

material change. Altogether his general condition exhibits some improvement over yesterday. Pulse 92, temperature 99.6, respiration 18. Signed: Bliss, Barnes, Woodward, Reyburn, Hamilton.

10 p.m.—Blaine to Lowell: It is the judgment of the surgeons that the President has gained to-day. The change is not great, but it is in the right direction and against the adverse influence of a very oppressive day. His appetite is improving and his pulse, temperature and respiration have all been better than might have been expected in such excessive heat. The President will probably be removed to Long Branch early next week to escape the malarious influence of Washington climate at this season.

Executive Mansion, 12.30 p.m.—The President's condition has not materially changed since the morning bulletin was issued. Pulse 100, temperature 99.4, respiration 17.

Signed: Bliss, Barnes, Woodward, Reyburn, Hamilton.

Dr. Boynton says he understands it is decided to move the President before Wednesday. There is a proposition to lay a track from Washington Monument to the Executive Mansion, connecting with the Pennsylvania Railroad Company. He said the details are not arranged.

SAN FRANCISCO, 3.—A dispatch from General McDowell's headquarters at the Presidio, says a dispatch from General Wilcox, received last night, says he has received news by an Indian runner that Carr's command, including himself, six other officers and sixty-four enlisted men, were killed on the 31st, and that Pedro's men had killed seven or eight men, including the expressman, between Apache and Thomas. A dispatch received from General Wilcox this morning says he has received news that few escaped from Carr's disaster at Cibien Creek, which was forty miles west of Apache. Those who escaped are fighting their way to Fort Apache, but it is doubtful if they get in. Pedro's band attacked Fort Apache, but the Department Commander thinks he must have been repulsed, and now holds the canyon through which the road from Thomas to Apache passes.

(Signed) KELTON, A. A. G.

The following is just received from headquarters, Presidio: Mickey Free, an Indian who was the fight and came direct to San Francisco, says, a medicine man was arrested by a lieutenant, supposed to be Cruse. The medicine man's brother said: You shall not arrest my brother, and killed Cruse. The troops then killed the medicine man. The enlisted scouts, close to the troops, then poured their fire into them, killing most of the officers and a great many men. Then the massacre took place. A few soldiers got away, holding together and trying to fight their way back to Apache, but it is supposed they must all have been killed, from the number stated by Indians.

Three companies of the First Cavalry, Major Sanford commanding, and six companies of the Eighth Infantry, Lieut. Col. Wilkins commanding, leave the Department of California immediately for the Department of Arizona.

(Signed) KELTON, A. A. G.

There is great activity in military circles to-day, in preparation for their departure for Arizona. It is understood three companies of the Eighth Infantry at Angel Island, three companies of the Fourth Artillery at Presidio, two companies of the Eighth Infantry at Benicia, three companies at Fort Point, and Hasbrouck's battery, as cavalry, will be ordered at once to the front. In fact some of the companies are already under marching orders.

Washington, 3.—The following was received at the War Department this morning, from General McDowell:

The following was received from the Commanding General of the Department of Arizona, dated Prescott, Sept. 3: Tiffany telegraphs a report from the sub agency that one Indian named Mickey brought word that a number of chiefs are coming on with their bands, but that Pedro with all his hands and others are on the war path; that Carr's command, including himself, six other officers, and 64 enlisted men were killed day before yesterday; also that Pedro's men had killed seven or eight men, including an expressman, between Apache and Thomas.

San Francisco, 3.—The Tucson Star has just received the following:

Fort Grant, 2.—All day Indian runners have been coming into San

Carlos agency with reports of a fight with Gen. Carr, at Cibien Creek, in which they say there were seven officers and about 100 men killed. They also report an expressman and seven whites killed on their way from Thomas to Apache on the 31st. The White Mountain Apaches are the only Indians known who have been concerned in this outbreak, and they number about 400 braves, but others may have been drawn into their forces. If these reports are confirmed this will be a serious affair for the Territory, as well as the military force. The killed are probably Gen. Carr, Lieut. Carter, Dr. McCreary, Lieut. Stanton, Lieut. Cruz, Captain commanding the 6th Cavalry, and a son of Gen. Carr, who has just graduated from an eastern college. Troops are being hastened forward, and by to-morrow it is believed couriers will arrive with particulars.

General Wilcox is moving soldiers toward the Indians from all points that his limited force can cover.

Later.—The following is given as the latest from official sources:

Thomas, 2.—Lieutenant Haskell, A. D. C., Fort Grant: No courier from Apache, but rumors through Indians that Carr's command were all killed. His Indian scouts company commenced the attack upon the troops and the other Indians finished them. The rumors say Pedro's band attacked Fort Apache and have been repulsed, and that it was Pedro's band who killed eight men near the post.

A later report from Thomas says: Mills' Indian scouts, who were with Carr's command, turned and made the first attack on our troops. After the fight, part of the Indians hastened to Fort Apache and took the fort. It is thought some escaped, but it is not certain. Several officers' wives, including General Carr's wife were at the Fort.

NEW YORK, 3.—The anniversary of the admission of California into the Union will be celebrated by the Association of Pioneers of California by a dinner at the Oriental Hotel, Manhattan Beach, September 9. Among the old Californians who will be of the company, are Gen. Rufus Ingalls, Gen. H. T. Gibson, Gen. F. Daniel Darr and Ex-Governor R. M. Price.

NEW HAVEN, Conn., 3.—A verdict of the jury of inquest in the Cramer case was that Jenny Cramer came to her death by poison and violence, and that James Malley is criminally responsible. The body is in a normal condition, but there was considerable congestion of the membranes of the brain.

WASHINGTON, 11 p.m., 3.—The President is sleeping quietly and naturally, having dropped off into a doze while Dr. Bliss was sponging him off for the evening with alcohol. This natural sleep, which the doctors look upon as a very favorable sign, occurs after a favorable day, in course of which no new complications have arisen and during which there has been a marked improvement in all respects. Agnew, who has not seen the President for two days went into the sick room before the morning dressing, at the request of Bliss and on coming out, after making the examination, said the change for the better since his last visit, was strongly marked. The improvement continued throughout the day, and at 11 o'clock Dr. Bliss told a press reporter that everything looked favorable. Speaking of the wound he said it showed signs of healing, while not doing quite as well as before the last relapse still the process of repair had been resumed. Granulation is going on. The parotid swelling though it had not yet progressed far enough to relieve the physicians from uneasiness, was doing well. A small portion of the abscess had sloughed off to-day, and he had removed it with a knife. The portion removed was simply dead cellular tissue, answering to what in a ball wound would be the core. Swelling was diminishing. The President on his recovery would not be disfigured despite the statements to the contrary. The small boil that had made its appearance on the President's shoulder, he deemed hardly of sufficient importance to be noticed; for it, and to prevent sores, a dressing of picked okum had been laid under the President. With regard to removal, Bliss said that after the trip to Long Branch had been decided upon by the unanimous voice of the surgeons at their consultation, this morning, the President was talked with on the subject and he was satisfied to go to Long Branch, though only as a stage in his journey to Mentor. Of his household he desired that Secretary

Brown, Generals Swain and Rockwell should accompany him.

WASHINGTON, 4, midnight.—The Vice-President of the Pennsylvania Railroad arrived to-day to superintend the preparation for the removal. At Long Branch the President will be lodged at one of the Elberon cottages, and the physicians have stipulated that before the removal is made, that a track must be laid from the depot in Long Branch to the door of the cottage. They do not wish to take any risks; there might be inclement weather on the arrival there, during which it would be impossible to move the President out of the depot, and the doctors will not risk it. The run there it is expected will be made in about six hours. The railroad people believe that making the time 40 miles an hour will make the easiest riding. A pilot engine will lead the train and stop all moving trains, so as to guard against noise. All appearances to night indicate that the removal will probably be made at dawn on Monday morning, if the weather should be favorable. The President himself thinks he is in a condition to stand the trip, and so do his physicians. At midnight the President's sleep continues, and his pulse is down to 100.

Executive Mansion, 4.

Blaine to Lowell:

Last night the President did not rest well, and twice during the night his stomach was so disturbed that he vomited. During the day he has been better, and has swallowed the usual quantity of food and retained it. His pulse, however, has been higher than for the two preceding days. His surgeons do not think he has lost ground, but he certainly has not gained since last night's dispatch. At this hour, 10.30, he is quietly sleeping.

EXECUTIVE MANSION, 5, 7 a.m.—Dr. Bliss says the President passed a comfortable night, sleeping most of the time after midnight; his pulse this morning at 5 a.m. was 106.

Executive Mansion, 5, 12.30 p.m.—The President's condition has not changed materially since the last bulletin was issued except that there is some increase in the frequency of the pulse. He has taken with some relish nourishment administered by mouth and has no gastric irritation. Pulse 114, temperature 99.4, respiration 18.

Signed by attending surgeons.

NEW YORK, 5.—A private dispatch from Washington from an unusually well informed source says: The inflamed gland on the President's neck is threatening to slough off in which case the removal will be delayed.

SAN FRANCISCO, 4.—A Tucson dispatch, on foot, to Thomas, says: Major McLellan, with 60 enlisted men of the sixth cavalry, left Lowell for Thomas and goes via Old Fort Grant to observe the movements of the Indians on the Lower San Pedro. If half the reports are true, there is fear of a general uprising of the Apache nation, which means a war of extermination. Up to this hour (8 p.m.) nothing further is learned in confirmation or otherwise from the scenes of the massacre; all of the women and children are being moved from Thomas to Grant. The fifth cavalry has been ordered from the Department of the Platte. This is an old Indian fighting regiment of Arizona. The report gives much satisfaction here. Indians, with Government carbines, the same as is used by our scouts, were seen near Fort Bowie yesterday; they have had time to reach that point since the massacre.

#### EDITORIAL NOTES.

The New York World calls attention to the hitherto overlooked fact that "the members of the Cabinet cannot, under the tenure-of-office act of 1837, be removed, either by President Garfield or by President Garfield's successor, without the consent of the Senate."

From the *Millennial Star* we learn of the safe arrival at Liverpool, on the 5th of August, per *S. S. Wisconsin*, of Elder H. W. Brown, missionary from Utah. He had a fine passage, was in good health and was to visit his friends in Preston previous to entering upon his ministerial labors.

We learn from our Eastern exchanges that "Schuyler Colfax is making desperate efforts to come to the front politically in his State, but thus far he has not had much success." The smiler is a dead duck politically. His public future will con-

sist of repeating his little stereotyped piece about the life of Lincoln.

It is reported that the projected ship canal across the peninsula of Maryland and Delaware is about to be carried out, all the required capital having been enlisted. The canal will shorten the distance from Baltimore to the sea two hundred and twenty-five miles, and, if one hundred and twenty feet wide, would admit ocean going vessels.

Of the eight hundred convicts in the New York State Prison; four hundred are idle. Those doing labor are engaged in the shirt department in its various branches, and one hundred are employed in the shoe factory. The idleness of most of the convicts is due to the law of last winter forbidding the employment of more than fifty convicts in one branch of industry. The State loses \$70,000 by the law.

The police of St. Louis are hard at work disarming the roughs, and have made a good many arrests for carrying concealed weapons within the past few days. The *Globe-Democrat* thinks there ought to be seven or eight executions in that city before there are any more murders. It wants the hangman to catch up with the wife killers just for once. These "Christian" cities ought to leave supposed evils of distant places alone, while they clean out their own Augean stables.

Newspaper readers have for some time been confronted with large advertisements of an "Anti-fat Remedy," and many obese persons have doubtless been tempted into a trial of its vaunted virtues for reducing the volume of adipose tissue. A lady named Griggs recently died at Long Branch, who had during the previous ten months swallowed eighteen bottles of the stuff, the result being, according to the doctors, acute blood-poisoning, resulting in death. Drinkers of anti-fat decoctions, beware!

To what a vast extent are the names of "Liberty" and "Liberal" prostituted from their proper meaning. We all know of "Liberals" who are the most illiberal of partisans, and often the most lawless of citizens. And now comes a paper from Boston called *Liberty*, which, referring to the *Delty*, says, in its editorial, "there is no universal boss," and on the adjoining page has the statement, "Gone from bad to worse—A young woman of Chicago a fortnight ago left a house of ill-fame to join the Church." What sort of "Liberty" and "Liberalism" is that?

#### "ROUGH ON RATS."

The thing desired found at last. Ask druggists for Rough on Rats. It clears out rats, mice, roaches, flies, bed-bugs. 15c. boxes.

#### Oh, What a Cough!

Will you heed the warning? The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your Cough. It never fails. This explains why more than a million bottles were sold the past year. It relieves Croup, and whooping Cough at once. Mothers do not be without it. For lame Back, Side or Chest, use Shiloh's Porous Plaster. Sold by Moore, Allen & Co.

#### PEPSIN, RHUBARB, MANDRAKE AND GENTIAN

Are the active ingredients of Brown's Pepsin Tonic. Give this wonderful Dyspepsia remedy a trial and be cured. For sale by all Druggists in Utah.

#### BROWN'S VEGETABLE LIVER PILLS

Are a sure cure for Liver Complaint, Constipation and Biliousness. For sale by all Druggists in Utah.

#### BROWN'S BLACKBERRY AND GINGER

Should be in every house during the heated season. It never fails to cure Diarrhoea, Dysentery and Cholera Morbus. For sale by all Druggists in Salt Lake and Utah.

#### IT MUST BE SO

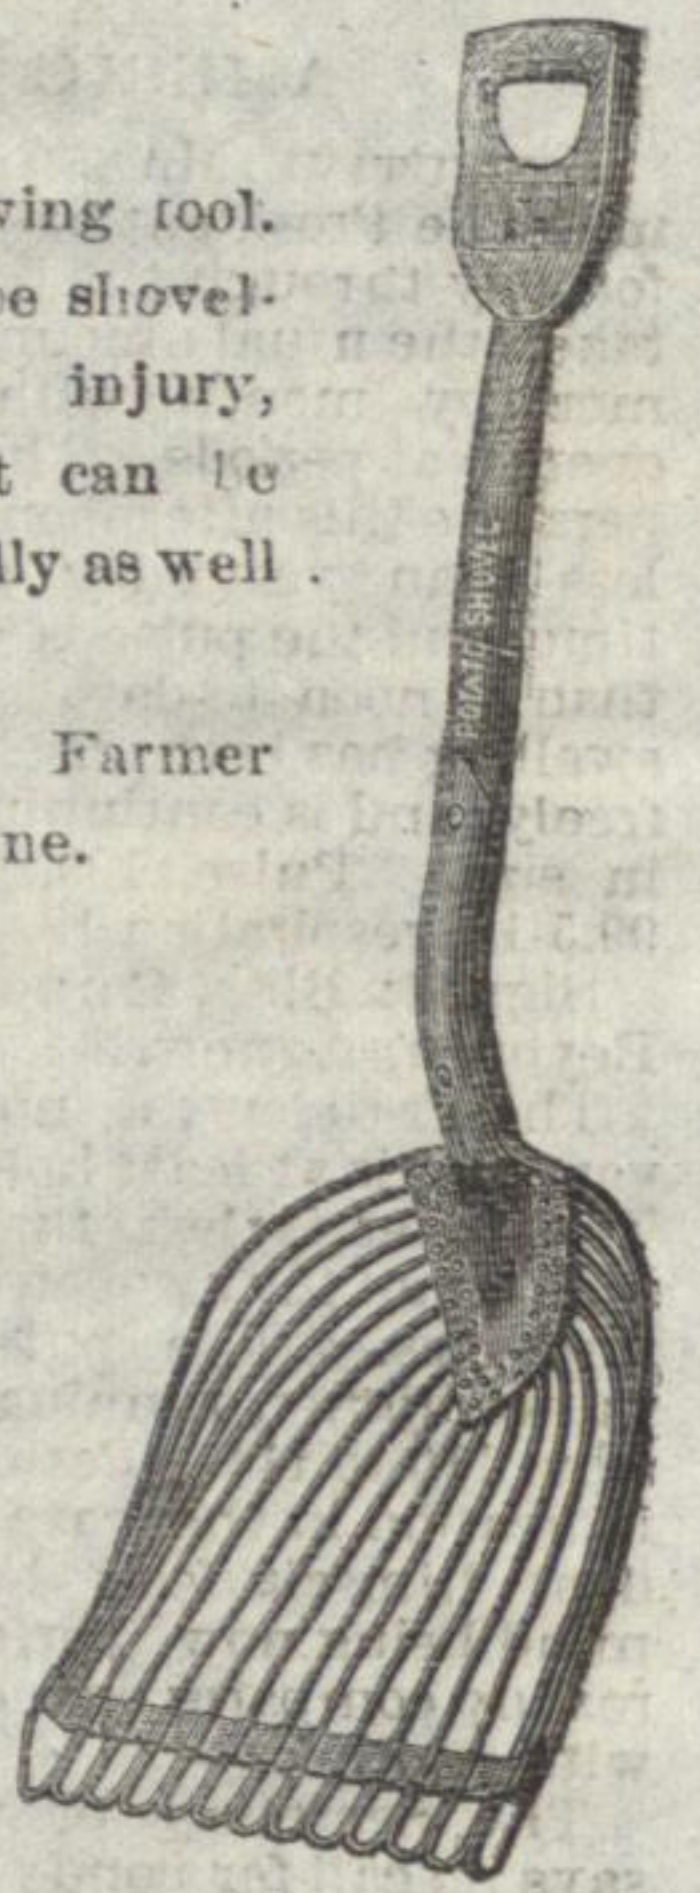

For all who use Brown's Pepsin Tonic, say it is a sure cure for Dyspepsia and Sick Headache. Try it. For sale by Z. C. M. L., Godbe, Pitts & Co., Moore, Allen & Co., Salt Lake,

## POTATO SHOVELS!

A labor saving tool. Potatoes can be shovelled without injury, and Fruit can be handled equally as well with it.

Every Farmer should have one.

FOR SALE BY—  
H. B. CLAWSON.

## HALL'S POTATO DIGGERS

The Best in Use!

Read the following Testimonial: Woods Cross, Utah, August 25, 1887.

Mr. H. B. Clawson:

Dear Sir.—The Hall Potato Digger you sold me has been thoroughly tried and found to do the work perfectly. With a light team, I can in one day plow up as many Potatoes, as ten men can dig, and leave them on the surface in Good Marketable Condition. By changing the Shovel the Plow can be used in Cultivating Potatoes, thus answering a double purpose. Being all Iron and Steel, it is very durable, and even on a small crop will soon save its cost. You can recommend it as the best implement of the kind ever brought to Utah.

Yours, etc., E. HOGAN.

For Sale by H. B. CLAWSON.

#### HARNESSES.

Ellert's Extract of Tar and Wild Cherry has been used for twenty years and saved many valuable lives. Do not neglect a cough or cold until it is too late, try this excellent remedy and be convinced of its merits. Chronic Coughs, and even Consumptives are cured by following the directions, every bottle is warranted to give satisfaction. Sold by GODBE, PITTS & Co.

#### AGENTS AND CANVASSERS

Make from \$25 to \$50 per week selling goods for E. G. RIDEOUT & Co., 10 Barclay Street, New York. Send for their Catalogue and terms. w30 1y

I carry in stock, at the Mitchell Wagon Yard, a full line of Concord Team Harness. I warrant all Harness Oak tanned. The great popularity of these harness are known. Farmers and Freighters are requested to examine my stock.

L. B. MATTISON.

#### MITCHELL FARM WAGONS.

Please examine the above and Mitchell's Patent Steel Skien, superior to any in the market.

L. B. MATTISON, General Agent, Half block south of Theatre.

#### Premature Loss of the Hair.

May be prevented by the use of BURNETT'S C CAINE. The superiority of Burnett's Flavoring Extracts consists in their perfect purity and strength.

We have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in SHILOH'S CATARRH REMEDY. A nasal injector free with each bottle. Use it if you desire health and sweet breath. Price 50 cts. Sold by Moore, Allen & Co.
