ing Powder is a perfect powder, and as such is very light, and that those powders which weigh heavy are made so by ponderous adulterants. As baking powders are used by measure, teaspoonfuls, and not by weight, the heavier ones being less effective and more expensive. Dr. Price's cans are the same size, hold the same number of teaspoonfuls as others, and as two teaspoonfuls are only needed when three of the others are required, it will be

perceived that there is in its use an actual saving of one-third : that and fifty Lamanites came to the city had perjured himself, but probably two cans of Dr. Price's go as far as on Saturday, from a distance north being aware of his guilt he failed three cans of the common kinds. to be baptized.
