In his last speech to an Illinois audience he frankly acknowledged that he was h sinner; that he drank too much whisky; that he deserved to be whisky; that he deserved to be pretty badly criticised; but, on the other hand, he proudly declared that he had never been bribed; that he had never taken Credit Mobiller stock; that he had never put his hand into the grab bag; that he never had committed perjury; and that, though he had sinned much against himself, he had never sinned against his country.

been started in London which will undoubtedly attract very general attention. A building has been erected behind St. Mark's church, at a cost of \$30,000, which is to be used partly for church purposes and partly as a workmen's club. The idea of the vicar of the church which has been instrumental in erecting the building is, that a social club, independent in its management, ought to exist in every parish as an adjunct to the church and missionary labor. One of the first movements of the club was to supply its members with beer, because it was found that the members could not be retained without it. There is no bar in the house, and the drink is not obtrusively displayed, but it is always there for those who want it. This is the boldest innovation yet made, and it will undoubtedly arouse a storm from conservative church-men.

St. George, 19.—Ind.an agent Ingalls is expected here in a few days on his way to the Muddy, several wagon loads of goods having passed through, which will be distributed to the Indians. It is understood that the Muddy Valley will be made a reservation for the Indians of this country.
