FORTY-SEVENTH CONGRESS.

HOUSE.

WASHINGTON, 2. — Immediately after the reading of the journal, the House opened in consideration of the Alabama contested election case, Lowe vs. Wheeler.

Mills, (Texas), spoke in advocacy of the right of a sitting member to retain his seat. He was followed by Jones, (Texas), in favor of contestant.

Atherton, (Ohio), used an hour reading the report of the minority only, calling attention to the fact that but three Republicans were paying the slightest attention, and criticised such inattention on the part of the judges who were to decide the case. It has been charged that there was an agreement between certain gentlemen on the other side alluding to the Greenbackers and the Republican party.

Jones—I pronounce the charge to be false.

Atherton — "Very well; I will show you that the Republican party itself charges it." He then quoted from the Washington *Republican* to the affect that the Greenbackers had been steadfast and true to the Republicans in the recent election case, and the latter were bound in honor to see justice done Lowe.

Several republicans—"That is it: justice."

Atherton replied that it would soon be found what justice meant in the republican ranks. There were now 26 republicans in the chambhr, but when the matter came to a vote 150 would come without knowing anything about the case, and raise the ax and take the heads off the sitting members.

Horr entered into an ironical eulogy upon the great intellectual energy and statesmanship shown by the democrats during the recent filibustering movements. He characterizing Randall as the Napoleon of the contest, Blackburn as its Marshal Nye, and Springer as Joan of Arc [laughter], and he ridiculed the courageous manner in which they came up to make motions to adjourn over. The last named gentleman had not entered into the contest until after Waterloo, and when Napoleon was on his way to St. Helena.

Pending further discussion, Cannon, of Illinois, reported from the committee on appropriations, the legislative, judicial and executive appropriation bill (items of which have already been published), and it was referred to the committee of the whole.

Hiscock, from the same committee, reported back the general deficiency bill and it received similar reference.

The election case then went over till to-morrow, when the previous question will be called earley in the session. Adjourned.

AMERICAN.

The Knownothings.

WASHINGTON, 2.—Mr. Atherton, before the Windom committee this morning, said that only two persons had approached him on the whisky bill, both lawyers. One offered his services, and the other asked if they were going to employ any one. Neither claimed he could influence congressmen.

Col. Wharton, of Louisville, only knew of $75 spent by the distillers and that was for printing. He refused to employ lawyers because he did not think they were needed, and thought there was plain sailing. No journalist or correspondent ever approached him except to get news, and had never heard of any threats by any of them. I never presented a case in court with cleaner hands than this one.

Deficiency Bill.

The general deficiency bill appropriates nearly $9,000,000.

The following are some of the items:

For army transportation $900,000.

For payment of army transportation lawfully due such land grant railroads as have not received aid in government bonds, $125,000.

For railroad mail transportation, $100,000.

For interest due the Osage Indians, $189,000.

For the Navy Department, 397,000.

To pay the Creek Indians for land now occupied by the Seminole Indians, $175,000.

To pay indebtedness incurred for Indian service during 1881 and prior years, $262,000.

Manufactures.

The census shows that in 1880 Chicago manufacturing product was worth $241,000,000, and Cincinnati was $98,869,000, St. Louis only $104,333,000, San Francisco $75,613,000, Boston $123,366,000, Pittsburg $84,241,000, New York $448,369,000, and Philadelphia $304,591,000 worth.

The Decision.

Reed, Guiteau's counsel, presented a petition to the District Supreme Court asking a rehearing on purely technical grounds. Judge Carter says the decision will be rendered as soon as the judges can consult, probably to-morrow.

Decrease of Debt.

The public debt reduction for eleven months is about $140,000,000, and will be for the year over $150,000. At this rate the debt will be paid off in ten years. The reduction for May is fifty per cent more than for May last year.

Reduction of Postage, Etc.

The Sunday delivery in the letter-carrier cities and reduction of letter postage to one cent. was advocated to-day before Postmaster-General Howe by Representative Robinson, of New York. The Postmaster-General promised to give both matters his immediate attention.

Independents Increasing.

Pennsylvania reports say the Independent ticket is growing stronger than ever its friends anticipated. The republicans intend to keep up the fight on contested election cases as long as there is any material left.

Wages

The investigation of the rate of wages for farm labor made by the Statistician Department of Agriculture shows an increase of 24 per cent. since 1879. In eastern States from 75 to 79 decline was heaviest in manufacturing sections where artisans were thrown out of employment. The advance since 1879 has been 14 per cent. in Western States and 13 in Southern.

Refused Rites.

DENVER, 2.—Father Raverty, Vicar General to the Bishop of this section, to-day refused to allow the rites of the Catholic church to be administered over the remains of the late Don Miguel Ottaro, a millionaire and one of the foremost men of New Mexico. The reason alleged is that Ottero died a Mason. A member of the Masonic order, assisted by an Episcopal clergyman, conducted the burial services.

The Strikers.

NEW YORK, 2.—Eight hundred boiler makers have returned to work, the employers giving increased wages.

Wheeling, W. Va., 2.—All the nail mills of this city shut down today and expect to remain closed for an indefinite period. There appears to be no disposition whatever on the part of the manufacturers to start them until the situation is radically changed.

Chicago, 2.—There is little change in the situation in the strike this evening. The police have made several more arrests of persons supposed to have been concerned in the riot at Brighton last night, but the evidence is not conclusive.

Grocerymen of Irondale have posted notices that the strikers will be expected to settle present accounts before receiving further credit. At an indignation meeting of strikers held this afternoon, it was resolved to "Boycott" the grocerymen whom they considered in the "No credit" movement.

Wellsville, Ohio, 2.—The puddlers in Woods' rolling mill struck yesterday because the proprietors refused to sign the scale. A number of them afterwards relented and wished to return to work, but were not allowed to do so.

Cleveland, 2.—Two hundred men are out at the Briton Iron & Steel Works in addition to those out before.

Wool.

BOSTON, 2.—Wool is quiet and business during the past week has been the smallest made for some six months. Prices remain unchanged California wool has been quiet, nothing of any consequence has been done in new spring, of which there is now a good assortment. Pulled wool have been in moderate demand, at 30 @ 47 for common and choice supers, and 40 @ 47 for good and choice. X Australian has been selling at 42½ @ 45, and Montevedlo, 36. Carpet wools continue quiet.

Beef.

CHICAGO, 2.—At the stock yards to-day an extra lot of fine cattle were sold at $9.30 per 100 pounds.

Blooded Cattle.

HARRISTOWN, Ills., 2.—The blooded cattle sale of Pinknell, Thomas & Smith, yesterday, resulted in an aggregate of $16,830 for 69 animals, an average of $244. Some of the Rose Sharon breed sold for $600, and Constance the IX for $1,000.

Charles F. Adams, Jr.

NEW YORK, 2.—At a meeting of the trunk line presidents yesterday, it was agreed to select Charles Francis Adams, Jr., of Mass., permanent arbitrator for the trunk lines Commissioner Fink was instructed to tender him the position. It has not been accepted, but little doubt of his acceptance is entertained. It is also believed that Adams will be chosen by the western roads as permanent arbitrator.

Infant Mortality.

Inquiry into the many deaths of children in the unsectarian home, shows the little ones dirty and covered with virmine, and the meat is not always fresh. One child that had passed one night in the home was in a horrible condition.

Road Stopped.

GALVESTON, 2.—The work of construction on the New York, Texas & Mexican road is to be abandoned when it reaches Victoria, which will be about the 17th of June. The reason given is the inability of the State to give satisfactory land grants.

Hanged.

CARROLLTON, Georgia, 2.—James E. Harvey was hanged here this afternoon for murder. The gallows was erected in a field, and the execution was witnessed by 1,000 persons.

William L. More, who was to have been hanged at the same time and place, attempted suicide this morning by taking morphine, and will die from its effect.

Memphis, Tenn., 2.—Sandy Matthews, (colored), who murdered Isaac Polk, (colored), 12 miles from here, last October, was hanged in the jail yard at 1 o'clock this afternoon. Fully 6,000 people, mostly colored, were present. He made a penitent speech. His neck was broken by the fall.

"The Lottery of Assassination."

PHILADELPHIA, 2.—George W. Merrick, independent republican candidate for the Secretary of Internal Affairs, has resigned as postmaster. In a scorching letter he says: "While I hold my commission from President Hayes, of the civil service order, I feel my part in the convention would probably meet your approval, being in conformity with the views contained in a recent letter by Hon. Frank Hatton, First Assistant Postmaster General, to the postmaster of Cincinnati. The objects of that convention meet my earnest approval, and I conceive no good reason; as far as they relate to the State of Pennsylvania, why they should not meet the approval of the department. In its broader aspect, however, I can readily see how it might incur the disappsoval of the department. In the platform we denounce the system which makes patronage and spoils rule, which, when tamely endorsed, makes leaders into autocrats, and reduces the mass of citizens to political bondage. We demand, instead of the insolence, proscription and tyranny of 'bossism,' the free and conscientious exercise of private judgment in political affairs. We declare our purpose to take up the work which fell when Garfield fell, and deplore the overwhelming evidence presented us in Pennsylvania, that the calamity of his assassination has been followed by the overthrow of these reforms by the hand of his successor. When one of the two seats of Pennsylvania in the United States Senate represents nothing but bull, autocratic personalism, instead of the people of the State, and a great State is nothing itself but an imperial satrapy, handed down from father to son—is it not time for the people to ask why they shall not be represented by two United States Senators? Has the Chicago conspiracy drawn a prize in the lottery of assassination, by which its accidental power is to be solidified? The rule understood to be adopted by Hon. Frank Hatton in the Postoffice Department is to weed out the "half breeds."

If this is the dead sea fruit to which we are invited, as a result of the lamented Garfield's death, should it surprise us if the blood of the slain cry aloud from the earth? The revolution against these evils is but initial in Pennsylvania, and like conditions will produce like results through many States. The people will not take up arms; there is a better way. But if the evils of misgovernment thus go on, there will be such a sowing of dragons, teeth that even the political sagacity of an Administration may be surprised at the crop that will spring up. Politics must have a foundation but, political society is a fluid, not solid and any particle may become the centre of a new movement."

Faster.

OMAHA, 2.—The recent opening up of the Omaha & Denver short line by the Union Pacific has caused the Atchison, Topeka & Santa Fe to reduce its time from Kansas City to Denver, to 26 hours, and now the Union Pocific proposes beginning on next Sunday to run trains over the Kansas Pacific from Kansas City to Denver in 22 hours and 45 minutes and to Cheyenne to connect with the California train from Omaha in 27 hours, thus making the same time to San Francisco from Kansas City as from Omaha, 15 hours ahead of the other routes. The Missouri Pacific was completed between Omaha and Atchison yesterday, and through freight trains began running to-day. Passenger trains and mail service will be put on July 1st, between Omaha and St. Louis.

Fire.

QUEBEC, 2.—The Grand Trunk railway station and sheds, and the Dominion, Ontario and Quebec immigration sheds and offices at South Quebec, were burned to-night. Several cars were burned. Benoit's Hotel, adjoining the station, was gutted. Loss variously estimated at from $100,000 to $200,000, according to the value of freight in the shed. Nothing can be ascertained about the insurance, as that is arranged in Montreal.

Indian Slaughter.

SANTA FE, 2.—A Chihuahua dispatch states that General Fuero, commander of the Mexican troops in Chihuahua, with 400 Mexican cavalry surprised and attacked a band of renegade Apaches early this morning, near Bosque de Santiago, and whipped them unmercifully. Thirty-seven bucks were killed and ten taken prisoners. The entire camp outfit, including fifty head of stock, were captured. The Mexican loss was one officer and a few men. The losses sustained in previous fights with United States volunteers and Mexican troops leaves the hostiles badly demoralized.

BRIEF TELEGRAMS.

Col. Bliss opened before the jury in the Star route cases yesterday morning.

The Spanish cabinet inclines to enforce the law of 1870, which enacted the emancipation of all negroes not duly included in the census of that year. This would liberate 70,000 blacks illegally kept in slavery in Cuba.

There is talk of Conkling for Secretary of the Treasury, in case Mr. Folger is nominated for Governor of New York, which now seems probable.

At Paces, Kansas, there was a tremendous hailstorm last evening. Hail fell so large and rapidly as to make a noise like the rattle of musketry. Great damage must have been done to the growing crops of the county.
