**A Sudden Stop**—About noon to-day a fellow whose head was muddled or inflamed with copious libations of intoxicating liquid was careering around upon a horse, swearing and cutting up generally.

Near the south gate of the Temple Block the horse gave a sudden jerk, and the rider flew off and was waded around in the dust. By means of a rope attached to the bridle, one of which was twisted around his hand, he prevented the horse from running off, but it snaked him over the ground in an interesting manner from one side of the street to the other. After a while the fellow regained his feet, but appeared considerably damaged, having an ugly gash in the forehead and one of his hands was badly lacerated. He finally mounted and rode away down East Temple Street.

**A Sad Catastrophe**—Last evening Joshua Harker, about eighteen years of age, was riding on horseback, on the State Road, on his way from this City to Bishop Sharp's farm. When about a couple of miles south of the City himself and horse were struck by lightning and instantaneously killed.

Willard Snow, who was in a wagon, a short distance from the deceased, received a shock by the same electric current, and on recovering he saw the young man Harker and his horse lying upon the road dead. The clothes of the deceased were on fire when he reached the body and the ground in the immediate vicinity was considerably torn out.

Mr. Snow placed the body of the young man in his wagon and conveyed it to this City. An inquest was held over it by Constable Taylor and a jury, the verdict being in accordance with the details already stated.

The deceased was the son of Brother Harker, of West Jordan, a well known and respected citizen, to whom word was immediately dispatched about the lamentable occurrence. The bereaved family have the sympathy of many friends in their time of affliction.

The funeral services of the young man who was thus suddenly called hence to another sphere of action, were held at the 11th ward School-house, at two o'clock this afternoon.

**Sovier County**—Yesterday afternoon Elder Joseph A. Young arrived in this City from his southern home in Sovier county, on a brief visit. From him we obtained some information relative to the organization, history and mode of operation of the United Order in that part of the Territory.

A year ago last April eight settlements of the Order were organized into that system, and about two-thirds of the people have since been steadily working in it. The qualification for membership is not that of the individual, but that of standing in the Church and general good conduct, and no one is admitted except those who put all its requirements into practice.

**THE CAPITAL OF THE TERRITORY**—In the admission of persons to membership in the United Order, the question of their capacity to render valuable service to the Association is not considered, the theory and practice of the Order being that the weak are recognized and carried out, that the whole community may rise together.

In Richfield, the leading settlement, 13 families work in the Order, the capital of the organization is under the control of the board of directors, who are elected by the members, each person having credit according to the amount of property or means that he has placed therein.

Most kinds of work is done by contract, based on cash prices, and the surplus credits according to a man's labor, over what he draws for the sustenance of himself and family, are placed to his credit on capital stock. Occasionally, when a member wants a house built, and has not quite enough credit or stock to pay for it, the Order builds it for him, and in course of a short time his credits increase and he pays for it, thus making the system one of the best mutual benefit associations in existence.

Besides the general stock concern the people have stewardships, which are separate, and which include the homes, city lots, pigs, chickens, cows, etc., which by industry and tact, they put to good use in procuring extras with their produce, the substantial being furnished from the main source of supply.

The Order in Richfield now owns a grist mill, which cost between \$10,000 and \$11,000, and also a steam saw, bath and shingle mill, at which about thirty men are employed. The horse herd of the association includes about 200 head of animals, the cattle herd 800, and the sheep herd 1,700, and a tannery belonging to the county.

About half a dozen shoemakers are at work in the Order, and carry on the business and tenders to the number of about twenty, besides forty-five that are farming some thing over 1,100 acres of land, and a few men are at work making furniture, besides other branches of business that are in operation.

A few of the older men stay around home and attend to the heavier labors in that department, such as wood hauling, attending to water rights, plowing, etc., so that everybody has something to do.

Some difficulty was met with the first year, but the organization and its operations being based upon benign gospel principles and a well defined business system, obstacles are fast disappearing, and a feeling of brotherly kindness is increasing.

Brother Joseph A. has the confidence of the people, a fact we have heard testified to time and time again from various persons from that part of the Territory. He has endeavored to show the people an example by laboring for their welfare, and casting in his all with them, and the consequence is that a foundation is being laid for a new era of peace, happiness and wealth.

**The Lee Trial**—The following was reported yesterday evening from our special reporter:

Reaver, July 28th.

Isaac Riddle was living in Pine Valley, twenty-two miles from the meadow, in September, 1875, when the emigrants came to the mill, while the emigrants were camped in the meadow, saw Haight in Cedar, who told him there was a fellow with the Indians and he had better go back; left his wife, mounted a horse and rode home, and the rest of the way with the man from Cedar going to the rescue of the messengers.

William Roberts heard W. H. D. the preacher at Farson, and told the people not to furnish the emigrants provisions; had a conversation with Lee, who took witness for another man of the same name, who had been talking about murdering the prophets, or some of them had.

The prosecution announced that they would rest, Hoge, for the defense, moving a continuance of the trial until the morning. The prosecution made no objection, reserving the right to introduce one or two witnesses that were expected to fight.

Satterfield produced a telegraph to show that the physician of R. Young and G. A. Smith, declaring that they were too feeble to travel, and offering to pay the telegraph to engage counsel for government at Salt Lake, and their fees, at that disposition might be taken. The court refused on the same ground as before.

The search of Lee's cell to-day by the marshal discovered a knife, saw, a butcher knife, hatchet, twenty feet of rope, and a complete outfit for escape.

The finding of the implements of escape in Lee's cell will doubtless result rather roughly for the old man. He has heretofore been charged very mildly by the officers in charge, but his attempt to take advantage of their kindness will work to his personal discomfort.

The marshal is determined to hold the prisoner and will observe every precaution to prevent his escape. After the discovery of the tools in his cell the marshal gave orders that no one be admitted to the prisoner. This evening Emma, one of Lee's wives, appeared at the jail and demanded admission, to her husband. The cell, but the marshal, refused to allow her to enter, when she savagely bit him with a neck. Complaint has been made to the marshal, and to-day he will occupy a neighboring cell to that of her husband. Lee has been heavily ironed.

**The Latest from Beaver**—The following was received this afternoon:

Editor News:

Spent occupied at the morning addressing the jury for the defense and has not yet concluded. He stated the theory of the defense to be that the emigrants had been captured at Corn Creek, and that the Indians that they sent around other tribes till at the Meadows, they numbered four or five hundred; that the whites did not supply to the emigrants and treated them well; that Lee held a military or church office, and that he was a farmer; that he was on the ground, he tried to protect the emigrants, and went when the massacre was proposed. That Lee and Wm. Bateman
