

CONVENTION OF SUNDAY SCHOOLS.

Five Stakes to Unite in Important
Gathering Tomorrow and
Sunday.

ADMISSION WILL BE BY TICKET

First Session in Salt Lake Theater
Saturday Night—Interesting
Program.

A district Sunday school convention embracing the Salt Lake, Granite, Jordan, Davis and Tooele stakes, will be held in this city tomorrow and Sunday. It is expected that upwards of 1,000 delegates will be present, and that the convention will be productive of great good among Sunday school workers. The first session will be held in the Salt Lake theater Saturday evening at 7:30. The Sunday morning and afternoon sessions in Barratt hall at 9:30 a. m. and 1:45 p. m. respectively, and the evening session in the Assembly hall at 7:30. Admission will be by ticket, these having been distributed to the respective stakes. The program arranged for the convention is as follows:

SATURDAY EVENING.
Singing, "The Cause of Truth."
Prayer.
Singing, "For the Strength of the Hills."
Introductory remarks explaining the nature and scope of the convention, Dr. J. M. Tanner.
The effect of the new outlines in our state and the changes they have wrought in the methods of teaching and home preparation and general education of Sunday school work, Supt. Joseph Burrows.
General discussion by superintendents of Davis, Granite, Jordan and Tooele stakes.
Music.
How we receive our pupils and teachers on the Sabbath morning at the ward Sunday school, Supt. Clarence M. Cannon.
How to promote the physical comfort of the school by its heating, lighting and cleanliness.
Song, "If There's Sunshine in Your Heart."
How to cultivate the aesthetic nature of the child by means of flowers, pictures and personal appearance, Supt. J. M. Tanner.
Remarks, General Supt. Joseph F. Smith.
Singing, "Our God We Praise to Thee."
Benediction.
Informal reception and general hand-shaking.

SUNDAY MORNING.
Singing.
Prayer.
Opening Remarks.
First Asst. Genl. Supt. Geo. Reynolds.
Department work.
Assembly at 11:45.
Announcements.
Singing.
Benediction.

SUNDAY AFTERNOON.
General assembly at Barratt Hall.
Singing.
Prayer.
Separation for department work, after which the convention will reassemble for closing exercises.

DEPARTMENT WORK.
Kindergarten—Kate McAllister, (Salt Lake), presiding. Music and Exercises in Kindergarten. Paper by Leone Taylor. Paper discussed by Millie Porter and Bernice Briggs. General discussion. Questions.
Sunday, 2 p. m.—Stories in the Kindergarten. Paper by Rebecca V. Morris. Paper discussed by Emma Osborne, Adella Butler and Ella R. Ship. General discussion. Questions.
Primary—Sunday, 10 a. m.—Lena B. Davis (Salt Lake), presiding. Charts and pictures. a. Their value. b. How

SHIP IT IN THE HUD.
First Appearance of Dandruff Fore-runner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the harbinger of baldness, caused by parasites destroying the vitality of the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpetide kills this dandruff germ, and restores the hair to its natural softness and abundance. Herpetide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market today.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpetide Co., Detroit, Mich. For sale by Z. C. M. I. Drug Dept.

"Which I Now Hold"

The man who wrote these words, Mr. Ebe Walter, of Clarkville, Del., had just received a dividend of \$196.98 in cash from The Mutual Life Insurance Company of New York. He added:

The net cost of the paid-up policy of \$1,000 which I now hold, and on which there will be paid me a dividend each year, during the balance of my life, is only \$4.02. The feature that I particularly like about my policy is that the longer I live the more I get, and that during the balance of my life there is nothing more for me to pay. (From Wilmington (Del.) News, Nov. 21, 1903.)

In writing for terms for a policy of this kind, state what you would like to receive in cash at the end of limited payment period.

BEST LINIMENT ON EARTH.
Henry D. Baldwin, Supt. City Water Works, Shullburg, Wis., writes: "I have tried many kinds of liniment, but have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c 50c and \$1.00 bottle at Z. C. M. I. Drug Dept.

APPOINTMENTS NOT CONFIRMED.

Council Committees Last Night
Did Not Act Upon Nominations
By Mayor Morris.

NEW FIRE ORDINANCE DRAFTED.

Hartenstein Draws Up Measure for
The Protection of the Patrons of
Theaters and Rooming Houses.

The city council will again have to consider the appointments made by Mayor Morris last Monday night, of George W. Snow, as city engineer, and J. U. Eldredge, Sr., as city sexton, for the reason that the same were not properly referred to the committees on engineering and cemetery. When the appointments were submitted a motion was made in each instance to refer to the committee. The motions were amended to confirm the appointments.

The roll call on the amendments resulted in them being lost by a tie vote and instead of putting the original motions to refer, President Hewlett declared them referred to their respective committees. According to the opinion of Assistant City Attorney Bramel, that action of President Hewlett was irregular and the appointments are not properly before the committees, but will have to be considered again by the council under the head of unfinished business. It is understood that any attempt to consider the appointments again will be voted down by the Republicans if they have the strength to do so.

OUTSTANDING BONDS.
The finance committee considered the mayor's communication in regard to refunding the \$48,800 worth of 3 per cent bonds which are now out. Several attempts have been made by the council to refund them at 4 per cent, but so far 4 1/2 per cent at par is the best bid.

TWENTY YEARS AGO TODAY.

(Do you remember?)
Both of these men are now free from the terrible bonds that held them for so long. Both are cured of the horrible habit, and they have Jailer Sol Kimball to thank for their deliverance. Jailer Kimball has been treating morphine fiends for a long time, but the two cures he has recently achieved, are probably the most remarkable. The condition of the two men when they entered the jail almost defies description. They were physical and mental wrecks and the future held no bright prospects for them. Mr. Kimball started at once with them on his course of treatment. Harrington has been discharged from custody and declares that the thought of the needle and drug makes him ill. Adams declares he is absolutely cured and that no possible inducement would get him to again take a dose of morphine. He was offered him a few days of freedom and he said the very thought of it made him sick. Both were sent up for long terms for vagrancy. They are now in better health than they have known for years and are free from the awful craving that drives men to stealing and sometimes even to murder, to satisfy their desire.

VISITING FIRE CHIEF.
Antipodean Flame Fighter Calls on Chief Devine—Is Touring the World.

Alfred Webb, chief of the fire brigades of New South Wales, is the guest of Fire Chief Devine for a few days, during which he will observe conditions regarding fire fighting and building construction in Salt Lake, with special attention to the advantages, or disadvantages, of wide streets.

Chief Webb is touring the world at the expense of his state to gather ideas that will reduce to a minimum the danger and loss by fire. It is his opinion that the United States has four fires to each one in Europe, a condition which he attributes to the long experience of the old country in building construction, which would naturally result in more rigid measures.

Of the Iroquois theater which Chief Webb visited, he said that the great loss of life was due not to a lack of ground exits but to the locking of these exits, some of which the firemen had to burst open from the outside.

Best Liniment on Earth.
Henry D. Baldwin, Supt. City Water Works, Shullburg, Wis., writes: "I have tried many kinds of liniment, but have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c 50c and \$1.00 bottle at Z. C. M. I. Drug Dept.

that has been received. The committee is of the opinion that the 4 1/2 per cent bonds should bring a premium of from \$5.00 to \$7.00 and an attempt will be made to induce some local bank to take the bonds upon that basis.

NEW FIRE ORDINANCE.
Councilman Hartenstein has drafted a new fire ordinance which will be introduced on Monday night and which will have for its principal object better fire protection for patrons of the theaters and lodgers in the big rooming houses in the business districts of the city. The ordinance will be referred to the fire committee with Chief Devine as chairman, and then the managers of the theaters will be invited to meet with the committee and discuss the ordinance. The committee will also make a tour of inspection of the theaters and rooming houses and see what is needed in the way of better protection from fire.

NEW LICENSE ORDER.
The license committee has made a new rule in regard to applications for free licenses. Hereafter all such applicants will have to appear in person before the committee and give reasons for asking a free license and their applications must be endorsed by several reputable citizens.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Miss Julia Filbridge, West Cornwall, Conn.

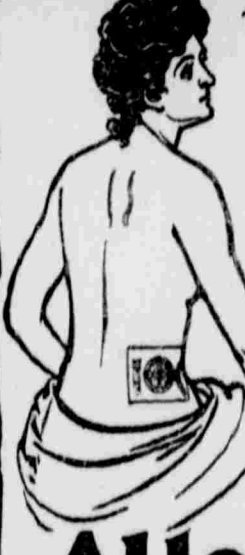

Ward Entertainments.

A crowded house witnessed the dramatic entertainment in the Fifth ward meetinghouse last night, many being turned away for lack of room. The entire program was well rendered, and those present were much pleased with the performance. The same bill goes again tonight when widows and orphans will be admitted free of charge.

Free Apollo Musical.
Our demonstrator will render a splendid program on this wonderful piano player tomorrow evening at 8:15 at the Clayton Hall.

THAT PAIN IN THE SIDE

There's nothing that will give such speedy relief and cure and at the same time strengthen the side and restore energy as an **Alcock's Porous Plaster**.

A pain in the right side, however, is often caused by thickening of the bile which may lead to gall stones. The best treatment is to wear an **Alcock's Plaster** as shown in the illustration, until cured. You'll be surprised to find how soon you are relieved.

REMEMBER—Alcock's Plasters are without question the most successful external remedy in the world to-day, and the safest, for they contain no belladonna, opium or any poison whatever.

Alcock's POROUS PLASTER

THE DARDANELLES, THROUGH WHICH RUSSIA WISHES TO SEND HER WARSHIPS.

Russia's desire to send her Black sea fleet through the Dardanelles, Turkey's expressed willingness to permit her to do so and England's quick following protest have caused a temporary shift of the scene of greatest interest from Korea to Constantinople. In reality the key to the Black sea is the Bosphorus. The Dardanelles is, however, usually spoken of in connection with the passage to the Black sea for the reason that it is commanded by water in which any nation's vessels have a perfect right to be, whereas the Bosphorus is controlled from the sea of Marmora, in which none but Turkish warships may sail without the permission of the sultan.
