

Fourteenth—Nomination of members.
Fifteenth—Nomination of treasurer.
Sixteenth—Nomination of recorder.
Seventeenth—Nomination of surveyor.
Eighteenth—Report of committee on resolutions.
Nineteenth—Miscellaneous business.

WEWAHITAH—Admission.
A further resolution that all meetings and adjournments shall be limited to three minutes. All discussions shall be by ballot, and a majority of all who vote shall decide the question. Votes shall be taken by election districts and the chairman of each district shall announce the vote to the convention. Adopted unanimously.

PROGRESS PLAIN ADOPTED.

Chambers Davis made another brief and brilliant speech on accepting the duties of permanent chairman, after which Mr. James H. Morris, in behalf of himself, W. M. Davis and Albert Spencer, Democrats, came forward and endorsed the resolution. The resolution was adopted.

A protest motion was taken at this point to allow the convention to name delegates to the State and national conventions. At the same time, a resolution was introduced to nominate a committee to confer with the Populist committee they had decided to recommend to the convention that the latter party to give one State senator, two members of the house and one representative to the national convention. The report was adopted with possibly half a dozen dissenting voices.

STATE AND NATIONAL DELEGATES.

A protest motion was taken at this point to allow the convention to name delegates to the State and national conventions. At the same time, a resolution was introduced to nominate a committee to confer with the Populist committee they had decided to recommend to the convention that the latter party to give one State senator, two members of the house and one representative to the national convention. The report was adopted with possibly half a dozen dissenting voices.

GRANITON NOMINATION.

The next order of business was that of nominating a national convention. Judge John W. Burton arose and named E. W. Wilson. Other nominations were in progress at press time.

THE POPULIST CONVENTION.

A Plan of Action Agreed Upon With the Democrats.

The Populist county convention met at the G. A. Hall this afternoon, for the purpose of hearing a report from the committee on fusion with the Democrats, and the nomination of one State senator, two members of the lower house, and one county commissioner.

The convention was called in order at 2:30 by Chairman Thompson of the county committee. A committee on order of business and permanent organization was appointed, and H. D. Merrill was elected permanent chairman, and L. H. Tracy secretary.

The discussion on fusion opened with H. W. Lawrence, L. H. Tracy and W. A. Davis, representing the Populists, and James H. Morris, W. M. Davis and Albert Spencer representing the Democrats, reported their findings. The report was adopted upon, which was that the Populists should have one county commissionership, one senator and two representatives.

H. A. Harter and R. A. Hammons were given nomination and their names were before the convention at press time.

A FAKE BUDGET.

Frank Kunkel, said to be a contractor and builder, was brought to the police station last night at 10 o'clock, in state, and in badly bruised condition. He was found on the corner of Fifth and Third West streets. He was reported to have been beaten, but the police say the man had been drinking heavily and had double vision. He was taken to the hospital, and scarcely anything remarkable or where he previously stood.

THE WIND AT PLAY.

A Storm Unparalleled in This State in Power of Devastation.

ORDERS CITY A HEAVY LOSER.

The Great Building Society Received by Fred Douglass on the Wind-Damaged Day.

The minnows which swept over this city and vicinity on Friday evening and during a good part of today, was something which the people residing in these parts, have not experienced for a season of peace, if at all. Now that the winds have ceased without a gale in these certain respects, it is evident of course that it is now over.

The extent of the power of the storm of Ogden canyon was seen in the fact that the large mesquite trees were carried away and other smaller trees were broken.

At the time of the storm of G.

Atkins' house on Thirty-first and Adams was in and a large quantity of brick and mortar fell upon a few feet in width, while others were scattered about a few feet. All the street cars stopped running about 7 o'clock last night and did not resume until this morning.

Very much destruction

has occurred in the city and

much fruit has been blown off

the trees, many of which have been blown down. The damage is estimated at several thousand dollars.

In the city there is a

considerable amount of debris

and the streets are

filled with broken glass and

other articles which have been blown up by the violence of the wind.

A gentleman who resides in the northeastern part of the city states that while on his way to work this morning he counted 37 trees which had been uprooted and were lying on the ground. In addition to these, he stated that considerable damage had been done by the falling timber.

More than this, quite number were blown partly over, and there was considerable damage to houses, which were not well constructed, which were broken up by the violence of the wind.

Another observer J. H. Smith said that while on his way to the second floor of his home, the wind was so strong that he could not move.

He states that at six o'clock last night the temperature was 25 miles per hour, after which it increased to 40 miles per hour.

He observed a maximum wind velocity of 40 miles per hour at 10:30 this morning.

The next record was Whiteman, who observed the wind at 40 miles per hour.

J. H. Smith of Ogden says that

the wind has played havoc with

things, uprooting trees, scattering

rocks and stone, breaking down

and demolishing almost every

house by the falling timber.

More than this, quite number were

blown partly over, and there was

considerable damage to houses,

which were not well constructed,

which were broken up by the violence of the wind.
