Fix It .- A short time ago the spill from the city canal at which the watering tanks are filled, was removed, for convenience, to near the corner of Third East and First South Streets. The crossing of the heavy carts and the waste water have made the crossing of the street at that point very unpleasant for pedestrians, and the residents of the neighborhood want the evil remedied.

Accident .- A few days ago, while Wm. Rhodes, of Mill Creek, was operating his mowing machine, his horses became frightened and ran away. Mr. Rhodes, who was between the animals and the machine, was caught by the guard on the cutter, the steel entering his heel, and dragging him some distance; the cord at the back of his heel, after being drawn out about a foot. broke and released the unfortunate man
