Pitman's Instructions.—We have received a couple of Isaac Pitman's shorthand instruction books, from James D. Stirling. We consider Pitman's to be the best system of phonography extant. Until lately Isaac Pitman's books could not be purchased in Utah, but Mr. Stirling now has them for sale at Daynes & Coaster's music store. Those who think of taking lessons or purchasing shorthand books will do well to call on or write to him, as he is a certified teacher of phonography, who is prepared to furnish pupils with Isaac or Ben Pitman's books at very low prices.

He cautions any one against taking lessons through the mail for a fee, as such lessons can be obtained gratis. He can furnish from ten to a thousand names of qualified instructors, who would gladly give instructions through the mail without a fee. It was at our suggestion that J. D. Stirling adopted Isaac Pitman's style of phonography, a committee of influential gentlemen of this community having decided that this system was the best. The decision was given and published in 1877.

SUNDAY SERVICES.

PROCEEDINGS AT THE TABERNACLE.

The sacrament was administered by the Bishop of the Eighteenth Ward.

The congregation was addressed by Elder John Morgan, who delivered a very clear and convincing discourse on the first principles of the Gospel, showing the extreme inconsistency of religious Christendom in pretending to believe the Bible, whose doctrine for the most part they reject. He showed that the same people who exhibited against this people and their religion was evinced towards Christ and His ancient apostles by the professed disciples of Moses and the prophets, and that it was no new thing for the truth to meet opposition from unbelievers.

He felt to thank God that while Bible truth was confessedly unpopular in the outside world, there was a people in these mountains who dared to believe it, whether popular or unpopular, and with the help of God would triumph to live it as well. The discourse was well calculated to instruct strangers, many of whom were present and paid strict attention.

PLURAL MARRIAGE.

PRESIDENT GEORGE Q. CANNON'S DIS-COURSE IN THE TWELFTH WARD.

According to announcement President George Q. Cannon, at the invitation of Bishop H. B. Clawson, addressed the congregation at the Twelfth Ward meeting-house last evening, on the subject involved in the question: Is Plural Marriage a tenet of the religious faith of the Latter-day Saints; and if so, can their practice of it be legally interfered with? The hall, with the extra seating capacity provided, was crowded, and a large number of people remained standing. On the stand, besides the speaker of the evening, were President John Taylor, President Abram H. Cannon, Counselor Joseph E. Taylor, President Elias Morris and numbers of other prominent Elders.

The discourse occupied just two hours, and even then the prolific speaker was far from exhausted and the audience far from being weary. The subject was presented with remarkable clearness, the religious branch of it thoroughly and extensively, but lack of time prevented the full treatment of the political part. The fact is there was material on hand for two or three discourses, and while the congregation would have willingly remained and continued the same respectful attention for much longer, the speaker felt a delicacy, through his trespassing on their patience, about lengthening out his remarks.

A News reporter was present and took copious notes, but as it would be impossible to do justice in a synopsis to the speaker and his very excellent discourse, we have concluded to await the preparation in extenso, as it was taken down by the Church stenographic reporter, Brother John Irvine, and have it published in full hereafter. It would be a good idea to have it appear in pamphlet form for its better preservation and convenient perusal.

PERSONAL.

Messrs. Wm. G. and Moroni Kimball lately returned from an absence of 24 days at Mesa, Arizona.

Elder Joseph H. Felt called in to-day, having returned yesterday from a six months' mission to the southern country. He is looking and feeling well, and we bid him a hearty welcome home.

Mr. George D. Williamson, of Denver, traveling Passenger Agent of the Chicago and North Western, is in the city, and made us a pleasant call this afternoon.

From Tennessee.—Elder Minor Wilcox, of Paris, Dear Lake County, returned yesterday morning from a mission to the Southern States, where he has been laboring in the State of Tennessee, during the last eleven months. He operated in conjunction with Elder Joshua Hawks, of Franklin, Idaho, and they met with very good success, considering that the field had been pretty well gleaned before. They baptized fourteen persons and left four others on the point of coming into the Church.

Twenty-two Saints emigrated from there last Fall, and twenty more this Spring, which about depopulated that locality of Latter-day Saints. They labored in Perry, Wayne and Decatur Counties, the last one being a comparatively new field. They both suffered from chills and fever, which finally rendered Brother Wilcox's release necessary. He stopped in Santepe with his father's folks, on the way home, and there he met his brother and his wife. His health is better since leaving Tennessee.

Local Inventions.—Mr. Wm. Hill of this city has perfected an invention for the purpose of doing away with the dark-room in photography. He has constructed what he calls, a "Combination plate-holder, bath and developer," in such a manner, as to allow the artist to completely finish a photographic view, as well in the open air as in the most perfect studio. It appears to have many points of advantage, and should meet the wants of the profession as thoroughly as its merits would seem to warrant one in believing, it will revolutionize this branch of photography and give to the art a capacity long desired and of untold value.

Associated with Mr. Wm. Hill, has invented and constructed an automatic photo-printer which promises to do the work in a style far superior to the ordinary process and with very little attention on the part of the operator. It is a most ingenious contrivance and we will give further notice of it hereafter. The inventions will soon be covered by patents.

Going to Great Britain.—Brother Reuben Carter, of Fountain Green, will accompany the missionaries to Great Britain on a mission, and to visit his friends and obtain information in regard to genealogies. His name was inadvertently omitted in calling the list of missionaries at Conference.

BRITANNIA STANDS UNEQUALLED.

Those troubled with rheumatism, who have tried other remedies and still are unrelieved will certainly obtain relief within three days' treatment, within six hours by taking Britannia. This great remedy was discovered by an eminent English physician of great experience, and who has never lost a patient to whom this medicine was administered. Britannia is a fine clear, no external application can permanently cure rheumatism, which is a disease of the blood. Britannia is prepared with the greatest skill, and a teaspoonful being taken in a glass of cold water immediately finds its way to the blood, where it corrects the pain-causing element, removes it immediately by purifying the life-giving blood, and gradually builds up the entire system. Persons who have used this valuable preparation in Utah, tell us that nothing ever helped them as Britannia has done. See references in Salt Lake City and elsewhere can be given.
